PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, JANUARY 2, 1896.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 31st DECEMBER 1895.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif.	Prospects of Rabi.
1	Hissar ...	...	1. Scarce. 2. Getting lean.	Rising.	...	Crops dried up.
2	Delhi ...	...	1. Scarce. 2. Fair.	High. Wholesale rate of wheat 14½ seers.	...	Crops in fair condition. Rain very urgently needed.
3	Umballa ...	...	1. Sufficient. 2. Fair.	Continue high.	...	Rain much wanted.
4	Jullundur ...	...	1. Scarce.	Rising.	Sugarcane pressing in progess.	Rain wanted. Irrigation of crops commenced.
5	Ferozepore ...	...	1. Scanty.	Ditto.	...	Condition of crops poor.
6	Amritsar ...	...	1. Sufficient.	Continue low.	Sugarcane pressing going on.	Sowings completed. Canal closed for repairs.
7	Siálkot ...	...	1. Insufficient. 2. Good.	Below normal.	Pressing of sugarcane continued.	Rain badly wanted.
8	Lahore ...	...	1. Scarce, especially in Sharakpur.	Continue low.	...	Sowings completed. Irrigated crops average.
9	Mooltan ...	...	1. Becoming scarce.	Rising.	Crops harvested.	Crops in good condition. Canals dry. Rain wanted.
10	Ráwalpindi ...	...	1. Sufficient. 2. Good.	High.	...	Prospects below average.
11	Shahpur ...	...	...	Rising.	...	Rain much needed.
12	D. I. Khan ...	...	1. Scarce. 2. Good.	High.	...	Condition of standing crops good. Rain wanted.
13	Peshâwar ...	...	1. Sufficient. 2. Good.	Rising.	...	Standing crops in good condition.

GENERAL REMARKS.

Rainfall *nil.* Prices rising in Hissar, Ferozepore, Mooltan, Shahpur and Peshâwar; high in Delhi, Umballa, Ráwalpindi and Dera Ismail Khan; below normal in Siálkot, and continue low elsewhere. Harvesting of autumn crops over. Sugarcane pressing going on. Sowings of spring crops completed. Condition of crops poor in Ferozepore and below average in Ráwalpindi. Irrigated crops average in Lahore. Crops dried up in Hissar. Rain urgently needed throughout the Province. Cattle are generally in good condition. They are getting lean in Hissar. Fodder sufficient in Umballa, Amritsar, Ráwal- [illegible] scarce in other districts.

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB DURING NOVEMBER 1895.

During the month of November two periods of feebly unsettled weather occurred, but with these exceptions high pressures, high temperatures and fine clear weather prevailed uninterruptedly throughout the Province throughout the month.

The first thirteen days of the month were quiet and uniformly fine, but on the 14th the barometer commenced to fall and the weather to become more cloudy, and on the morning of the 15th a very feeble barometric depression was shown travelling from west to east across the Southern Punjab and Northern Rájputána. Fresh south-easterly winds were reported at the plains stations with cloudy to overcast weather, and strong south-easterly winds and rain at Murree. On the following day, the 16th, the centre of the depression lay near Montgomery. The winds were cyclonic over the plains, a south-easterly gale was blowing at Murree and light rain had extended to Siálkot and Srinagar, and continued at Murree. The reports of the 17th showed that the barometer was rising and the depression filling up without moving, but during the day the disturbance suddenly moved quickly eastward; a heavy thunderstorm with rain and hail occurred at Simla and a light shower of rain at Delhi. By the morning of the 19th the depression had disappeared and the weather cleared. Fine weather lasted until the 25th, when the sky became cloudy to overcast and the barometer began to fall in Kashmír and Balúchistán. On the 26th the weather had become unsettled over the whole of the north of the Punjab, though no distinct barometric depression was shown. Rain had fallen at Ráwalpindi, Pesháwar, Dera Ismail Khan, Cherát, Murree and Srinagar in small amounts. On the 27th light showers were reported from the same stations as on the 26th, and a very feeble depression was shown over the south of the Punjab. By the morning of the 28th the sky had cleared, and the weather remained fine till the close of the month.

Barometer and winds.—The mean pressure of the month exceeded the normal average everywhere, the abnormal excess being greatest on the hills and thence decreasing southward, so that at Sirsa, Dera Ismail Khan and Mooltan it was very slight. Unusual north-easterly winds prevailed on the hills and over the west of the Province.

Temperature.—The mean temperature exceeded the normal at all stations, the excess being considerable at all stations except Dera Ismail Khan, Mooltan, Simla and Murree, where it was moderate. The observations of the maximum and minimum thermometers show that the temperature was higher than usual both by day and night, though at the majority of stations the abnormal excess was more marked at night than during the day.

The following table gives (1) the variation from the normal of the mean temperature of the Punjab for the 24-hours period ending at 8 A.M. of each day; and (2) the highest maximum temperature recorded in the Punjab, with the name of the station at which it was registered:—

Date.	Variation from normal of mean temperature of previous 24 hours.	Highest maximum temperature recorded previous 24 hours.	Station at which registered.	Date.	Variation from normal of mean temperature of previous 24 hours.	Highest maximum temperature recorded previous 24 hours.	Station at which registered.

" 4th ...	+ 5·8	95·1	Do.	" 19th ...	− 0·3	84·5	Delhi.
" 5th ...	+ 5·2	95·6	Do.	" 20th ...	+ 1·0	83·5	Do.
" 6th ...	+ 4·5	94·3	Mooltan.	" 21st ...	+ 1·2	85·0	Do.
" 7th ...	+ 5·1	94·8	Montgomery.	" 22nd ...	+ 1·2	83·7	Sirsa.
" 8th ...	+ 5·2	96·3	Do.	" 23rd ...	+ 1·2	85·0	Delhi.
" 9th ...	+ 3·4	96·6	Sirsa.	" 24th ...	+ 1·3	82·3	Montgomery.
" 10th ...	+ 6·6	93·6	Do.	" 25th ...	+ 3·4	82·3	Do.
" 11th ...	+ 6·9	92·6	Do.	" 26th ...	+ 3·7	83·5	Delhi.
" 12th ...	+ 7·0	93·6	Do.	" 27th ...	+ 3·0	82·5	Do.
" 13th ...	+ 6·3	93·5	Do.	" 28th ...	+ 0·9	78·3	Mooltan.
" 14th ...	+ 6·9	91·6	Do.	" 29th ...	+ 3·2	85·5	Delhi.
" 15th ...	+ 7·8	93·1	Do.	" 30th ...	+ 2·6	81·8	Mooltan.

The above shows that the mean temperature of the Province was excessive on all days except the 19th, when, owing to the cool northerly wind which accompanied the passing away of the small depression noticed above, there occurred a considerable fall of temperature over a large part of the Province.

The warmest period relatively to the average was from the 10th to the 16th, when the abnormal excess varied between 6° and 8°. The highest maxima reported within the Province exceeded 90° up to the 18th. On the 19th there occurred a sudden fall to 84°·5, and from that date onward the maxima were fairly steady between 80° and 85°, except on the 28th, when cool northerly winds were again experienced, and the highest maximum recorded was only 78°·3.

Humidity and cloud.—The air has been dry and the cloud proportion low except in the extreme north-west, where it has been moderate.

Rain.—No rain whatever has fallen during the month at the stations of Mooltan, Khusháb, Lahore, Montgomery, Umballa, Ludhiána and Sirsa. At Siálkot the actual rainfall received was in excess of the small average which is ordinarily anticipated, but at all the remaining stations the actual fall was less than the normal. At Simla the normal rainfall is 0·54″ and the actual amount received 0·14″, and at Murree the normal is 1·08″ and the actual was 0·51″, but with these two exceptions the variations were small.

B.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 7th JANUARY 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif.	Prospects of Rabi.
1	Hissar ...	...	1. Very scarce. 2. Out of condition.	High.	...	Crops dried up.
2	Delhi ...	...	1. Scarce. 2. Fair.	High. Wheat selling at 14 seers per rupee.	...	Condition of crops fair. Rain very badly wanted.
3	Umballa ...	...	1. Sufficient.	Rising.	...	Crops, especially wheat, suffering from drought.
4	Jullundur ...	...	1. Sufficient.	Ditto.	Sugarcane pressing going on.	Rain wanted. Irrigation in progress.
5	Ferozepore ...	...	1. Scanty.	High.	...	Condition of crops poor.
6	Amritsar ...	...	1. Sufficient. 2. Good.	Continue high.	Harvesting nearly finished.	Crops in good condition. Sowings completed.
7	Siálkot ...	...	1. Scarce. 2. Out of condition.	Below normal.	Sugarcane being pressed.	Rain wanted.
8	Lahore ...	...	1. Very scarce. 2. Good.	High.	...	Sowings completed. Irrigated crops average.
9	Mooltan ...	...	1. Becoming scarce.	Rising.	...	Crops in good condition. Rain urgently wanted. Canals dry.
10	Ráwalpindi ...	...	1. Sufficient. 2. Fair.	High.	...	Below average.
11	Shahpur ...	...	1. Scarce.	Rising.	...	Rain needed to improve the withering crops.
12	D. I. Khan ...	...	1. Scarce.	High.	...	Condition of standing crops fair. Rain badly wanted.
13	Peshávar ...	...	1. Sufficient. 2. Good.	Rising.	...	Standing crops in good condition.

GENERAL REMARKS.

Rainfall *nil*. Prices high or rising in all districts except Siálkot, where they are reported to be below normal. Harvesting of autumn and sowings of spring crops over. Sugarcane pressing going on in some districts. Condition of crops is reported good in Amritsar, Mooltan and Peshávar; and average to poor in other districts. Rain badly wanted throughout the Province. Spring crops dried up in Hissar and suffering severely from drought in Umballa and Shahpur. Cattle are generally reported to be in good condition. They are said to be out of condition in Hissar and Siálkot. Fodder sufficient in Umballa, Jullundur, Amritsar, Ráwalpindi and Peshávar, and scarce in other districts.

PESTONJI, *Supdt.*,

Office of Director of Land Records and Agriculture, Punjab.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 14th JANUARY 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif.	Prospects of Rabi.
1	Hissar ...	...	1. Scarce. 2. Getting lean.	Rising. Wheat 15 seers per rupee.	...	Crops dried up.
2	Delhi ...	...	1. Scarce. 2. Fair.	High. Wheat 13¾ seers.	...	Crops suffering for want of rain. Prospects below average.
3	Umballa ...	...	...	Rising. Wheat 14 seers.	...	Crops suffering owing to prolonged drought.
4	Jullundur ...	...	1. Sufficient.	Ditto.	Sugarcane pressing in progress.	Irrigation going on.
5	Ferozepore ...	...	1. Scanty.	High. Wheat 14 to 16 seers.	...	Condition of crops poor.
6	Amritsar ...	...	1. Sufficient.	High. Wheat 14 seers.	...	Sowings completed. Crops likely to be very short. Rain badly wanted.
7	Siálkot ...	...	1. Scarce. 2. Losing condition.	Wheat 12¾ to 15 seers.	Sugarcane pressing continues.	Rain badly wanted.
8	Lahore ...	...	1. Very scarce, especially in Sharakpur Tahsíl.	High. Wheat 13¾ to 15 seers.	...	Sowings completed. Irrigated crops average and baráni (dependent on rain) poor. Rain badly wanted.
9	Mooltan ...	...	1. Scarce.	Rising. Wheat 14½ seers.	...	Crops in good condition.
10	Ráwalpindi ...	0·06 in Gujar Khan 0·20 in Murree.	1. Sufficient. 2. Good.	High.	...	Below average.
11	Shahpur ...	...	1. Scarce. 2. Reduced.	Rising. Wheat 12 to 14 seers.	...	Rain wanted to save the withering crops.
12	D. I. Khan ...	...	1. Scarce.	High. Wheat 15 seers.	...	Standing crops fair. Rain badly wanted.
13	Peshâwar ...	0·19	1. Sufficient.	Rising. Wheat $13\frac{13}{16}$ seers.	...	Crops in good condition.

GENERAL REMARKS.

Slight rain has fallen in parts of Ráwalpindi and Peshâwar Districts. Prices rising in six and high in seven districts. Sugarcane being pressed. Sowings of spring crops completed. Irrigation going on. Condition and prospects of standing crops are reported good to fair in Mooltan, Dera Ismail Khan and Peshâwar, and average to poor in other districts. Crops dried up in Hissar and are suffering owing to prolonged drought in most districts. Rain is badly wanted throughout the Province. Cattle are generally in good condition, but are losing condition in Hissar, Siálkot and Shahpur. Fodder sufficient in Jullundur, Amritsar, Ráwalpindi and Peshâwar, and scarce elsewhere.

TULSI DAS, *Clerk of Statistics,*

Office of Director of Land Records and Agriculture, Punjab.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF DECEMBER 1895.

Explanation :—(*c*) = Canal Rain-gauge Stations.

1	2	3	4	5	6	7	8	9	10
		Rainfall.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Stations.	1st October to 31st December.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 31st December 1895.	1st April 1896 to 30th September 1896.	Total.	Condition of crops, cattle and health ot peop.e.
Hissar.	Sirsa ...	0·79	...	0·44	...	...	...	...	Rabi crops dried up for want of rain. Fodder scarce, cattle getting lean, and they are being emigrated to other parts of the country to graze. Water-supply in canal insufficient, and it is urgently needed for the standing Nehri crops. Rabi crops on Ghaggar bank want rain very badly.
	Fatahabad ...	0·50	...	0·20	...	...	...	...	
	Hissar ...	0·82	...	0·55	...	...	...	...	
	Hánsi ...	0·46	...	0·20	...	...	...	...	
	Bhiwáni ...	0·46	...	0·18	0·12	0·12	...	0·12	
	Budhláda ...	...	...	...	...	...	...	...	
	Tohána ...	...	...	...	...	...	...	...	
Jind State.	Dhaneta (*c*) ...	...	...	...	...	...	...	...	
	Safidan (*c*) ...	...	...	...	...	...	...	...	
	Jind (*c*) ...	...	...	...	...	...	...	...	
Bikaner State.	Chhani (*c*) ...	...	...	...	...	...	...	...	
Rohtak.	Rohtak ...	0·86	...	0·47	0·25	0·25	...	0·25	No crops sown during the month. Sugar mills have been working and outturn of gur was average. The state of the canal watered crops is good, but baráni crops are poor and daily growing worse. Rain is badly wanted. Fodder is scarce in northern and western portion of Rohtak Tahsíl. Health of the people good.
	Gohána ...	0·77	...	0·44	...	...	...	...	
	Sámpla ...	0·58	...	0·27	0·64	0·64	...	0·64	
	Jhajjar ...	0·53	...	0·29	0·68	0·68	...	0·68	
Gurgaon.	Farukhnagar ...	...	...	...	...	...	...	...	Except cane-cutting and a little cotton-picking in Paiwal, Núh and Fírozpur, kharíf nearly all harvested. Rabi sowings have been completed and the crops are well above ground. Except slight rain on 2nd and 3rd December 1895, there has been no rainfall throughout the month and irrigation is therefore being carried on from wells and the canal. Prospects are not favourable. The canal was fully used during the month. Food stocks sufficient. Owing to failure of rains, fodder is reported scarce everywhere.
	Jatúsána ...	...	...	...	0·20	0·20	...	0·20

	Mádhopur (c) ...	2·33	...	1·44	0·20	0·20	...	0·20	
	Shakargarh ...	1·25	...	0·57	...	...	...	...	
Sialkot.	Zafarwál ...	0·97	...	0·54	0·08	0·24	...	0·24	Scarcely any rain again this month. Crops sown in irrigated lands are doing well, but not so well in báráni lands. The "sundi" (worm) is devastating the crops on báráni lands in some of the villages in Tahsíl Zafarwál. Outturn of sugarcane is considerably below average. Cattle are losing condition for want of green fodder; the fodder given them being dry charri and sugarcane. Health of people good.
	Pasrúr ...	1·35	...	0·84	...	...	...	...

Gujrat.	**Gujrat (Sadr)** ...	**1·44**	...	**0·52**	...	...	...	...	Picking of cotton and pressing of sugarcane in progress. Produce average. Standing rabi crops of Tahsíl Gujrát aud Phália average. Báráni area not much cultivated for want of rain. In Tahsíl Khárián the condition of crops bad. About half the crops have withered for want of rain. The cultivated area in this tahsíl has also decreased by one-fourth Fodder for cattle in Tahsíl Gujrát sufficient and wanted in Khárián and Phália.
	Khárián (Lála Músa)	1·24	...	0·42	...	0·03	...	0·03	
	Phália ...	0·98	...	0·29	...	0·60	...	0·60	
Gujranwala.	Rámnagar ...	0·40	...	0·09	...	...	...	...	Sowings reported to be still in progress on irrigated or wet (sailáb) land. No land dependent on rainfall is said to have been sown. Early rape and turnips fair. Other sorts of fodder crops very scarce and dear. Grass scanty and dried up. Prospects unfavourable, except in the colony.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

Eighty-eight thousand six hundred and thirty-two births were registered in the Province during the month of October 1895, giving a birth-rate of 53 per mille of population. Of the total number of births, 46,701 were boys and 41,931 were girls.

The total number of deaths registered from all causes in the Province during the month of October 1895 was 55,493 against 47,896 in the previous month and 100,724 in the corresponding month of the past year, giving an annual death-rate of 32, 28 and 58 per mille of population per annum respectively.

There were 6 deaths registered under the head of cholera against 28 in the previous month.

From small-pox 369 deaths were registered against 256 in the previous month and 257 in the corresponding month of the past year; fevers 35,734 against 30,057 and 76,722; dysentery and diarrhœa 1,858 against 1,767 and 2,582.

During the month there were 32 deaths registered from suicide against 37 in the past month; wounding 42 against 60; accidents 293 against 384; snake-bite and killed by wild beasts 110 against 250; and from all other causes 17,049 against 15,057 and 20,669 in the corresponding month of the past year.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 28th JANUARY 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif.	Prospects of Rabi.
1	Hissar ...	...	1. Scarce. 2. Getting lean.	High. Wheat 15 seers. Bájra 15 " Bijhar 23 "	...	Crops dried up.
2	Delhi ...	...	1. Scarce. 2. Fair.	High. Wheat 12¾ seers. Bájra 15½ seers.	...	Crops suffering for want of rain. Prospects below average.
3	Umballa ...	...	1. Scarce. 2. Fair.	Rising. Wheat 13 seers.	...	Rain much needed for development of crops.
4	Jullundur ...	...	1. Scarce. 2. Fair.	Rising. Wheat 13 seers. Maize 20 seers.	Sugarcane want rain.	Rain wanted.
5	Ferozepore ...	0·05 at Sadr.	1. Scanty.	High. Wheat 13 to 15 seers. Maize 20 seers.	...	Condition of crops poor.
6	Amritsar ...	...	1. Scarce. 2. Good.	High. Wheat 14 seers. Maize 19 seers.	...	Rain very badly needed. Unirrigated wheat and gram very backward but can still recover. Irrigated crops are doing well. Grain stock less in Amritsar Tahsil. No signs of real distress yet observed.
7	Siálkot ...	...	1. Scarce. 2. Losing condition.	Wheat, white, 11⅝ to 12½ seers; wheat, red, 12½ to 13 seers. Maize 16 seers.	...	Prospects unfavourable.
8	Lahore ...	...	1. Very scarce. 2. Dying for want of provisions.	High. Wheat 13½ to 15 seers. Maize 20 to 21 seers.	...	Sowings completed. Irrigated crops average, and barani (dependent on rain) very poor. Rain badly wanted. Grain stock sufficient with zamindárs of canal-irrigated villages.
9	Mooltan ...	...	1. Scarce.	High. Wheat 13⅜ seers. Jowár 18½ seers.	...	Crops in good condition.
10	Ráwalpindi ...	...	1. Scarce. 2. Fair.	High. Wheat 13 seers in Ráwalpindi.	...	Prospects below average. Stock of grain insufficient.
11	Shahpur ...	...	1. Scarce. 2. Dying of starvation.	Rising. Wheat 13 seers. Bájra 15 to 16 seers.	...	Baráni (dependent on rain) crops withering. Rain much needed.
12	D. I. Khan ...	...	1. Scarce.	High. Wheat 15 seers. Bájra 18 seers.	...	Condition of standing crops below average. Rain wanted badly.
13	Peshàwar ...	0·33	1. Sufficient. 2. Good.	Wheat 13⅜ seers.	...	Standing crops in fair condition.

GENERAL REMARKS.

Slight rain has fallen in parts of Ferozepore and Peshâwar. Prices high in eight districts and rising in others. Sowings of otspring crops comple ted Condition and prospects of crops are generally unfavourable. Rain urgently needed throughout the Province. Crops dried up for want o rain in Hissar andare withering in some districts. Cattle are generally in fair condition. They are losing condition in Hissar and Siálkot and dying of, possibly, starvation in Shahpur and to some extent for want of provision in Lahore. Fodder scarce in all districts except Peshâwar.

slight rain.

PESTONJI, *Supdt.*,

Office of Director of Land Records and Agriculture, Punjab.

SUMMARY OF REMARKS ON THE KHARIF CROP OF THE PUNJAB FOR 1895.

THE area under crop in the autumn harvest of 1895 was 8,584,417 acres against 10,041,902 last year, showing a decrease of 1,457,485 acres, or 14·5 per cent. The normal area is 10,154,146 acres, so that the area of this year's crop was 15·5 per cent. below the normal. It is in fact the smallest on record. There was an increase in irrigated area of 345,774 acres, and a decrease in unirrigated. crops of 1,803,259 acres. The area irrigated was 2,769,956 acres, unirrigated was 5,814,461 acres. The decrease in unirrigated crops amounted to no less than 23·7 per cent. There was a decrease in area in 16 districts and an increase in 15 districts.

The rainfall of 1895 was much less than the rainfall of 1894, and in many districts what did fall was not seasonably distributed.

There was little rain in May as usual. In June in Hissar, Rohtak, Delhi, and Gurgaon the rainfall was less than in the previous year, but in Karnál and Umballa, and in the Mooltan, Jhang and Montgomery Districts it was unusually heavy. In Lahore there was very little, and in Amritsar a great deal; elsewhere the difference was not very marked. In July there was very much less rain everywhere than in 1894, the difference in general being very great. The rainfall of 1894 in this month was abnormally high. In August the rainfall was generally, but not in every case, less than in 1894. It was greater in Karnál and Umballa, Hoshiárpur and Ludhiána, much greater in Ferozepore Mooltán and Jhang, slightly greater in Lahore and Amritsar, and much greater in Gujrát, Siálkot and Shahpur.

In September, however, there was hardly any rain anywhere in the plains of the Punjab, and it is to the early cessation of the monsoon rains in the latter part of August, and the entire absence of rain in September and October, that the great falling off in the kharíf area and outturn of the year is due.

The area sown was not much less than the area of 1894, but the area which failed to mature after being sown owing to the failure of rain was very large indeed.

The area under all the most important food cereals shows a great falling-off. In maize there was an increase. This is a crop grown mostly in districts in or near the hills, in most of which the crop was a good one.

There was an increase in the area under sugarcane, which is almost always an irrigated crop.

The cotton crop was also a good one,—the best known for many years. It would have been better still, but for the early failure of rain. The crop was every where good on irrigated lands and poor on those dependent on rain. The sesamum crop was not a good one, and the area decreased by 48·3 per cent. The rice crop was generally poor, and there are very large decreases in jowár and bájra.

Hissar, of all districts, suffered most from the unfavorable rainfall.

An unirrigated area of 1,422,599 acres was sown, which was almost exactly the same as in 1894. But of this no less than 1,170,985 acres are reported to have failed, leaving only 251,614 acres or 17·7 per cent. of the area sown to be harvested against 933,800 acres last year. Thus the last two kharíf harvests in Hissar have been very bad ones. The Deputy Commissioner remarks that it may be said that the unirrigated crop failed entirely. In the other districts of the Delhi Division there was a less or greater falling-off in area, except in Simla, where there was an increase.

In the Jullundur Division the crop was an unusually good one in Kángra, where the rain was excessive in 1894. It was also very good in Hoshiárpur, fair in Jullundur, and moderate in Ludhiána. In Ferozepore the Deputy Commissioner classes it as an 8-anna crop only.

In the Lahore Division in Mooltan the canals worked well and there was an increase in area.

In Montgomery and Lahore there was a decrease, and in Jhang and Amritsar there was an ncrease, due entirely to an expansion of irrigation. In Gurdáspur, a submontane district, the area increased and the crop was good.

In the Ráwalpindi Division there was an increase in area, but the crop was moderate owing to the failure of the rice crop. In Ráwalpindi also the area increased, but the crop is rated a 12-anna one. In the other four districts there was a falling-off, and fodder was generally scarce

In the Pesháwar Division there was a falling-off in Kohát, but an increase in Hazára, while in Pesháwar the crop is described as excellent.

In the Deraját, owing to satisfactory working of hill torrents and streams, the crop would have been better than last year in Dera Ismail Khan, but for the ravages on the ripening crop committed by the ground locust (tiddi). Elsewhere there was a falling-off.

Taken as a whole, the crop of the Province was a bad one, and there was a great lack of fodder. Those districts in or near the hills which are generally in danger of suffering from an excess of rain did best. Hissar fared worst and did very badly indeed.

The crop of the Province could not be rated higher than a 12-anna one.

FRED, A. ROBERTSON,
Director, Department of Land Records and Agriculture, Punjab.

DATED LAHORE :
The 21st January 1896.

Crop Return of the Districts of the Punjab for Kharif 1895.

LAHORE, THURSDAY, FEBRUARY 6, 1896.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 4th FEBRUARY 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle	Prices.	Prospects of Kharif.	Prospects of Rabi.
1	Hissar ...	0·22 at Hissar. 1·18 in Bhiwáni. 0·45 in Hánsi. 0·03 in Fatahabad. 0·14 in Sirsa.	1. Scarce. 2. Getting lean.	High. Wheat 14 seers. Bájra 15 „ Bijhar 23 „	...	Rainfall insufficient. Crops dried up.
2	Delhi ...	Slight rainfall throughout.	1. Scarce. 2. Fair.	High. Wheat 12½ seers. Bájra 15 seers.	...	Crops have already suffered for want of rain. Prospects below average.
3	Umballa ...	0·50 at Sadr.	1. Scarce. 2. Moderate.	Slightly falling Wheat 13½ seers. Maize 19 seers.	...	Crops benefited to some extent.
4	Jullundur ...	Rainfall throughout.	1. Scarce. 2. Good.	Rising. Wheat 15 seers. Maize 20 seers.	Sugarcane pressing in progress.	Condition of crops much better than last reported.
5	Ferozepore ...	0·28 at Sadr. 0·30 in City. 0·65 in Moga. 0·45 in Zíra. 0·45 in Muktsar. 0·42 in Fázilka. 0·22 in Nathána. 0·44 in Jalalabad.	1. Scanty.	High. Wheat 13 to 15 seers. Maize 20 seers.	...	Condition of crops has improved.
6	Amritsar ...	0·03 Average. 0·68 at Sadr.	1. Scarce. 2. Poor.	Wheat 13 to 14 seers. Maize 18 to 19 seers.	...	Rain threatening all the week, but actual fall only nominal. Prospects somewhat improved by recent rain.
7	Siálkot ...	0·23 Average.	1. Scarce. 2. Overworked and losing condition.	Wheat, white, 11¾ to 12½ seers; wheat, red, 12½ to 13 seers. Maize 16 to 17 seers.	...	Standing crops benefited by recent slight rain.
8	Lahore ...	0·74 at Lahore. 0·11 in Chunián. 0·09 in Kasúr. 0·01 in Sharakpur.	1. Very scarce. 2. Dying for want of provisions, especially in Sharakpur Tahsíl.	High. Wheat 14 seers. Maize 20 „	...	Sowings completed. Irrigated crops average, and baráni (dependent on rain) poor. Rain is badly wanted. Grain stock sufficient with the zamíndárs of canal-irrigated villages.
9	Mooltan ...	0·02 at Sadr.	1. Scarce.	High. Wheat 12½ seers. Jowár 18½ seers.	...	Condition of crops good.
10	Ráwalpindi ...	2·21 at Ráwalpindi. 1·18 in Pindigheb. 0·96 in Fatahjang. 1·31 in Attock. 1·03 in Kahuta. 4·60 at Murree.	1. Insufficient in parts. 2. Fair.	High. Wheat. 14 seers. Bájra 18 seers. Maize 20 „	...	Below average.
11	Shahpur ...	Good rainfall in Bhera and slight in other tahsíls.	1. Scarce. 2. Reduced condition.	Wheat 13 seers. Bájra 14 to 15 seers.	...	More rain needed.
12	D. I. Khan ...	0·33 at Sadr. 0·76 in Tánk. 0·40 in Kulachi. 0·30 in Bhakkar. 0·03 in Leiah.	1. Scarce.	High. Wheat 14 seers	...	Recent rain has benefited the standing crops. More rain still wanted.
13	Peshâwar ...	1·64	1. Insufficient. 2. Good.	Wheat 13¾ seers. Maize 19 $\frac{13}{16}$ seers.	...	Standing crops in fair condition.

GENERAL REMARKS.

Rain fell all over the Province. Prices falling slightly in Umballa only and high or rising in other districts. Sugarcane pressing still going on in Jullundur. Sowings of spring crops over. Condition and prospects of standing crops are reported good in Mooltan and fair in Peshâwar. They are average to poor in remaining districts. The recent rain though insufficient has benefited the standing crops in most districts. More rain is still wanted. Cattle are generally in fair condition. They are losing condition in Hissar, Amritsar, Siálkot and Shahpur, and are dying for want of fodder in parts of Lahore. Fodder

The weather over the Punjab during December, though even finer and drier than is usually the case, was yet more unsettled than in the previous month. The month opened with slightly disturbed conditions, which determined light easterly winds to a large part of the Province. These winds occasioned an increase of moisture in the air, and Delhi reported a shower of 0·20″ on the 2nd and of 0·10″ on the 3rd, while snow apparently fell on the higher ranges of the Himalayas to the north of Simla. On the 4th the weather was fine generally, but at Simla a storm occurred in the afternoon, which gave 0·39″ of hail and rain. During the following three days, *viz.*, the 5th, 6th and 7th, the weather was fine and the air dry, but on the 8th another period of feebly unsettled conditions commenced. On that day rain began in Balúchistán and cloudy weather spread over the Punjab. On the 9th, 10th and *11th* there was a falling barometer, and unsettled weather over Kashmir and the Punjab. Snow fell on the higher hills and light showers of rain at Murree, Siálkot, Lahore and Simla. After the last date, the 11th, the weather cleared and remained fine to clear throughout the remainder of the month. On the 16th rain fell in Balúchistán and some cloudy weather was reported over the Punjab, and these changes were repeated on the 22nd, but, with these exceptions, the weather remained steadily fine.

Barometer and Winds.—The mean pressure of the month varied very little from the normal, but in most places was in trifling excess. The wind was generally westerly along the line of the hills and north-easterly over the south and centre of the Province.

Temperature.—Owing to the unusually fine weather, the temperature was generally above the normal at the plains stations, though on the hills there was some deficiency. The abnormal excess was as much as 2·5° at Mooltan and thence decreased to 0·5° at Delhi, Siálkot and Peshávar. The warmest place was Delhi with a mean temperature of 61·9° and the coolest Ráwalpindi with a mean of 53·3.°

The following table gives (1) the variation from the normal of the mean temperature of the Punjab for the previous 24 hours, and (2) the lowest minimum temperature recorded in the plains, with the name of the station at which it was registered:—

Date.	Variation from normal of mean temperature of previous 24 hours.	Lowest minimum temperature recorded in plains.	Station at which registered.	Date.	Variation from normal of mean temperature of previous 24 hours.	Lowest minimum temperature recorded in plains.	Station at which registered.

" 10th ...	+ 0·7	38·4	Pesháwar.	" 26th ...	+ 1·6	32·9	Do.
" 11th ...	0	39·4	Ráwalpindi.	" 27th ...	+ 1·2	33·4	Do.
" 12th ...	− 0·3	34·9	Do.	" 28th ...	+ 1·6	34·9	Do.
" 13th ...	− 0·1	35·9	Do.	" 29th ...	+ 2·4	33·4	Do.
" 14th ...	0	34·9	Do.	" 30th ...	+ 4·2	35·4	Do.
" 15th ...	+ 0·1	34·9	Pesháwar.	" 31st ...	+ 4·2	33·4	Do.
" 16th ...	− 0·1	33·9	Do.				

The above shows that the mean temperature of the whole Punjab exceeded the normal average between the 1st and the 10th. From the 11th to the 19th the mean temperature hovered about the normal, the variations from the average being generally very small. On the 20th there occurred a temporary fall, and the variation amounted to −1·2°, but after that date the mean temperature went above the average and so continued till the close of the month. The abnormal excess gradually increased as the month advanced, and at the close the excess was as much as 4°.

A minimum temperature below 32° was recorded at Ráwalpindi on the morning of the 25th, and it is worthy of note that both at Simla and Murree the nights were distinctly warmer on the average of the month than they were at Ráwalpindi and Pesháwar.

Humidity and Cloud.—The air has been dry, but there has been a slight amount of cloud throughout the Province.

Rain.—There has been no rain whatever throughout the month at Dera Ismail Khan, Khusháb, Peshawar, Cherát, Ráwalpindi, Montgomery, Umballa and Sirsa, while at the remaining stations the totals for the month have been small. The largest amount received was 0·42″ in Simla, followed by 0·30″ at Delhi, by 0·11″ at Siálkot, by 0·04″ at Mooltan and Murree, by 0·02″ at Lahore, and by 0·01″ at Ludhiána. The rainfall was short of the normal at every station except Delhi, where it was exactly equal to the average. At Murree only one-thirtieth of the average fall was received.

B.

The following table gives the rainfall data for the Punjab Stations for December 1895:—

Stations.	Normal average rainfall in December.	Actual rainfall in December 1895.	Difference from the average in December 1895.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 4th February 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 18TH JANUARY 1896.

Births and Deaths in Municipal Towns.—In the 45 large municipal towns 1,117 births were registered (560 males and 557 females), giving a birth-rate of 41 per *mille* of population: 1,603 deaths were registered (853 males and 750 females), giving a death-rate of 59 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,
Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 4th February 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

Ninty thousand two hundred and seventy-one births were registered in the Province during the month of November 1895, giving a birth-rate of 53 per mille of population. Of the total number of births, 47,103 were boys and 43,168 were girls.

The total number of deaths registered from all causes in the Province during the month of November 1895 was 58,441 against 55,493 in the previous month and 88,790 in the corresponding month of the past year, giving an annual death-rate of 35, 32 and 53 per mille of population per annum respectively

There was one death registered under the head of cholera.

From small-pox 949 deaths were registered against 369 in the previous month and 352 in the corresponding month of the past year; fevers 37,505 against 35,734 and 66,045; dysentery and diarrhœa 1,636 against 1,858 and 2,257.

During the month there were 21 deaths registered from suicide against 32 in the past month; wounding 41 against 42; accidents 276 against 293; snake-bite and killed by wild beasts 43 against 110; and from all other causes 17,969 against 17,049 and 19,764 in the corresponding month of the past year.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

					Kharif.	Rabi.
1	Hissar ...	...	1. Scacce. 2. Getting lean.	High. Wheat 14 seers. Bájra 14 „ Bijhar 22 „	...	Crops dried up.
2	Delhi ...	Slight rainfall throughout.	1. Scarce.	High. Wheat 12$\frac{1}{2}$ seers. Bájra 15 seers.	...	Crops in Ballabgarh Tahsíl damaged by hail. Prospects of crops poor, but improved by the recent rain.
3	Umballa ...	0·08 at Sadr.	1. Scarce. 2. Becoming lean.	Slightly falling Wheat 13$\frac{1}{2}$ seers. Maize 19$\frac{1}{2}$ seers.	...	Prospects below average.
4	Jullundur ...	Good rainfall in parts.	1. Sufficient. 2. Good.	Rising. Wheat 15 seers. Maize 20 seers.	...	Condition of crops improved by recent rain.
5	Ferozepore ...	0·37 at Sadr. 0·54 in Moga. 0·42 in Zíra. 0·60 in Muktsar. 0·34 in Fázilka. 0·21 in Nathána. 0·99 in Jalalabad.	1. Scanty. 2. Good.	High. Wheat 13 to 14 seers. Maize 19 to 20 seers.	...	Condition of crops has slightly improved.
6	Amritsar ...	Rainfall throughout 0·50 average.	1. Scarce.	Wheat 14 seers. Maize 18 seers.	...	Crops much benefited.
7	Siálkot ...	0·35 Average.	1. Scarce. 2. Cattle becoming lean, and a few deaths from starvation.	Wheat, white, 11$\frac{3}{4}$ to 12 seers; wheat, red, 12$\frac{1}{2}$ to 13 seers. Maize 16 to 17 seers.	...	Slight rain has been of some little benefit to the crops.
8	Lahore ...	...	1. Very scarce. 2. Cattle are dying for want of provisions, especially in the Sharakpur Tahsíl.	High. Wheat 13$\frac{1}{2}$ to 15 seers. Maize 20 to 21 seers.	...	Irrigation of crops is done by means of wells and canals. Irrigated crops average, and baráni (dependent on rain) very poor for want of rain. Rain is badly wanted.
9	Mooltan ...	0·30 at Sadr. 0·21 in Mailsi. 0·10 in Lodhrán. 0·35 in Shujabad. 0·61 in Kabirwála.	1. Scarce.	High. Wheat 13 seers. Jowár 19 seers.	...	Crops in good condition.
10	Ráwalpindi ...	0·51 at Ráwalpindi. 0·57 in Kahúta. 1·08 in Gujar Khan. 0·21 in Fatahjang. 0·30 in Pindigheb. 0·28 in Attock. 1·90 at Murree.	1. Insufficient. 2. Fair.	High. Wheat 14 seers. Maize 20 seers. Bájra 16$\frac{3}{4}$ „	...	Prospects average. Stock of grain sufficient.
11	Shahpur ...	Rainfall throughout.	1. Scarce. 2. Reduced.	Above normal. Wheat 13 to 14 seers. Bájra 15 to 16 seers.	...	More rain wanted. Stock of food grain sufficient.
12	D. I. Khan ...	0·25 at Sadr. 0·15 in Tánk. 0·34 in Kulachi. 0·32 in Bhakkar. 0·13 in Leiah.	1. Scarce.	High. Wheat 15 seers	...	Rain has benefited the standing crops. More rain still wanted.
13	Peshávar ...	...	1. Sufficient. 2. Good.	Low. Wheat 13$\frac{1}{2}$ seers. Maize 19 $\frac{3}{16}$ seers.	...	Standing crops in fair condition.

GENERAL REMARKS.

Rain has fallen in all districts except Hissar, Lahore and Pesháwar. Prices slightly falling in Umballa, low in Pesháwar, above normal in Shahpur, and high or rising elsewhere. Irrigation of crops is being done by means of wells and canals. The condition of standing crops has been improved by recent rain. More rain is still wanted in certain districts. Prospects are said to be average to poor in most districts. Crops have dried up in Hissar, and have been damaged by hail in parts of Delhi. Cattle are generally in good condition. They are getting lean in Hissar, Umballa and Shahpur, and are dying for want of

TULSI DAS, *Clerk of Statistics,*

Office of Director of Land Records and Agriculture, Punjab.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF JANUARY 1896.

Explanation :—(*c*) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st January.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 31st January 1896.	1st April 1896 to 30th September 1896.	Total.	Condition of crops, cattle and health of people.
HISSAR.	Sirsa ...	1·34	...	0·55	...	...	...	...	Rabi crops dried up for want of rain. Crop on irrigated land in good condition, but it has begun to suffer owing to the insufficiency of water supply in canal. Crop on sailába land not in good condition, and want of rain affected it to some extent. Grain stock of the district sufficient to meet the local requirements. Prices high. The people are not in a depressed condition as yet. Cattle getting lean.
	Fatahabad ...	1·38	...	0·88	...	...	...	...	
	Hissar ...	1·40	...	0·58	...	...	...	...	
	Hánsi ...	1·24	...	0·78	...	...	...	...

	Budhláda ...	...	..	...	...	...	...	...	
	Tohána ...	...	...	...	...	...	...	...	
JIND STATE.	Dhaneta (*c*) ...	...	...	...	0·35	0·50	...	0·50	
	Safidan (*c*) ...	...	...	...	...	...	...	...	
	Jind (*c*) ...	...	...	...	0·30	0·30	...	0·30	
BIKANER STATE.	Chhani (*c*) ...	...	...	...	...	...	...	...	
ROHTAK.	Rohtak ...	1·34	...	0·48	...	0·25	...	0·25	1. Canal and well irrigated crops are average. A small area of baráni has been sown and what little there is has suffered much from want of rain, but the rain which has fallen in the beginning of February will improve the prospects of both irrigated and unirrigated crops. There are sufficient stocks of grain in all tahsíls. The prices of grain at the end of January were as follows :— Wheat ... ... 12 seers. Gram ... ... 19 " Barley ... ... 15 " Bájra ... ... 14 " Jowár ... ... 20 " Mung ... ... 12 " 2. There is a want of fodder felt in the western portion of Rohtak Tahsíl, but with the exception of a few villages it is sufficient elsewhere.
	Gohána ...	1·52	...	0·75	0·19	0·19	...	0·19	
	Sámpla ...	1·29	...	0·71	...	0·64	...	0·64	
	Jhajjar ...	1·17	...	0·64	0·07	0·75	...	0·75	
GURGAON.	Farukhnagar ...	...	...	...	0·01	0·01	...	0·01	Cane is being pressed in Palwal, Fírozpur and Núh. The yield is average. There has been no rain except a very slight fall on January 28th. The area of the rabi is therefore restricted, and the crop is not so forward as it should be. Wells and the canal have been fully used, and irrigated crops are average, the baráni being below average. Good rain, however, was received on February 1st and subsequently, and the crop prospects are now better than they have been during January. Cattle are suffering from want of fodder, which is scarce everywhere. Food stocks sufficient. Prices were rising, but the tendency to rise has been checked by the recent rain.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average rainfall of past years.			*Rainfall of present year.*				
DISTRICT.	Rain-gauge Station.	1st October to 31st January.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 31st January 1896.	1st April 1896 to 30th September 1896.	Total.	Condition of crops, cattle and health of people.
DELHI.	Ballabgarh ...	1·19	...	0·51	0·04	0·57	...	0·57	There was no appreciable rain. The mustard crop was being attacked with caterpillars and gram was suffering from want of rain. The estimated crop on rain lands was four annas. Crops on well lands were doing fairly, but cattle were getting worn out. Fodder sufficient up to the rabi crop. Stocks sufficient, but being reduced in Ballabgarh Tahsíl by export to Delhi and to North-Western Provinces with large export still going on. Little movement of grain from Delhi villages. Since the 1st of February there has been general rain in Ballabgarh and Delhi Tahsíls of 1 to 1½ inches, ½ inch in Sonepat, and prospects have considerably improved.
	Mahrauli ...	...	...	...	...	...	...	...	
	Sadr (Delhi) ...	2·02	...	1·01	0·04	0·36	...	0·36	
	Sonepat ...	1·46	...	0·78	0·50	0·72	...	0·72	
KARNAL.	Pánipat ...	1·34	...	0·76	0·38	0·38	...	0·38	A little rain fell near the close of the month, which though insufficient was yet beneficial to the withering rabi. More rain is wanted. Prices are steadily rising, especially those of wheat, barley, gram, jowár and maize. Stocks of grain are reported to exist in some large villages of the district. Fodder is scanty, especially in the Nardak. In Khadar and Bangar there are sufficient stocks of bhúsa of last year's rabi in several places. The cattle are suffering from scarcity of fodder and are consequently very lean and emaciated.

		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st January.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 31st January 1896.	1st April 1896 to 30th September 1896.	Total.	Condition of crops, cattle and health of people.
Umballa.	Pipli ...	1·87	...	1·14	0·55	0·76	...	0·76	Moderate rain fell on the 28th and 29th. Crops are refreshed and grass has begun to grow. One more good rainfall at no distant date would ensure a moderate rabi, though a considerable area had failed completely before rain fell, and was past remedy. If no more rain falls a bad rabi can only be looked for, but what with local stocks and imports from Patiála and Ludhiána there will be sufficient food-grain to obviate any scarcity amounting to famine. The condition of cattle is tolerable and there will be sufficient grass and bhúsa to carry on with till the straw of next rabi is got in. Prices fell slightly as soon as rain fell. Wheat is 14, gram 19, makki 19, coarse rice 12 seers, per rupee. Makki is the principal food-grain. The prices are high of course, but they do not cause any outcry.

Simla.	Kasauli ...	3·87	...	2·16	1·94	2·23	...	2·23	Irrigated crops have greatly benefited by the rain in the last half of the month. The rain has also saved the unirrigated crops that had been sown and had germinated, but the yield will be very poor. I have notified that seed sown last October and November has now germinated with this rain. The rabi, with favourable weather, will be still a short crop, but there will be no famine. Prices were steadily rising until the rain. The rise has now ceased. At Nálagarh, where I was on tour, the price of maize fell 20 per cent. after the first good fall of rain. Stocks of grain must be low as late harvests have not been good. Cattle have not suffered and fodder is sufficient in the hills.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average rainfall of past years.			*Rainfall of present year.*				
DISTRICT.	Rain-gauge Station.	1st October to 31st January.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 31st January 1896.	1st April 1896 to 30th September 1896.	Total.	Condition of crops, cattle and health of people.
KANGRA.	Plách ...	5·97	...	3·47	1·48	2·66	...	2·66	Both in the *nahri* and *bárání* lands the crops have improved owing to the recent rains. The prospects on the whole can not be said to be good. The prices of grain which had been rising are now stationary. The zamíndárs, it is reported, have a sufficient quantity of grain stocked up. The fodder is sufficient all over the district, except in Tahsíls Hamírpur and Núrpur, in which tahsíls the prospects of the crops are also not good. There has been good rain over the whole district in the end of January and begining of February and all crops have been immensely improved. The area of irrigated crops sown was no doubt up to the average, but much less bárání land had been sown, and no small part of what was sown had not germinated. There was a little rain in the second week, but it was very local and not sufficient. The rain in the end of the month was late to allow of general sowing, but in the lower parts of the district, land near the homesteads has been quite recently sown, and seed, which did not germinate before, is now coming up, and the weather has been specially suitable to the rapid growth of the young plants. The crop that had come up is now looking much better and there is no fear of famine, though in some places the crop will be very poor. Wheat at Pálampur is selling at 13 seers, Indian corn 16 seers, rice 13 seers, barley 20 seers. Prices were rising rapidly, but now they are steady. There is every prospect of imports from the plains. The maize harvest of 1895 was one of the best on record and there must be considerable quantities of grain in the district, but imports are always required. Fodder is generally sufficient for the present and the rain removes the fear of failure of fodder.

	Núrpur ...	6·31	...	3·72	2·06	2·49	...	2·49	
HOSHIARPUR.	Dasúya ...	2·87	...	1·74	0·89	1·12	...	1·12	The rainfall of the month may be said to have saved the crops sown. The crops in the Dasúya Tahsíl are as a whole doing well. In the plain portions of the other three tahsíls there has been a great improvement, but the crops in the hills, especially the Anandpur tract, have suffered badly and the outturn can only be small. Prices of food-grain have fallen. Cattle are at present getting plenty to eat, and I do not think that the supply of fodder will fail.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF JANUARY 1896—(CONTINUED).

Explanation :—(*c*) = Canal Rain-gauge Stations.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Stations.	1st October to 31st January.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 31st January 1896.	1st April 1896 to 30th September 1896.	Total.	Condition of crops, cattle and health of people.
JULLUNDUR.	Jullundur ...	2.21	...	1·29	0·46	0·46	...	0·46	Prices rising. Stock of grain insufficient. Fodder scarce. Rabi crops on irrigated lands average, but on unirrigated lands bad. Health of people is good. Prospects of rabi have improved on account of recent rain.
	Nakodar ...	1·56	...	1·05	0·56	0·56	...	0·56	
	Phillour ...	2·00	...	1·13	1·06	1·06	...	1·06	
	Nawashahr ...	2·55	...	1·62	2·20	2·20	...	2·20	
LUDHIÁNA.	Samrála ...	2·13	...	1·11	1·39	1·39	...	1·39	Prices of wheat, gram and maize have gone up 33 per cent. as compared with last year. Wheat is now selling at 14 seers, gram at 20, and maize at 20 There is a likelihood of the prices rising still more if exportation begins. 2. Stock of grain generally considered sufficient if exportation does not take place. Fodder has been insufficient, but the fall of rain towards the end of month will afford great relief to the cattle. Grass will become plentiful. Crops in the Bet are generally good. Indeed with this rain we may expect to have a good crop. The crop in the rest of the district will, it is anticipated, be fair on the whole though poor in parts. A more definite estimate cannot be made for some days.

Amritsar.	Buchar (*c*) ...	1·81	...	1·09	0·44	0·44	...	0·44	Prospects improved owing to general rainfall of two-thirds of an inch on 3rd February. The area under rabi crops will be short, but the crops actually sown are still in fair condition, though backward. Rain is still badly wanted, but enough has fallen to save the crops for the present. Fodder is scarce all over the district, especially in Ajnála. Cattle are being overworked and underfed. The Zamíndárs' grain stocks are low, but merchants have large stocks on hand, and no scarcity of grain is anticipated. Prices are so far stationary, very high, but not likely to rise further at present. There is great demand for canal water, which has been met as far as possible by foregoing the advertised closure of canals. Irrigated crops are doing well.
	Khara (*c*) ...	0·97	...	0·59	...	...	...	...

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF JANUARY 1896—(CONTINUED).

Explanation : (*c*) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		Rainfall.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station	1st October to 31st January.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 31st January 1896.	1st April 1896 to 30th September 1896.	Total.	Condition of crops, cattle and health of people.
Sialkot.	Zafarwál ...	2.64	...	1.67	0.66	0.90	...	0.90	Very little rain again during the month. In Pasrúr and Zafarwál Tahsíls it was, however, something, and very useful to the crops in the g ound. On the whole the Rabi crops in well tracts promise fairly well. In baráni lands they look far below the average If the rains do not come in for about two weeks more, there will be very little hope of crops in baráni lands.
	Pasrúr ...	2.85	...	1.50	0.92	0.92	...	0.92	2. The cane-pressing nearly finished. The cane crops yielded a good gur al round.
	Raya ...	2.05	...	1.17	0.38	0.89	...	0.89	3. The prices are rising. The rates are nearly doubled when compared with those of June 1895.
	Daska ...	2.34	...	1.20	0.04	0.12	...	0.12	4. There are no or very little stocks of grain with the zamíndárs, and about 50 per cent. of them borrow the grain from the banias, who charge very high rates of interest. The stocks of grains with baniás are still, I must say, on the whole fairly sufficient, but, however, wheat and gram are imported from Amritsar and Lahore Districts in Raya Tahsíl. In Zafarwál it is imported from Jummoo State and Shakarga h Tahsíl of Gurdáspur District. In Siálkot market very little grain of the produce of the district is sold. The wheat comes from Gujar Khan and the gram from Ferozepore District and Patiála State. There is an export to s me extent of rice from Pasrúr and Raya Kalar Circles to Lahore and Amritsar Districts. To a very little extent whea: is exported from Daska to Wazirabad and Gujránwála.
	Sialkot ...	2.70	...	1.50	0.19	0.40	...	0.40	5. Fodder and specially green fodder, I must say, is insufficient, particularly in the well tracts of the district, where the cattle are, as a rule, overworked. Little or no rape or turnips were sown along with wheat on account of drought, consequently green fodder is rarely found, and the bhúsa is nearly finished. About 50 per cent. of the cultivators purchase it from here and there at the rate of one *Pand* per rupee. The jowár crop, however, has been a good one in the district, and still there is sufficient of it with the zamíndárs. The cane crops together with green wheat were used as green fodder to a greater extent than in previous years on account of drought. 6. The cattle on the whole still look fairly well, but they look rather thin on account of the hard work in well tracts.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF JANUARY 1896—*continued.*

Explanation :—(*c*)=Canal Rain-gauge Stations.

Jhelum.	Pind Dádan Khan ...	2·49	...	1·45	1·71	1·74	...	1·74	Condit'on of rabi crops generally not good, but the rainfall during the month in the four tahsíls has been beneficial. In Chak Thal and Papra in Tahsíl Pind Dádan Khan the crops are looking very poor. The rainfall in Tahsíl Chakwál proper has been very little, but in villages of Iláka Dhani, *viz.*, Ghogha Ráwal, Bal Kasúr, Bekhari and Chak Lundi Patti and Dhok Tálián the rainfall was average, and thereby the crops improved considerably. The prices of food grain were on the rise, but owing to rain the rates have been stationary and have begun to fall. The stock of grain for the consumption of the district is ample. Hitherto the supply of fodder was average, and owing to the rabi crops being backward the zamíndárs are sparing in the feed of their cattle. Health of people good. No inundation in the river.
	Jhelum (Sadr) ...	3·20	...	1·67	0·77	0·77	...	0·77

		RAINFALL.							
		Average rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Stations.	1st October to 31st January.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 31st January 1896.	1st April 1896 to 30th September 1896.	Total.	Condition of crops, cattle and health of people.
PESHAWAR.	Swábi ...	3·53	...	1·66	1·29	1·36	...	1·36	During the month under report barley was sown in some villages of the Mardán and Swábi Tahsíls. Land is being ploughed for some of the kharíf crops in the Hashtnagar and Peshâwar Tahsíls. The prospects of rabi crops on irrigated and unirrigated lands have improved from average and bad to satisfactory and average by the rains. The rains have improved the fodder supply of the district. Owing to the purchases made by grain dealers, the prices of food grains are getting dearer. The stocks of grain in the district have been reduced by sales owing to high prices. Sufficient water in canals. No inundation from hill torrents.
	Lahore (Utman Bolak)	3·49	...	1·64	1·44	1·44	...	1·44	
	Nowshera ...	3·23	...	1·94	2·00	2·19	...	2·19

	Katlang ...	3·00	...	1·55	2·66	2·96	...	2·96	
	Charsadda ...	2·64	...	1·48	0·88	1·07	...	1·07	
	Nabbaki ...	2·69	...	1·54	0·96	1·23	...	1·23	
	Peshawar ...	2·71	...	1·58	2·04	2·23	...	2·23	
	Abazai (*c*) ...	...	...	...	0·55	0·95	...	0·95	
	Khanmahi (*c*) ...	...	...	...	0·95	1·05	...	1·05	
KOHAT.	Kohat ...	3·03	...	1·27	1·16	1·25	...	1·25	Some rain fell during the month, but it was too late for any further sowings to be made on the unirrigated lands. It, however, much benefited the withering crops, which would otherwise have entirely failed. The crops on irrigated lands are about the average, and water in the Toi and springs is sufficient. Prices of grain which are rising are as follows :— *Srs. Chs.* Maize ... ... 20 8 Barley ... ... 20 6 Wheat ... ... 13 11 Bájra ... ... 18 8 Gram ... ... 15 10 Rice, country ... 12 12 Múng .. ... 12 12 Stocks of grains and fodder for cattle are insufficient. In some villages where grazing is scarce the people have sent their cattle to other villages.
	Hangu ...	...	...	...	1·26	1·49	...	1·49	
	Thal ...	...	...	...	1·32	1·50	...	1·50	
	Banda Daud Shah ...	...	...	...	1·35	1·35	...	1·35	
	Khushálgarh ...	...	...	...	0·70	0·72	...	0·72	
BANNU.	Miánwáli ...	1·46	...	0·85	0·10	0·10	...	0·10	The area covered by the crops now on the ground is less than in ordinary years, and such as has been cultivated would have failed in unirrigated lands but for the rains at the end of the month, which in Tahsíl Bannu are sufficient and elsewhere enough to keep the crops alive for some time. More rain fell in Isa Khel and Miánwáli on the 1st February. Stocks of grain sufficient, except in Miánwáli and parts of Isa Khel, and if the crops now standing do not fail the supply will be ample. Fodder is sufficient in Isa Khel and in irrigated portions of the other tahsíls, but in the tract depending on rain it is scarce. Cattle have been sent away from the Miánwáli Thal to Dera Ismail Khan Thal, where there is said to be still a little grass left. There ought to be a fresh growth of grass after the recent rain. Health of people good. Prices of food grains falling in Bannu Tahsíl since the last rains. There has not been time yet to notice the effect of the recent rainfall on prices in the other tahsíls. Canal working fair.

Note.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 11th February 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 25TH JANUARY 1896.

Births and Deaths in Municipal Towns.—In the 44 large municipal towns 1,013 births were registered (550 males and 463 females), giving a birth-rate of 38 per *mille* of population; 1,396 deaths were registered (734 males and 662 females), giving a death-rate of 52 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,
Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 11th February 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

Eighty-seven thousand two hundred and thirty-five births were registered in the Province during the month of December 1895, giving a birth-rate of 50 per mille of population. Of the total number of births, 45,302 were boys and 41,933 were girls.

The total number of deaths registered from all causes in the Province during the month of December 1895 was 73,990 against 58,441 in the previous month and 68,144 in the corresponding month of the past year, giving an annual death-rate of 42, 35 and 39 per mille of population per annum respectively.

There was no death registered under the head of cholera.

From small-pox 2,088 deaths were registered against 949 in the previous month and 441 in the corresponding month of the past year; fevers 49,415 against 37,505 and 47,919; dysentery and diarrhœa 1,433 against 1,636 and 1,540.

During the month there were 15 deaths registered from suicide against 21 in the past month; wounding 37 against 41; accidents 269 against 276; snake-bite and killed by wild beasts 21 against 43; and from all other causes 20,712 against 17,969 and 17,925 in the corresponding month of the past year.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, FEBRUARY 20, 1896.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 18th FEBRUARY 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif.	Prospects of Rabi.
1	Hissar ...	...	1. Scarce. 2. Getting lean.	High. Wheat 14 seers. Bájra 14 seers. Bijhar 22 seers.	...	Crops dried up.
2	Delhi ...	...	1. Scarce.	High. Wheat 17$\frac{1}{2}$ seers. Bájra 15$\frac{1}{2}$ seers.	...	Prospects of crops below average.
3	Umballa ...	0·01 at Sadr.	1. Insufficient. 2. Becoming lean.	Continue high. Wheat 12$\frac{1}{2}$ seers. Maize 19 seers.	...	Prospects below average.
4	Jullundur ...	0·04 in Nakodar.	1. Sufficient. 2. Good.	Rising. Wheat 15 seers. Maize 21 seers.	...	Condition of irrigated crops fair.
5	Ferozepore ...	0·06 in Zira.	1. Scanty. 2. Good.	High. Wheat 15 seers. Maize 20 seers.	...	Condition of crops slightly improved.
6	Amritsar ...	0·04 average.	...	Slightly falling. Wheat 14$\frac{1}{2}$ seers. Maize 19 seers.	...	Prospects still poor.
7	Siálkot ...	...	1. Scarce. 2. Cattle becoming weak for want of fodder, sugarcane and straw generally used as fodder.	Wheat, white, 11$\frac{3}{4}$ to 12 seers; wheat, red, 12$\frac{1}{2}$ to 13 seers. Maize 15 to 16 seers.	...	Rain badly wanted.
8	Lahore ...	0·05 at Lahore. 0·04 in Sharakpur.	1. Scarce. 2. Cattle are dying for want of provision, especially in the Sharakpur Tahsíl.	Continue high. Wheat 13 to 15 seers. Maize 20 to 21 seers.	...	Irrigation of rabi crops in progress. Irrigated crops average. Baráni very poor. Rain is badly wanted.
9	Mooltan ...	0·03 in Shujabad.	1. Scarce. 2. Poor.	High. Wheat 13 to 16 seers. Jowár 19 seers.	...	Crops in good condition.
10	Ráwalpindi ...	0·01 in Attock. 0·05 at Murree.	1. Insufficient. 2. Good.	High. Wheat 13 seers. Maize 18 seers. Bájra 16 seers.	...	Prospects average.
11	Shahpur ...	Slight rainfall at Tahsíl Shahpur.	1. Scarce. 2. Poor.	Below normal. Wheat 13 to 14 seers. Bájra 15 to 16 seers per rupee.	...	Stock of food grain sufficient. Prospects below average.
12	D. I. Khan ...	...	1. Scarce. 2. Poor.	High. Wheat 15 seers. Bájra 18 seers.	...	Condition of standing rabi crops fair. Rain wanted.
13	Peshawar ...	0·15	1. Insufficient. 2. Good.	Continue high. Wheat 12$\frac{1}{2}$ seers. Maize 18$\frac{1}{2}$ seers.	...	Condition of standing crops fair.

GENERAL REMARKS.

Slight rain has fallen in all districts except Hissar, Delhi, Siálkot and Dera Ismail Khan. Prices slightly falling in Amritsar, below normal in Shahpur and high or rising elsewhere. Irrigation of rabi crops in progress. The condition of standing crops is reported good in Mooltan and fair in Jullundur, Dera Ismail Khan and Peshawar. Prospects are said to be average to poor in most districts. More rain is still wanted. Crops have dried up in Hissar. Cattle are gett- [illegible] of fodder in Tahsíl Sharakpur (Lahore District).

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF JANUARY 1896 RECEIVED TOO LATE FOR INSERTION IN THE SUPPLEMENT TO PUNJAB GAZETTE OF 13TH FEBRUARY 1896.

Explanation: (*c*)=Canal Rain-gauge Station.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 25th FEBRUARY 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of	
					Rabi.	Kharif.
1	Hissar ...	0·09 in Hánsi.	1. Scarce. 2. Getting lean.	High. Wheat 14 seers. Bájra 14 seers. Bejhar 22 seers.	Crops dried up. Canal crops suffering for want of rain.	...
2	Delhi ...	...	1. Scarce.	High. Wheat 12⅛ seers. Bájra 14⅔ seers.	Prospects below average.	...
3	Umballa ...	0·41 at Sadr. Slight hail.	1. Insufficient.	High. Wheat 13½ to 14 seers. Maize 19 seers.	Prospects of crops below average. Water sufficient.	...
4	Jullundur ...	0·92 at Sadr. 0·59 in Nakodar. Good rainfall in Philloúr.	1. Sufficient. 2. Fair.	High. Wheat 15 seers. Maize 21 seers.	Condition of irrigated crops fair and that of báráni (dependent on rain) much improved.	...
5	Ferozepore ...	...	1. Scanty. 2. Good.	High. Wheat 14 seers. Maize 20 seers.	Condition of crops fair.	...

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle	Prices.	Prospects of	
					Rabi.	Kharif.
6	Amritsar ...	Rainfall throughout.	...	Wheat 15 seers. Maize 20 seers.	Prospects somewhat improved.	...
7	Siálkot ...	...	1. Scarce. 2. Becoming weak and overworked. They are fed on sugarcane and straw.	Wheat, white, $11\frac{3}{4}$ to 12 seers; wheat, red, $12\frac{1}{2}$ to 13 seers. Maize 16 to 17 seers.	Prospects improved by rainfall.	...
8	Lahore ...	0·34 at Sadr.	1. Scarce on account of very little pasture. 2. Dying for want of provision, especially in the Sharakpur Tahsíl.	High. Wheat $13\frac{3}{4}$ to $14\frac{1}{2}$ seers. Maize 17 to 19 seers.	Irrigated crops average and báráni (dependent on rain) poor for want of rain which is badly wanted. Grain stock sufficient with Zamíndárs of canal-irrigated villages and Sáhúkárs.	Sugarcane is being pressed. Land is being prepared for coming crop.
9	Mooltan ...	...	1. Scarce in Mooltan and Mailsi Tahsíls.	High. Wheat 13 to 16 seers. Jowár 19 seers.	Condition of crops good.	...
10	Ráwalpindi ...	...	1. Insufficient. 2. Fair.	High. Wheat 13 seers. Maize 18 seers. Bájra 16 seers.	Prospects below average. Stock of grain insufficient.	...
11	Shahpur ...	...	1. Scarce. 2. Poor.	Above normal. Wheat 13 to 14 seers. Bájra 15 to 16 seers.	Stock of food grain sufficient. Rain much needed.	...
12	D. I. Khan ...	...	1. Scarce.	High. Wheat 14 seers. Bájra 18 seers.	Condition of standing crops fair. Rain wanted.	...
13	Peshâwar ...	0·63	1. Insufficient. 2. Good.	High. Wheat $12\frac{3}{4}$ seers. Maize $18\frac{7}{8}$ seers.	Standing crops in fair condition.	...
14	Rohtak ...	0·15	1. Scarce. 2. Fair.	...	Irrigated crops average. Unirrigated bad.	...
15	Gurgaon ...	Slight rainfall.	1. Scarce. 2. Dying from scarcity of fodder.	...	Extra rabi being sown. Irrigated crops average. Báráni (dependent on rain) below average. Some damage from hail and insects.	Sugarcane sowing commenced.
16	Karnal ...	...	1. Scarce.	Wheat 13 seers.	Baráni (dependent on rain) crops very bad. Irrigated average.	...
17	Gujránwála ...	0·78 at Sadr.	1. Scarce. 2. Poor. Many have died.	Rising. Wheat 12 seers.	Vegetables being sown. Prospects and probable outturn of harvest unfavourable. No serious damage done to crops.	...

GENERAL REMARKS.

Rain has fallen in parts ot Hissar, Gurgaon, Umballa, Jullundur, Amritsar, Lahore, Gujránwála and Peshâwar districts. Prices high or rising throughout the Province. Sugarcane pressing still going on in Lahore and sugarcane is being sown in Gurgaon. Sowings of extra spring crops commenced in some districts. Vegetable sowings going on in Gujránwála. Condition of crops reported good in Mooltan; fair in Jullundur, Ferozepore, Dera Ismail Khan and Peshâwar; average to poor in other districts. Prospects are said to be below average in all districts. Canal crops are suffering for want of waterin Hissar. More rain is wanted in most districts. Crops ars reported to have been damaged by hail and insects in Guagaon. Cattle are generally in poor condition and are being overworked. They are dying for want of sufficient fodder in Gurgaon, Lahore and Gujránwála districts. Fodder insufficient and scarce in all districts except Jullundur, where it is said to be sufficient.

11	Shahpur ...	...	1. Scarce. 2. Poor.	Above normal. Wheat 13 to 14 seers. Bájra 15 to 16 seers.	Rain badly wanted. Stock of food grains sufficient.	...
12	D. I. Khan ...	0·24 at Sadr. 0·29 in Tánk. 0·65 in Kulachi. 0·05 in Bhakkar.	1. Scarce. 2. Fair.	High. Wheat 14½ seers. Bájra 18 seers.	Condition of crops improved. Ploughing and sowing of extra spring crops commenced.	...
13	Pesháwar ...	...	1. Insufficient. 2. Good.	High. Wheat 13½ seers. Maize 19 $\frac{3}{16}$ seers.	Standing crops in fair condition. Stock of food grain fair.	...
14	Rohtak ...	...	1. Scanty.	...	Irrigated crops average and unirrigated bad. Stock of food grain sufficient.	Cultivation of sugarcane and indigo commenced.
15	Gurgaon ...	...	1. Scarce. 2. Dying from scarcity of fodder.	...	Extra rabi sowing commenced. Some damage to gram and rapeseed by high winds and insects. Irrigated crops average. Baráni below average. Food stock sufficient.	Sugarcane being sown.
16	Karnál ...	Rainfall throughout.	1. Scanty.	...	Slight damage by hail. Irrigated crops average, unirrigated generally poor.	Sugarcane being planted.
17	Gujránwála ...	...	1. Scarce. 2. Dying for want of fodder in some places.	High. Wheat 13 seers.	Irrigation improved owing to opening of canal. Stock of grain insufficient.	Vegetable and sugarcane being sown.

GENERAL REMARKS.

Rain has fallen in most districts. Prices high throughout the Province. Sugarcane is still being pressed in Lahore. Ploughing and sowing of extra spring crops and sugarcane commenced in some districts. Condition and prospects of standing crops are reported fair in Jullundur, Ferozepore and Peshâwar; below average to poor in other districts. Rain crops have dried up in Hissar. The recent rain has benefited the crops in most districts. More rain badly wanted. Stock of food grain is said to be sufficient in Hissar, Delhi, Lahore, Shahpur, Peshawar and Gurgaon, and insufficient in Umballa, Sialkot, Ráwalpindi and Gujránwála. Gram and rapeseed crops are reported to have been damaged to some extent in Gurgaon by high wind and insects. The spring crops have also been slightly damaged by hail in Karnál. Cattle are dying for want of fodder in parts of Lahore, Gurgaon and Gujránwála. They are losing condition in Hissar. Owing to recent rain the prospects of fodder have improved. There is an improvement in the condition of cattle in Siálkot. Fodder scarce or insufficient in all districts except Jullundur, where it is said to be sufficient. Prospects have improved in Siálkot.

Note.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 3rd March 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PROVINCE DURING THE WEEK ENDING SATURDAY, THE 15TH FEBRUARY 1896.

Births and Deaths in Municipal Towns.—In the 43 large Municipal towns 898 births were registered (472 males and 426 females), giving a birth-rate of 39 per *mille* of population; 769 deaths were registered (427 males and 342 females), giving a death-rate of 33 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,
Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 3rd March 1896.

BOMBAY, BARODA AND CENTRAL INDIA RAILWAY,

INCLUDING

RAJPUTANA-MALWA RAILWAY.

(INCLUDES THE RAJPUTANA STATE RAILWAY, THE HOLKAR STATE RAILWAY, THE SINDIA-NEEMUCH STATE RAILWAY, THE REWARI-FEROZEPORE STATE RAILWAY, AND THE CAWNPORE-ACHNERA STATE RAILWAY.)

Abstract of the Principal Commodities carried on the Rájpútána-Málwa Railway during the month of January** 1896, **as compared with the same month of the previous year.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 10th MARCH 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Rabi.	Prospects of Kharif.
1	Hissar	0·32 in Fatehabad. 0·25 in Hánsi. 0·20 in Bhiwáni. 0·38 in Sirsa.	1. Scarce. 2. Cattle out of condition.	High. Wheat 14 seers. Bájra 14 seers. Bijhar 22 seers.	Baráni crops dried up. Rainfall has benefited the canal and sailába crops. Stock of food grain sufficient.	...
2	Delhi ..	...	1. Scarce. 2. Fair.	High. Wheat 13½ seers. Bájra 15 seers.	Condition of crops not favourable. Stock of food grain sufficient.	...
3	Umballa ..	...	1. Sufficient.	High. Wheat 14½ to 15½ seers. Maize 20 seers.	Prospects of crops below average. Water sufficient. Stock of food grain sufficient.	...
4	Jullundur ..	...	1. Sufficient. 2. Fair.	High. Wheat 15 seers. Maize 21 seers.	Condition of irrigated crops fair and that of baráni poor to fair. Stock of grain sufficient. Rain wanted.	...
5	Ferozepore ..	...	1. Scanty. 2. Good.	High. Wheat 16 seers. Maize 21 seers.	Condition of crops fair.	...

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Rabi.	Prospects of Kharif.
6	Amritsar ...	...	1. Insufficient.	High. Wheat 15 seers. Maize 20 seers.	Rain badly wanted. Crops short in area and poor in quality. Stock of grain insufficient.	...
7	Siálkot ...	...	1. Insufficient. 2. Poor.	Wheat, white, $12\frac{3}{4}$ to $12\frac{1}{2}$ seers. Wheat, red, 13 to $13\frac{1}{2}$ seers. Maize 16 to 17 seers.	Crops promising. Stock of grain very small.	...
8	Lahore ...	...	1. Scarce. 2. Dying for want of provisions, especially in the Sharakpur Tahsil.	High. Wheat 14 to 16 seers. Maize 17 to 18 seers.	Irrigated crops average, and baráni crops poor for want of rain. Stock of grain sufficient with zamíndárs of canal-irrigated villages and sáhúkárs. Insufficient in baráni tracts.	...
9	Mooltan ...	...	1. Scarce.	High. Wheat, 1st quality, 13 seers. Wheat, 2nd quality, 16 seers. Jowár 19 seers.	Crops in good condition. Sidhnai canal flowing.	...
10	Ráwalpindi ...	0·12 at Ráwalpindi. 0·04 in Attock. 0·10 in Gujar Khan. 0·04 in Kahúta. 0·40 in Murree.	1. Insufficient. 2. Good.	High. Wheat $12\frac{1}{2}$ seers. Maize 18 seers. Bájra 18 seers.	Prospects below average. Stock of grain insufficient.	...
11	Shahpur ...	...	1. Scarce. 2. Out of condition.	Above normal. Wheat 13 to 14 seers. Bájra 15 to 16 seers.	Stock of food grains sufficient, but grain is imported in Tahsíl Khusháb from Bannu, Jhelum and Dera Ismail Khan Districts. Rain much needed.	...
12	D. I. Khan ...	...	1. Scarce. 2. Fair.	High. Wheat 15 seers. Bájra 17 seers.	Condition of standing crops fair. Rain wanted. Sowings of extra rabi crops in progress.	...
13	Pesháwar ...	0·21	1. Insufficient. 2. Good.	High. Wheat $13\frac{5}{16}$ seers. Maize $19\frac{13}{16}$ seers.	Standing crops in fair condition. Stock of food grain fair.	...
14	Rohtak ...	0·90 in Sampla.	1. Limited. 2. Good.	...	Irrigated crops average; unirrigated bad. Blossoms sustained injury from storm. Stock of food grain suffering.	Cultivation of indigo and sugarcane in progress.
15	Gurgaon ...	Slight rainfall except Shahjahanpur and Sohna.	1. Scarce. 2. Suffering from want of sufficient fodder.	...	Little hail at Shahjahanpur and Sohna but caused no damage. Extra rabi sowings going on. Crops on irrigated areas average but on baráni below average.	Sugarcane being sown in Nuh Tahsil.
16	Karnál ...	Slight rainfall in all tahsils except Karnál.	1. Scanty.	Wheat 13 seers. Maize 18 seers.	Irrigated crops average, unirrigated bad. Food stock diminished.	Sugarcane being sown.
17	Gujránwála ...	...	1. Scarce. 2. Dying for want of fodder in some places.	High. Wheat 13 seers.	Prospects of crops on lands dependent on rain unfavourable and of canal-irrigated lands favourable. Stock of grain insufficient.	Vegetable, sugarcane and cotton being sown.

GENERAL REMARKS.

Rain has fallen in parts of Hissar, Rohtak, Gurgaon, Karnál, Ráwalpindi and Peshâwar Districts. Prices high throughout the Province. Sowing of extra spring crops as well as of sugarcane and cotton, in progress. Indigo cultivation commenced in Rohtak. Rain badly wanted in most districts. Condition and prospects of standing crops are generally reported to be unfavourable. The prospects of canal irrigated crops in some districts are said to be fair. Stock of food grain is insufficient in Amritsar, Sialkot, Ráwalpindi, Gujránwála, Rohtak, Karnál and parts of Lahore. Cattle are reported to be out of condition in Hissar, Sialkot and Shahpur. They are dying for want of fodder in parts of Lahore and Gujranwala. Elsewhere their condition is said to be fair. Fodder sufficient in Umballa and Jullundur and scarce in other districts.

PESTONJI, *Supdt.*,

The weather has been a good deal disturbed during the month under review. Several storms have entered the Punjab from the westward, and, though these storms have perhaps been less intense and have perhaps occurred less frequently than is ordinarily the case in January, they have nevertheless kept the weather a good deal disturbed over the whole province—both hills and plains. Fine weather with light airs and calms and mild weather prevailed from the 1st to the 6th. On the 7th there occurred a brisk barometric fall, and the weather became cloudy to overcast, but this did not last long, and on the 8th the barometer was rising and the weather clearing. Calms and fine weather prevailed on the 9th and 10th, but on the latter date a brisk to rapid barometric fall was recorded. On the following day, the 11th, the observations showed a depression advancing through Balúchistán. This depression crossed the Punjab and entered the North-Western Provinces and was succeeded by a brisk barometric recovery which occurred on the 13th. During the passage of the depression showers of rain were reported from Murree and Simla and from several stations on the plains—except those in the south-east. On the 14th the weather was clearing, but showers were still reported from Simla, Murree, Pesháwar, Ráwalpindi, Montgomery and Ludhiána. These showers took off during the next two days, and on the 17th the weather was clear and fine in all parts of the province except Murree, where a light shower was reported. On the 18th a sudden and large change occurred. A small storm was formed suddenly near Sirsa, the winds became cyclonic over the Punjab, showers of rain had fallen at several stations, and during the day the first snow of the season commenced at Simla. After the disappearance of this small storm the weather cleared, and from the 20th to the 26th was generally fine or slightly cloudy, with hot days, cold nights and very little wind. On the 27th a deepish depression appeared over the Indus Valley, the weather clouded over and cyclonic winds were reported. On the 28th a depression was central over the Punjab and strong cyclonic winds were blowing throughout the province, with snow on the hills and rain at several stations on the plains. The weather improved somewhat during the next two days, but on the 31st a fresh depression appeared, the winds again assumed a cyclonic circulation, and snow fell on the hills and rain on the plains. During this unsettled period the days were very cold.

Barometer and Winds.—The mean pressure of the month was very nearly normal over the greater part of the province, but the variation from the normal increased in amount southward, and the deficiency was greater at Mooltan, Sirsa and Delhi than elsewhere. At Simla, Murree, Ráwalpindi and Siálkot there was a trifling excess of pressure on the mean of the month. The winds varied very much, and calms were exceedingly numerous during the month. On the whole there was perhaps more easting in the wind than usual.

Temperature.—Owing to the general lightness of the rainfall the mean temperature was excessive everywhere. During December the heat on the plains exceeded and on the hills was below, the normal, but in January the excess of heat was as marked on the hills as on the plains. The warmest place was Delhi with a mean temperature of 61°·3 and the coolest place Pesháwar with a mean temperature of 53°·1. At Sirsa the mean maximum readings of the month were nearly 5° higher than usual.

C.

The following table gives (1) the variation from the normal of the mean temperature of the Punjab for the previous 24 hours, and (2) the lowest minimum temperature recorded in the plains, with the name of the station at which it was registered :—

Date.	Variation from normal of mean temperature of previous 24 hours.	Lowest minimum temperature recorded in plains previous 24 hours.	Station at which registered.	Date.	Variation from normal of mean temperature of previous 24 hours.	Lowest minimum temperature recorded in plains previous 24 hours.	Station at which registered.

" 16th ...	+ 5·4	41·5	Dera Ismail Khan.	" 31st ...	+ 1·7	39·4	Do.

With the exception of the three days, 19th, 20th and 21st, the mean temperature of the whole province steadily exceeded the normal average. The periods of most marked excess were from the 14th to the 18th and from the 26th to the 28th, when both the day and night temperatures were very much higher than usual. The lowest temperatures recorded within the province were generally registered at Ráwalpindi and Pesháwar, but, except during the period 1st to 6th, the lowest minima were in no way remarkable.

Humidity and Cloud.—The air was moderately damp and the cloud proportion was about normal.

Rain.—The times of occurrence of rain and of snow are given in the 1st paragraph. The table at the close shows the total rainfall of the month. At Sirsa there was no rainfall during the month, and at Delhi only 0·04 inches; but in all other parts of the Punjab, as well as over Kashmir, general and moderate rain was received. At Murree the total amount was in slight and at Montgomery in large excess of the normal average, but in all other places it was short. At Siálkot the deficiency exceeded 2 inches and at Ludhiána, Simla and Delhi 1 inch.

B.

The following table gives the rainfall data for the Punjab Stations for January 1896:—

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF FEBRUARY 1896.

Explanation :—(*c*) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
DISTRICT.	Rain-gauge Station.	1st October to end of February.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 29th February 1896.	1st April 1896 to 30th September 1896.	Total.	Condition of crops, cattle and health of people
HISSAR.	Sirsa ...	1·64	...	0·30	0·52	0·52	...	0·52	Rainfall of the month benefited the canal and sailába crops to some extent. In some villages the withered gram crops also reported to have revived. Canal crops in fair condition, but they suffered a good deal owing to the insufficiency of water-supply. Hail slightly damaged the rape-seed crops. Fodder scarce. Cattle getting lean. Prices high. Stocks of food-grain sufficient. People of Native States have not yet immigrated into this district. Prices of wheat, 13 seers. Ditto gram, 22 ,, Ditto barley, 19 ,,
	Fatahabad ...	1·83	...	0·45	0·62	0·62	...	0·62

	Bhiwáni ...	1·27	...	0·24	1·63	1·82	...	1·82	
	Budhláda ...	...	..	...	0·22	0·22	...	0·22	
	Tohána ...	...	...	...	0·50	0·50	...	0·50	
JIND STATE.	Dhaneta (*c*) ...	...	...	...	0·47	0·97	...	0·97	
	Safidan (*c*) ...	...	...	...	...	...	...	...	
	Jind (*c*) ...	...	...	...	...	...	...	...	
BIKANER STATE.	Chhani (*c*) ...	...	...	...	0·49	0·49	...	0·49	
ROHTAK.	**Rohtak** ...	1·66	...	0·32	1·50	1·75	...	1·75	Canal and well irrigated crops average. Baráni crops very poor. Cattle in poor condition, but otherwise healthy. Health of people good. Fodder growing scarce. Stores of grain sufficient. Hail have done some damage in certain villages of the Gohána and Sámpla Tahsíls. Prices are stationary.
	Gohána ...	1·89	...	0·37	0·84	1·03	...	1·03	
	Sámpla ...	1·57	...	0·28	2·15	2·79	...	2·79	
	Jhajjar ...	1·45	...	0·28	1·26	2·01	...	2·01	
GURGAON.	Farukhnagar ...	...	...	...	0·67	0·68	...	0·68	After having received no rain since December 2nd and 3rd, 1895, except a slight fall in some stations on 28th January 1896, rain fell all over the district on February 1st, 1896. It was subsequently followed by slight rains on 2nd, 3rd, 12th, 23rd and 25th February. These rains were generally favourable to the standing crops, but the falls on 2nd and 3rd February were accompanied by a high wind and hail, which caused some damage in Palwal, Gurgaon and Firozpur Tahsíls. A worm called "Chainpa" is said to be damaging the rape-seed in all tahsíls. Irrigated crops are average; baráni below average. More rain is wanted. Wells and the canal are being fully worked. Ploughings for the kharíf and the sowings for extra rabi are in hand. Fodder scarce. A few deaths reported from scarcity. Prices stationary at Sadar, but rising in other tahsíls. Food stocks sufficient.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF FEBRUARY 1896—(CONTINUED).

1	2	3	4	5	6	7	8	9	10
		Rainfall.							
		Average rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to end of February.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 29th February 1896.	1st April 1896 to 30th September 1896.	Total.	Condition of crops, cattle and health of people.
Delhi.	Ballabgarh ...	1.55	...	0.36	1.14	1.71	...	1.71	Except in a few villages near Najafgarh, the prospects of the crops in Delhi and Sonepat Tahsíls are fair, but the area under baráni crops will be much below average. The hot winds of the last few days have done as much harm as the rain did good in Ballabgarh, and prospects are very poor. Stocks are sufficient for the present and grain is still leaving Ballabgarh. Fodder is getting very scarce in Ballabgarh. The condition of the cattle is but yet little below average. Health of people good. The damage done by hail at the beginning of last month was considerable. Prices rule as follows:—
	Mahrauli ...	...	...	...	2.20	2.20	...	2.20	
	Sadr (Delhi) ...	2.36	...	0.34	1.45	1.81	...	1.81	
	Sonepat ...	1.83	...	0.37	0.95	1.67	...	1.67	
Karnal.	Pánipat ...	1.90	...	0.56	0.72	1.10	...	1.10	A little rain fell during the month, which was beneficial to the crops. Hail came on 26th, but caused practically no damage to the crops in ear. Stocks of grain are sufficient in large villages. Fodder is very scarce, especially in the Nardak Circle of Karnál and Kaithal Tahsíls. The standing crop is estimated to be an average one.
	Karnal ...	3.08	...	0.89	0.26	0.93	...	0.93	
	Rajaund ...	...	...	...	0.35	0.74	...	0.74

		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
DISTRICT.	Rain-gauge Station.	1st October to end of February.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 29th February 1896.	1st April 1896 to 30th September 1896.	Total.	Condition of crops cattle and health of people.
UMBALLA.	Pipli ...	2·83	...	0·96	0·48	1·24	...	1·24	The slight fall of rain in the last week of the month was beneficial, but persistent strong westerly winds have been the reverse. The prospects in the Rúpar and Kharrar Tahsíls are the least bad,—in fact there the gram crops are expected to be very fair. In the other four tahsíls the irrigated crops will probably be average and there will be a moderate outturn of grain from the baráni crops There will be at any rate a quantity of straw, and this is much needed as there is very little green fodder and the stocks of bhúsa and chari are insufficient. The cattle, though rather lean, are in tolerable condition. There is no apprehension on the score of stocks of grain. The baniahs hold a deal and some is being imported from Patiála, Karnál and Ludhiána. Prices are : wheat 14 and 15 seers, gram 18 to 20 seers, maize (staple food) 18 to 20 seers, and rice 9 to 14 seers.

10 — Condition of crops, cattle and health of people.

Kángra. There was a sufficient and timely rainfall during the month, and the prospect of the rabi harvest may now be considered good in Kángra and Pálampur and fair elsewhere. Should there be the usual amount of rain during the months of March and April next, all the crops will be much improved. The prices are stationary; those prevailing in the different tahsíls of the district are as follows:—

	Rice.	Wheat.	Maize.	Barley.
	Srs.	Srs.	Srs.	Srs.
Kángra ...	14	14	18	20
Hamírpur ...	12	15	17	...
Kulu ...	13	16	28	22
Plách ...	10	16	20	20

The stocks of food-grains in the district are sufficient, as is also fodder, which is sufficient in all the tahsíls except in tahsíl Hamírpur, where there is a slight scarcity.

Hoshiárpur. The crops have improved everywhere, but taking the district as a whole, not more than an 8-anna crop can be expected. There are still some small stores of grain.

There will in some parts be some scarcity of fodder, but there are still stores of "bhoosa" from last year.

There has been no natural alteration in the price of food grains during the past month.

Health of the people has been good.

Jullundur. Prices stationary as compared with last month (wheat 15 seers, maize 20 seers). Stock of grain fairly sufficient. Fodder sufficient Condition of irrigated crops fair and that of baráni improved since recent rains.

Health of people good.

		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to end of February.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 29th February 1896.	1st April 1896 to 30th September 1895.	Total.	Condition of crops, cattle and health of people.
SIALKOT.	**Zafarwál** ...	4·30	...	1·66	1·56	2·46	...	2·46	There has been rain throughout the district during the month, and it was very useful to the crops in the ground, and the ploughings for cotton and sugarcane of the coming kharíf have commenced. The rain was followed by hailstorm in the Siálkot Tahsíl, but there was very little or no demage done to the crops. The rainfall during the month was sufficient for the cháhi crops, but insufficient for baráni ones, though it was on the whole very favourable to the standing crops. In the irrigated lands the crops promise well, and in the baráni they are below the average. Everything depends on the rainfall of the month of March. I have arranged that the rabi field inspection may be commenced from 15th instead of 1st March, that we may be able to ascertain the exact amount of kharába. No relief can be proposed for the baráni peasants until the result of the rainfall of the month of March is known. (2) The prices are rising throughout the district except in Raya Tahsíl, where they are the same as in last month. (3) As already noted, there are very little or no stocks of grain with the peasants. The stocks of grain with the baniahs are also insufficient and the wheat and gram are imported into the different parts of the district from Amritsar, Gurdáspur, Ferozepore, Gujar Khan and Patiála State. There is no export except of rice from Raya and Pasrúr Tahsíls. (4) The fodder, and especially the green fodder, is insufficient throughout the district. The remarks under this head are the same as given in last month The bhúsa is nearly finished. (5) The cattle on the whole look fairly well except in the well tracts, where they look rather thin on account of hard work.
	Pasrúr ...	4·46	...	1·61	1·00	1·92	...	1·92

		RAINFALL.							
		Average rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Stations.	1st October to end of February.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 29th February 1896.	1st April 1896 to 30th September 1896.	Total.	Condition of crops, cattle and health of people.
Bannu.	Miánwáli ...	1·91	...	0·45	0·75	0·85	...	0·85	The rabi crops in the ground have been kept alive by the rains in this month, and their present condition is on the whole fair, but more rain is wanted in unirrigated tracts to ensure a good harvest, especially in Marwat and Miánwáli Tahsíls. In Marwat and Miánwáli stocks of grain are very low; sufficient in Isa Khel and Bannu. If standing crops are harvested successfully the supply will be ample. Fodder is very scarce in Thal land, but the recent rains have helped much in lessening the scarcity, as cattle are now fed on green crops. In irrigated parts of the district fodder is sufficient. Prices are falling in Bannu and Marwat, stationary in Isa Khel and rising in Miánwáli. The variations are, however, unimportant. Canal working good.
	Isa Khel ...	2·35	...	0·91	0·93	1·19	...	1·19

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Rabi.	Prospects of Kharif.
6	Amritsar ...	0·03 in Ajnála.	1. Insufficient.	High. Wheat 15¾ seers. Maize 20 seers.	Crops short in area and poor in quality. Rain wanted.	...
7	Siálkot ...	0·16 average.	1. Insufficient. 2. Poor.	Wheat, white, 12¾ to 13½ seers. Wheat, red, 13¾ to 14½ seers. Maize 7 to 17½ seers.	Crops promising. Ploughing for extra rabi going on. Stock of grain very small.	Ploughing commenced.
8	Lahore ...	0·02 at Sadr. 0·03 in Sharakpur.	1. Scarce. 2. Cattle dying for want of fodder.	High. Wheat 14 to 16 seers. Maize 17 to 18 seers.	Irrigated crops average, and baráni (dependent on rain) poor for want of rain.	Ploughings going on.
9	Mooltan ...	0·15 at Sadr. 0·35 in Lodhrán. 0·15 in Shujabad. 0·17 in Kabirwála.	1. Scarce.	High. Wheat, 1st quality, 13 seers. Wheat, 2nd quality, 16 seers. Jowar 19 seers.	Crops in good condition. Sidhnai canal flowing.	...
10	Ráwalpindi ...	0·61 at Ráwalpindi. 1·90 in Pindigheb. 0·31 in Fatahjang. 0·55 in Gujar Khan. 1·01 in Kahúta. 0·86 in Murree.	1. Insufficient. 2. Fair.	High. Wheat 13 seers. Bájra 15½ seers Maize 18 seers	Prospects below average. Stock of grain insufficient.	...
11	Shahpur ...	Slight rainfall throughout.	1. Scarce. 2. Out of condition.	Above normal. Wheat 13 to 14 seers. Bájra 15 to 16 seers.	Rain much wanted. Stock of food grains sufficient. Grain is imported in Khusháb from Bannu, Jhelum and Dera Ismail Khan.	...
12	D. I. Khan ...	0·29 at Sadr. 0·50 in Tánk. 0·61 in Kuláchi. 0·48 in Bhakkar. 0·18 in Leiah. 0·18 in Sheikh Buddin.	1. Scarce. 2. Fair.	High. Wheat 14½ seers. Bájra 18 seers.	Condition of standing crops improved. Sowings of extra rabi crops in progress. Stock of food grains insufficient.	...
13	Pesháwar ...	...	1. Scarce.	High. Wheat 13 $\frac{1}{8}$ seers. Maize 21 $\frac{1}{8}$ seers.	Crops in fair condition. Fair stock of food grain.	...
14	Rohtak ...	...	1. Limited.	Falling. Wheat 11 seers. Jowár 14 seers.	Irrigated crops average; unirrigated bad. Stock of food grain sufficient.	Cultivation of indigo and sugarcane in progress.
15	Gurgaon ...	...	1. Scarce. 2. Out of condition.	Falling.	Wheat, barley and gram in baráni lands being harvested.	Sugarcane being sown in Tahsil Nuh.
16	Karnál ...	...	1. Scanty.	Wheat 13 seers. Maize 18 seers.	Extra rabi being sown on some irrigated lands. Irrigated crops average and unirrigated bad.	...
17	Gujránwála ...	0·19 at Sadr.	1. Scarce. 2. Dying for want of fodder.	Wheat 13 seers.	Prospects of crops dependent on rain unfavourable and of those on canal irrigated lands favourable. Stock of grain unequal.	Sugarcane and cotton being sown.

GENERAL REMARKS.

Rain has fallen in Delhi, Amritsar, Siálkot, Lahore, Mooltan, Ráwalpindi, Shahpur, Gujránwála and Dera Ismail Khan. Prices falling in Umballa Rohtak and Gurgaon, and high elsewhere. Harvesting of some spring crops commenced in Gurgaon. Ploughings and sowings of extra spring crops as well as of sugarcane and indigo going on. Condition and prospect of irrigated crops are fair to average in some districts and of unirrigated crops dependent on rain are generally poor. Stock of food grain is reported insufficient in Siálkot, Ráwalpindi, and Dera Ismail Khan. More rain wanted in certain districts. Cattle are out of condition in Hissar, Siálkot, Shahpur and Gurgaon; they are dying for want of fodder in parts of Lahore and Gujránwála. In other districts their condition is fair. Fodder scarce throughout the Province.

Note.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 17th March 1896.

W. A. CRAWFORD ROE, F.R.C.S., Brigade-Surgeon-Lieut.-Colonel,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 29TH FEBRUARY 1896.

Births and Deaths in Municipal Towns.—In the 45 large Municipal towns 896 births were registered (445 males and 451 females), giving a birth-rate of 33 per *mille* of population; 834 deaths were registered (413 males and 421 females), giving a death-rate of 31 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,

Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 17th March 1896.

					Miscellaneous ...	−*4,634*	3,643	2,807	
...	49,056	...	...	...	...	668	49,056	58,933	
Umballa ...	645		·54	·37	Wheat ...	5,547	244,518	66,514	The crop generally is being successfully matured, though with great difficulty. The area which has entirely failed will probably be under 1 per cent., another 20 per cent. will probably not have average yield, but the general result has been very satisfactory. The Eastern Jumna Canal was closed for a week, which greatly helped this canal. The rainfall has been very scanty all this crop. There has been damage reported in several places from hail.

LAHORE, THURSDAY, MARCH 26, 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 24th MARCH 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Very scarce. 2. Getting lean.	High. Wheat 14 seers. Bájra 14 seers. Beghar 23 seers.	Crops dried up. Canal and flooded crops ready for sickle. Grain stock sufficient.	...
2	Delhi ...	...	1. Scarce.	High. Wheat 14½ seers. Bájra 15 seers.	Condition of crops poor. Stock of food grain sufficient.	...
3	Umballa ...	0·04	1. Insufficient (application for opening Kalesar forest for grazing has been made).	Wheat 15 to 17 seers. Maize 21 to 22 seers.	Prospects of unirrigated crops generally speaking indifferent except in parts. Stock of food grain sufficient at present.	...
4	Jullundur ...	...	1. Sufficient. 2. Good.	High. Wheat 16 seers. Maize 22 seers.	Condition of irrigated crops fair and that of unirrigated poor to fair. Crops being watered by wells for want of rain.	...
5	Ferozepore ...	...	1. Scanty.	Normal. Wheat 17 seers. Maize 21 seers.	Condition of crops fair.	...

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Spring.	Prospects of Autumn.
6	Amritsar ...	...	1. Insufficient.	Rising. Wheat 15 seers. Maize 21 seers.	Irrigated crops in fair condition and unirrigated poor. Extra spring sowing commenced.	...
7	Siálkot ...	...	1. Insufficient. 2. Poor.	Wheat 13 to 14 seers. Maize 17 to 18 seers.	Crops promising. Stock of grain very small. Ploughing for extra spring crops going on.	Ploughing for autumn crops commenced.
8	Lahore ...	0·28 at Sadr. 0·21 in Chunián. 0·29 in Sharakpur.	1. Very scarce. 2. Dying for want of foddder especially in one tahsil.	High. Wheat 14 to 16 seers. Maize 17 to 18 seers.	Reaping of rapeseed and sowing of tobacco, water melon and onion in progress. Irrigated crops average and unirrigated poor for want of rain.	...
9	Mooltan ...	...	1. Scarce. 2. Fair.	High. Wheat 13½ to 16 seers. Maize 19 seers.	Crops in good condition. Sidhnái Canal flowing.	...
10	Ráwalpindi ...	0·19 in Murree.	1. Insufficient.	High. Wheat 13¾ seers. Bájra 15½ seers. Maize 18 seers.	Prospects below average. Stock of grain insufficient.	...
11	Shahpur ...	...	1. Scarce. 2. Poor.	Above normal. Wheat 12 to 14 seers. Bájra 15 to 16 seers.	Food grains are imported into one tahsil from neighbouring districts. Rain needed.	...
12	D. I. Khan ...	0·03 at Sadr. 0·04 in Tánk. 0·20 in Kuláchi. 0·02 in Bhakkar.	1. Scarce. 2. Fair.	High. Wheat 15 seers. Bájra 18 seers.	Condition of standing crops improved. Hail reported in certain villages of three tahsils, but no damage done to crops. Ploughings and sowings of extra spring crops in progress.	...
13	Peshâwar ...	0·61	1. Scarce.	High. Wheat $13\frac{5}{16}$ seers. Maize $21\frac{1}{4}$ seers.	Standing crops in fair condition. Stock of food grain fair.	...
14	Rohtak ...	...	1. Limited. 2. Fair.	Falling. Wheat 15 seers. Jowár 14½ seers.	Irrigated crops average; unirrigated bad. Stock of food grain sufficient.	Cultivation of indigo and sugarcane in progress.
15	Gurgaon ...	Slight rainfall at Sadr.	1. Scarce. 2. Suffering from want of fodder.	Falling.	Harvesting operations on dry land in progress.	Sugarcane and indigo sowing going on.
16	Karnál ...	Slight rainfall in one tahsil.	1. Scarce.	Wheat 15 seers. Gram 20 seers. Maize 20 seers.	Reaping of rapeseed, barley and gram in canal villages commenced. Outturn average.	Sugarcane being sown on irrigated land.
17	Gujránwála ...	0·55 at Sadr. 0·66 in Háfizabad.	1. Scarce. 2. Dying for want of fodder.	Falling.	Recent rain has improved the prospects of crops to a certain extent. Stock of grain unequal.	Vegetable, cotton and sugarcane being sown.

GENERAL REMARKS.

Rain has fallen in Umballa, Lahore, Ráwalpindi, Dera Ismail Khan, Peshâwar, Gurgaon, Karnál and Gujránwála. Prices normal in Ferozepore; rising in Amritsar; falling in Rohtak, Gurgaon and Gujránwála; high elsewhere. Harvesting of certain spring crops commenced. Ploughings and sowings of extra spring crops as well as of indigo, sugarcane and cotton going on. Rain still wanted in some districts. Condition and prospects of crops are fair in irrigated tracts and average to poor in unirrigated. Outturn is said to be an average one in Karnál. Hail fell in certain villages of three tahsils of Dera Ismail Khan, but no damage is reported to have been done to crops. Cattle are said to be out of condition in Hissar, Siálkot, Shahpur and Gurgaon. They are still dying for want of fodder in parts of Lahore and Gujránwála. Fodder is said to be scarce in all districts except Jullundur.

PESTONJI, *Supdt.,*

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 24th March 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 7TH MARCH 1896.

Births and Deaths in Municipal Towns.—In the 43 large Municipal towns 924 births were registered (462 males and 462 females), giving a birth-rate of 40 per *mille* of population; 746 deaths were registered (402 males and 344 females), giving a death-rate of 32 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,
Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE,
The 24th March 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

Seventy-five thousand seven hundred and one births were registered in the Province during the month of January 1896, giving a birth-rate of 43 per mille of population. Of the total number of births, 39,671 were boys and 36,030 were girls.

The total number of deaths registered from all causes in the Province during the month of January 1896 was 88,342 against 73,990 in the previous month and 54,958 in the corresponding month of the past year, giving an annual death-rate of 51, 42 and 31 per mille of population per annum respectively.

There were no deaths registered under the head of cholera.

From small-pox 3 274 deaths were registered against 2,088 in the previous month and 457 in the corresponding month of the past year; fevers 61,134 against 49,415 and 37,246; dysentery and diarrhœa 908 against 1,433 and 942.

During the month there were 16 deaths registered from suicide against 15 in the past month wounding 39 against 37; accidents 270 against 269; snake-bite and killed by wild beasts 17 against 21 and from all other causes 22,684 against 20,712 and 15,988 in the corresponding month of the past year.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 31st MARCH 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Scarce; stock insufficient. 2. Getting lean.	High. Wheat 14 seers. Bájra 14 seers. Beghar 22 seers.	Crops dependent on rain dried up. Canal and flooded crops are being reaped. Grain stock sufficient.	...
2	Delhi ...	0·03 at Sadr. 0·05 in Sonepat.	1. Scarce. 2. Fair.	High. Wheat 14 seers. Bájra 15 seers.	Reapings have begun. Prospects below average. Stock of food-grain sufficient.	...
3	Umballa ...	0·04 at Sadr.	1. Insufficient; stock insufficient in parts.	Wheat 15 to 17 seers. Maize 22 seers.	Prospects of unirrigated crops generally speaking indifferent, except in two tahsils. Stock of food-grain sufficient.	...
4	Jullundur ...	0·04 in Nakodar.	1. Sufficient.	High. Wheat 16 seers. Maize 22 seers.	Condition of irrigated crops fair and that of unirrigated, poor to fair. Stock of grain sufficient.	Ploughing for cotton and sugarcane commenced.
5	Ferozepore ...	0·14 at Sadr. 0·03 in Zíra. 0·20 in Fázilka. 0·08 in Nathána.	1. Scanty.	Normal. Wheat 17 seers. Maize 21 seers.	Condition of crops fair.	...

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Spring.	Prospects of Autumn.
6	Amritsar ...	0·44 Average.	1. Insufficient.	Wheat 16 seers. Maize 22 seers.	Crops much benefitted. Crops on irrigated land average and on unirrigated land poor. No scarcity of food-grain anticipated.	...
7	Siálkot ...	0·56 Average.	1. Sufficient. 2. Improving.	Wheat 13 to 14½ seers. Maize 17 to 18 seers.	Stock of grain very small. Crops promising.	Sugarcane and cott[illegible] being sown.
8	Lahore ...	0·04 in Chúnián. 0·07 in Sharakpur.	1. Very scarce. 2. Dying for want of fodder in parts.	High. Wheat 13 to 14 seers. Maize 17 to 18 seers.	Irrigated crops average and those dependent on rain poor. Sowings of tobacco, water-melons and onions in progress.	...
9	Mooltan ...	0·20 at Sadr. 0·29 in Mailsi. 0·54 in Lodhrán. 0·19 in Shujabad. 0·19 in Kabirwála.	1. Scarce in parts. 2. Good.	High. Wheat 13½ to 16 seers. Jowár 19 seers.	Condition of crops good. Barley being cut. Sidhnai Canal flowing.	...
10	Ráwalpindi ...	0·49 at Ráwalpindi. 0·52 in Pindigheb. 0·35 in Fatahjang. 0·48 in Attock. 0·34 in Gujar Khan. 0·55 in Kahúta. 1·80 in Murree.	1. Scarce; stock insufficient.	High. Wheat 13¼ seers. Bájra 15 seers. Maize 18½ seers.	Prospects below average. Stock of grain insufficient.	...
11	Shahpur ...	Partial rainfall.	1. Scarce. 2. Poor.	Wheat 13 to 14 seers. Bájra 15 to 16 seers.	Stock of food-grains not sufficient in one tahsíl. Rain wanted.	...
12	D. I. Khan ...	1·14 at Sadr. 0·47 in Tánk. 0·42 in Kuláchi. 0·81 in Bhakkar. 0·58 in Leiah. 0·63 in Sheikh Buddin.	1. Insufficient. 2. Fair.	Normal. Wheat 15½ seers. Bájra 18 seers.	Condition of standing crops improved. Hail reported in parts, but no damage done to crops. Ploughings and sowings of extra spring crops in progress.	...
13	Peshāwar ...	0·32	1. Insufficient. 2. Good.	High. Wheat $13\frac{13}{16}$ seers. Maize $21\frac{7}{16}$ seers.	Standing crops in fair condition. Fair stock of food-grain in the district.	...
14	Rohtak ...	0·08 in Sámpla.	1. Limited.	Wheat 15 seers. Jowár 14½ seers.	Irrigated crops average; unirrigated bad. Stock of food-grain sufficient.	Cultivation of indigo, sugarcane and cotton in progress.
15	Gurgaon ...	...	1. Scarce. 2. Poor.	Slightly falling.	Harvesting in progress on irrigated lands. Outturn average in irrigated lands and poor on unirrigated. Stock of food grain sufficient.	Sugarcane and indigo sowing continue in parts.
16	Karnál ...	...	2. Dying in parts from want of fodder and overwork.	Falling in parts of district.	Reaping of wheat, gram, &c., in progress.	
17	Gujránwála ...	0·22 at Sadr. 0·92 in Khangah Dogran.	1. Scarce. 2. Bad. Many died for want of fodder.	...	Prospects of crops fair. No damage up to present. Stock of grain unequal.	Vegetable, sugarcane and cotton being sown.

GENERAL REMARKS.

Rain has fallen in all districts except Hissar, Gurgaon and Karnál. Prices normal in Ferozepore and Dera Ismail Khan, and high elsewhere. Harvesting of certain spring crops commenced. Ploughings and sowings of extra spring crops and sugarcane, cotton and other autumn crops in progress. More rain wanted in Shahpur. Condition and prospects of standing crops are generally reported average in irrigated lands and poor in unirrigated lands. Stock of food-grain is said to be insufficient in Siálkot, Ráwalpindi, Gujránwála and parts of Shahpur. Hail fell in parts of Dera Ismail Khan, but no damage has been done to crops. Catte are still in poor condition in Hissar, Gurgaon and Shahpur. They are dying for want of fodder in parts of Karnál, Lahore and Gujránwála; elsewhere they are in good condition. Fodder scarce in all districts except Jullundur and Siálkot. Stock of fodder is said to be insufficient in some districts.

PESTONJI, *Supdt.*,

During February the weather, with the exception of two short periods, was continuously in a feebly unsettled state. A series of depressions entered north-west India during the month, some of which actually crossed the Punjab and all of which exercised more or less influence on the general weather of the Province. These depressions were generally of slight intensity and the weather was only feebly disturbed compared with the state of unsettledness which sometimes occurs during the winter, but the disturbances succeeded each other quickly so that cloudy showery weather was a very constant condition.

The reports of the 1st showed a well-defined depression over Sind, north-east and south-easterly winds over the Punjab, and rain at all the eastern and northern stations, Pesháwar, Cherát, Simla and Delhi receiving over 1 inch of rain. During the two following days the weather gradually recovered from the effects of the storm, but rain and snow on the hills and rain on the plains were fairly general during this period, Simla and Murree reporting over 1 inch. A rapid fall of temperature occurred on the 3rd. During the 4th and 5th pressure was steady, the weather fine, and temperature low. On the following day a slight depression appeared near Sirsa occasioning light cyclonic winds on the plains and south-east gales on the hills. Snow began to fall at Murree at 8 A.M. and extended all over the hills during the day, while temperature was high. On the 7th the depression had disappeared, northerly winds had set, and temperature was falling. During the next five days the weather was quiet and there was no rain or snow of any importance. On the 13th a change commenced. The barometer fell in Balúchistán and the weather clouded over in the Punjab. On the 14th the barometer was falling over the whole of this Province, the sky was overcast and snow was beginning in Kashmir, while, as is usual before the advance of a depression, the mean temperature was high. Between the 15th and 18th the weather was feebly unsettled with light local showers, but the temperature did not fall and the weather was only slightly disturbed. Between the 19th and 23rd the weather was fine and quiet without showers and with a high mean temperature. The abnormal warmth increased up to a maximum on the 23rd, when the excess was very large. On the following day, the 24th, a small depression appeared over the Sourthern Punjab, the weather became cloudy and showery, and temperature began to fall. Showery weather continued during the 25th, 26th and 27th with a falling thermometer, but on the 28th the showers ceased and temperature rose. On the 29th a fresh depression was advancing, and the usual antecedent conditions were reported, *viz.*, overcast skies, variable winds and an excessively high temperature.

Barometer and Winds.—As mentioned above, the barometer has been very unsteady during the month and frequent oscillations of pressure have passed across the Province. Most of the depressions have affected mainly the southern portions of the Punjab, and the mean pressure of the month has been in defect of the normal at Delhi, Sirsa and Mooltan. Elsewhere the variations have been small. North-westerly and north-easterly winds have been experienced except on the hills, where the prevailing direction was south-easterly.

Temperature.—The mean temperature has been excessive at nearly all stations. The greatest abnormal excess was at Lahore (2°·6), but at Sirsa, Ráwalpindi, Mooltan and Murree the variation exceeded 2°. The night temperatures were more generally excessive than the day temperatures, and the amount of the excess was in most cases decidedly larger.

C.

The table gives (1) the variation from the normal of the mean temperature of the Punjab for each day of the month, and (2) the lowest minimum temperature registered in the Province on each day with the stations at which they were recorded :—

Date.	Variation from normal of mean temperature of Province during the previous 24 hours.	Lowest minimum temperature recorded in plains.	Station at which recorded.	Date.	Variation from normal of mean temperature of Province during the previous 24 hours.	Lowest minimum temperature recorded in plains.	Station at which recorded.

" 15th ...	+ 1·8	43·5	Dera Ismail Khan.				

During the first half of the month the mean temperature was very unsteady and the variations from above to below the normal followed each other very quickly. After the 14th, however, a change set in and the mean temperature was steadily excessive up to the close of the month. The greatest excess was on the 22nd and 23rd. A cold period occurred between the 9th and 11th, but except at this time the minima were in no way remarkable.

Humidity and Cloud.—The amount of humidity and of cloud were both moderate.

Rain—Fell at all stations during the month, the amount received ranging from 4·63″ at Simla to 0·62″ at Mooltan, Dera Ismail Khan and Sirsa. At Minimarg (Kashmir) the amount was much greater, but there are no normal amounts for this station, so that it is uncertain whether the fall was heavier or lighter than usual. In the Punjab the rainfall was generally larger than usual, and at Pesháwar, Siálkot and Simla the excess exceeded 1·00″. The only serious deficiency was at Ráwalpindi, where the average fall for February is 2·41″ and the actual fall for the month under review was only 1·04″.

LAHORE, THURSDAY, APRIL 9, 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 7th APRIL 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Very scarce; fodder stocks insufficient. 2. Out of condition.	High. Wheat 14 seers. Bájra 14 seers. Beghar 22 seers.	Unirrigated crops failed. Canal crops are being cut. Outturn below average. Grain stock sufficient.	...
2	Delhi ...	...	1. Not scarce. 2. Fair.	Low. Wheat 14½ seers. Bájra 15 seers.	Spring reaping in progress. Prospects below average. Stock of food-grain sufficient.	...
3	Umballa ...	...	1. Very scanty.	Wheat at 14½ to 16 seers. Maize 21 seers.	Prospects of unirrigated spring crops generally speaking indifferent, except in Rupar and Kharar.	...
4	Jullundur ...	0·02 in Nakodar.	1. Sufficient.	High. Wheat 16 seers. Maize 22 seers.	Condition of spring crops fair, and of those dependent on rain poor to fair. Stock of grain sufficient.	Ploughing for cotton and sugarcane in progress.
5	Ferozepore ...	...	1. Scanty.	Normal. Wheat 17 seers. Maize 21 seers.	Condition of crops fair.	...

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Spring.	Prospects of Autumn.
6	Amritsar ...	0·01 Average.	1. Scarce.	Wheat at 16 seers. Maize 22 seers.	Extra spring sowings in progress. Crops on irrigated land average, on unirrigated poor. Zamíndárs' stock of food-grain low, merchants' stock sufficient.	Autumn sowings in progress.
7	Siálkot ...	0·18 Average.	1. Sufficient. 2. Improving.	Wheat 13 to 14 seers. Wheat, red, 13¾ to 14½ seers. Maize 17 to 18 seers.	Condition of crops good. Stock of grain insufficient. Spring harvesting of barley commenced.	Autumn sowings of cane and cotton continued.
8	Lahore ...	...	1. Very scarce. 2. Dying for want of fodder in parts.	Continue high. Wheat at 15 to 18 seers. Maize 19 to 21 seers.	Reaping of rapeseed is over and barley in progress. Sowings of water-melons, tobacco, and vegetables in progress. Irrigated crops average and crops dependent on rain poor for want of rain.	Sowings of cotton in progress.
9	Mooltan ...	...	1. Scarce in parts. 2. Good.	High. Wheat, 1st quality, 13½ seers. Jowár 13¾ seers.	Condition of spring crops good. Sidhnai canal flowing; barley being cut.	...
10	Ráwalpindi ...	0·50 in Attock. 0·13 in Gujar Khan. 0·16 in Kahúta. 0·60 in Murree.	1. Insufficient.	High. Wheat 11 to 16 seers. Bájra 14 to 18 seers. Maize 16 to 20 seers.	Spring prospects below average. Cotton, moth, melons and water-melons being sown. Stock of grain insufficient.	Autumn crops and cotton being sown.
11	Shahpur ...	Slight rain in parts of tahsil Bhera.	1. Scarce.	High. Wheat 13 to 14 seers. Bájra 16 seers.	Stock of food-grain insufficient in tahsil Khusháb. Crops in poor condition.	...
12	D. I. Khan ...	0·05 at Sadr. 0·11 in Tánk. 0·19 in Bhakkar.	1. Sufficient. 2. Fair.	High. Wheat 15 seers. Bájra 17½ seers.	Condition of standing spring crops above average. Harvesting of gram, barley and mustard commenced. Ploughings and sowings of extra spring crops in progress.	...
13	Pesháwar ...	...	1. Insufficient. 2. Good.	Wheat, maize, jowár and gram continue high. Wheat at 13 $\frac{13}{16}$ seers. Maize at 21½ seers.	Standing crops in fair condition. Fair stock of food-grain in this district.	...
14	Rohtak ...	...	1. Insufficient. 2. Good. Cattle becoming thin owing to limited supply of fodder.	Wheat at 15 seers. Jowár 14½ seers.	Irrigated crops average; unirrigaed bad. Stock of food-grain sufficietnt.	Sugarcane and cotton crops being sown.
15	Gurgaon ...	Slight rain in Ferozepore.	1. Poor. The harvesting of spring crops has enabled the cattle to get a little more in the way of grazing.	Slightly falling.	Spring cutting in progress.	Sugarcane and indigo sowings completed.
16	Karnál ...	...	1. Dying in parts for want of fodder and over-work.	Falling in parts.	Reaping of wheat, gram, &c., in progress.	...
17	Gujránwála ...	...	1. Scarce, locally unprocurable.	...	Prospects and probable outturn of unirrigated harvest bad; canal irrigated good; of wells under average. Stock of grain reported to be getting very low.	Cane and cotton being sown.

GENERAL REMARKS.

Rain has fallen in Jullundur, Amritsar, Siálkot, Ráwalpindi, Shahpur, Dera Ismail Khan and Gujránwála districts. Prices normal in Ferozepore, low in Delhi, and high elsewhere. Canal crops are beimg cut in Hissar. Reaping of spring crops in progress in Delhi and Gurgaon. Ploughing of cotton and sugarcane in progress in Jullundur, Siálkot, Rohtak and Gujránwála, sowings of extra spring and autumn crops in Amritsar, of water-melons, tobacco, barely and cotton in Lahore, and of cotton in Ráwalpindi in progress. Sugarcane and indigo sowings completed in Gurgaon. Condition of spring crops is good in Mooltan. Crops dependent on rain have failed in Hissar. Prospects and condition of spring crops are generally reported average in irrigated and below average in unirrigated lands. Stocks of food-grain are said to be insufficient in Siálkot, Ráwalpindi, Gujránwála and parts of Shahpur. Cattle are in poor condition in Hissar and Gurgaon. They are dying for want of fodder in parts of Lahore, Karnál and Gujránwála. Fodder scarce in all districts except Jullundur, Siálkot and Dera Ismail Khan. Stock of fodder is said to be insufficient in some districts.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

Sixty-five thousand and thirty-six births were registered in the Province during the month of February 1896, giving a birth-rate of 40 per mille of population. Of the total number of births, 34,261 were boys and 30,775 were girls.

The total number of deaths registered from all causes in the Province during the month of Fberuary 1896 was 57,478 against 88,342 in the previous month and 42,182 in the corresponding month of the past year, giving an annual death-rate of 35, 51 and 27 per mille of population per annum respectively.

There were no deaths registered under the head of cholera.

From small-pox 3,563 deaths were registered against 3,274 in the previous month and 321 in the corresponding month of the past year; fevers 36,422 against 61,134 and 27,774; dysentery and diarrhœa 575 against 908 and 536.

During the month there were 23 deaths registered from suicide against 16 in the past month; wounding 46 against 39; accidents 241 against 270; snake-bite and killed by wild beasts 20 against 17; and from all other causes 16,588 against 22,684 and 13,198 in the corresponding month of the past year.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 14th APRIL 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Very scarce; fodder stock insufficient. 2. Very lean.	High. Wheat 14 seers. Bájra 14 seers. Beghar 24 seers.	Canal crops being reaped. Outturn below average. Grain stock sufficient.	...
2	Delhi ...	...	1. Not scarce. 2. Fair.	Normal. Wheat 14 seers. Bájra 15 seers.	Spring reaping in progress. Prospects below average. Stock of food-grain sufficient.	...
3	Umballa ...	...	1. Green grass very scanty.	Wheat at 14½ to 16½ seers. Maize 20½ seers.	Reaping proceeding briskly, but outturn of unirrigated spring crops generally speaking insufficient, except at Rupar and Kharar.	...
4	Jullundur ...	...	1. Sufficient. 2. Good.	High. Wheat 17 seers. Maize 22 seers.	Extra spring sowing and spring reaping commenced. Stock of grain sufficient.	...
5	Ferozepore ...	...	1. Scanty.	Normal. Wheat 17 seers. Maize 21 seers.	Condition of crops fair. Stock of food-grain insufficient.	...

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of	
					Spring.	Autumn.
6	Amritsar ...	...	1. Dry fodder sufficient, green fodder scarce.	High. Wheat 15¾ seers. Maize 20 seers.	Spring harvesting and extra spring sowing commenced.	Autumn sowings commenced.
7	Siálkot ...	...	1. Insufficient. 2. Good.	Wheat, white, 13 to 14 seers. Wheat, red, 13¾ to 14¼ seers. Maize 15 to 17 seers.	Stock of grain insufficient. Spring barley being harvested.	Autumn sowings in progress.
8	Lahore ...	0·05 at Lahore.	1. Very scarce in the unirrigated tracts.	Continue high. Wheat at 16 to 18 seers. Maize 16 seers.	Reaping of spring crops in progress. Well land crops below average; irrigated crops average; and unirrigated crops poor. Grain stock sufficient with zamíndárs and sáhookárs of canal-irrigated villages, insufficient in unirrigated tracts.	Sowings of cotton and other crops in progress.
9	Mooltan ...	...	1. Scarce. 2. Good.	High. Wheat, 1st quality, 13¾ seers. Jowár 15 seers.	Condition of spring crops good. Wheat crop being cut. Sidhnai flowing	Autumn sowings commenced.
10	Ráwalpindi ...	0·70 at Murree.	1. Insufficient.	High. Wheat 12½ to 15 seers. Bájra 14 to 18 seers. Maize 16½ to 20 seers.	Spring prospects below average.	—
11	Shahpur ...	Slight rain in tahsíl Bhera.	1. Scarce.	Above normal. Wheat 13 to 15 seers. Bájra 16 seers.	Stock of food-grain not sufficient, except in tahsíl Bhera. Spring harvesting commenced.	—
12	D. I. Khan ...	0·15 at Sadr.	2. Fair.	High. Wheat 14 seers. Bájra 17½ seers.	Condition of standing spring crops above average. Harvesting of gram, barley and mustard in progress. Ploughings and sowings of extra spring crops in progress. Stock of grain insufficient.	—
13	Pesháwar ...	...	1. Insufficient. 2. Good.	Prices of wheat, maize, jowár and gram continue high. Wheat at 14½ seers. Maize at 21¾ seers.	Standing crops in fair condition. Fair stock of food-grain in this district.	...
14	Rohtak ...	...	2. Cattle getting thin owing to limited supply of fodder.	Wheat at 15 seers. Jowár 15 seers.	Irrigated crops average; unirrigated bad. Stock of food-grain sufficient.	Sugarcane being sown.
15	Gurgaon ...	...	...	...	Spring crops harvested and being winnowed. The yield on rain land much below average.	...
16	Karnál ...	...	1. Scarce.	Falling. In parts.	Reaping of gram and rape-seed completed. Wheat under sickle.	...
17	Gujránwála ...	0·90 at Sadr.	1. Scarce, locally unprocurable.	Falling.	Prospects and probable outturn of unirrigated harvest bad; of wells under average. Stock of grain reported to be getting low.	Cane and cotton being sown.

GENERAL REMARKS.

Rain has fallen in Ráwalpindi, Shahpur and Dera Ismail Khan districts. Prices normal in Delhi and Ferozepore, falling in Gujránwála, and high elsewhere. Canal crops being reaped in Hissar. Spring reaping in progress in Delhi, Umballa, Amritsar, Jullundur, Lahore, Mooltan, Shahpur and Gurgaon. Extra spring sowings commenced in Jullundur and Amritsar. Autumn sowings in progress in Amritsar, Siálkot and Mooltan, also sowings of cotton and other crops in Lahore, of sugarcane in Rohtak, of cane and cotton in Gujránwála, and harvesting of gram, barley and mustard in Dera Ismail Khan. Condition of spring crop is good in Mooltan. Condition and prospects of spring crops are generally reported average in irrigated and below average in unirrigated tracts. Stock of grain is said to be insufficient in Ferozepore, Siálkot, Dera Ismail Khan, Gujránwála and in parts of Lahore and Shahpur. Cattle are in poor condition in Hissar and Gurgaon. Fodder scarce in all districts except Delhi, Jullundur and Ráwalpindi. Stock of fodder is said to be insufficient in some districts.

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, APRIL 23, 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 21st APRIL 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Very scarce ; fodder stock insufficient. 2. Cattle dying of starvation.	High. Wheat 14$\frac{1}{3}$ seers. Bájra 14$\frac{1}{2}$ seers. Beghar 22 seers.	Canal crops being harvested. Grain stock sufficient.	...
2	Delhi ...	...	1. Scarce. 2. Fair.	High. Wheat 15 seers. Bájra 14 seers.	Reaping over, yield much below average. Stock of food-grain sufficient.	...
3	Umballa ...	Water for cattle available from wells.	1. Green grass very scanty. Dry grass sufficient.	Wheat 15 to 15$\frac{1}{8}$ seers. Gram 20 to 20$\frac{1}{2}$ seers.	Spring crops generally being cut. Melon crop stands in need of rain.	Sugarcane crops stand in need of rain.
4	Jullundur ...	Slight rain in Nakodar and Phillour Tahsils.	1. Sufficient. 2. Good.	High. Wheat 17 seers. Maize 22 seers.	Extra spring sowing and spring reaping in progress. Stock of grains sufficient.	...
5	Ferozepore ...	...	1. Sufficient.	Normal. Wheat 17 seers. Maize 22 seers.	Crops are being reaped. Stock of food-grains insufficient.	...

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Spring.	Prospects of Autumn.
6	Amritsar ...	0·02 average rain.	1. Dry fodder sufficient, green fodder scarce.	High. Wheat 16 seers. Maize 22 seers.	Springs harvesting and extra spring sowings in progress.	Autumn sowings in progress.
7	Siálkot ...	0·15 average rainfall.	1. Sufficient. 2. Good.	Wheat, white, 12¾ to 13¾ seers. Wheat, red, 13 to 14 seers. Maize 17 to 18 seers.	Stock of grain insufficient. Spring crops being harvested.	Autumn sowings continuing.
8	Lahore ...	...	1. Very scarce.	Continue high. Wheat at 16 to 18 seers Maize 17 to 18 seers.	Grain stock sufficient with zamíndárs and sáhokárs of canal-irrigated tracts and insufficient in unirrigated tracts. Reaping of spring crops in progress. Well land crops below average; irrigated crops average; unirrigated poor. Extra spring crops promise well.	Sowing of cotton and other crops in progress.
9	Mooltan ...	Sidhnai Canal flowing.	1. Scarce. 2. Good.	High. Wheat, 1st quality, 13¾ seers. Wheat, 2nd quality, 15 seers.	Spring crops being cut.	Autumn sowings commenced.
10	Ráwalpindi ...	0·31 in Ráwalpindi. 0·12 in Gujar Khan 0·14 in Kahúta. 1·10 in Murree.	1. Insufficient.	High. Wheat 12 to 15 seers. Bájra 14 to 18 seers. Maize 16 to 20 seers.	Spring prospects below average.	...
11	Shahpur ...	...	1. Scarce. 2. Out of condition.	Above normal.	Stock of food-grains exhausted in tahsíls Shahpur and Khusháb. Wheat, barley and gram being harvested.	...
12	D. I. Khan ...	...	1. Sufficient. 2. Fair.	High. Wheat 16 seers. Bájra 17½ seers.	Harvesting of spring crops in progress. Strong winds continued blowing for four days and damaged to a certain extent the standing wheat crop. Condition of extra spring crops good.	...
13	Peshâwar ...	...	1. Insufficient. 2. Good.	Prices of wheat, maize, jowár and gram continue high, of other crops normal. Wheat 13 15/16 seers. Maize 20 13/16 seers.	Standing crops have suffered from high winds. Stock of food-grain fair.	...
14	Rohtak ...	...	1. Dear. 2. Cattle getting thin owing to limited supply of fodder.	Wheat 15 seers. Jowár 15 seers.	Irrigated crops average; unirrigated harvested outturn inferior. Stock of food-grain sufficient.	Sugarcane, indigo and cotton being sown.
15	Gurgaon ...	...	1. Scarce in parts. 2. Poor.	...	Spring harvested, except on some canal lands in Tahsíl Nuh. Food stock sufficient.	Sugarcane fields are being weeded.
16	Karnál ...	...	1. Scanty. 2. Good.	Wheat 14 to 15 seers. Jowár 18 seers. Maize 18 seers.	Spring crops being harvested, unirrigated crops poor, and irrigated average.	...
17	Gujránwála ...	0·15 in Khangah Dográn.	1. Not so scarce as before. Dry fodder is now procurable.	...	Prospects and probable outturn of unirrigated harvest bad; of canal-irrigated good; and of wells under average. Stocks of grain unequal.	Cane and cotton being sown.

GENERAL REMARKS.

Rain has fallen in Jullundur, Amritsar, Siálkot, Ráwalpindi and Gujránwála districts. Prices normal in Ferozepore, and high elsewhere. Canal crops being harvested in Hissar. Spring crops generally being cut throughout the Provine. Extra spring sowings in progress in Jullundur and Amritsar, and autumn sowings in Amritsar, Siálkot and Mooltan. Sowings of cotton and other crops in Lahore, sugarcane, indigo and cotton in Rohtak, and cane and cotton in Gujránwála in progress. Sugarcane fields are being weeded in Gurgáon. Melon and sugarcane crops stand in need of rain in Umballa. Condition of extra spring crop is good in Dera Ismail Khan. Condition and prospects of spring crops are generally reported average in irrigated and below average in unirrigated tracts. Stock of food-grain is said to be insufficient in Ferozepore, Siálkot, Gujránwála and parts of Shahpur. Standing crops have suffered from high winds in Dera Ismail Khan and Peshâwar. Cattle are in poor condition in Hissar, Shahpur, Rohtak and Gurgaon. They are dying of starvation in Hissar. Fodder scarce in all districts except Jullundur, Ferozepore, Siálkot and Dera Ismail Khan. Stock of fodder is said to be insufficient in some districts.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 28th APRIL 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Very scarce and its stock insufficient. 2. Cattle dying of starvation.	High. Wheat 14½ seers. Bájra 14 seers. Bejar 20 seers.	Canal crops being threshed. Grain stock sufficient.	...
2	Delhi ...	...	1. Scarce. 2. Fair.	High. Wheat 15 seers. Bájra 13 seers.	Stock of food-grain sufficient.	...
3	Umballa ...	...	1. Dry fodder sufficient. 2. Cattle watered from wells in places owing to scarcity of water in tanks.	Wheat 15¾ seers. Gram 20½ seers. Maize 21½ seers.	Spring threshing in progress.	...
4	Jullundur ...	...	1. Sufficient. 2. Good.	High. Wheat 17 seers. Maize 22 seers.	Extra spring sowings completed. Spring threshing commenced. Stock of grain sufficient.	...
5	Ferozepore ...	...	1. Sufficient.	Normal. Wheat 17 seers. Maize 22 seers.	Crops are being reaped. Stock of grain insufficient.	...

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Spring.	Prospects of Autumn.
6	Amritsar ...	...	1. Dry fodder sufficient; green fodder scarce. 2. Good.	High. Wheat 16½ seers. Maize 20 seers.	Spring harvesting almost completed. Extra spring crops in good condition. Stock of food-grain sufficient.	Autumn crop in good condition.
7	Siálkot ...	...	1. Sufficient. 2. Good.	Wheat, white, 12¾ to 13¾ seers. Maize 17 to 18 seers.	Stock of grain insufficient. Spring harvesting of crops in progress.	Sowings of cotton and sugarcane nearly completed.
8	Lahore ...	...	1. Very scarce. 2. Good.	Continue high. Wheat 16 to 18 seers. Maize 17 to 18 seers.	Well land and irrigated crops average and unirrigated poor. Extra spring crops promise well. Reaping of spring crops in progress. Grain stock sufficient with zamíndárs and sáhúkárs of canal-irrigated villages, but insufficient in other parts.	Sowings of cotton and other crops in progress.
9	Mooltan ...	Sidhnai flowing.	1. Scarce. 2. Good.	High. Wheat, 1st quality, 13½ seers. Wheat, 2nd quality, 14¾ seers. Jowár 14 seers.	Spring crops being cut.	Autumn sowings commenced.
10	Ráwalpindi ...	0·14 in Attock. 0·08 in Ráwalpindi. 0·04 in Kahúta. 0·19 in Murree.	1. Sufficient.	High. Wheat 12½ to 15 seers. Bájra 14 to 18 seers. Maize 17 to 20 seers.	Spring crops being cut. Stock of grain insufficient.	...
11	Shahpur ...	...	1. Scarce. 2. Poor.	Wheat 14 to 16 seers. Bájra 15 to 16 seers.	Wheat being imported from other districts. In Shahpur and Khusháb Tahsíls wheat being harvested.	...
12	D. I. Khan ...	...	1. Sufficient. 2. Fair.	High. Wheat 15 seers. Bájra 17 seers.	Harvesting of spring crops well in hand. Sowing of extra spring crops going on. Condition of standing extra spring crops good. Stock of food-grain insufficient.	...
13	Peshâwar ...	0·17 in Peshâwar.	1. Insufficient. 2. Good.	Prices of wheat, maize, jowár and gram continue high, and other crops normal. Wheat 14 $\frac{9}{16}$ seers. Maize 20 $\frac{13}{16}$ seers.	Condition of standing crops not good. Stock of food-grain fair.	...
14	Rohtak ...	...	2. Cattle getting thin owing to limited supply of fodder.	Wheat 15 seers. Jowár 15 seers.	Irrigated crops harvested; outturn average. No damage done to crops. Stock of food-grain sufficient.	Indigo and cotton being sown.
15	Gurgaon ...	...	1. Scarce in parts.	...	Spring crop harvested. Food stocks sufficient.	Jowár in Ferozepore and cotton in Nuh are being sown on canal lands.
16	Karnál ...	...	1. Scarce.	Falling. Wheat 15 and 16 seers. Gram 19 and 20 seers. Maize 18 seers.	Spring crops on irrigated land average and on unirrigated (dependent on rain) poor.	...
17	Gujránwála ...	...	1. Dry fodder is now obtainable but dear. Southern circles are importing from Ferozepore and elsewhere.	Falling.	Outturn of wheat except on well and canal-irrigated lands is poor. Stocks of food-grain unequally reported very low. Distress in bár circles is observed though not yet severe.	Cane and cotton being sown.

GENERAL REMARKS.

Slight rain has fallen in Ráwalpindi and Peshâwar Districts only. Prices normal in Ferozepore, falling in Karnál and Gujránwála, and high elsewhere. Canal crops being threshed in Hissar. Spring threshing in progress in Umballa and Jullundur. Extra spring sowings completed in Jullundur and in progress in Dera Ismail Khan. Autumn sowings commenced in Mooltan. Sowings of cane and cotton in progress in Gujránwála, of cotton and indigo in Rohtak, of cotton and other crops in Lahore, and of jowár and cotton in Gurgaon. Sowings of cotton and sugarcane in Siálkot and harvesting of spring crops in Amritsar nearly completed. Spring crops are being reaped in Ferozepore, Mooltan, Ráwalpindi and Dera Ismail Khan. Extra spring crop in good condition in Amritsar, Lahore and Dera Ismail Khan. Condition and prospects of spring crops are generally reported average on irrigated and below average on unirrigated tracts. Stock of food-grain is reported to be insufficient in Ferozepore, Siálkot, Ráwalpindi and Dera Ismail Khan. Cattle are in poor condition in Hissar and Shahpur; they are dying of starvation in Hissar. Fodder scarce in all districts except Jullundur, Ferozepore, Siálkot and Dera Ismail Khan. Stock of fodder is insufficient in some districts.

*Mean of 30 days.
† Do. 22 do.

Feebly unsettled weather continued during March over the Punjab. Showers were reported from some part of the Province on most days, but these showers were almost everywhere light and on most occasions were scattered and local, but on the 23rd showery weather was reported very generally throughout the Province and the only stations which reported no rain were the most southern stations, *viz.* Sirsa, Montgomery and Mooltan.

During the first four days of the month fine warm weather prevailed generally with no rain either on the plains or hills. On the 5th, however a depression appeared over Sind. This depression occasioned cloudy weather over the Punjab accompanied with a very decided rise of temperature This weather lasted during the 5th and 6th, but on the 7th the influence of the depression was more marked, the wind shifted to north-east and showers fell during thunderstorms at Lahore, Ráwalpindi, Murree and Simla, the showers being accompanied with a rapid fall of temperature. This depression ushered in a very unsettled period during which snow occurred in Kashmir and dust and thunderstorms giving slight rain were experienced over the Punjab both on the Hills and plains. These conditions lasted until the 13th. On the following day, the 14th, pressure was high and uniform all over the Province, the weather cleared, and three days fine weather without rain followed. On the 17th the sky commenced to cloud over and a fresh depression entered the south of the Province from Sind. This depression drew the wind into north-east again over the Punjab, and strong winds with scattered thunderstorms were experienced on the 18th. This depression disappeared quickly, and the weather on the 19th, 20th and 21st was fine generally. On the 22nd a slight depression was shown over the south-east of the Province and thunder showers were again reported from several stations, and on the 23rd the most generally showery weather of the month was reported. On the 24th the sky commenced to clear, and from that date up to the 29th fine to cloudy weather with a few local showers was experienced. On the 30th the weather was everywhere fine, but on the 31st pressure was again giving way briskly over Sind, the wind became northerly again and showers were experienced at the more northern stations.

Barometer and Winds.—Pressure was very unsteady during the month and the changes from day to day were frequently large, but on the mean of the month pressure differed but little from the normal and exhibited only a slight deficiency in the east and a slight excess in the west. The winds were more northerly and easterly than usual, the depressions which appeared over the south of the Province having constantly drawn the wind into a north-easterly direction. The force also was somewhat stronger than the normal over a considerable part of the Province.

Temperature.—The mean temperature at all stations exceeded the normal average, the abnormal excess being as much as 3°·7 at Murree and 3°·2 at Sirsa, whence it decreased and was only 0°·2 at Pesháwar. The day temperatures exceeded the normal average at all stations except Pesháwar and Lahore, and the night temperatures exceeded the normal everywhere. The excess in the minimum readings was attributable to the cloudy state of the sky on most occasions. The warmest place was Delhi with a mean temperature for the month of 77°·0 and the coolest place on the plains was Pesháwar with a mean monthly temperature of 64°·4. At Murree the mean maximum or day temperature for the month was as high as 66°·6 or nearly eight degrees higher than usual.

The following table shows the variation from the normal of the mean temperature of the Province on each day and the highest maximum temperature registered in the Province on each day with the station recording it :—

Date.	Variation from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded in previous 24 hours.	Station at which recorded.	Date.	Variation from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded in previous 24 hours.	Station at which recorded.

" 9th ...	+ 5·3	91·0	Do.	" 25th ...	— 2·7	89·0	Delhi.
" 10th ...	+ 2·2	91·5	Do.	" 26th ...	— 0·4	91·0	Do.
" 11th ...	+ 3·7	89·0	Do.	" 27th ...	+ 0·1	95·5	Do.
" 12th ...	— 3·3	91·0	Do.	" 28th ...	+ 1·7	99·1	Sirsa.
" 13th ...	— 4·2	85·5	Do.	" 29th ...	— 3·4	98·0	Delhi.
" 14th ...	— 4·1	83·8	Mooltan.	" 30th ...	+ 1·8	94·6	Sirsa.
" 15th ...	— 3·1	85·3	Do.	" 31st ...	+ 4·2	96·1	Do.
" 16th ...	— 1·0	86·2	Sirsa.				

The above shows that on most days of the month the mean temperature of the whole Province was in excess of the normal. On the 2nd the average excess was 1°·8, but during the next four days there occurred a steady rise of about 2° so that on the 6th the mean average temperature was as much as 10°·2 above the normal average. On this day the day temperatures were 10°·5 and the night temperatures 9°9 higher than usual. After the 6th a sudden fall occurred, but the mean temperature still remained above the normal until the 12th when a very rapid fall occurred and the mean fell to 3°·3 below the average. A cool period then commenced and lasted until the 16th, after which date the temperature again rose above the average and so continued until the 22nd. Another rapid fall then occurred and a relatively cool period set in which lasted four days. From the 27th until the close of the month temperature was slightly excessive except on the 29th, when a temporary depression of temperature was shown. The above shows that the temperature has been generally excessive throughout the Province, but that at times sudden and large changes of temperature have occurred and that for some days together there has occurred a considerable depression of temperature below the normal. The highest maximum temperatures recorded exhibit a range of over 15°, the lowest maximum registered having been 83°·8 at Mooltan on the 14th and the highest 99°·1 at Sirsa on the 28th.

Humidity and Cloud.—The air has been damp and the sky rather cloudy.

Rain.—The concluding table of the summary shows that during the month rain fell at all the Punjab and rain or snow at all the Kashmir Observatories, the amount received varying over the Punjab from 3·04″ at Murree to 0·04″ at Umballa. In the case of Dera Ismail Khan, of Khusháb and of Sirsa the total fall of the month was in excess of the average, but in all other places the fall was deficient, and in Umballa, Ludhiána and Delhi was very small. The deficiency was absolutely greatest at Simla, where it amounted to 1·67″, but relatively to the normal the defect was largest at Umballa, Ludhiána and Delhi.

The following table gives the rainfall data for the Punjab Stations for March 1896:—

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 5th MAY 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Insufficient. 2. Cattle dying of starvation.	High. Wheat at 14½ seers. Bájra at 13½ seers.	Canal crops being threshed. Grain stock sufficient.	Autumn ploughings commenced in canal villages.
2	Delhi ..	...	1. Scarce, but new bhúsa is being used. 2. Fair.	High. Wheat at 14½ seers. Bájra at 13 seers.	Stock of food-grain sufficient.	...
3	Umballa ..	...	1. Insufficient. 2. Lean owing to scarcity of fodder and water. Cattle watered from wells as water in tanks mostly dried.	Slightly high.	Spring threshings over. Melon crop suffering from want of rain.	Sugarcane crops suffering fr want of rain.
4	Jullundur ..	...	1. Sufficient. 2. Good.	High. Wheat at 17 seers. Maize at 22 seers.	Extra spring being watered by wells for want of rain. Stock of grain sufficient.	...
5	Ferozepore ...	...	1. Sufficient.	Normal. Wheat at 17 seers. Maize at 22 seers.	Threshing operations almost completed. Stock of food grain sufficient.	...

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of	
					Spring.	Autumn.
6	Amritsar ...	...	1. Dry sufficient, green scarce. 2. Good.	Normal. Wheat at 17½ seers. Maize at 20 seers.	Spring harvesting completed. Extra spring crops in good condition. Stock of food grain sufficient.	Autumn crops in good condition.
7	Siálkot ...	...	1. Sufficient. 2. Good.	Wheat, white, at 15 to 16 seers. Red at 16 to 17 seers. Maize at 17 to 18 seers.	Spring harvesting of crops in progress.	Autumn weeding of sugarcane and cotton commences.
8	Lahore ...	...	1. Scarce except in villages irrigated by canal and on the bank of the river. 2. Good.	Continue high. Wheat at 14 to 18 seers. Maize at 18 to 20 seers.	The spring crop is being harvested. Sowings of millet and extra spring crops are in progress. The outturn of well land and irrigated crops average and of unirrigated poor. The prospect of extra spring is good. No grain stocks with zamindárs, but in some places the sáhúkárs have such stocks.	...
9	Mooltan ...	Canal working.	1. Sufficient.	High. Wheat, 1st quality, at 13¾ seers. Wheat, 2nd quality, at 14½ seers. Jowár at 14 seers.	Spring crops harvested.	Autumn sowings in progress.
10	Ráwalpindi ...	...	1. Insufficient.	Wheat at 12½ to 15 seers. Bájra at 14 to 18 seers. Maize at 17 to 20 seers.	Spring crops being cut and cleaned. Extra spring crops not good owing to drought. Stock of grain sufficient.	...
11	Shahpur ...	...	1. Scarce. 2. Poor. Bár people have taken their cattle to better localities on River Jhelum and Chiniot.	Wheat at 14 seers. Bájra at 16 seers.	Stocks of food grains sufficient except in Tahsíl Khusháb, where wheat is being harvested.	Cotton sowings commenced.
12	D. I. Khan ...	...	1. Sufficient. 2. Fair.	High. Wheat at 16 seers. Bájra at 18 seers.	Harvesting of spring crops in progress. Outturn of spring crops average. Sowings of extra spring crops going on. Condition of standing extra spring crops good.	...
13	Peshúwar ...	...	1. Insufficient. 2. Good.	Prices of barley, bájra and gram continue high. Wheat at 14⅝ seers. Maize at 22⅛ seers.	Stock of food grains fair. Standing crops not in good condition.	...
14	Rohtak ...	...	1. Scarce. 2. Cattle getting thin owing to limited supply of fodder.	Wheat at 15 seers. Jowár at 15 seers.	Extra spring crops average. Stock of food grain sufficient.	Indigo and cotton being sown.
15	Gurgaon ...	...	1. Scarce in parts.	Rising in parts.	Spring crops being winnowed.	Sugarcane fields are being weeded. Jowar and cotton are being sown on irrigated lands.
16	Karnál ...	...	1. Scarce especially in Nardak.	Prices of wheat falling of gram and maize rising. Wheat at 16 seers. Gram at 17 seers. Maize at 15 seers.	Spring crops harvested. Outturn on irrigated average, and on unirrigated poor.	Millet and indigo being sown.
17	Gujránwála ...	...	1. Dry fodder is now obtainable, but dear. Straw is being imported from Ferozepore.	Relaxing.	Outturn of wheat good in canal and well lands. Stock of grains sufficient.	Cane and cotton being sown.

GENERAL REMARKS.

Rainfall *nil*. Prices normal in Ferozepore and Amritsar, falling in Gujránwála, rising in parts in Gurgaon, and high elsewhere. Canal crops being threshed in Hissar. Spring threshing completed in Umballa and almost completed in Ferozepore. Spring harvesting almost completed in Ferozepore and Mooltan, and in progress in Siálkot, Lahore Ráwalpindi and Dera Ismail Khan. Autumn ploughings in canal villages of Hissar and cotton sowings in Shahpur, autumn weeding of sugarcane and cotton in Siálkot and of sugarcane in Gurgaon commenced. Sowings of millet and extra spring crops in Lahore, of indigo and cotton in Rohtak, of jowár and cotton in Gurgaon and of cane and cotton in Gujránwála in progress. Spring crops being winnowed in Gurgaon. Condition of standing extra spring crops is good in Amritsar and Dera Ismail Khan. Melon and sugarcane crops are suffering in Umballa and Ráwalpindi and extra spring crops being watered by wells for want of rain. Condition and prospects of spring crops are generally reported average in irrigated and below average in unirrigated tracts. Cattle are in poor condition in Hissar, Umballa, Shahpur and Rohtak; they are dying of starvation in Hissar; and getting lean owing to scarcity of fodder and water in Umballa and of fodder in Rohtak. Fodder scarce in all districts except Jullundur, Ferozepore, Siálkot, Mooltan and Dera Ismail Khan. Stock of fodder is insufficient in some districts.

LAHORE, THURSDAY, MAY 14, 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 12th MAY 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	People in distress for drinking-water.	1. Very scarce; fodder stock insufficient. 2. Cattle dying of starvation.	High. Wheat at 14 seers. Bájra at 14 seers.	Canal crops being threshed. Grain stock sufficient.	...
2	Delhi ...	...	1. Scarce; new bhúsa sufficient. 2. Fair.	High. Wheat at 14½ seers. Bájra at 13 seers.	Stock of food-grains sufficient.	...
3	Umballa ...	...	1. Insufficient. 2. Lean and are watered from wells owing to tanks having dried up.	Rising.	Crops mostly winnowed and stored. Melon crops are suffering from want of rain.	Sugarcane crops are suffering from want of rain.
4	Jullundur ...	...	1. Sufficient. 2. Good.	High. Wheat at 20 seers. Maize at 24 seers.	Extra spring crop being watered by wells. Stock of grain sufficient.	Sugarcane weeding commenced.
5	Ferozepore ...	...	1. Sufficient.	Normal. Wheat at 17 seers. Maize at 22 seers.	Threshing operations almost completed. Stock of food-grain sufficient.	

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Spring.	Prospects of Autumn.
6	Amritsar ...	...	1. Dry sufficient, green scarce. 2. Good.	Normal. Wheat at 17½ seers. Maize at 20 seers.	Spring threshing in progress. Extra spring crops in good condition. Stock of food-grain sufficient.	
7	Siálkot ...	...	1. Sufficient. 2. Good.	Wheat, white, at 15 to 16 seers; red at 16 to 17 seers. Maize at 17 to 18 seers.	Spring harvesting nearly completed. Threshing commenced.	Autumn weeding of sugarcane and cotton in progress.
8	Lahore ...	...	1. Dry fodder sufficient, except in Sharakpur; green scarce.	Continue high. Wheat at 14 to 18 seers. Maize at 17 to 18 seers.	The spring crop is being harvested. Prospect of irrigated crops average, of unirrigated below average. Extra spring crop promise well. Grain stock sufficient with zamíndárs for the present excepting tahsíl Sharakpur.	Sowings of cotton and millet in progress.
9	Mooltan ...	Canals working slowly.	1. Sufficient.	High. Wheat at $13\frac{3}{4}$ seers 1st quality, 2nd quality 14½ seers. Jowár at 14 seers.	Spring crops harvested.	Autumn sowings in progress.
10	Ráwalpindi ...	1·55 in Murree ...	1. Sufficient.	High. Wheat at 13½ to 15 seers. Bájra at 14 to 18 seers. Maize at 17 to 20 seers.	Spring crops being cut and cleaned. Extra spring prospects not good owing to drought. Stock of grain sufficient.	...
11	Shahpur ...	...	1. Scarce. 2. Poor. Bár people have taken their cattle to localities on Rivers Jhelum and Chenab.	Wheat at 13 to 16 seers. Bájra at 14 to 17 seers.	Stocks of food-grains sufficient except in tahsíl Khusháb, where wheat is imported from outside. Wheat being harvested.	Cotton sowings commenced.
12	D. I. Khan ...	0·45 in Kuláchi ... 0·38 in Sheikh Budín.	1. Sufficient. 2. Fair.	Normal. Wheat at 17 seers. Bájra at 17½ seers.	Spring harvesting completed. Outturn average. Condition of extra spring crops good.	...
13	Peshávar ...	0·40	1. Sufficient. 2. Good.	Prices of wheat, barley and rice continue high, of other crops normal. Wheat at $14\frac{15}{16}$ seers. Maize at $22\frac{1}{8}$ seers.	Standing crops not in good condition. Stock of food-grains fair.	...
14	Rohtak ...	...	1. Dear in unirrigated villages. 2. Thin, owing to limited supply of fodder.	Wheat at 15 seers. Jowár at 15 seers.	Extra spring crops average. Stock of food-grain sufficient.	Indigo and cotton being sown.
15	Gurgaon ...	...	1. Scarce in parts.	...	Tobacco being harvested. Food stock sufficient.	Sugarcane fields being weeded. Jowár and cotton are being sown on irrigated lands.
16	Karnál ...	Rainfall ...	1. Scarce in parts. 2. Good.	Rising. Wheat at 15 seers. Gram at 17 seers. Maize at 15 seers.	Extra spring crops average.	
17	Gujránwála ...	...	1. Dry fodder is now obtainable, but scarcity prevails in old villages of the Khangah Dográn Tahsíl, and anxiety on this head prevails in most circles. 2. Bad in most circles.	...	Outturn of wheat on canal and well lands good. Stocks of grain in Gujránwála sufficient; elsewhere scarce. Surplus wheat in colony; elsewhere doubtful.	Cane, cotton and millet being sown.

GENERAL REMARKS.

Rrain has fallen in Ráwalpindi, Dera Ismail Khan, Peshávar and Karnál. People in distress for drinking-water in Hissar. Prices normal in Ferozepore,
Amritsar, and Dera Ismail Khan; rising in Umballa and Karnál; and high elsewhere. Canal crops being threshed in Hissar. Crops mostly winnowed and stored
in Delhi. Threshing operations almost completed in Ferozepore, and spring harvesting in Siálkot, Mooltan and Dera Ismail Khan. Spring threshing in
Amritsar and spring harvesting in Lahore and Ráwalpindi in progress. Weeding of sugarcane in Jullundur and Gurgaon, and of sugarcane and cotton in Siálkot
in progress. Sowings of cotton and millet in Lahore, of cotton in Shahpur, of indigo and cotton in Rohtak, of jowár and cotton in Gurgaon, of cane, cotton and
millet in Gujránwála, of autumn crops in Mooltan in progress; also harvesting of tobacco in Gurgaon. Condition of extra spring crops is good in Amritsar,
Lahore and Dera Ismail Khan, average in Rohtak, and not good in Ráwalpindi and Peshávar. Sugarcane and melon crops are suffering for want of rain in
Umballa, and extra spring crops being watered from wells in Jullundur. Conditions and prospects of spring crops are generally reported average in irrigated and
below verage in unirrigated tracts. Stocks of foo -grains are insufficient in parts of Lahore and Shahpur, and fair in Peshávar, and sufficient elsewhere. Cattle
are in poor condition in Hissar, Umballa, Shahpur and Rohtak. They are dying of starvation in Hissar, and getting lean in Umballa for want of water and of
fodder in Rohtak. Fodder scarce in all districts except Jullundur, Ferozepore, Siálkot, Mooltan, Ráwalpindi, Dera Ismail Khan and Peshávar. Stock of
fodder is insufficient in some districts.

Gurgaon.	Farukhnagar ...	...	...	...	...	0·78	...	0·78	The rainfall during the month was 0·25, which fell in Fírozpur. The rabi is now being winnowed. The outturn on irrigated land is average; that on baráni poor. Ploughing for kharíf is in progress. The indigo sowings in canal villages have been completed. Sugarcane fields are being weeded. Jowár is being sown in Fírozpur and Gurgaon and cotton on canal lands of Palwal, Núh and Fírozpur. Fodder is scarce in Gurgaon, Rewári and Núh. Four hundred and twenty-three cattle have died during the month from insufficient fodder in Gurgaon, Rewári and Núh. Prices slightly rising in Gurgaon and Núh; in other tahsíls they are stationary. Food stock sufficient. General health very good.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF APRIL 1896—(CONTINUED).

Explanation:—(*c*) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st March.	1st April to 30th April.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 30th April 1896.	Total.	Condition of crops and cattle, and health of people.
Delhi.	Ballabgarh ...	1·99	0·11	0·11	...	1·73	...	1·73	Rabi crops almost harvested. Yield much below average. Sugarcane and melon cultivation completed. Fodder scarce, but new bhúsa is being used, which suffices for the present. Prices stationary. Health of people fair. Stock of food grains sufficient.
	Mahrauli ...	...	...	...	...	2·20	...	2·20	
	Sadr (Delhi) ...	2·97	0·28	0·28	...	1·89	...	1·89	
	Sonepat ...	2·36	0·19	0·19	...	1·72	...	1·72	
Karnal.	Pánipat ...	2·29	0·38	0·38	...	1·12	...	1·12	No rain fell during the month. The rabi has been harvested. The outturn on irrigated area is average, and on unirrigated very poor. Extra rabi is in good condition. The prices of maize, jowár, bájra and gram are rising owing to diminution of stock, but that of wheat is falling owing to new grain having come to market. Fodder is still scarce, especially in Nardak. The cattle are still away from home. Health of people good.
	Karnal ...	4·02	0·57	0·57	...	0·93	...	0·93	
	Rajaund ...	...	...	...	...	1·11	...	1·11	
	Kaithal ...	2·36	0·23	0·23	...	1·10	...	1·10

Umballa.	Pipli ...	3·29	0·18	0·18	...	1·35	...	1·35	The crops have all been reaped, and the grain mostly winnowed and stored. The outturn is poor generally. Considerable suspensions of the rabi demand have been arranged for, particularly in Jagádhri and Naráingarh. A test relief work was started in Naráingarh, but the rate of wage attracted no applicants for labor. Trial will be again made if prices rise. There is an almost complete dearth of green fodder, but the cattle are expected to hold out on dry fodder till the rains. Water is dried up in tanks, and cattle are watered from wells. Prices are as follows:—Wheat 15 seers; gram 19 seers; maize (staple food) 21 seers; rice 11 seers.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF APRIL 1896—(CONTINUED).

Explanation:—(c) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st March.	1st April to 30th April.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 30th April 1896.	Total.	Condition of crops and cattle, and health of people.
SIMLA.	Kasauli ...	7·96	1·47	1·47	0·01	3·85	0·01	3·86	Rabi crops are being cut in Simla, the outturn being very bad, and paddy was being put down during the month. In Kot Khái, too, the crop has been extremely poor owing to want of rain, and famine prices continue. Fodder is becoming dear in Simla, and damaged crops are being given as food to cattle. Health of people good.
	Barauli ...	7·96	1·82	1·82	0·02	4·76	0·02	4·78	
	Simla ...	8·42	3·34	3·34	0·02	7·90	0·02	7·92	
	Kot Khái ...	10·88	3·41	3·41	0·13	8·69	0·13	8·82	
	Kotgarh ...	11·96	4·56	4·56	0·70	6·32	0·70	7·02	
	Kilba ...	Statement not received.							
KANGRA.	*Plách* ...	11·29	2·31	2·31	1·65	9·40	1·65	11·05	There was an insufficient rainfall during the month in all the tahsíls of the district. In Kulu and Plách Tahsíls the rabi harvest has been good. In Kángra Proper the produce of the rabi harvest on irrigated lands is good, but that on unirrigated lands is considerably below the average. The crops have been cut in all the tahsíls of the district except in Kulu and Plách. The prices continue to be the same as reported on for the previous month. The stocks of food grain and fodder are sufficient all over the district.
	Kúlu ...	17·46	3·32	3·32	1·46	17·99	1·46	19·45

HOSHIARPUR.	Dasúya ...	6·14	0·84	0·84	0·12	2·45	0·12	2·57	The quantity of the grain in the rabi harvest is good, but the total amount obtained has been small owing to the small area under crops. The amount of fodder obtained will be small but sufficient in the plains to see the cattle through. In the hills the cattle are badly off, but such grazing as remains will suffice till the rains come. The stock of grain in the district is sufficient and food prices are slightly falling. The health of the people is good.

Explanation :—(c) = Canal Rain-guage Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
DISTRICT.	Rain-gauge Station.	1st October to 31st March.	1st April to 30th April.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 30th April 1896.	Total.	Condition of crops and cattle, and health of people.
GURDASPUR.	Aliwál (c) ...	4·00	0·59	0·59	...	2·09	...	2·09	The wheat crop is cut and half threshed. The grain is fair, but the quantity small, and straw is short. Sowings for kharif made and sprouting fairly considering the drought. Cattle begin to look lean in the drier parts; all the riverain is crowded with cattle brought in from other districts. Health of people good.
	Batála ...	5·53	0·50	0·50	0·05	2·54	0·05	2·59	
	Tibri (c) ...	5·77	0·59	0·59	...	2·69	...	2·69	
	Gurdaspur ...	5·43	0·45	0·45	0·17	3·44	0·17	3·61	
	Pathánkot ...	8·15	0·63	0·63	0·23	4·99	0·23	5·22	
	Dalhousie ...	13·32	2·94	2·94	0·63	17·75	0·63	18·38	
	Mádhopur (c) ...	10·62	0·97	0·97	0·20	5·09	0·20	5·29	
	Shakargarh ...	6·92	0·65	0·65	0·31	2·97	0·31	3·28	
SIALKOT.	Zafarwál ...	5·70	0·69	0·60	0·28	3·63	0·28	3·91	The rabi crops have been almost entirely cut. In the well tracts the yield is expected an average one and a very poor one in the baráni lands. Cotton and cane sowings have been finished nearly throughout the district. The extra rabi crops suffer somewhat owing to the want of rain. The baráni villages of Siálkot, Zafarwál and Daska Tahsíls have suffered much from drought. A report for relief will be submitted soon. Prices are falling a little owing to new grains being on the threshing floor. Stocks of grain in the hands of zamíndárs are insufficient in the district. The rabi harvesting being in progress, the people feel less scarcity of fodder.
	Pasrúr ...	5·85	1·52	1·52	...	2·74		2·74	
	Raya ...	4·03	0·46	0·46	0·07	3·93	0·07	4·00	
	Daska ...	4·94	0·84	0·84	...	2·10	...	2·10	
	Sialkot ...	5·87	1·71	1·71	0·23	4·08	0·23	4·31	
GUJRAT.	Gujrat (Sadr) ...	6·52	1·12	1·12	0·20	1·27	0·20	1·47	The rainfall is insufficient and below the average. Owing to insufficient rainfall the sowings of the extra rabi crops have been but small. The rabi crops have been cut: produce is under average. The grain is of large size, but the bhúsa very small in quantity. Store of wheat-grain is sufficient in large centres of the district. As compared with previous year, the price of grain at present prevailing is low. Fodder is rather scanty; the cattle in some instances have been taken out to neighbouring belás to graze.
	Khárián (Lála Músa)	6·35	0·83	0·83	0·23	2·86	0·23	3·09	
	Phália ...	4·65	0·95	0·95	0·23	2·10	0·23	2·33

		RAINFALL.							
		Average rainfall of past years.			*Rainfall of present year.*				
DISTRICT.	Rain-gauge Station.	1st October to 31st March.	1st April to 30th April.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 30th April 1896.	Total.	Condition of crops and cattle, and health of people.
GUJRANWALA.	Rámnagar ...	3·02	0·38	0·38	...	1·08	...	1·08	Wheat harvest practically over, except in the Colony, where there has been a fine crop. Elsewhere the area has been short, but the yield good. Mortality among cattle is stayed for the present by the fresh supply of straw. In the southern circles much standing crop has been sacrificed to keep well cattle on their legs. Pasture is confined almost everywhere to the wheat stubble. Fodder scarce and dear. Health of people fair. Prices relaxing. Cane and cotton being put in, but kharíf prospects so far not reassuring.
	Wazirabad ...	4·57	0·67	0·67	...	1·04	...	1·04

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 19th MAY 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of — Spring.	Prospects of — Autumn.
1	Hissar ...	0·32 in Bhiwáni ... 0·36 in Fatahabad 0·16 in Hánsi. 0·04 in Sirsa.	1. Very scarce. 2. Cattle dying of starvation.	High. Wheat at 14 seers. Bájra at 14 seers.	Irrigated crops harvested. Grain stock sufficient.	Rain wanted for autumn ploughings.
2	Delhi ...	0·17 in Sonepat ... 0·83 in Mahrauli	1. Scarce, but new bhúsa sufficient. 2. Fair.	High. Wheat at 14½ seers. Bájra at 13 seers.	Stock of food-grain sufficient.	...
3	Umballa ...	Slight drizzle last week.	1. Insufficient. 2. Lean owing to scarcity of fodder and water. Several deaths of cattle from starvation.	Wheat at 15 seers. Gram at 19 seers. Maize at 21½ seers.	Melon crops suffering from want of rain.	Sugarcane crops suffering from want of rain. Tanks in villages dried up.
4	Jullundur ...	0·56 in Phillour ...	1. Sufficient. 2. Good.	High. Wheat at 20 seers. Maize at 22 seers.	Extra spring being watered by wells. Stock of grain sufficient.	Cotton and sugarcane weeding commenced.
5	Ferozepore ...	0·32 in Zira ... 0·10 in Nathana.	1. Sufficient.	Normal. Wheat at 17 seers. Maize at 22 seers.	Threshing operations still continue. Stock of food-grain sufficient.	...

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Spring.	Prospects of Autumn.
6	Amritsar ...	...	1. Dry sufficient, green scarce. 2. Good.	High. Wheat at 17 seers. Maize at 20 seers.	Spring threshing in progress. Extra spring crop in good condition. Stock of food-grain sufficient.	...
7	Siálkot ..	...	1. Sufficient. 2. Good.	Wheat, white, at 15 to 16 seers. Wheat, red, at 15½ to 16½ seers. Maize at 17 to 18 seers.	Spring crops threshing going on. Stock of grain sufficient.	Autumn weeding of sugarcane and cotton continued.
8	Lahore ..	0·42 at Lahore ...	1. Dry fodder is obtainable; green fodder scarce. 2. Good.	Continue high. Wheat at 16 to 18 seers. Maize at 17 to 19 seers.	Spring crops are being harvested. Prospect of irrigated crops average, and of unirrigated poor. Extra spring crops promise well. Grain stock sufficient with zamindárs for the present excepting Tahsíl Sharakpur.	Sowings of jowár and cotton crops in progress.
9	Mooltan ..	...	1. Sufficient.	High. Wheat, 1st quality, at 13½ seers. Wheat, 2nd quality, at 14½ seers. Jowár at 14 seers.	Spring crops harvested.	Autumn sowings are in progress. Canals working.
10	Ráwalpindi ..	0·33 in Pindigheb 0·55 in Fatahjang 0·45 in Attock 0·14 at Ráwalpindi 0·10 in Gujar Khan 0·23 in Kahuta	1. Insufficient.	High. Wheat at 12½ to 15 seers. Bájra at 14 to 18 seers. Maize at 17 to 20 seers.	Spring crops being cut at Murree; in other tahsíls, crops are being cleaned. Extra spring prospects not good owing to drought. Stock of grain sufficient.	
11	Shahpur .	Slight rainfall at Shahpur and Bhera Tahsíls.	1. Scarce.	Above normal. Wheat at 13 to 16 seers. Bájra at 14 to 16 seers.	Wheat being harvested. Food-grains imported from outside into Tahsíl Khusháb only.	Cotton sowings in progress on irrigated land.
12	D. I. Khan ..	0·01 at Dera ... 0·06 in Bhakhar	1. Sufficient. 2. Fair.	Normal. Wheat at 17 seers. Bájra at 18 seers.	Collection of spring crops going on. Outturn average. Standing extra spring crops good. Hail fell in certain villages of Kuláchi Tahsíl and injured extra spring crops slightly.	...
13	Pesháwar ...	...	1. Sufficient. 2. Good.	Price of maize, barley and gram continue high; other crops normal. Wheat at 15½ seers. Maize at 21½ seers.	Stock of food-grains fair.	Condition of standing crop average.
14	Rohtak ...	0·40 at Sadr and the same has fallen in other tahsíls.	1. Scarce.	Wheat at 15 seers. Jowár at 15 seers.	Extra spring crops average. Stock of food-grain sufficient.	Indigo and cotton being sown.
15	Gurgaon ...	Slight rain at Gurgaon and Palwal Tahsíls.	1. Scarce, except at Palwal.	Rising in parts.	Tobacco being cut in Gurgaon and Rewári Tahsíls. Melon crops are doing well. Outturn of extra spring crops average except at Rewári; where it is poor. Stock of food-grains sufficient.	Jowár and cotton are being sown in Nuh and Ferozepore Tahsíls. Sugarcane and indigo well up in Palwal, Nuh and Ferozepore Tahsíls.
16	Karnál ...	0·20 at Karnál ... 0·40 in Kaithal 0·33 in Pánipat	1. Sufficient except in Nardak.	Wheat at 15 seers. Gram at 16 to 17 seers.	Extra spring crops in good condition. High winds caused some damage to fruit.	...
17	Gujránwála ...	...	1. Dry fodder is now obtainable in most circles, but dear everywhere and supply said to be running very short.	...	Outturn of wheat grown on canals and well lands good. Hurricane on Sunday has caused loss, especially of straw on threshing floor. Stocks said to be sufficient except in old villages in Khangah Dográn.	Cane and millet being sown.

GENERAL REMARKS.

Rain has fallen in all districts except Amritsar, Siálkot, Mooltan, Peshâwar and Gujránwála. Prices normal at Ferozepore and Dera Ismail Khan, above normal in Shahpur, rising in parts of Gurgaon, and high elsewhere. Spring crops are being harvested in Hissar, Lahore, Shahpur and Gurgaon. Threshing operations still continue in Ferozepore, Siálkot, Ráwalpindi and Dera Ismail Khan. Autumn cotton and sugarcane crops weeding commenced in Jullundur and Siálkot. Sowings of autumn crops are in progress in Lahore, Mooltan, Shahpur, Rohtak, Gurgaon and Gujránwála Districts. Rain wanted for autumn ploughings in Hissar. Condition of standing extra spring crops is good in Amritsar, Lahore, Dera Ismail Khan and Karnál; average in Rohtak and Gurgaon. Melon crops are suffering in Umballa and Ráwalpindi from want of rain. Extra spring crops being watered by wells for want of rain. Condition and prospects of spring crop are generally reported average in irrigated lands, and below average on unirrigated tracts. Stocks of food-grains are insufficient in parts of Lahore and Shahpur, fair in Peshâwar, and sufficient elsewhere. Extra spring crops have been slightly injured by hail in certain villages of Kuláchi Tahsíl, Dera Ismail Khan District, and hurricane on Sunday has caused loss especially of straw on threshing floor, in Gujránwála. High wind caused some damage to fruit in Karnál. Cattle are in poor condition in Hissar and Umballa. They are dying of starvation in Hissar and Umballa owing to want of fodder and water, and are in good condition in 5 districts. Fodder scarce in all districts except Jullundur, Ferozepore, Siálkot, Mooltan, Dera Ismail Khan and Peshâwar. Stock of fodder is insufficient in some districts.

LAHORE, THURSDAY, MAY 28, 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 26th MAY 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	0·35 in Hissar ... 1·18 in Hánsi. 0·72 in Bhiwáni. 0·02 in Sirsa.	1. Very scarce. 2. Cattle dying of starvation.	High. Wheat at 14 seers. Bájra at 14 seers.	Grain stock sufficient.	Bájra sowing and kharif ploughing in progress in some villages.
2	Delhi ...	Slight rain throughout the district.	1. Scarce. 2. Fair.	High. Wheat at 14 seers. Bájra at 13 seers.	Extra spring crop in good condition. Stock of food-grain sufficient.	Sugarcane cultivation in good condition.
3	Umballa ...	0·12 average ...	1. Insufficient.	Wheat at 15 to 15½ seers. Gram at 18¼ to 10 seers. Maize at 21½ seers.	Dust-storms prevalent.	Sugarcane and melon crops suffering for want of rain water.
4	Jullundur ...	Slight rain in three tahsils.	1. Sufficient.	High. Wheat at 18 seers. Maize at 23 seers.	Extra spring crop being watered from wells. Stock of grain sufficient.	Cotton and sugarcane weeding in progress.
5	Ferozepore ...	0·22 in Zira ... 0·28 at Sadr. 1·27 in Fázilka. 0·23 in Nathána. 0·09 in Jalálabad.	1. Sufficient. 2. Good.	Wheat at 15 seers. Maize at 20 seers.	Threshing operations completed. Stock of food-grain sufficient.	...

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of	
					Spring.	Autumn.
6	Amritsar ...	...	1. Sufficient ...	Rising. Wheat at 17 seers. Maize at 20 seers.	Threshing of grain in progress. Extra spring crops in good condition. Stock of food-grain sufficient.	Autumn sowings in progress.
7	Siálkot ...	...	1. Sufficient. 2. Good.	Wheat, white, at 15 to 16 seers. Wheat, red, at 16 to 16½ seers. Maize at 17 to 18 seers.	Spring threshing commenced. Outturn average. Stock sufficient.	Autumn crops being irrigated by wells.
8	Lahore ...	Rain with hail fell in the Chunián and Kasúr Tahsils.	1. Scarce in Sharakpur and unirrigated tracts.	Continue high. Wheat at 16 to 18 seers. Maize at 17 to 19 seers.	Threshing of wheat finished. Rain with hail injured the extra spring crop in Kasúr and Chunián. Stock of grain sufficient, excepting the Sharakpur Tahsil.	Land is being prepared for the autumn crops.
9	Mooltan ...	0·10 in Lodhrán. 0·49 in Kabírwála. Canals working.	1. Sufficient.	High. Wheat, 1st quality, at 13½ seers. Wheat, 2nd quality, at 14⅝ seers. Jowár at 14 seers.	Spring crops harvested.	Autumn sowings in progress.
10	Ráwalpindi ...	0·13 in Murree ...	1. Insufficient.	High. Wheat at 12¾ to 15 seers. Bájra at 14 to 18 seers. Maize at 17½ to 20 seers.	Spring crop being cleaned. Extra spring crop not good owing to drought. Stock of grain sufficient.	...
11	Shahpur ...	...	1. Scarce, especially in Bár and Thal Iláqas.	Above normal.	Wheat still being harvested.	...
12	D. I. Khan ...	0·10 at Sadr ... 0·25 in Kuláchi. 0·70 in Leiah.	1. Sufficient. 2. Fair.	High. Wheat at 17 seers. Bájra at 18 seers.	Collection of spring crops in progress. Outturn average. Condition of standing extra spring crop good.	...
13	Peshávar ...	...	1. Sufficient. 2. Good.	Prices of wheat and maize risen; other cereals normal. Wheat at 14½ seers. Maize at 20 13/16 seers.	Standing crops average. Stock of food-grain average.	...
14	Rohtak ...	0·15 at Sadr. Rain also in two other tahsils.	1. Scarce.	Wheat at 15 seers. Jowár at 15 seers.	Extra spring crops average. Stock of food-grain sufficient.	Indigo and cotton being sown in canal villages and bájra in Tahsil Sámpla.
15	Gurgaon ...	0·14 in Gurgaon ... 1·03 in Rewári. 1·19 in Nuh.	1. Scarce, except in Palwal.	Rising.	Melon and cucumber crops are doing well.	Bájra and jowár are being sown in Rewári and Nuh, and cotton in Palwal. Standing indigo and sugarcane crops are doing well.
16	Karnál ...	Slight rain in Kaithal.	1. Scarce in Nardak. 2. Cattle dying of starvation in Kaithal.	Wheat at 14 to 16 seers. Gram at 16 to 17 seers. Maize at 15 seers.	...	Cotton sown in Pánipat. High winds blowing.
17	Gujránwála ...	0·22 in Khángah Dográn. 0·98 in Háfizabad.	1. Very scarce and dear: in places unprocurable. 2. Bad.	...	Outturn of wheat grown on canals and well lands good. High winds are causing loss on threshing floor. Stocks sufficient, except in old villages of Khángah Dográn Tahsil.	Cane and cotton being sown in the canal irrigated tracts in Khángah Dográn Tahsil.

GENERAL REMARKS.

Rain has fallen in all districts, except Amritsar, Siálkot, Shahpur and Peshávar. Prices rising in Amritsar and Gurgaon; above normal in Shahpur; and high elsewhere. Spring threshing commenced in Siálkot, in progress in Amritsar, Ráwalpindi and Dera Ismail Khan, and completed in Ferozepore and Lahore. Spring crops harvested in Mooltan, and are still being harvested in Shahpur. Bájra (bulrush millet) sowings and autumn ploughings in parts of Hissar, autumn sowings in Amritsar and Mooltan, and cotton and sugarcane weeding in Jullundur in progress. Sowings of indigo, cotton and bájra (bulrush millet) in parts of Rohtak, of bájra (bulrush millet), jowar (great millet) and cotton in parts of Gurgaon, of cotton in parts of Karnál, and of cane and cotton in parts of Gujránwála in progress. Land is being prepared for autumn crops in Lahore. Condition of extra spring crops is good in Delhi and Amritsar, average in Rohtak and Peshávar, and not good owing to drought in Ráwalpindi. Sugarcane and melon crops are suffering for want of rain water in Umballa. Extra spring crops being watered from wells in Jullundur and autumn crops in Siálkot. Melon and cucumber crops are doing well in Gurgaon. Condition and prospects of spring crops are generally reported average in irrigated and below average in unirrigated tracts. Stocks of food-grains are average in Peshávar and sufficient elsewhere, except in parts of Lahore and Gujránwála. Hail injured the extra spring crops in parts of Lahore. High winds are causing loss on threshing floor in Gujránwála. Cattle are in poor condition in Hissar, Karnál and Gujránwála. They are dying of starvation in Hissar and parts of Karnál. Fodder scarce in all districts, except Jullundur, Ferozepur, Amritsar, Siálkot, Mooltan, Dera Ismail Khan and Peshávar.

The number of relief workers has increased from 3,496 daily average in previous week to 6,583 in week under report. This is due to the fact that Relief Work No. 3 was situated during the week in a very populous part of the district. People are also now becoming daily more and more hard up for food.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

Sixty-eight thousand two hundred and fifty-five births were registered in the Province during the month of March 1896, giving a birth-rate of 39 per mille of population. Of the total number of births, 35,838 were boys and 32,417 were girls.

The total number of deaths registered from all causes in the Province during the month of March 1896 was 51,386 against 57,478 in the previous month and 41,376 in the corresponding month of the past year, giving an annual death-rate of 29, 35 and 24 per mille of population per annum respectively.

There were no deaths registered under the head of cholera.

From small-pox 4,918 deaths were registered against 3,563 in the previous month and 377 in the corresponding month of the past year; fevers 30,642 against 36,422 and 26,514; dysentery and diarrhœa 690 against 575 and 636.

During the month there were 30 deaths registered from suicide against 23 in the past month; wounding 64 against 46; accidents 287 against 241; snake-bite and killed by wild beasts 33 against 20; and from all other causes 14,722 against 16,588 and 13,410 in the corresponding month of the past year.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, JUNE 4, 1896.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 2nd JUNE 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Very Scarce; fodder stock insufficient. 2. Cattle dying of starvation.	High. Wheat at 14 seers. Bajra at 13 seers.	Grain stock sufficient.	...
2	Delhi ...	...	1. Scarce. 2. Fair.	High. Wheat at 14 seers. Bájra at 13 seers.	Stock of food-grains sufficient.	...
3	Umballa ...	Rain badly needed. Water insufficient.	1. Insufficient. 2. Sixty-two head of cattle died from starvation during fortnight ending 15th May.	Wheat at 15 to 15½ seers. Gram at 18 to 18½ seers.	...	Autumn ploughings commenced. Sugarcane crops suffering.
4	Jullundur ...	0·07 in Nakodar.	1. Sufficient.	High. Wheat at 18 seers. Maize at 21 seers.	Extra spring crops being watered by wells. Stock of grain sufficient.	Cotton and sugarcane weeding in progress.
5	Ferozepore ...	...	1. Sufficient. 2. Good.	Wheat at 15 seers. Maize at 20 seers.	Extra spring crops average. Stock of food-grain sufficient.	...
6	Amritsar ...	0·27 average rain-fall.	1. Dry sufficient; green insufficient. 2. Good.	High. Wheat at 17 seers. Maize at 20 seers.	Spring threshing nearly completed. Extra spring crops in good condition.	...

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Spring.	Prospects of Autumn.
7	Siálkot ...	0·25 average rain-fall.	1. Sufficient. 2. Good.	Wheat, white, at 15 to 16 seers; red at 15¾ to 16¾ seers. Maize at 17 to 18 seers.	Spring threshing going on: outturn average. Stock sufficient.	Autumn crops being irrigated by wells.
8	Lahore ...	...	1. Scarce in parts. 2. Poor.	Continue high. Wheat at 16 to 18 seers. Maize at 17 to 19 seers.	Grain stock sufficient excepting the Sharakpur Tashíl. Threshing of wheat finished. Exta spring crops are said to be in good condition.	Land is being prepared for autumn crops.
9	Mooltan ...	Canals working.	1. Sufficient.	High. Wheat, 1st quality, at 13½ seers. 2nd quality, at 14¾ seers. Jowár at 14 seers.	Spring crops harvested.	Autumn sowings in progress.
10	Ráwalpindi ...	...	1. Insufficient.	High. Wheat at 12½ to 15 seers. Bájra at 14 to 18 seers. Maize at 17 to 20 seers.	Spring crops being cleaned. Extra spring crops not good owing to drought. Stock of grain sufficient.	...
11	Shahpur ...	...	1. Scarce in Bár and Thal. 2. Out of condition.	Above normal.	Stock of food grains not sufficient in Tahsíl Khusháb, and being imported. Wheat crops nearly harvested.	...
12	D. I. Khan ...	...	1. Sufficient. 2. Fair.	High. Wheat at 17 seers. Bájra at 17 seers.	Collection of spring crops in progress: outturn average. Standing extra spring crops good.	...
13	Peshâwar ...	...	1. Sufficient. 2. Good.	Prices of wheat and maize risen and of other cereals normal. Wheat at $14\frac{10}{16}$ seers. Maize at $20\frac{2}{16}$ seers.	Standing crops average. Stock of food-grain average.	...
14	Rohtak ...	...	1. Scarce.	Wheat at 15 seers. Jowár at 15 seers.	Extra spring crops average. Stock of food-grains sufficient.	Indigo and cotton being sown in canal villages and bájra in Tahsíl Sámpla.
15	Gurgaon ...	0·05 in Gurgaon.	1. Scarce.	...	...	Bájra, moth, jowár and cotton are being sown on unirrigated and irrigated lands and are doing well.
16	Karnál ...	Slight rainfall in Kaithal.	1. Scarce in Nardak.	Rising. Wheat at 14 seers. Gram at 17 seers.	...	...
17	Gujránwala ...	...	1. Very scarce and dear, in places unprocurable. 2. Bad for want of fodder.	...	Outturn of wheat on canal and well lands good. High winds continue to cause damage. Stocks reported sufficient for the whole year except in old villages of Khángah Dográn.	Rice being sown on canal-irrigated land.

GENERAL REMARKS.

Slight rain has fallen in Jullundur, Amritsar, Siálkot, Gurgaon and Karnal Districts only. Prices above normal in Shahpur, rising in Karnal and high elsewhere. Autumn ploughings commenced in Umballa, and autumn sowings are in progress in Mooltan and Gurgaon. Sowings of indigo, cotton and bájra (bulrush millet) in Rohtak and of rice in Gujránwála in progress; also cotton and sugarcane weedings in Jullundur. Spring threshing nearly completed in Lahore and Amritsar, and in progress in Siálkot, Ráwalpindi and Dera Ismail Khan. Land is being prepared for autumn crops in Lahore. Condition of extra spring crop is good in Lahore, Amritsar and Dera Ismail Khan; average in Ferozepore, Siálkot and Rohtak; and not good owing to drought in Ráwalpindi. Sugarcane crops are suffering for want of rain in Umballa. Extra spring crops are being watered from wells in Jullundur and autumn crops in Siálkot. Condition and prospects of spring crops are generally reported average in irrigated and below average in unirrigated tracts. Stocks of food-grains are average in Peshâwar; not sufficient in Shahpur and parts of Lahore and Gujránwála; and sufficient elsewhere. High winds continue to cause damage in Gujránwála. Cattle are in poor condition in Hissar, Umballa, Lahore and Gujránwála. They are dying of starvation in Hissar. Fodder scarce in all districts except Jullundur, Ferozepore, Siálkot, Mooltan, Dera Ismail Khan and Peshâwar.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 2nd June 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 9TH MAY 1896.

Births and Deaths in Municipal Towns.—In the 45 large Municipal towns 848 births were registered (446 males and 402 females), giving a birth-rate of 31 per *mille* of population; 1,023 deaths were registered (526 males and 497 females), giving a death-rate of 38 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,
Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,

No. 24 LAHORE, THURSDAY, JUNE 11, 1896. 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 9th JUNE 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	0·10 at Hissar. 1·16 in Bhiwáni. 0·20 in Fatahabád.	1. Scarce. 2. Cattle dying of starvation.	High. Wheat 14 seers. Bájra 13 seers.	Bájra (bulrush millet) sowings commenced in parts. Ploughings for other crops in progress in canal villages.	Grain stock sufficient. More rain wanted.
2	Delhi ...	0 55 at Sadr. 0·14 in Sonepat. 1·50 in Ballabgarh	2. Fair.	High. Wheat 14 seers. Bájra 13 seers.	Ploughings commenced.	Stock of food-grain sufficient.
3	Umballa ...	0·31 at Sadr.	1. Insufficient.	Wheat 15 to 15½ seers. Gram 17¾ to 18½ seers.	Ploughings commenced. Sugar-cane crops suffering. Water insufficient. Rain badly needed.	...
4	Jullundur ...	Rainfall throughout.	1. Sufficient. 2. Fair.	High. Wheat 17½ seers. Maize 20 seers.	Cotton and sugarcane weeding in progress.	Extra spring crops being watered by wells. Stock of grain sufficient.
5	Ferozepore ...	0·50 in Muktsar. 0·09 in Fázilka. 0·16 in Nathána.	1. Sufficient.	Wheat 15 seers. Maize 20 seers.	...	Extra spring crops average. Stock of food-grain sufficient.
6	Amritsar ...	0·20 average.	1. Sufficient; green fodder scarce. 2. Good.	Continue high. Wheat 16¾ seers. Maize 21 seers.	Crops in good condition.	Spring crops collected. Extra spring crops in good condition. Stock of food-grain sufficient.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
7	Siálkot ...	0·36 average.	1. Sufficient. 2. Good.	Wheat 15 to 16½ seers. Maize 16 to 17 seers.	Rain wanted for the growing crops.	Threshing nearly finished. Stock sufficient.
8	Lahore ...	0·15 at Lahore 0·40 in Sharakpur.	1. Scarce. 2. Poor.	Continue high. Wheat 15 to 17 seers. Maize 17 to 19 seers.	Sowings of cotton in progress. Land is being prepared for other autumn crops. Condition of standing crops average.	Grain stock sufficient, except in the Sharakpur Tashfl.
9	Mooltan ...	0·07 in Mailsi.	...	High. Wheat 13½ to 14¾ seers. Jowár 14 seers.	Sowings in progress. Canals flowing.	Crops being harvested.
10	Ráwalpindi ...	0·04 at Ráwalpindi. 0·46 in Pindigheb. 0·58 in Gujar Khan. 1·42 in Kahúta. 1·86 in Murree.	1. Insufficient. 2. Good.	High. Wheat 14½ seers. Bájra 15½ seers. Maize 19 seers.	...	Spring crops being cleaned in parts. Condition of extra spring crops not good owing to drought. Stock of grain sufficient.
11	Shahpur ...	Slight rainfall at Shahpur.	1. Scarce. 2. Poor.	Above normal. Wheat 14 to 16 seers. Bájra 13 to 18 seers	Crops sown on well and canal-irrigated lands only. Rain much needed.	...
12	D. I. Khan ...	0·08 in Tánk.	1. Sufficient.	High. Wheat 16½ seers. Bájra 17 seers.	...	Crops nearly collected. Outturn average. Condition of extra spring crops good.
13	Peshâwar ...	...	1. Sufficient. 2. Good.	Rising. Wheat $14\frac{7}{16}$ seers. Maize 20⅛ seers.	Standing crops average.	Stock of food-grain average.
14	Rohtak ...	0·86 at Sadr. Slight rainfall elsewhere.	1. Scarce. 2. Weak owing to want of fodder.	Wheat 15 seers. Jowár 15 seers.	Indigo and cotton being sown in canal villages and bájra (bulrush millet) and cotton in a few villages of Sámpla and Jhajjar. Prospects of canal crops good.	Stock of food-grains sufficient.
15	Gurgaon ...	Slight rainfall throughout.	...	...	Sowings in progress. Standing crops good.	...
16	Karnál ...	Rainfall througout the district.	1. Scarce in parts.	Wheat 14½ seers. Gram 18 seers. Maize 15 seers.	...	...
17	Gujránwála ...	0·07 at Sadr. 0·18 in Khángah Dográn. 0·28 in Wazirabad.	1. Very scarce and dear. In many places hardly procurable. 2. Bad for want of fodder.	...	Rice being sown in parts of canal-irrigated lands. Cane and cotton on well and canal lands doing well and on uninundated lands fairly.	Stock reported to be sufficient for the present.

GENERAL REMARKS.

Rain has fallen more or less in all districts except Peshâwar. Prices above normal in Shahpur, rising in Peshâwar and high elsewhere. Spring crops threshed and nearly collected. Ploughings and sowings of autumn crops in progress throughout the Province. Cotton and sugarcane weeding going on in Jullundur. Sowings of indigo, cotton and bulrush millet (bájra) in Rohtak, of cotton in Lahore and of rice in parts of Gujránwála in progress, generally on canal irrigated lands. Land is being prepared for other autumn crops in Lahore Condition of extra spring crops is good in Amritsar and Dera Ismail Khan, average in Ferozepore, and not good in Ráwalpindi owing to drought. Sugarcane crops suffering for want of rain in Umballa. Outturn of spring crops is generally reported an average one. The condition of crops on land is said to be good to average. Prospects of canal crops are good in Rohtak. More rain is urgently wanted in most districts. Stocks of food-grains are average in Peshâwar, not sufficient in parts of Lahore, and sufficient elsewhere Cattle are in poor condition on Lahore, Shahpur, Rohtak and Gujránwála. They are dying of starvation in Hissar. Fodder scarce in all districts except Jullundur, Ferozepore, Amritsar, Siálkot, Dera Ismail Khan and Peshâwar. Number of persons employed on relief work in Sharakpur Tahsíl, Lahore District, is 7,460 and that of non-working children and dependent on relief works is 1845.

P. D. SHROFF, *Supdt.,*

Office of Director of Land Records and Agriculture, Punjab.

The weather generally over the Punjab was very quiet during April and the number of dust and thunder storms was less than usual, though during a considerable part of the month the air was thick with dust raised by strong winds. The rainfall was less than usual and the most marked feature in the weather was the remarkable depression of temperature, which occurred over the Province about the middle of the month.

On the first four days the weather, though generally fine, was occasionally disturbed by local showers, rain having occurred during that period at the stations of Murree, Simla, Siálkot and Khusháb. These showers were slight and the heat was excessive. Between the 5th and the 9th the weather was everywhere fine and the mean temperature was everywhere higher than usual. On the 9th a slight depression appeared over the Punjab, and on the 10th and 11th the sky became overcast in the north-west of the Province and showers occurred at Chaman and Quetta and at Cherát and Dera Ismail Khan. Between the 12th and 14th another depression appeared travelling from Sind north-eastward through the Province, the sky clouded over, and rain occurred at Srinagar, Murree, Ráwalpindi, Pesháwar, Siálkot and Ludhiána. On the hills snow fell, the fall descending to an elevation of 11,000 feet in the Upper Sutlej Valley and to 13,000 feet in Kulu. After this fall of snow northerly winds appeared over the Province and a rapid fall of temperature took place. Between the 15th and the 22nd the weather was fine, but temperature was very low and the air very dry. On the 23rd another slight depression appeared, the sky clouded over, and showers occurred at Pesháwar and Murree. From the 24th to the end of the month fine weather prevailed with a rising temperature and a very low humidity.

Barometer and Winds.—The mean pressure of the month was below the normal average at all stations, the abnormal deficiency being considerable except at the stations on and near the hills, where it was very slight. The winds were south-westerly at Delhi and Pesháwar and south-easterly at Sirsa, but were between north-west and north-east at most of the other plains stations. On the hills the mean direction was north-easterly. The force was on the whole slightly stronger than usual.

Temperature.—The mean temperature of the month was excessive at all stations. The abnormal excess was greatest, 2°·8 at Mooltan, followed by 2°·7 at Murree and by 1°·8 at Delhi, Sirsa and Simla. The mean day or maximum and the mean night or minimum temperatures were also everywhere excessive. The greatest excess in the day temperature was at Murree, where it averaged 5°.

The following table gives (1) the variation from the normal of the mean temperature of the Punjab on each day of the month and (2) the highest maximum temperature registered in the Province on each day with the station at which it was recorded :—

Date.	Variation from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded in previous 24 hours.	Station at which recorded.	Date.	Variation from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded in previous 24 hours.	Station at which recorded.

„ 15th ...	− 3·1	98·5	Delhi.	„ 30th ...	+ 3·5	109·9	Montgomery.

From the 1st to the 14th the mean temperature of the Province was excessive, the amount of the excess ranging from 2°·8 on the 5th to as much as 9°·5 on the 10th. On the 15th the mean temperature fell below the normal and so continued until the 24th, the day of greatest abnormal depression of temperature being the 18th, when the heat was 10°·7 less than that usually recorded. From the 25th to the close of the month the heat was again excessive. The thermometer rose to over 100° in some part of the Province, except on the 15th and 16th, from the 18th to the 20th, and on the 22nd. The coolest day was the 19th, when the highest maximum recorded was only 93°·8, and the hottest the 27th, when Sirsa recorded a maximum of 112°·6.

Humidity and Cloud.—The air was dry except at Murree and Srinagar, and the cloud proportion was low.

Rain.—The concluding table gives the rainfall of the month. In all parts of the Province the rainfall was less than usual. In Mooltan, Lahore, Montgomery, Umballa, Delhi and Sirsa there was absolutely no rain during the month, and at all the remaining stations, except Peshâwar, Murree, Srinagar and Cherât, the total fall of the month was less than ¼ of an inch. At all stations the fall was much less than the average.

The following table gives the rainfall data for the Punjab Stations for April 1896:—

Gurgaon.	Farukhnagar ...	...	...	...	0·54	0·78	0·54	1·32	Sufficient rain fell in parts of Rewári and Núh to permit kharíf sowings on certain unirrigated lands. Other circles, except Shahjahánpur and Punahána, had slight showers. In Palwal, Núh and Fírozpur kharíf sowings have commenced in irrigated lands. Indigo, sugarcane melon and kakri crops are doing well. Fodder is scarce in Gurgaon, Rewári, Núh and Fírozpur. Five hundred and forty head of cattle have died for want of sufficient fodder. Prices are stationary in Núh; they are rising in other places. Food stock sufficient.

Explanation:—(*c*) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average rainfall of past years.			*Rainfall of present year.*				
DISTRICT.	Rain-gauge Station.	1st October to 31st March.	1st April to 31st May.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 31st May 1896.	Total.	Condition of crops and cattle, and health of people.
DELHI.	Ballabgarh ...	1·99	0·66	0·55	1·48	1·73	1·48	3·21	Rabi crops completed. Fodder scarce. Health of people fair.
	Mahrauli ...	...	...	...	2·32	2·20	2·32	4·52	
	Sadr (Delhi) ...	2·97	1·09	0·81	0·53	1·89	0·53	2·42	
	Sonepat ...	2·36	1·13	0·94	0·57	1·72	0·57	2·29	
KARNAL.	Pánipat ...	2·49	0·85	0·47	0·36	1·12	0·36	1·48	There was slight rainfall during the month, which was of no use. High winds caused some damage to garden fruit. The extra rabi is estimated to be about the average. Prices of wheat and gram are rising, being now 14 and 17 seers per rupee respectively. Maize is selling about 15 seers per rupee. Stocks of grains are sufficient. Fodder is scarce in Nardak. The cattle are still away. Health of people generally good.
	Karnal ...	4·02	1·63	1·06	0·85	0·93	0·85	1·78	
	Rajaund ...	...	...	...	0·28	1·11	0·28	1·39

UMBALLA.	Pipli ...	3·29	0·88	0·70	1·34	1·35	1·34	2·69	In Pipli Tahsíl only has there been any appreciable rain, and the condition of affairs is very critical. There is no water in the village tanks and no pasturage, still the zamíndárs must keep with them the cattle they have for ploughing purposes. These cattle are kept fed and watered with the greatest difficulty. A number of deaths are periodically reported by the Patwárís. A great delay in the monsoon will tell on the cattle most seriously. The villagers themselves continue to hold out, and that they can get along is shown by the extreme difficulty. An Assistant Commissioner who has been out in a distressed tract for the last three weeks has had in getting zamíndárs (as distinguished from Chamárs and menials) to put their hand to the spade in digging out their own village tanks for wages. Such relief works have been offered to villages repeatedly, and the zamíndárs still hang back. A test work as suggested by the Code is, with Rájpúts, who are restrained from labor by caste, impossible. Nothing but actual starvation will make these people apply for paid labor. Prices are as follows:— Wheat ... 15 to 15½ seers. Gram ... 18 to 18½ seers.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF MAY 1896—(CONTINUED).

Explanation :—(*c*) = Canal Rain-guage Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st March.	1st April to 31st May.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 31st May 1896.	Total.	Condition of crops and cattle, and health of people.
Rawalpindi.	Pindigheb ...	5.01	2.21	0.81	0.33	4.99	0.33	5.32	Rabi being cleaned. Extra rabi not good owing to drought. Kharif not being sown owing to want of rain. Fodder insufficient.
	Fatahjang ...	6.99	1.75	0.97	0.55	3.00	0.55	3.55	
	Attock ...	6.51	1.79	0.90	0.45	4.07	0.59	4.66	
	Rawalpindi ...	**8.87**	**3.41**	**1.41**	**0.41**	**4.72**	**0.80**	**5.52**	
	Gujar Khan ...	7.53	2.19	1.49	0.10	3.68	0.22	3.90	
	Kahúta ...	8.69	2.16	1.20	0.23	4.46	0.41	4.87	
	Murree ...	9.53	6.90	3.83	1.68	15.84	3.14	18.98	
Hazara.	**Abbott-abad** ...	**14.82**	**5.87**	**2.60**	**1.16**	**10.62**	**1.94**	**12.56**	Rabi crops cut and harvested except on the higher ranges. Outturn on unirrigated area "indifferent;" outturn on irrigated area "average." Standing crops on dry lands suffering greatly from drought. Sowings delayed for want of rainfall. Prices stationary, though high. Stocks of grain sufficient. Fodder scarce in some places. Water in springs and wells so low that people are obliged to get down to the lower streams with their cattle. Water in irrigation cuts very low, while many springs and wells have run dry.
	Mansehra ...	14.87	4.67	1.52	0.68	10.09	1.82	11.91	
	Haripur ...	11.24	3.61	1.33	0.66	4.65	1.27	5.92	
Peshawar.	Swábi ...	5.88	2.35	1.00	0.38	4.76	0.38	5.14	Kharif sowings completed. The rabi crops have almost been reaped. In Tahsil Utman Bolak the wheat and barley harvests were good. In Charsadda Tahsíl the yield on irrigated lands was good, and on unirrigated lands below the average, and in other tahsíls it was fair. Fodder sufficient. There is stock in hand of newly harvested food grains. Sufficient water in canals and rivers. No floods from hill torrents.
	Lahore (Utman Bolak)	6.01	1.93	0.44	0.38	3.56	0.38	3.94	
	Nowshera ...	6.15	1.91	0.70	0.58	4.95	0.78	5.73	
	Mardán ...	6.66	1.73	0.45	0.92	5.68	0.98	6.66	
	Katlang ...	5.27	1.54	0.52	0.98	5.46	1.13	6.59	
	Charsadda ...	5.17	1.16	0.33	1.10	3.88	1.16	5.04	
	Nabbaki ...	5.95	2.17	0.52	0.42	3.81	0.64	4.45	
	Peshawar ...	**5.42**	**2.40**	**0.72**	**0.42**	**4.75**	**0.63**	**5.38**	
	Abazai (*c*) ...	...	...	...	0.40	3.60	0.70	4.30	
	Khanmahi (*c*) ...	...	...	...	0.50	2.85	0.60	3.45	
Kohat.	**Kohat** ...	6.31	3.06	1.61	0.34	4.37	0.34	4.71	There has been very little rain during the month. Water in Toi has entirely dried up. Rain is most urgently required for extra rabi crops and for sowings of early kharif crops. Rabi crops have been cut and harvested and the produce of crops on irrigated lands is about the average and that of unirrigated lands below the average. Fodder for cattle and stock of food grains are not sufficient. No cattle are, however, reported to have died from starvation. In some villages in the Khattak Iláqa as also in the Kohát Tahsíl the people have removed to favourable tracts on account of scarcity of water for drinking purposes.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF MAY 1896—(CONCLUDED).

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st March.	1st April to 31st May.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 31st May 1896.	Total.	Condition of crops and cattle, and health of people.
Bannu.	Miánwáli ...	2·50	1·58	0·63	0·45	1·55	0·45	2·00	Rabi crops have been harvested. The condition of the extra rabi crop is on the whole fair and the outturn is expected to be good. Some injury was caused to these by hailstorms on the 9th and 19th May. Rain is wanted badly for the unirrigated lands. Prices stationary. Stock of food-grains are sufficient in Bannu and Isa Khel; scanty in Mianwáli and Marwat. Fodder sufficient in all other tahsíls except Miánwáli, where cattle have been sent away to other districts. Irrigation canals working satisfactorily.
	Isa Khel ...	2·79	1·69	0·71	0·28	1·98	0·31	2·29	
	Bannu ...	3·28	1·81	0·67	0·24	3·09	0·38	3·47	
	Marwat ...	3·31	1·56	0·94	0·38	3·04	0·38	3·42	
Dera Ismail Khan.	Tánk ...	1·71	0·88	0·28	...	2·38	...	2·38	Harvesting, &c., of rabi crops nearly completed: outturn average. Condition of standing extra rabi crops good. Hail fell in certain villages of the Kuláchi Tahsíl on the 9th May and slightly injured the extra rabi crops. Stocks of food-grains sufficient. Health of people good. Fodder sufficient. Prices high. Wheat 17 seers and bájra 17½ seers per rupee.
	Kuláchi ...	1·77	0·95	0·41	0·70	2·62	0·70	3·32

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 9th June 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 23RD MAY 1896.

Births and Deaths in Municipal Towns.—In the 45 large Municipal towns 847 births were registered (462 males and 385 females), giving a birth-rate of 31 per *mille* of population; 1,181 deaths were registered (664 males and 517 females), giving a death-rate of 44 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,

Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 9th June 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 16th JUNE 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	...	1. Very scarce. 2. Dying of starvation.	High. Wheat 14 seers. Maize 14 seers.	Rain urgently wanted for kharif sowings.	Grain stock sufficient for the present.
2	Delhi ...	Slight rainfall throughout.	1. Scarce. 2. Fair.	Abnormal. Wheat 14 seers. Bájra 14 seers.	Sowings commenced.	Stock of food-grain sufficient.
3	Umballa ...	...	1. Insufficient. 2. Cattle are suffering much.	Wheat 15 to 15½ seers. Gram 17¾ to 18½ seers.	Rain badly needed. Ploughings commenced. Sugar-cane crop suffering. Water insufficient.	
4	Jullundur ...	...	1. Sufficient. 2. Good.	High. Wheat 17½ seers. Maize 21 seers.	Cotton and sugarcane being watered by wells.	Condition of extra rabi crops good. Stock of grain sufficient.
5	Ferozepore ...	...	1. Sufficient. 2. Fair.	Wheat 15 seers. Maize 20 seers.	...	Extra rabi crops average. Stock of food-grain sufficient.
6	Amritsar ...	...	1. Dry fodder sufficient. 2. Good.	Continue high. Wheat 17¾ seers. Maize 20 seers.	Crops in good condition.	Stock of food-grain sufficient.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharíf (Autumn).	Prospects of Rabi (Spring).
7	Siálkot ...	...	1. Sufficient. 2. Good.	Wheat 15 to 16½ seers. Maize 16 to 17 seers.	Sugarcane and cotton being weeded and irrigated by wells. Rain wanted.	Stock of food-grain sufficient.
8	Lahore ...	0·15 at Sadr.	1. Scarce. 2. Good.	Continue high. Wheat 15 to 17 seers. Maize 17 to 19 seers.	Sowings of cotton in progress. Land is being prepared for other crops. The present condition of crop is average.	Stock of grain sufficient, except in Sharakpur Tahsíl.
9	Mooltan ...	...	...	High. Wheat 13½ to 15 seers.	Sowings in progress. Chenab Canal and Sedhnai flowing well, but scanty supply in Sutlej Canals. Prospects in Sutlej Tahsíls unfavourable.	Crops being harvested.
10	Ráwalpindi ...	...	1. Insufficient. 2. Fair.	High. Wheat 14¼ seers. Bájra 15½ seers. Maize 19 seers.	...	Crops being cleaned. Stock of grain sufficient.
11	Shahpur ...	...	1. Scarce. 2. Out of condition.	Above normal. Wheat 14 to 16 seers. Bájra 14 to 16 seers.	Rain wanted.	...
12	D. I. Khan ...	...	1. Sufficient. 2. Good.	High. Wheat 17 seers. Bájra 16 seers.	Rain much needed.	Condition of standing extra rabi crops good.
13	Peshâwar ...	...	1. Sufficient. 2. Good.	Rising. Wheat $14\frac{5}{16}$ seers. Maize $18\frac{14}{16}$ seers.	Standing crops average.	Stock of food-grain average.
14	Rohtak ...	...	1. Scarce. 2. Weak owing to want of fodder.	Rising. Wheat 14 seers. Jowár 13 seers.	Indigo and cotton being sown in canal villages. Prospects of canal crops good.	Stock of food-grain sufficient.
15	Gurgaon ...	...	...	...	Cotton and jowár (millet) sown on canal lands of Nuh Tahsíl. Standing crops drying up in certain places.	...
16	Karnál ...	...	1. Sufficient except in Nardak.	Stationary.	Kharíf sowings commenced in parts of Kaithal Tahsíl. Cotton sown on land dependent on rain. Rain badly wanted.	...
17	Gujránwála ...	...	...	...	...	...

GENERAL REMARKS.

Slight rain has fallen in Delhi and parts of Lahore. Prices rising in Peshâwar and Rohtak; above normal in Delhi and Shahpur; and high elsewhere. Spring crops being collected. Ploughings and sowings of autumn crops in progress. Cotton and sugarcane crops are being weeded and irrigated by wells in some districts. Rain badly wanted in most districts. Condition of extra spring crops is good in Jullundur and Dera Ismail Khan and average in Ferozepore. Sugarcane crop suffering for want of water in Umballa. Standing crops are drying up for want of rain in parts of Gurgaon. Prospects of autumn crops are said to be unfavourable in parts of Mooltan; their condition in other districts is said to be generally average. Stocks of food-grains are average in Peshâwar, insufficient in parts of Lahore, and sufficient elsewhere. Cattle are in poor condition for want of fodder in Umballa, Shahpur and Rohtak; they are dying of starvation in Hissar. Fodder scarce in all districts except Jullundur, Ferozepore, Amritsar, Siálkot, Dera Ismail Khan and Peshâwar. Number of persons employed on relief works in the Sharakpur Tahsíl, Lahore District, and that of non-working children and dependent on relief works is 2,924.

P. D. SHROFF, *Supdt.*,

Office of Director of Land Records and Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 18913.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 15th June 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 30TH MAY 1896.

Births and Deaths in Municipal Towns.—In the 45 large Municipal towns 897 births were registered (441 males and 456 females), giving a birth-rate of 33 per *mille* of population; 947 deaths were registered (482 males and 465 females), giving a death-rate of 35 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,

Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 15th June 1896.

W. A. CRAWFORD ROE, F.R.C.S., Brigade-Surgeon-Lieut.-Colonel,

Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

Fifty-eight thousand two hundred and seventy-seven births were registered in the Province during the month of April 1896, giving a birth-rate of 34 per mille of population. Of the total number of births, 30,898 were boys and 27,379 were girls.

The total number of deaths registered from all causes in the Province during the month of April 1896 was 46,068 against 51,386 in the previous month and 42,773 in the corresponding month of the past year, giving an annual death-rate of 27,.29 and 25 per mille of population per annum respectively.

There was one death registered under the head of cholera.

From small-pox 5,970 deaths were registered against 4,918 in the previous month and 705 in the corresponding month of the past year; fevers 26,103 against 30,642 and 27,651; dysentery and diarrhœa 959 against 690 and 1,042.

During the month there were 42 deaths registered from suicide against 30 in the past month; wounding 56 against 64; accidents 331 against 287; snake-bite and killed by wild beasts 52 against 33; and from all other causes 12,554 against 14,722 and 12,821 in the corresponding month of the past year.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 23rd JUNE 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharff (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	...	1. Very scarce and stock exhausted. 2. Dying of starvation.	High. Wheat 14 seers. Bájra 14 seers.	Rain urgently wanted for kharff sowings.	Grain stock sufficient.
2	Delhi ...	...	1. Scarce. 2. Fair.	Abnormal. Wheat 14 seers. Bájra 14 seers.	Kharff sowings in progress.	Stock of food-grains sufficient.
3	Umballa ...	...	1. Insufficient. 2. Cattle suffering much.	Wheat 15 to 15½ seers. Gram 17½ to 17¾ seers.	Kharff ploughing commenced. Sugarcane crops suffering from drought.	...
4	Jullundur ...	...	1. Sufficient.	High. Wheat 17½ seers. Maize 21 seers.	Cotton and sugarcane being watered from wells. Ploughings for other crops commenced.	Stock of grain sufficient.
5	Ferozepore ...		1. Sufficient.	Wheat 15 seers. Maize 20 seers.	...	Extra rabi crops average. Stocks of food-grains sufficient.
6	Amritsar ...	...	1. Dry fodder sufficient. 2. Good.	Continue high. Wheat 17¼ seers. Maize 20 seers.	Rain wanted for sowing other kharff crops. Existing kharff crops in good condition.	Stock of food-grains sufficient.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharíf (Autumn).	Prospects of Rabi (Spring).
7	Siálkot ...	0·40 average.	1. Sufficient. 2. Good.	Wheat 15 to 16½ seers. Maize 16 to 17 seers.	Rain wanted.	Stock of grain sufficient.
8	Lahore ...	0·11 at Sadr.	1. Scarce. 2. Poor in Sharakpur.	High. Wheat 15½ to 17 seers. Maize 17 to 19 seers.	Land is being prepared for crops. Condition of standing crops average. Stock sufficient, except in Sharakpur.	...
9	Mooltan ...	...	1. Sufficient.	High. Wheat 13½ to 15 seers. Jowár 14 seers.	Kharíf sowings in progress. Chenab and Sidhnai Canals are flowing well. Scanty supply of water in Sutlej Canal.	Rabi crops harvested.
10	Ráwalpindi ...	0·37 at Ráwalpindi 1·36 in Pindigheb. 0·35 in Gujar Khán 1·33 in Kahúta. 0·54 in Murree.	1. Insufficient. 2. Fair.	High. Wheat 14¼ seers Bájra 15½ seers. Maize 19 seers.	Kharíf prospects not good owing to drought.	Stock of grains sufficient.
11	Shahpur ...	Rainfall throughout	1. Scarce 2. Cattle out of condition.	Above normal.	Kharíf crops sown on well and canal irrigated lands. Recent rain not sufficient to cultivate lands dependent on rain.	Food grains imported from outside into tahsíl Khusháb.
12	D. I. Khan ...	...	1. Sufficient. 2. Good.	High. Wheat 17½ seers.	Rain badly wanted.	Condition of standing extra rabi crops good.
13	Pesháwar ...	...	1. Sufficient. 2. Good.	Prices rising. Wheat $14\frac{5}{16}$ seers. Maize $18\frac{3}{16}$ seers.	Standing crops average.	Stock of food-grains average.
14	Rohtak ...	...	1. Scarce. 2. Weak owing to want of fodder.	Wheat 14 seers. Jowár 13 seers.	Cotton being sown in a few canal villages. Prospects of canal crops good.	Stock of food-grains sufficient.
15	Gurgaon ...	Slight rain in Gurgaon, Rewári and Palwal Tahsils.	1. Scarce.	...	Cotton and jowár coming up well on irrigated lands in Rewári and Nuh Tahsíls.	...
16	Karnál ...	Slight rainfall in Kaithal.	1. Sufficient, except in parts. 2. Good.	Wheat 14 seers. Maize 15 seers	Cotton being sown.	...
17	Gujránwála ...	...	1. Very scarce and dear; in some places unprocurable. 2. Bad for want of fodder.	...	No crop being sown on well-irrigated land. Rice being sown on canal-irrigated areas in Tahsíl Háfizabad. Cane and cotton on well and canal lands doing well; on inundation lands fairly.	Stock reported to be sufficient for the present.

GENERAL REMARKS.

Rain has fallen in parts of Siálkot, Ráwalpindi, Shahpur, Karnál and Gurgaon. Prices rising in Pesháwar and high elsewhere. Harvesting of spring crops nearlyover. Ploughings and sowings of autumn crops going on. Cotton and sugarcane crops are being watered from wells in some districts. Rice sowings in progress on canal-irrigated lands in Gujránwála. Rain badly wanted for autumn sowings in most districts. Condition of standing extra spring crops is generally reported good to average. Sugarcane crop is suffering from drought in Umballa. Prospects of autumn crops are said to be unfavourable in Ráwalpindi owing to drought. Cotton and jowár coming up well on irrigated lands in Gurgaon. Stock of food-grain is sufficient in all districts except Pesháwar and parts of Lahore. Cattle are in poor condition in Umballa, Shahpur, Rohtak and Gujránwála and parts of Lahore for want of fodder. They are dying of starvation in Hissar. Fodder scarce in all districts except Jullundur, Ferozepore, Amritsar, Siálkot, Mooltan, Dera Ismail Khan and Pesháwar. Number of persons employed on relief works in the Sharakpur Tahsíl, Lahore District, is 6,218, and that of non-working children and dependents on relief works is 1,564.

Errata.—In the General Remarks to the weather, Health and Crop Report for week ending 16th June 1896 in the last line insert between "District" and "and that of non working" the words "is 7,852."

Lahore ...	Lahore ...	Sharakpur ...	22,652 4 11	...	18,982 1 3	*Nil.*	*Nil.*	*Nil.*	2·54	Omitted	Atta ...	9¾ seers per rupee.	Atta ...	9⅞ seers per rupee.	Relief work No. 2 was finished on Thursday, 18th June, and in consequence the daily average number of workers is less than that of the preceding week. For the same reason also the amount paid in wages seems small compared with the daily average number of workers. See remarks for last week regarding rate of atta compared with daily wages.

R. G. THOMSON,

Revenue Secretary to Government, Punjab.

AGRICULTURAL PROSPECT REPORT OF THE FEROZEPORE AND DERA GHAZI KHAN DISTRICTS OF THE PUNJAB FOR THE MONTH OF MAY 1896, RECEIVED TOO LATE FOR INSERTION IN THE SUPPLEMENT TO PUNJAB GAZETTE OF 11TH JUNE 1896.

Explanation :—(*c*)=Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average rainfall of past years.			*Rainfall of present year.*				
DISTRICT.	Rain-gauge Station.	1st October to 31st March.	1st April to 31st May.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 31st May 1896.	Total.	Condition of crops and cattle, and health of people.
FEROZEPORE.	Moga ...	2·14	0·92	0·57	...	2·03	...	2·03	New grain has commenced to come into the market. Fodder and stocks of food-grain sufficient.

PUNJAB, IRRIGATION BRANCH.

of 1896 *up to* 31*st May* 1896.

Land irrigated (approximate).		Rainfall.			Chief Crops (approximate).				Remarks.
Zillah.	Acres.	Number of years on which average is struck.	Average.	During month.	Name.	Area irrigated *during* May 1896.	Area irrigated *to end of* May 1896.	Area irrigated *to end of* May 1895.	
6	7	8	9	10	11	12	13	14	15
					Sugarcane ...	156	1,977	1,185	Canal ran throughout the month. There is an increase of 4,700 acres over the corresponding month of the previous year.
					Rice ...	55	109	86	
Peshâwar ...	10,254	10	·32	·51	Cotton ...	4,435	5,661	2,927	
					Indigo ...	...	...	...	
					Maize ...	6	6	...	
					Jowár and Chari	109	119	29	
					Miscellaneous ...	1,480	2,381	1,327	
...	10,254	...	...	...	...	6,241	10,254	5,554	
Umballa ...	281		·49	·20	Sugarcane ...	16,679	50,504	34,807	The prospects of the crop are distinctly favourable. The supply in the river fluctuated, but on the whole was not bad considering the time of year. All of it was utilized. Much water was given free of charge for filling tanks. Drought prevails.
Karnal ...	28,462		·24	·31	Rice ...	53	53	13	
Rohtak ...	45,021	18	·51	·47	Cotton ...	45,007	59,273	43,144	
Delhi ...	22,069		·54	·78	Indigo ...	26,324	32,778	12,886	
Hissar ...	51,996		·25	1·10	Maize ...	11	11	9	
Jind ...	7,816		·36	·58	Jowár and Chari	5,839	8,786	1,241

LAHORE, THURSDAY, JULY 2, 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 30th JUNE 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	0·48 at Sadr.	1. Very scarce; stock exhausted. 2. Cattle dying of starvation.	High. Wheat 14 seers. Bájra 13 seers.	Rain urgently wanted.	**Grain stock sufficient.**
2	Delhi ...	2·80 at Sadr. 1·34 in Sonepat.	1. Scarce. 2. Fair.	Abnormal. Wheat 14 seers. Bájra 13 seers.	Sowings in progress.	**Stock of food-grains sufficient.**
3	Umballa ...	2·91 at Sadr.	1. Insufficient. 2. Good.	Wheat 14¾ to 15¼ seers. Grain 17¾ to 18½ seers.	Sowings commenced. Water sufficient. Rain not sufficient for rice sowings.	...
4	Jullundur ...	Rainfall throughout.	1. Sufficient. 2. Good.	High. Wheat 17 seers. Maize 20 seers.	Condition of cotton and sugarcane crops good. Ploughings for other crops in progress.	Stock of food-grains sufficient.
5	Ferozepore ...	0·74 at Sadr. 1·55 in Moga. 0·45 in Zíra. 0·17 in Fázilka. 0·18 in Nathána. 0·42 in Jalalabad.	1. Sufficient.	Wheat 15 seers. Maize 20 seers.	Ploughings commenced.	Ditto.
6	Amritsar ...	0·27 average.	1. Sufficient. 2. Good.	High. Wheat 17½ seers. Maize 18 seers.	Rain badly wanted for other crops. Standing crops in good condition.	Ditto.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
7	Siálkot ...	0·81 average.	1. Sufficient. 2. Good.	Wheat 15½ to 17½ seers. Maize 16 to 17 seers.	Recent rain has much benefited the crops.	Stock of food-grain sufficient.
8	Lahore ...	1·09 at Sadr. 0·10 in Chúnián. 0·78 in Kasúr. 0·03 in Sharakpur.	1. Scarce in parts. 2. Good.	High. Wheat 15½ to 16 seers. Maize 17 to 19 seers.	Rice is being sown on well lands. Land is being prepared for other crops. Present condition of crops average.	Outturn of extra rabi crops good. Grain stock sufficient, except in the Sharakpur Tahsíl.
9	Mooltan ...	...	...	High. Wheat 13½ to 15 seers. Jowár 14 seers.	Sowings in progress. Chenab and Sidhnai Canals flowing well. Supply has much improved in Sutlej Canals.	...
10	Ráwalpindi ...	0·62 in Pindigheb. 0·48 in Fatehjang. 0·80 in Kahúta. 2·75 in Murree.	1. Insufficient. 2. Fair.	High. Wheat 13¾ seers. Bájra 15 seers. Maize 18 seers.	Prospects not good owing to drought.	Stock of grains sufficient.
11	Shahpur ...	Slight rainfall at Bhera.	1. Scarce.	Wheat 15 to 16 seers. Bájra 14 to 16 seers.	Rain much needed.	Wheat being imported from outside into Khusháb Tahsíl.
12	D. I. Khan ...	0·17 at Sadr. 0·70 in Tánk. 1·00 in Kuláchi. 0·38 in Shekh Budín	1. Sufficient. 2. Good.	High. Wheat 17 seers.	...	Rain has benefited standing extra rabi crops, but more still wanted. Condition of crops good.
13	Pesháwar ...	...	1. Sufficient. 2. Good.	Rising. Wheat 14 seers. Maize $18\frac{3}{16}$ seers.	Standing crops average.	Stock of food-grains average.
14	Rohtak ...	1·80 at Sadr. 0·59 in Sámpla. 2·10 in Gohána. 0·66 in Jhajjar.	1. Scarce. 2. Cattle weak owing to want of fodder; 186 cattle died of starvation in Jhajjar Tahsíl.	Wheat 14 seers. Jowár 13 seers.	Cotton and bájra (bulrush millet) being sown in villages where there has been rain. Prospects of crops good.	Stock of food-grains sufficient.
15	Gurgaon ...	Rainfall in Rewári Tahsíl; in other places insufficient.	1. Scarce.	...	Standing crops doing well.	...
16	Karnál ...	1·00 average.	2. Improving.	Wheat 14 seers. Maize 15 seers.	Sowings commenced. Cotton, jowár (millet) and rice being sown.	...
17	Gujránwála ...	2·06 at Sadr. 0·18 in Rámnagar. 0·55 in Wazírabad. 0·30 in Shekhupura 0·45 in Háfizabad.	1. Very scarce and dear; unprocurable in some places. 2. Bad for want of fodder.	...	Jowár (millet) and bájra (bulrush millet) being sown on canal-irrigated lands in Háfizabad, and jowár (millet) and moth (Phaseolus Aconitifolius) in parts of Gujránwála and Wazirabad. Cane and cotton on well and canal lands doing well and on inundated lands fairly well.	Stock of food-grains sufficient for the present.

GENERAL REMARKS.

Rain has fallen in all districts except Mooltan and Peshâwar. Prices abnormal in Delhi, rising in Peshâwar, and high elsewhere. Ploughings and sowings of autumn crops in progress. Cotton and bulrush millet being sown in parts of Rohtak District favoured with rain, and cotton and rice, &c., in parts of Gujránwála. The sowing of rice is also in progress on well lands in Lahore. More rain is urgently needed in most districts. Condition and prospects of standing crops are generally reported to be good to average. They are bad owing to drought in Ráwalpindi. The recent rain has benefited the crops in some districts. Outturn of extra spring crops is said to be good in Lahore. Stock of food-grains is insufficient in parts of Lahore and average in Peshâwar. Cattle are in good condition in all districts except Hissar, Rohtak and Gujránwála. They are dying of starvation in the two first-named districts. 186 heads are said to have died in Rohtak. Their condition is improving in Karnál. Fodder scarce in all districts except Jullundur, Ferozepore, Amritsar, Siálkot, Dera Ismail Khan and Peshâwar. Number of persons employed on relief work in tahsíl Sharakpur district Lahore, is 241, and that of non-working children and dependents is 47.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 7th JULY 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharíf (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	0·52 in Sirsa. 0·25 in Fatahabad 2 41 in Hánsi. 3 32 in Bhiwáni.	1. Stock exhausted. Green grass would soon spring out. 2. Dying of starvation	High. Wheat 14 seers. Bájra 13 seers.	Ploughings and sowings commenced in Hánsi and Bhiwáni.	Stock of food grain sufficient.
2	Delhi ...	1·85 at Sadr. 0·19 in Sonepat. 1 30 in Ballabgarh.	1. Dry scarce; green available. 2. Fair.	Abnormal. Wheat 14½ seers. Bájra 14 seers.	Sowings in progress.	Ditto.
3	Umballa ...	1·16 at Sadr.	...	Wheat 1 1¾ to 15¼ seers. Gram 18 to 18½ seers.	Sowings commenced. Rain insufficient for rice sowings. More is badly needed. Water sufficient.	...
4	Jullundur ...	Slight rainfall in Jullundur, Nakodar and Phillour Tahsíls.	1. Sufficient. 2. Fair.	High. Wheat 17 seers. Maize 20 seers.	Condition of cotton and sugarcane crops fair. Sowings of other crops commenced.	Stock of food grain sufficient.
5	Ferozepore ...	0·10 at Sadr. 1 58 in Muktsar. 0 16 in Fázilka. 0 22 in Jalálabad.	1. Sufficient.	Wheat 15 seers. Maize 20 seers.	Ploughings and sowings commenced.	Ditto.
6	Amritsar ...	1·33 average.	1. Sufficient. 2. Good.	Normal Wheat 17 seers. Maize 17 seers.	Crops in good condition Sowings of remaining kharíf crops commenced.	Ditto.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring)
7	Siálkot ...	1·91 average.	1. Sufficient. 2. Good.	Wheat 15½ to 17 seers. Maize 16 to 17 seers.	Standing crops doing well. Sowings of maize and millet commenced.	Stock of food grain sufficient.
8	Lahore ...	1·40 at Sadr. 1·14 in Chuniân. 0·26 in Sharakpur.	1. Scarce in Sharakpur Tahsíl and baráni tracts of other tahsíls. 2. Poor. They are getting lean for want of fodder.	High. Wheat 15½ to 17 seers. Maize 13 to 15 seers.	Land is being prepared. Rice and moth (Phaseolus aconitifolius) are being sown. Condition of crops average.	The outturn of extra rabi crops is good. Grain stock sufficient, except in Sharakpur. Three hundred and fifty-nine persons were employed on the relief works.
9	Mooltan ...	0·63 in Mailsi.	1. Scarce.	High. Wheat 13½ to 15 seers. Jowár 14 seers.	Sowings except cotton and rice finished. Canals flowing well.	...
10	Ráwalpindi ...	2·49 at Ráwalpindi. 1·56 in Pindigheb. 1·24 in Fatahjang. 0·25 in Attock. 1·69 in Gujar Khan. 0·36 in Kahúta. 2·?7 in Murree.	1. Insufficient. 2. Fair.	High. Wheat 14 seers. Bájra 15 seers. Maize 17½ seers.	Crops being sown.	Stock of grain sufficient.
11	Shahpur ...	Rainfall throughout.	1. Scarce.	Wheat 15 seers. Bájra 13 to 16 seers.	Another good shower will improve state of things.	Food grain imported into Khusháb Tahsíl from outside.
12	D. I. Khan ...	0·01 at Sadr. 0·27 in Bhakkar. 0·09 in Leiah. 2·50 in Tánk. 0·13 in Kuláchi. 0·50 in Shekh Budín.	1. Sufficient. 2. Good.	High. Wheat 17 seers.	Preparations being made for sowing.	Standing extra spring crops benefited by recent rains. Stock of food grain sufficient.
13	Peshâwar ...	0·28	1. Sufficient. 2. Good.	Rising. Wheat $13\frac{13}{16}$ seers. Maize $17\frac{1}{16}$ seers.	Standing crops average.	Stock of food grain average.
14	Rohtak ...	0·10 at Sadr. 0·15 in Sámpla. 0·67 in Jhajjar.	1. Scarce. 2. Weak owing to want of fodder; 8 head of cattle died of starvation in Sámpla Tahsíl.	Wheat 14 seers. Jowár 13 seers.	Cotton, bájra (bulrush millet), jowár (large millet), &c., are being sown in villages where there has been rain and paddy in canal villages. Prospects of crops good.	Stock of food grain sufficient.
15	Gurgaon ...	Good rainfall in Farukhnagar; insufficient elsewhere.	...	...	Sowings on baráni (dependent on rain) land where there has been sufficient rain commenced.	...
16	Karnál ...	Rainfall in Kaithal.	1. Sufficient except in Nardak Iláka. 2. Good.	Wheat 14 seers. Maize 15 seers. Gram 16 to 17 seers.	Sowings in progress in places.	...
17	Gujránwála ...	1·42 at Sadr. 0·94 in Rámnagar. 0·60 in Wazírabad. 1·47 in Háfizabad. 0·50 in Shekhupura. 2·84 in Khángah Dográn.	1. Very scarce; unprocurable in some places. 2. Bad for want of fodder and mortality on the increase.	...	Jowár (large millet), moth (Phaseolus aconitifolius), bájra (bulrush millet) and til (sesamum) are being sown in some villages. Ploughings in progress on baráni lands. Cane and cotton on canal and well lands doing well; on inundated lands fairly well.	Stock of food grain sufficient for the present.

GENERAL REMARKS.

Rain has fallen all over the Province. Prices rising in Peshâwar; abnormal in Delhi; normal in Amritsar; and high elsewhere. Ploughings and sowings for autumn crops in progress. Sowings of maize and millet in Siálkot, rice, and moth (Phaseolus aconitifolius) in Lahore, cotton, millet and paddy in Rohtak, and millet, moth (Phaseolus aconitifolius) and sesamum in Gujránwála in progress. Rice sowings retarded in Umballa for want of sufficient rain. More rain is badly wanted in some districts. Standing extra spring crops benefited by recent rain in Dera Ismail Khan: the outturn of this crop is said to be good in Lahore. Condition and prospects of standing autumn crops are fair in Jullundur, Siálkot and Gujránwála; good in Amritsar and Rohtak; and average in Lahore and Peshâwar. Stock of food grain is insufficient in parts of Lahore and Shahpur and average in Peshâwar. Another good shower will improve the condition of crops in Shahpur. Cattle are reported to be in poor condition in Hissar, Lahore, Rohtak and Gujránwála; they are very lean and are dying of starvation in parts of these districts. Fodder scarce in all districts except five. Number of persons employed on relief works in Tahsíl Sharakpur, District Lahore, is 359.

Number of relief workers has fallen from 6,[illegible]79 in previous weeks to 91. The reason for this is that orders were given to start work on the Gugera branch of the Chenab Canal, but no worker would go there for famine wages A relief work was started on Thursday, 25th, and orders given that up to 500 workers could be employed on it, but owing to heavy rain on evening of 26th-27th workers did not come in great numbers, but went to work in their villages and fields instead. The rise in corn rates for rupee is due to the fact that the present relief works are situate only 12 miles from Sharakpur and grain is easily obtainable. *Note.*—Rainfall is shown as ·06 only, but it rained considerably more in outlying parts.

R. G. THOMSON,

Revenue Secretary to Government, Punjab.

Note.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 3rd July 1896.

W. A. CRAWFORD ROE, F.R.C.S., Brigade-Surgeon-Lieut.-Colonel,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 20TH JUNE 1896.

Births and Deaths in Municipal Towns.—In the 44 large Municipal towns 1,016 births were registered (519 males and 497 females), giving a birth-rate of 38 per *mille* of population; 1,007 deaths were registered (506 males and 501 females), giving a death-rate of 37 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,
Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 3rd July 1896.

No. 29 of 1896.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, JULY 16, 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 14th JULY 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	1·08 in Fatahabad. 0·15 in Bhiwáni.	1. Fodder stock exhausted. 2. Dying of starvation.	High. Wheat 14 seers. Bájra 13 seers.	More rain urgently wanted.	Grain stock sufficient.
2	Delhi ...	0·39 at Sadr. 0·14 in Sonepat. 0·09 in Ballabgarh.	1. Scarce. 2. Good.	Abnormal. Wheat 13½ seers. Bájra 13½ seers.	Sowings stopped for want of further rain.	Stock sufficient.
3	Umballa ...	0·23	1. Fodder insufficient. 2. Good.	Wheat 14 to 14½ seers. Gram 16¾ to 17¼ seers.	More rain is badly needed. Crops will suffer if rain keeps off much longer. Water sufficient.	Grain insufficient.
4	Jullundur ...	Slight rainfall in Nakodar and Nawashahr Tahsíls.	1. Scarce.	High. Wheat 16 seers. Maize 19 seers.	Condition of cháhi cotton and sugarcane crops fair. Baráni (dependent on rain) and sailáb (flooded) poor. Kharif sowings in progress.	Stock of grain sufficient.
5	Ferozepore ...	0·76 at Sadr. 0·36 in City. 0·78 in Moga. 0·65 in Zíra. 0·59 in Muktsar. 0·30 in Fázilka. 0·15 in Nathána. 0·85 in Jalálabad.	1. Sufficient.	Wheat 15 seers. Maize 20 seers.	Ploughings and sowings continued.	Stock of food grain sufficient.
6	Amritsar ...	0·30 average.	1. Sufficient.	Normal. Wheat 17 seers. Maize 17 seers.	Sowings going on. Sugarcane and cotton crops in good condition.	Ditto.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
7	Siálkot ...	0·78 average.	1. Sufficient. 2. Good.	Wheat 15½ to 17 seers. Maize 16 to 17 seers.	Crops promise well. Sowings in progress.	Stock sufficient.
8	Lahore ...	...	1. Scarce. 2. Poor in Sharakpur Tahsíl.	High. Wheat 16 to 18 seers. Maize 13 to 15 seers.	Rice and maize are being sown. Land is being prepared for other crops.	Condition of extra rabi crops fair. Grain stock sufficient except in Sharakpur Tahsíl. Number of persons employed on relief works in the Sharakpur Tahsíl is 355, and that of non-working children and dependents on relief works is 19.
9	Mooltan ...	1·30 in Mailsi. 0·93 in Lodhrán. 0·40 in Shujabad.	1. Scarce.	High. Wheat 13½ to 15 seers. Jowár 14 seers.	Cotton, rice and jowár (large millet) are being sown. Canals flowing well.	...
10	Ráwalpindi ...	0·28 in Fatahjang. 0·26 in Attock. 0·55 in Murree.	1. Insufficient. 2. Fair.	High. Wheat 14½ seers. Bájra 15 seers. Maize 18 seers.	Crops not good owing to drought.	Stock of grain sufficient.
11	Shahpur ...	Rainfall throughout.	1. Scarce.	Above normal.	More rain wanted.	...
12	D. I. Khan ...	1·50 in Tánk. 5·34 in Shekh Budin	1. Sufficient. 2. Good.	High. Wheat 16 seers.	Cotton in good condition. Preparation for sowing being made.	Condition of standing extra rabi crops good.
13	Pesháwar ...	...	1. Sufficient. 2. Good.	Normal.	Standing crops average.	Stock of food grains average.
14	Rohtak ...	0·20 at Sadr.	1. Scarce. 2. Cattle in bad state for want of fodder. Seventy five head of cattle have died from starvation.	Wheat 14 seers. Jowár 13 seers.	Jowár (large millet), &c., are being sown in parts. Prospects of crops good.	Stock of food grain sufficient.
15	Gurgaon ...	Slight showers in some places.	1. Scarce.	Rising.	Sowings on baráni (dependent on rain) lands being pushed on. Locusts visited Rewári and Kutabpur, but did no damage.	...
16	Karnál ...	Rainfall in Pánipat and Kaithal.	1. Scarce in Nardak. Grass available. 2. Good.	Rising. Wheat 13 seers. Maize 15 seers. Gram 15 seers.	More rain wanted for autumn sowings.	Stocks diminishing.
17	Gujránwála ...	1·22 in Wazirabad. 1·40 in Shekhupura	1. Scarce and dear. In some places unprocurable. 2. Bad for want of fodder.	...	Mung (phaseolus mungo), moth (phaseolus aconitifolius), and jowár (large millet) are being sown in part. Ploughings in progress on baráni (dependent on rain) lands. Present crops sown on well and canal areas are doing well and on inundated lands fairly well.	Stock reported to be sufficient for the present.

GENERAL REMARKS.

Rain has fallen in all districts except Lahore and Pesháwar. Prices rising in Gurgaon; normal in Amritsar and Pesháwar; above normal in Shahpur; abnormal rise in Delhi; high elsewhere. Ploughings and sowings of autumn crops in progress. Rice and maize being sown in Lahore; cotton, rice and jowár (large millet) in Mooltan; mung (phaseolus mungo), moth (phaseolus aconitifolius) and jowár (large millet) in Gujránwála. Ploughings and sowings on lands dependent on rain being pushed on in Gurgaon and Gujránwála. Sowings stopped for want of further rain in Delhi. More rain is urgently wanted in most districts. Condition of standing extra spring crops is good in Dera Ismail Khan and fair in Lahore. Condition and prospects of autumn crops already grown are said to be good to average. They are reported bad in Ráwalpindi owing to drought. Crops in Umballa will suffer if rain keeps off much longer. Grain stock insufficient in parts of Lahore and average in Pesháwar. Gram is also said to be insufficient in Umballa. Locusts appeared in parts of Gurgaon, but did no damage. Cattle are reported to be in poor condition in Rohtak, Gujránwála and parts of Lahore. They are dying of starvation in Hissar and Rohtak. In other districts their condition is good. Fodder scarce or insufficient in all districts except Ferozepore, Amritsar, Siálkot, Dera Ismail Khan and Pesháwar.

Number of persons employed on relief works in the Sharakpur Tahsíl, Lahore District, is 355, and that of non-working children and dependents on relief works is 19.

P. D. SHROFF, *Supdt.,*

Office of Director of Land Records and Agriculture, Punjab.

* Mean of 22 days.

The month of May was exceptionally fine and settled throughout the Punjab, and both the day and night temperatures exceeded the normal, though there were no very extraordinarily high readings such as are occasionally recorded when towards the end of the month there occurs an unusual burst of heat. The weather was fine, hot and settled during the first week. On the 7th a depression appeared over the south of the Punjab; on the 8th this depression was still shown, but the weather, with the exception of a passing shower at Simla, remained fine. The chart of the 9th showed that the depression had intensified, the sky had become cloudy at Murree, Pesháwar and Ráwalpindi, and the wind was blowing with the force of a gale over a considerable part of the Province. Showers set in on the 10th, and on that and following day rain was received at Murree (1·04″), Dera Ismail Khan, Pesháwar, Ráwalpindi, Umballa, Ludhiána, Simla and Siálkot. Fine weather was re-established on the 12th and continued with a high temperature until the 17th, when the sky clouded over on the hills and a depression appeared over Sind. This depression was moving northward on the 18th, and showers were received at Delhi, Sirsa, Umballa, Ludhiána, Lahore and Murree. On the 19th the weather was fine, but on the 20th thunderstorms gave showers again to several stations. From the 21st until the close of the month the weather was fine over by far the greater part of the Province, though on several days dust or thunder storms occasioned slight local showers at different stations. Throughout the month there was much dust in the air.

Barometer and Winds.—The barometer read below the normal at all the plains stations except Ráwalpindi, but above the normal at both the hill stations. Hence it would appear that the slight pressure deficiency, which is characteristic of all the plains stations, was a result of the high temperature which prevailed almost continuously. South-east and north-east winds were unusually prevalent, and the force of the wind was generally higher than usual.

Temperature.—The excessive temperature which prevailed at all stations during April continued during May. The abnormal excess was more marked on the plains than on the hills, and was nearly 6° at Lahore, Ráwalpindi and Mooltan, while it was only about 4° at Simla and Murree. Both the day and night temperatures were everywhere excessive, and at the majority of stations by very similar amounts. The hottest place was Mooltan, with a mean temperature of 96°·2, and the coolest (on the plains) Pesháwar, with a mean temperature of 87°·2. The day temperatures were on the average of the month highest at Montgomery, where the mean for the month was 111°·5.

The following table shows the variation from the normal of the mean temperature of the Province on each day and the highest maximum temperature registered in the Province on each day with the station recording it:—

Date.	Variation from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded in previous 24 hours.	Station at which recorded.	Date.	Variation from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded in previous 24 hours.	Station at which recorded.

" 4th ...	+ 5·9	112·9	Montgomery.	" 20th ...	+ 3·7	107·4	Mooltan.
" 5th ...	+ 6·0	114·6	Sirsa.	" 21st ...	+ 3·3	106·3	Khusháb.
" 6th ...	+ 6·5	113·[illegible]	Mooltan.	" 22nd ...	+ 5·8	110·9	Mooltan.
" 7th ...	+ 7·5	[illegible]	Montgomery.	" 23rd ...	+ 6·9	111·9	Do.
" 8th ...	+ 7·5	[illegible]	Do.	" 24th ...	+ 3·7	110·4	Do.
" 9th ...	+ 8·2	[illegible]	[illegible]	" 25th ...	+ 4·0	109·4	Do.
" 10th ...	+ 4·0	111·9	[illegible]	" 26th ...	+ 5·7	113·4	Do.
" 11th ...	+ 0·2	112·4	Umballa.	" 27th ...	+ 3·5	112·5	Delhi.
" 12th ...	+ 0·5	110·9	Do.	" 28th ...	+ 3·1	111·5	Do.
" 13th ...	+ 0·9	109·4	Mooltan.	" 29th ...	+ 4·6	117·0	Mooltan.
" 14th ...	+ 3·9	112·9	Do.	" 30th ...	+ 4·1	114·9	Montgomery.
" 15th ...	+ 6·6	113·9	Montgomery.	" 31st ...	+ 5·1	117·5	Mooltan.
" 16th ...	+ 7·2	115·4	Do.				

The above shows that the mean maximum temperature of the whole Province was excessive on each day except the 19th, when it was in trifling defect. The greatest abnormal

excess was on the 17th, when it amounted to nearly 10°. The highest maxima did not change much during the month, as the extremes were 118°·4 at Montgomery on the 9th and 117°·5 at Mooltan on the 31st.

Humidity and Cloud.—The humidity was exceedingly low on some days, but on the mean of the month the air was moderately damp. There was, however, very little cloud, several stations reporting clear skies on the average of the month.

Rain.—The slight rainfall which characterised the weather of April continued during May. At Mooltan, Khusháb and Cherát there was no rainfall throughout the month, while the only stations reporting a fall exceeding one inch were Murree (1·23″) and Srinagar (2·22″). At every station the rainfall was less than the normal, and on the hills this deficiency was large.

The following table gives the rainfall data for the Punjab Stations for May 1896 :—

STATIONS.	Normal average rainfall in May.	Actual rainfall in May 1896.	Difference from the average in May 1896.

Column 10 — Condition of crops and cattle, and health of people:

Hissar. — Rainfall of the month quite insufficient. Rain urgently needed for kharif sowings. The people are in a depressed condition. Fodder stock exhausted. Cattle dying of starvation. Grain stock sufficient to meet local requirements for the present. Young crops on canal land in good condition. Great inconvenience is felt both by people and cattle for want of drinking water.

Rohtak. —

1. On 28th June rain fell in patches throughout the district. In those villages where it fell bájra, jowár, moth and cotton sowings are beginning. In canal villages a good deal of cotton and some indigo has been sown during the month, and the crops which have spring up are good.
2. The cattle are weak and in poor condition for want of fodder. The number of cattle which have died from starvation up to date are 716.
3. Health of people good.
4. Stock of food-grain sufficient and prices as follows :—

Wheat	...	14 seers.
Gram	...	19 „
Jowár	...	13 „

Little or no fodder obtainable.

Gurgaon. — Kharif sowings have fairly commenced on baráni (dependent on rain) lands in places where there was sufficient rain. More rain is needed. In Nuh and Fírozpur cotton and jowár and in Rewári and Gurgaon, bájra and gúár are coming up well on irrigated lands. In Nuh and Palwal sugar-cane fields are being weeded. Fodder is scare in all tahsíls except Palwal. One thousand and eight head of cattle died for want of sufficient fodder. Prices stationary. General health good.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF JUNE 1896—(CONTINUED).

Explanation :—(*c*) = Canal Rain-gauge Station.

	Shakargarh ...	6·92	4·58	2·95	2·07	2·97	2·38	5·35	
Sialkot.	Zafarwál ...	5·70	4·45	2·88	1·89	3·63	2·38	6·01	There has been very little rain throughout the district during the month, and it was not well distributed. The sowings of jowár and maize are made to a small extent and the weeding of cotton and cane is in progress. The extra rabi crops were damaged to a small extent by hail storm in seven villages of Zafarwál Tahsíl. 2. The prices are falling a little. 3. Dry fodder sufficient, but green fodder is wanted, particularly for the over-worked cattle of well tracts. 4. Health of people is generally good.
	Pasrúr ...	5·85	4·70	2·31	2·27	2·74	2·27	5·01	
	Raya ...	4·03	3·39	2·16	1·09	3·93	1·50	5·43	
	Daska ...	4·94	3·78	1·95	1·43	2·10	1·43	3·53	
	Sialkot ...	5·87	5·83	2·87	1·74	4·08	2·36	6·44	
Gujrat.	Gujrat (Sadr) ...	6·52	4·20	2·18	2·12	1·27	2·47	3·74	Slight rain has fallen, but not throughout the district. More rain badly needed for kharíf sowings. Where rain has fallen the land is being broken up for the kharíf crop. The standing crops of cotton and sugarcane are irrigated by wells. The condition of extra rabi crops is average. Stock of grain exists in some parts of the district. Fodder is sufficient in Tahsíl Gujrát, but scarce in both Khárián and Phália. Cattle have been removed to the Belas to graze.
	Khárián (Lála Músa)	6·35	4·11	2·45	1·64	2·86	1·87	4·73

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF JUNE 1896—(CONTINUED).

Explanation :—(*c*) = Canal Rain-guage Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st March.	1st April to 30th June.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 30th June 1896.	Total.	Condition of crops and cattle, and health of people.
Hazara.	Abbott-abad ...	14·82	8·80	2·93	1·49	10·62	3·43	14·05	Harvesting of rabi crops completed. Standing crops recovering from drought. Sowings going on where rain has fallen. In some tracts, where s'anding crops suffered excessively t e land is being re-sown. Prices stationary, though high. Stocks of grain sufficient, Stocks of fodder scarce in some places. Water in irrigation cuts low.
	Mansehra ...	14·87	6·40	1·73	0·89	10·09	2·71	12·80	
	Haripur ...	11·24	4·69	1·08	1·)9	4·65	3·2)	7·91	
Peshawar.	Swábi ...	5·88	2·69	0·34	...	4·76	0·38	5·14	Rain is very much wanted for kharíf sowing. The condition of the standing cotton, sugarcane and rice crops is fair, but those on unirrigated lands of the Baizai Tappah of the Mardán Tahsíl have almost wither d in consequence of drought. The crops on the canal lands of this tahsíl do not promise well. Insects have destroyed the melon crops in the Chársadda Tahsíl Fodder sufficient. There is stock of food-grains in hand. Sufficient water in canals. There was scanty supply of water in the Bára stream. No floods from hill torrents.
	Lahore (Utman Bolak)	6·01	2·07	0·14	...	3·56	0·38	3·94	
	Nowshera ...	6·15	2·32	0·41	...	4·05	0·78	5·73

Kohat.	Kohat ...	6·31	3·97	0·91	1·43	4·37	1·77	6·14	The produce of extra rabi crops (which have been harvested) on irrigated lands is about the average, and that on unirrigated lands much below the average. Some rain fell at the close of the month, but not throughout the district. The unirrigated lands over which the rain fell as well as irrigated lands are being ploughed for kharíf sowings, which are expected to be very small owing to want of sufficient rain, especially in Seni and Khurram Circles of the Khattak-Teri Tahsíl, where the rainfall was so small that no lands can be prepared for kharíf sowings. Water in the Kohát springs has run short to a certain extent, while in the Hangu springs it has somewhat decreased. The water in the Kohát Toi, on which the irrigation of the Samilzai and Bazai Tappas chiefly depend, was entirely dried up before the rain fell during the month. After the rains, floods came and there is still some water, but it is again running short. There has, however, been considerable mortality among cattle in some villages owing to their having been employed on carriage of salt from the Mines. Since the issue of the notice regarding the enhancement of duty on salt 59 cattle are reported to have died. Fodder for cattle and stock of food-grains are insufficient, specially in Khurram and Seni Circles of the Khattak-Teri Tahsíl. The people in these Tappas have for want of drinking-water and fodder removed their cattle to more favourable tracts. Some cattle are also reported to have died from starvation in two villages of the Kohát Tahsíl and also in villages of Tappas Seni and Khurram of the Khattak-Teri Tahsíl.

	Shekh Budin ...	...	...	...	0·88	0·81	1·26	2·07	
DERA GHAZI KHAN.	Sanghar ...	0·40	2·03	0·51	1·39	2·04	1·44	3·48	Fodder scarce in all parts. Cattle in poor condition. River has risen and canals working well. A large number of people in the district have been killed by the excessive heat. Kharíf crops doing well. Store of food grains sufficient.
	Dera Ghazi Khan...	1·99	1·73	0·88	...	1·71	0·07	1·78	
	Fort Munro ...	0·75	1·48	1·08	1·25	2·83	2·07	4·90	
	Jámpur ...	0·88	1·15	0·52	0·06	1·96	0·06	2·02	
	Rájanpur ...	0·52	0·85	0·20	...	2·75	0·20	2·95	
MUZAFFARGARH.	Alipur ...	1·00	0·91	0·35	...	0·96	0·02	0·98	Cotton, jowár, bájra, and moth have been sown mostly during the month Sowings of rice nearly completed. The crops of sugarcane, jowár and indigo are in good condition. Spring wheat crops nearly all harvested. The produce is average but from the harvest report Form VI B., the produce is given as above the average The Tahsíldár has been asked to explain this. From Tahsíldár's report dated 19th June it appeared that the stock of food-grain is sufficient, and there are no signs of scarcity. Prices of grain still high. Grain is being exported to Sukkur. Fodder sufficient for cattle. The Canals Puranwah, Surabwah, Sardár and Sulemánwah are running. Flood water from Indus has spread over the lower third of this tahsíl. The River Chenab is also rising and water is overflowing the banks of the river.
	Muzaffargarh ...	1·06	0·99	0·42	...	1·07	...	1·07	Cotton, jowár, bájra, rice and moth are being sown. The crops of sugarcane, indigo and jowár are is good condition. No crop harvested during the month. Stock of grain sufficient for two or three months after which there will be sufficient supply of rice and dates. Fodder sufficient. No sign of scarcity. Canals supply sufficient water Chenab River in flood, but no damage done.
	Sinánwán ...	1·48	1·11	0·45	...	1·87	...	1·87	Kharíf crops are being vigorously cultivated. Rabi crops all harvested. Produce average. Stock of wheat sufficient. Fodder sufficient, but wanted in the Thal no distress. Canals supply sufficient water during last 20 days. Land not sufficiently flooded from the river; only low-lying lands flooded.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 10th July 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 27TH JUNE 1896.

Births and Deaths in Municipal Towns.—In the 42 large Municipal towns 917 births were registered (470 males and 447 females), giving a birth-rate of 36 per *mille* of population; 897 deaths were registered (475 males and 422 females), giving a death-rate of 35 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,
Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 10th July 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

Sixty-three thousand and twenty-three births were registered in the Province during the month of May 1896, giving a birth-rate of 36 per mille of population. Of the total number of births, 33,175 were boys and 29,848 were girls.

The total number of deaths registered from all causes in the Province during the month of May 1896 was 54,135 against 46,068 in the previous month and 53,393 in the corresponding month of the past year, giving an annual death-rate of 31, 27 and 31 per mille of population per annum respectively.

There were 1,314 deaths registered under the head of cholera against 1 in the previous month.

From small-pox 8,047 deaths were registered against 5,967 in the previous month and 993 in the corresponding month of the past year; fevers 29,592 against 26,103 and 35,520; dysentery and diarrhœa 1,100 against 959 and 1,810.

During the month there were 34 deaths registered from suicide against 42 in the past month; wounding 60 against 56; accidents 457 against 331; snake-bite and killed by wild beasts 62 against 52; and from all other causes 13,469 against 12,557 and 14,297 in the corresponding month of the past year.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 21st JULY 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	0·18 at Hissar. 0·33 in Fatahabad. 0·72 in Hánsi. 2·25 in Bhiwáni. 1·25 in Budhláda.	1. Fodder stock exhausted. 2. Dying of starvation.	High. Wheat 14 seers. Bájra 13 seers.	More rain urgently wanted.	Grain stock sufficient.
2	Delhi ...	Good rainfall throughout.	1. Dry fodder scarce; green available 2. Good.	Abnormal rise. Wheat 14 seers. Bájra 13½ seers.	Sowings commenced: prospects favourable.	Stock sufficient.
3	Umballa ...	0·60	1. Insufficient.	Wheat 14 to 14½ seers. Gram 16¾ to 17¼ seers.	Crops not flourishing yet. Water sufficient. Rain not sufficient for rice sowings. More is wanted.	Grain insufficient.
4	Jullundur ...	More or less rain throughout the district.	1. Scanty.	High. Wheat 16 seers. Maize 19 seers.	Sowings in progress. Condition of cotton and sugarcane crop fair.	Stock of grain sufficient.
5	Ferozepore ...	0·15 at Sadr. 0·12 in City. 0·08 in Zíra. 0·86 in Muktsar.	1. Sufficient.	Wheat 14 seers. Maize 20 seers.	Ploughings and sowings continue.	Food grain sufficient.
6	Amritsar ...	1·28 average.	1. Dry fodder sufficient.	Normal. Wheat 16 seers. Maize 17 seers.	Sowings in progress. More rain wanted. Sugarcane and cotton crops in good condition.	Stock of food grain sufficient.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharíf (Autumn).	Prospects of Rabi (Spring).
7	Siálkot ...	2·37 average.	1. Sufficient. 2. Good.	Wheat 15 to 16¼ seers. Maize 16 to 17 seers.	Crops are suffering for want of rain in two tahsíls; elsewhere they are doing well. Maize and jowár (great millet) are being sown in three tahsíls. Rain not sufficient for cultivation of rice.	Stock sufficient.
8	Lahore ..	0·00 in Chunián. 0·55 in Kasúr. 0·35 in Sharakpur.	1. Scarce. 2. Good.	High. Wheat 16 to 18 seers. Maize 13 to 15 seers.	Land is being prepared. Sowings of maize, charri (millet), til (sesamum) and jowár (great millet) in progress.	Condition of extra rabi crops and cotton average. Grain stock sufficient except in Sharakpur Tahsíl. Number of persons employed on relief works in Tahsíl Sharakpur is 264.
9	Mooltan ...	0·02 at Sadr. 0·92 in Mailsi. 0·16 in Shujabad. 0·36 in Kabírwála.	1. Sufficient.	High. Wheat 13½ to 15 seers. Jowár 13 seers.	Condition of crops good. Canals flowing well.	...
10	Ráwalpindi ...	2·01 at Ráwalpindi. 0·53 in Pindigheb. 1·30 in Fatahjang. 2·08 in Attock. 3·34 in Gujar Khan. 3·04 in Kahúta. 2·70 in Murree.	1. Insufficient. 2. Fair.	High. Wheat 14½ seers. Bájra 15 seers. Maize 18 seers.	Crops being sown.	Stock of grain sufficient.
11	Shahpur ...	Partial rainfall throughout.	1. Scarce.	Wheat 15 to 16 seers. Bájra 13 to 15 seers.	Prospects not good. Rain much needed.	Grain imported into Tahsíl Khusháb from outside.
12	D. I. Khan ...	0·12 in Leiah.	1. Sufficient. 2. Good.	High. Wheat 17 seers.	Condition of standing cotton crops good.	Harvesting of extra spring crops going on.
13	Peshâwar ...	Slight rainfall.	1. Sufficient. 2. Good.	Rising. Wheat 13⅝ seers. Maize 16¼ seers.	Standing crops average.	Stock of food grain average.
14	Rohtak ...	2·10 at Sadr. 1·54 in Gohána. 4·01 in Sámpla. 4·24 in Jhajjar.	1. Scarce. 2. Bad for want of fodder. Eight hundred and forty four died of starvation.	Wheat 14 seers. Jowár 13 seers.	Bájra (bulrush millet), jowár (great millet), cotton, mung (phaseolus mungo), urd (phaseolus radiatus) and guar (cyamopsis psoralioides) are being sown. Prospects of crops good.	Stock of food grain sufficient.
15	Gurgaon ...	Rainfall throughout.	1. No further anxiety about fodder.	Falling.	Sowings being vigorously pushed on.	...
16	Karnál ...	General rainfall throughout.	1. Scarce in Nardak. Grass available. 2. Good.	Rising. Wheat 13 seers. Maize 15 seers.	Sowings in progress except in Karnál and Kaithal Nardak. Locusts appeared in Karnál and Kaithal, but did no damage. Floods in the Sarsuti and Markanda.	...
17	Gujránwála ...	0·04 at Sadr. 0·60 in Háfizabad. 0·96 in Khángah Dográn. 0·50 in Shekhupura.	1. Very scarce and dear. In some places unprocurable. 2. Worse than before for want of fodder; mortality prevailing all over the district.	Rising	Mung (phaseolus mungo), moth (phaseolus aconitifolius) and jowár (great millet) are being sown in parts. Ploughings for other crops in progress in the Gujránwála Tahsíl. Present crops sown on well and canal irrigated areas are doing well and on inundated lands fairly well.	Stock reported to be sufficient for the present.

GENERAL REMARKS.

Rain has fallen all over the Province except in parts of certain districts. Prices normal in Amritsar; rising in Peshâwar, Karnál and Gujránwála; falling in Gurgaon; high elsewhere. Ploughings for autumn crops continue in Ferozepore, Lahore and Gujránwála. Sowings are being pushed on. Maize and great millet in Siálkot, maize, millet, sesamum and great millet in Lahore, bulrush millet, great millet, cotton, mung (phaseolus mungo), urd (phaseolus radiatus) and guar (cyamopsis psoralioides) in Rohtak, and mung (phaseolus mungo) moth (phaseolus aconitifolius) and great millet in Gujránwála are being sown. Rain not sufficient for rice sowings in Umballa and Siálkot. More rain is urgently needed in most districts. Harvesting of extra spring crops going on in Dera Ismail Khan. Condition of extra spring crops and cotton is average in Lahore, and that of standing autumn crops is reported to be generally good, except in Peshâwar, where it is average, and in Shahpur, where it is not good owing to drought. Crops are not flourishing in Umballa; prospects are not good in Shahpur. Floods in the Sarsuti and Markanda in Karnál. Grain stock insufficient in Umballa and parts of Lahore and Shahpur, and average in Peshâwar. Locusts visited two tahsíls of Karnál, but did no damage. Crops are suffering for want of rain in two tahsíls of Siálkot. Cattle are in bad condition and are dying of starvation in Hissar, Rohtak and Gujránwála. Number of deaths reported from Rohtak is 844. Fodder is said to be sufficient in Ferozepore, Amritsar, Siálkot, Mooltan, Dera Ismail Khan, Peshâwar and Gurgaon, and scarce elsewhere. It is also unprocurable in parts of Gujránwála.

Number of persons employed on relief works in Tahsíl Sharakpur, District Lahore, is 264.

OFFICE OF INSPR.-GENL. OF REGTN., PUNJAB,
LAHORE:
The 6th July 1896.

G. C. WALKER,
Inspector-General of Registration, Punjab.

SUMMARY OF REMARKS ON THE RABI CROP OF THE PUNJAB FOR 1896.

After three exceptionally good spring harvests in succession we have to record a poor rabi crop.

The monsoon rains of 1895 were much less copious than those of 1894, and ceased much earlier. A fair amount of rain fell in August, but in September, except in Gurgaon, Delhi, Karnál and Ráwalpindi there was practically no rain anywhere in the plains. In October, with the exception of a shower in Amritsar, there was no rain anywhere. November was also quite dry, the largest total for the month being 0·17 in Siálkot. December was very nearly as dry; slight rain fell in 14 districts, but it no where reached half an inch in any district in the plains. It is worthy of note, as showing the character of the season, that no rain whatever was recorded in 17 districts in September, in 26 in October, in 19 in November, and in 16 in December, and in several in which the record was not absolutely blank the amounts recorded were infinitesimal, not reaching a tenth of an inch in the month. In January only 4 districts, Hissar, Rohtak Gujrát and Gujránwála, were absolutely rainless; Gurgaon and Delhi had only 0·04 each, and in 9 other districts the amount was less than half an inch. The largest falls were 2·34 in Ráwalpindi and 2·04 in Pesháwar; while Kohát and Bannu each had an inch. Some rain fell everywhere in February, and it was this rain which prevented a really disastrous failure of the crops. Hissar and Karnál each received less than half an inch, but nearly every other district received about an inch or more. The rainfall of January and February occurred at the end of the former and beginning of the latter month, and was most beneficial to the irrigated as well as the unirrigated crop. The rainfall of March was light, 5 districts getting none at all. In no district was there good rain at sowing time, and the area sown was consequently much smaller than last year. The season was a very unfavourable one for all crops entirely dependent on the rainfall, as the amount which fell was very small and much below the average everywhere. There were of course no floods, and there was very little hail. Only 2 districts, Delhi and Gurgaon, suffered injury to crops from hailstorms, and in Umballa high winds did some damage. Otherwise drought was the cause of all the injury suffered. As might have been expected in such a dry year, there was hardly any rust on the wheat crop.

There is a decrease in the area of matured crops in every district except Jhang and Kohát. In Jhang the slight increase is real and is due to an extension of irrigation on the new Chenab Canal. In Kohát it is only apparent, being due to the inclusion for the first time of figures for the newly-settled Khattak tract. The decrease for the Province amounts to 3,965,641 acres, or 27·5 per cent. The total area of rabi crop this year is 10,472,349 acres; last year it was 14,437,990 acres. The normal area which in this case is the average of the last 11 years is 13,200,408 acres. The area this year is therefore 20·6 per cent. and 2,728,059 acres below the normal. The falling-off is entirely in unirrigated land The irrigated area amounted to 5,059,733 acres, which is 769,997 acres and 17·9 per cent. above the area of last year and 12·0 per cent. and 543,750 acres above the normal area. The unirrigated area was 5,412,616 acres, which is 46·7 per cent. and 4,735,638 acres below the area of last year and 37·7 per cent. below the normal. All the principal crops shared in this decrease; the principal decreases were wheat 20·9 per cent., gram 46·1 per cent., barley 35·2 per cent., oilseeds 42·1 per cent. The fodder-supply was everywhere deficient.

In Hissar the complete absence of rain from August to the end of January caused almost a complete failure of the unirrigated crop. There was a large increase in irrigation. Much the same occurred in Rohtak, Gurgaon and Delhi. In Karnál the failure of grass and the want of fodder were much felt, and cattle were driven away in large numbers in search of grazing. In Umballa, except in the tahsíls of Kharar and Rupar, the crop was very poor. In Kángra it fell off by about one-third owing to want of rain. In Hoshiárpur the harvest was exceptionally good in the low-lying tracts of Dasúya and Garhshankar known as the Bet. The average outturn per acre in these tracts is put as high as from 25 to 35 maunds. In the hills, however, the harvest was bad, not exceeding 6 annas. The Deputy Commissioner reports: "On the whole the crop has been excellent in the Dasuya and Garhshankar Bets, ordinary in the Sirwal tracts, poor in baráni land, and very bad in the hills." In Jullundur the harvest was fair, rated at ten annas on unirrigated and fourteen annas on well lands. In Ludhiána it was moderate. In Ferozepore there was a considerable falling-off in area, and the harvest was poor. In Mooltan the canals worked badly, and the area was contracted. In Jhang the area shows a slight increase, and the outturn was good both in quality and quantity. In Montgomery, on the other hand, there was a large decrease in area, due in great measure to the low water level of the river, the low-lying lands not being flooded, and the "sailáb" area much contracted in consequence. In Lahore the want of rain told heavily against the crops. There was a great decrease in area, and the outturn was not good. In one tahsíl, Sharakpur, relief works had to be started. In Amritsar there was a decrease in total area but a considerable increase in irrigation, and the crop was not a bad one, and there was a fair supply of

fodder also. In Gurdáspur the crop is said to have been very bad, the worst on record for several years. Still it is classed as a ten-anna crop. In Siálkot the yield was good, though the area somewhat contracted. The outturn on well lands is put as high as 20 annas, that on unirrigated lands at 12 annas. In Gujránwála the harvest was excellent in the new Chenab Colony, but bad elsewhere. In Shahpur and Jhelum the want of rain caused a very great decrease in the area, the harvest was bad, and the supply of fodder scanty. In Ráwalpindi the same thing occurred, and the harvest is classed as an eight-anna one only. In Hazára and Kohát there was little decrease, but in Peshávar the area, both irrigated and unirrigated, shows a great falling-off, due mainly to the failure of the autumn and winter rains. In Bannu there was some decrease, and in the Dera Ismail Khan, Dera Gházi Khan and Muzaffargarh Districts there was a falling-off, due mainly to a failure of the usual flood waters of the Indus. In the two first-named districts also the failure of the water-supply in the hill torrents further curtailed the area. The outturn was, however, either fair or good.

Some of the most notable decreases in district areas were the following :—

Hissar 68·7 per cent., Rohtak 62·4 per cent., Karnál 56·3 per cent., Umballa 47·2 per cent., Delhi 37·9 per cent., Gurgaon 35·2 per cent., Simla 35·0 per cent., Kángra 34·7 per cent., Montgomery 32·8 per cent. and Jhelum 31·6 per cent.

The inferior nature of the harvest was due entirely to the drought. There was no incursion of locusts, or serious damage by other insects, of course no excessive flooding, and though high winds and hail in some cases did damage, it was not of unusual extent.

The harvest as a whole was not a good one, and below average. The area was much contracted. The outturn on unirrigated lands was usually moderate, sometimes bad. But on low-lying moist lands and on irrigated lands the crops were good and the outturn of excellent quality.

LAHORE :
The 20th July 1896.

F. A. ROBERTSON,
Director of Land Records and Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 17th July 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 4TH JULY 1896.

Births and Deaths in Municipal Towns.—In the 45 large Municipal towns 1,096 births were registered (578 males and 518 females), giving a birth-rate of 40 per *mille* of population; 856 deaths were registered (432 males and 424 females), giving a death-rate of 32 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,
Sanitary Commissioner, Punjab.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 28th JULY 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharff (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	1·44 at Sadr. 1·45 in Hánsi. 1·00 in Bhiwáni. 0·31 in Fatahabad.	1. Fodder stock exhausted. Green grass springing up. Green stock sufficient. 2. Bad.	High. Wheat 14 seers. Bájra 13 seers.	Recent rain most beneficial to kharff crops. More rain wanted.	...
2	Delhi ...	Slight rainfall throughout.	1. Scarce; green grass, &c., available. 2. Fair.	Abnormally high. Wheat 13¾ seers. Bájra 14 seers.	Kharff sowings and cotton cultivation in progress. Prospects favourable.	...
3	Umballa ...	0·06	1. Insufficient. 2. Good.	Wheat 13½ to 14 seers. Gram 15 to 15½ seers.	Crops will suffer if rain keeps off much longer. More rain is badly wanted. Water sufficient.	...
4	Jullundur ...	Statement not received.				
5	Ferozepore ...	0·25 in Muktsar. 0·07 in Fázilka.	1. Scanty.	Wheat 14 seers. Maize 17 seers.	Ploughing stopped for want of rain.	Stocks of food-grains only up to requirements.
6	Amritsar ...	1·54 in Ajnála.	1. Sufficient.	High. Wheat 16 seers. Maize 17 seers.	Cotton and sugarcane crops in good condition Rain badly wanted.	Stock of food-grain sufficient.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of	
					Kharíf (Autumn).	Rabi (Spring).
7	Siálkot ...	2·02 average.	1. Sufficient. 2. Good.	Wheat 15 to 16 seers. Maize 16 to 17 seers.	Recent rain has been of great benefit, but more rain is wanted.	Stock sufficient.
8	Lahore ...	0·36 at Sadr.	1. Scarce. 2. Good.	High. Wheat 16 to 18 seers. Maize 13 to 15 seers.	Sowings of maize, charri (bulrush millet), til (sesamum), jowár (great millet), and moth (phaseolus aconitifolius) in progress. Rain is badly wanted. The condition of cotton crop average.	Number of persons employed on relief works in Tahsíl Sharakpur is 421.
9	Mooltan ...	...	1. Sufficient.	High. Wheat 13¼ to 14¾ seers. Jowár 13 seers.	Crops in good condition; canals flowing, but with diminished supply.	...
10	Ráwalpindi ...	0·38 at Ráwalpindi. 1·37 in Gujar Khan 2·89 in Kahúta. 4·35 in Murree.	1. Insufficient. 2. Fair.	High. Wheat 14½ seers. Bájra 15 seers. Maize 18½ seers.	Crops being sown.	Stock of grain sufficient.
11	Shahpur ...	Rainfall at Bhera and Shahpur.	1. Scarce.	Above normal.	Rain much needed.	Stock of food-grain sufficient in Bhera and Shahpur Tahsíls, but grains are imported into Khusháb Tahsíl from outside.
12	D. I. Khan ...	0·60 in Leiah.	1. Sufficient. 2. Good.	High. Wheat 17 seers.	Condition of standing cotton crop good. Ploughings and sowings of other kharíf crops commenced.	Harvesting of extra spring crops nearly completed.
13	Peshawar ...	...	1. Sufficient. 2. Good.	Rising Wheat 13 seers. Maize 15¼ seers.	Standing crops average.	Stock of food-grain average.
14	Rohtak ...	1·05 at Sadr. 0·40 in Gohána.	1. Scarce, but grass coming up. 2. Thirty-six cattle died of starvation.	Wheat 13½ seers. Jowár 13 seers.	Bájra (bulrush millet), jowár (great millet), cotton, mung (phaseolus mungo), urd (phaseolus radiatus) and guar (cyamopsis psoralioides) are being sown. Prospects of crops good.	Stock of food-grain sufficient.
15	Gurgaon ...	0·32 at Sadr. 1·48 in Nuh.	1. Grass plentiful.	...	Sowings still going on. Standing crops doing well.	...
16	Karnál ...	Rainfall in Pánipat Tahsíl. Drizzling elsewhere.	1. Scarce in parts.	Rising. Wheat 13 seers. Gram 15 seers. Maize 15 seers	Sowings in progress. More rain needed. Irrigation from Sarusti commenced.	...
17	Gujránwála ...	0·51 at Sadr. 1·10 in Wazirabad. 0·21 in Rámnagar.	1. Very scarce and dear. Unprocurable in some places. 2. Worse for want of fodder; mortality on increase all over the district.	Rising.	Jowár (great millet), mung (phaseolus mungo) and maize are being sown in parts where rain has fallen. Ploughings for other crops in progress in the villages which have had some showers. Present crops on well and canal irrigated areas are doing well; on inundated lands fairly well. Sailáb and baráni crops are suffering to some extent.	Stock sufficient for the present.

GENERAL REMARKS.

Rain has fallen in all districts except Mooltan and Peshawar. Prices above normal in Shahpur, rising in Peshawar and Gujránwála, abnormal rise in Delhi, high elsewhere. Harvesting of extra spring crops nearly completed in Dera Ismail Khan. Ploughings for autumn crops still going on in Dera Ismail Khan and Gujránwála. Ploughing has been stopped in Ferozepore for want of rain. Sowings of autumn crops in progress throughout the Province. Maize, bulrush millet, sesamum, great millet and moth (phaseolus aconitifolius) in Lahore; bulrush millet, great millet, cotton, mung (phaseolus mungo), &c., in Rohtak, and great millet, mung (phaseolus mungo) and maize in Gujránwála are being sown. More rain is badly needed in most districts. Cotton and sugarcane crops in good condition in Amritsar. The condition of cotton is average in Lahore. Standing crops are generally reported to be in good condition. They are average in Peshawar. Recent rain has much benefited the crops on the ground in Siálkot. If rain keeps off much longer the crops will suffer in Umballa. Inundated and rainy land crops are suffering to some extent in Gujránwála. Prospects of crops are reported favourable in Delhi and good in Rohtak. Grain stock insufficient in parts of Shahpur, average in Peshawar and only up to requirements in Ferozepore. Thirty-six head of cattle died of starvation in Rohtak. Their condition is getting worse for want of fodder, and mortality is on the increase in Gujránwála. Fodder is said to be sufficient in Amritsar, Siálkot, Mooltan, Dera Ismail Khan, Peshawar and Gurgaon, and scarce in other districts. It is unprocurable in parts of Gujránwála.

Number of persons employed on relief works in Tahsíl Sharakpur, Lahore District, is 421.

P. D. SHROFF, *Supdt.*,

Office of Director of Land Records and Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE;
The 24th July 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 11TH JULY 1896.

Births and Deaths in Municipal Towns.—In the 45 large Municipal towns 1,128 births were registered (583 males and 545 females), giving a birth-rate of 42 per *mille* of population; 745 death were registered (376 males and 369 females), giving a death-rate of 27 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,

Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 24th July 1896.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 4th AUGUST 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	0·19 at Sadr. 0·21 in Hánsi. 1·66 in Bhiwáni. 0·67 in Fatahabad. 3·80 in Sirsa.	1. Fodder stock exhausted. Green grass springing up.	Wheat 13 seers. Bájra 13 seers.	Rain benefited crops a great deal. More rain wanted. Crops springing up where rainfall sufficient. Sowing in progress.	Grain stock sufficient.
2	Delhi ...	1·13 at Sadr. 0·07 in Sonepat.	1. Dry fodder scarce; green sufficient. 2. Fair.	Abnormal rise. Wheat 13½ seers. Bájra 14 seers.	Sowings generally finished. Prospects favourable.	Stock sufficient.
3	Umballa ...	5·70 at Sadr.	1. Green grass procurable. 2. Good.	Wheat 13¼ to 14 seers. Gram 15¼ to 16 seers.	Crops in a flourishing state. Water sufficient.	...
4	Jullundur ...	Sufficient rain in Nawashahr and average in other tahsils.	1. Dry fodder scarce. 2. Good.	High. Wheat 15 seers. Maize 19 seers.	Condition of standing crops good. Sowings of other crops in progress.	Stock of grain sufficient.
5	Ferozepore ...	0·47 in Moga. 0·74 in Zíra. 0·32 in Muktsar. 0·08 in Fázilka. 0·58 in Nathána. 0·11 in Jalálabad.	1. Scanty.	Wheat 14 seers. Maize 17 seers.	Sowings commenced.	Stock of food-grain only up to requirements.
6	Amritsar ...	0·39 average.	1. Sufficient.	High. Wheat 14¼ seers. Maize 16 seers.	More rain wanted. Cotton and sugarcane crops in good condition.	Stock of food-grain sufficient.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharíf (Autumn).	Prospects of Rabi (Spring).
7	Siálkot ...	0·33 average.	1. Sufficient. 2. Good.	Wheat 14½ to 15 seers. Rice 11 seers.	Weeding of sugarcane and cotton finished. Minor crops being sown. Rain not sufficient for rice.	Stock sufficient.
8	Lahore ...	1·02 at Sadr. 0·93 in Chunián. 0·52 in Sharakpur.	1. Scarce.	High. Wheat 13½ to 15 seers. Maize 16 to 17 seers.	Sowings of millet (great millet), maize, moth (phaseolus aconitifolius) and sesamum in progress. The condition of crops average.	Tobacco is being reaped. Grain stock sufficient. Number of persons employed on relief works in Tahsíl Sharakpur is 214.
9	Mooltan ...	0·13 at Sadr.	1. Sufficient.	High. Wheat 13¼ to 14¾ seers. Jowár 13 seers.	Condition of crops good. Canals flowing.	...
10	Ráwalpindi ...	5·17 at Ráwalpindi. 0·04 in Attock. 0·98 in Gujar Khan 3·20 in Murree. 0·36 in Kahúta. 0·90 in Pindigheb. 1·32 in Fatahjang.	1. Insufficient. 2. Fair.	High. Wheat 14 seers. Bájra 15 seers. Maize 18½ seers.	Crops being sown. Rain wanted in Attock and Pindigheb Tahsíls.	Stock of grain sufficient.
11	Shahpur ...	Slight rainfall at Shahpur and Khusháb Tahsíls.	1. Scarce.	Above normal.	Rain badly wanted to improve crops.	Stock of food-grain not sufficient in Khusháb Tahsíl, where grains are imported from outside.
12	D. I. Khan ...	1·15 in Tánk. 1·02 in Leiah. 0·36 in Sheikh Budín.	1. Sufficient.	High. Wheat 16 seers.	Condition of standing cotton crop good. Locusts appeared in Kuláchi Tahsíl, but did no damage. Ploughings and sowings of kharíf crops in progress.	...
13	Peshâwar ...	...	1. Sufficient. 2. Good.	Rising. Wheat 12⅞ seers. Maize 15¼ seers.	Standing crops average.	Stock of food-grain average.
14	Rohtak ...	1·26 at Sadr. 3·98 in Jhajjar. 0·99 in Sámpla. 1·81 in Gohána.	1. Grass springing up and demand for fodder diminished. 2. Three hundred and seventy-two cattle died of starvation.	Wheat 13½ seers. Jowár 13 seers.	Great millet, mung (phaseolus mungo), urd (phaseolus radiatus) and guar (cyamopsis psoraboides) being sown. Prospects of crops good.	Stock of food-grain sufficient.
15	Gurgaon ...	Rainfall 1·10 to 1·78 throughout.	...	...	Standing crops flourishing.	...
16	Karnál ...	Rainfall throughout.	...	Wheat 12 seers. Gram 15 seers. Maize 16 seers.	Sowings commenced.	...
17	Gujránwála ...	1·75 at Sadr. 0·74 in Wazirabad. 2·50 in Háfizabad. 2·27 in Khángah Dográn. 1·00 in Shekhupura 0·38 in Rámnagar.	1. Scarce; unprocurable in some places. 2. Bad for want of fodder.	Rising.	Rice (great millet), mung (phaseolus mungo), moth (phaseolus aconitifolius) and maize are being sown in areas dependent on rain. The standing crops have been much improved by the recent showers of rain.	Stock sufficient for the present.

GENERAL REMARKS.

Rain has fallen in all districts except Peshâwar. Prices above normal in Shahpur, rising in Peshâwar and Gujránwála, and high elsewhere. Tobacco is being reaped in Lahore. Ploughings and sowings of autumn crops going on. Sowings generally finished in Delhi. Weeding of sugarcane and cotton is over in Siálkot. Millet, great millet, maize, moth (phaseolus aconitifolius) and sesamum are being sown in Lahore great millet, mung (phaseolus mungo), urd (phaseolus radiatus) and guar (cyamopsis psoraboides) in Rohtak, and rice, great millet, mung (phaseolus mungo), moth (phaseolus aconitifolius) and maize in Gujránwála on land favoured with rain. Cotton and sugarcane crops in good condition in Amritsar. Condition of standing crops is average in Lahore and Peshâwar. Crops are flourishing and their prospects are good in some districts. Recent rain has benefited the crops, but Siálkot reports that it is not sufficient for rice. More rain still wanted in most districts. Grain stock is reported insufficient in parts of Shahpur and average in Peshâwar. It is only up to requirements in Ferozepore. Locusts appeared in parts of Dera Ismail Khan, but did no damage. Cattle are generally in good condition; they are in bad condition in Rohtak and Gujránwála for want of fodder. Three hundred and seventy-two cattle died of starvation in Rohtak. Fodder is said to be sufficient in Amritsar, Siálkot, Mooltan, Dera Ismail Khan and Peshâwar, and scarce elsewhere; unprocurable in parts of Gujránwála.

Number of persons employed on relief works in Tahsíl Sharakpur, Lahore District, is 214.

P. D. SHROFF, *Supdt.,*

Office of Director of Land Records and Agriculture, Punjab.

The weather over the Punjab was feebly unsettled during June, dust and thunder storms having occurred fairly frequently. These disturbances were, however, less general, less frequent and less severe than usual and much less severe than in June 1895. Most of the rainfall accompanying these thunder-storms occurred over the south-east of the Punjab between Umballa and Delhi and over the submontane and hill districts of the Punjab, the other portions of the Province, though experiencing many dust-storms and much dust haze, having comparatively little rain. On the 1st the weather was very hot with cloudy skies and much dust haze, but on the 2nd conditions became unsettled. A few drops of rain following dust-storms were reported from Siálkot and Ráwalpindi, and from the 2nd until the 6th the weather was showery with a low temperature. On the 7th and 8th the weather improved, and the only thunder-showers reported were at Simla and Delhi. From the 9th to the 13th the weather was fine and the temperature excessive, but on the 14th conditions became feebly unsettled, and from that date right up to the close of the month the weather was feebly unsettled, a few days of showers being followed by a few days of fine weather and no rain. As mentioned above, most of these showers were received over the south-east of the Province and over and near the hills. On the last day of the month the weather was fine and the only rainfall was a light shower on the hills. It is remarkable that, notwithstanding the rainfall, which was, at times and in places, heavy, the air throughout the month was almost constantly charged with dust, and the weather was close and oppressive.

Pressure and Winds.—The barometer read below the normal average over the south-east and west of the Province, and above over the centre and on the hills. The variation were not, however, considerable in any part of the Province. The wind blew unusually steadily from south-east throughout nearly the whole Province, and the force was generally higher than the normal.

Temperature.—The abnormal heat noticed over the Punjab during April and May continued over the greater part of the Province during June, but in the south-east, where, as mentioned above, the rainfall was more plentiful than elsewhere, the mean temperature was low, the abnormal deficiency being nearly 3° at Delhi. The abnormal excess was greatest at Ráwalpindi and Mooltan, where it exceeded 5°. Both the day and night temperatures were low at Delhi, and both were high at most other stations; but at Ludhiána and Simla the day or maximum temperatures were slightly lower than usual.

The following table shows the variation from the normal of the mean temperature of the Province on each day and the highest maximum temperature registered in the Province on each day with the station recording it :—

Date.	Variation from normal of mean temperature of Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which recorded.

" 29th ...	— 1·4	107·5	Do.
" 30th ...	+ 2·2	110·9	Mooltan.

The above shows that the mean temperature of the Punjab on most days exceeded the normal average, but that on the 3rd, 6th and 7th, 15th and 16th, 25th and 26th, and 28th and 29th the heat was somewhat less than usual. The figures also show that, as was to be anticipated during thundery, showery and unsettled weather, the changes of temperature from day to day were frequently large. The greatest abnormal excess of temperature occurred on the 14th, when the mean temperature of the Province was 9° higher than usual. The absolutely highest maximum recorded was 119·9° at Montgomery on the 10th and 22nd.

Humidity and Cloud.—The air was fairly damp, and there was a moderate amount of cloud—more particularly in the south-east and at Simla.

Rain.—As had been the case in the preceding months of April and May, the rainfall was scanty. The deficiency of the rainfall was not, however, by any means so general as was the case in the two preceding months, the hill stations of Murree and Simla and the plains stations of Khusháb, Ráwalpindi and Delhi reporting excessive rain during June. At Mooltan, Pesháwar and Cherat, on the contrary, no rain whatever fell during the month, and at Sirsa only 0·13″ and at Montgomery and Dera Ismail Khan only 0·17″.

C.

The following table gives the rainfall data for the Punjab Stations for June 1896:—

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 1st August 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 18TH JULY 1896.

Births and Deaths in Municipal Towns.—In the 45 large Municipal towns 1,159 births were registered (598 males and 561 females), giving a birth-rate of 43 per *mille* of population; 789 deaths were registered (405 males and 384 females), giving a death-rate of 29 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,

Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 1st August 1896.

NORTH-WESTERN RAILWAY.

Sugarcane crops damaged by insects.	Number of persons employed on relief works in Sharakpur Tahsíl is 230.
9	Mooltan ...	0·60 at Sadr. 1·22 in Shujabad. 1·65 in Lodhrán.	1. Sufficient.	High. Wheat 13¼ to 14¾ seers. Jowár 15 seers.	Condition of crops good. Canals flowing.	...
10	Ráwalpindi ...	4·46 at Ráwalpindi. 0·82 in Fatahjang. 2·75 in Murree. 0·23 in Attock. 5·55 in Gujar Khan. 2·86 in Kahúta.	1. Insufficient. 2. Fair.	High. Wheat 13 seers. Bájra 15 seers. Maize 17 seers.	Crops about average. Rain wanted in Pindigheb Tahsíl.	Stock of grain sufficient.
11	Shahpur ...	Return not received.				
12	D. I. Khan ...	0·01 at Sadr. 0·25 in Kuláchi.	1. Sufficient. 2. Good.	High. Wheat 16 seers.	Condition of standing cotton crop good. Ploughings and sowings of crops in progress.	Stocks of food-grains sufficient.
13	Pesháwar ...	...	1. Sufficient. 2. Good.	Rising. Wheat 12⅜ seers. Maize 15⅝ seers.	Standing crops average.	Stock of food-grain average.
14	Rohtak ...	0·57 at Rohtak. 1·40 in Jhajjar. 1·62 in Sámpla. 0·96 in Gohána.	1. Scarcity removed by springing up of grass. 2. Fifty cattle died of weakness brought on by starvation in Gohána Tahsíl.	Wheat 13½ seers. Jowár 13 seers.	Jowár (great millet) and paddy being sown. Prospects good.	Stock of food-grain sufficient.
15	Gurgaon ...	Rainfall throughout.	...	...	Standing crops doing well.	...
16	Karnál ...	Ditto.	1. Grass abundant.	Wheat 14 seers. Gram 16 seers. Maize 14 seers.	Sowings completed in places. Prospects better.	...
17	Gujránwála ...	1·29 at Sadr. 1·77 in Wazirabad. 4·23 in Rámnagar. 4·73 in Háfizabad. 4·29 in Khángah Dográn. 2·40 in Shekhupura.	1. Dry fodder scarce. 2. Still weak, but will improve.	...	Sowings of jowár (great millet), maize, mung (phaseolus mungo), moth (phaseolus aconitifolius) and rice are being pushed on vigorously on dry land owing to timely rains. Standing crops have been very much improved by the late rains.	Stocks reported to be sufficient for the present.

GENERAL REMARKS.

Rain has fallen in all districts except Pesháwar. Prices rising in Pesháwar and high elsewhere. Ploughings for autumn crops still going on at Dera Ismail Khan and weeding in Jullundur. Maize and rice sowings completed in Amritsar. Sowings of rice awaiting sufficient rain in Siálkot. Maize, millet, sesamum, great millet and rice are being sown in Lahore; great millet and paddy in Rohtak; and great millet, maize, mung (phaseolus mungo), moth (phaseolus aconitifolius) and rice in Gujránwála on dry land owing to timely rainfall. Recent rain has benefited the standing crops in many districts, but more is still wanted. Standing crops are generally reported to be in good condition. The crops on land not favoured with rain in Lahore are below average. The crops are average in Ráwalpindi and Pesháwar. The prospects of crops are said to be good in most districts. Grain stock is average in Pesháwar. It is only up to requirements in Ferozepore. Sugarcane crop has been damaged by insects in Lahore. Cattle are generally in good condition; their condition is improving in Hissar and Gujránwála, though still weak. Fifty cattle died of weakness brought on by starvation in one tahsíl of Rohtak. Fodder is scarce in Delhi, Jullundur, Lahore, Ráwalpindi and Gujránwála. The scarcity is being removed by the springing up of green grass owing to the recent monsoon rains.

Number of persons employed on relief works in Tahsíl Sharakpur, Lahore District, is 230.

P. D. SHROFF, *Supdt.,*

Office of Director of Land Records and Agriculture, Punjab.

P. D. SHROFF, *Supdt.,*

Office of Director of Land Records and Agriculture, Punjab.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF JULY 1896.

Explanation :—(*c*) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		Rainfall.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st March.	1st April to 31st July.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 31st July 1896.	Total.	Condition of crops and cattle, and health of people.
Hissar.	Sirsa ...	2·20	6·42	3·56	0·60	0·90	0·70	1·60	Rainfall of the month has benefited the young crops a great deal. Sowings are in progress where rain came down late. Canal crops flourishing More rain wanted in certain parts of the district, especially in the Hissar, Fatahabad and Sirsa Tahsíls. Fodder stock exhausted, but green grass is springing up. Cattle still in bad condition. Grain stock sufficient. Drinking water sufficient in tanks General health of the district good. A swarm of locusts visited the district, but no damage was done.
	Fatahabad ...	2·32	8·15	5·55	2·37	0·94	2·73	3·67	
	Hissar ...	**2·37**	**7·92**	**5·35**	**1·81**	**0·22**	**3·24**	**3·46**

Rohtak.	**Rohtak** ...	**2·26**	**9·30**	**16·10**	**3·66**	**1·75**	**6·87**	**8·62**	During the month there has been good rain in all four tahsíls, and jowár, bájra and all other kharíf crops have been sown and promise well. Up to date 1,500 head of cattle are reported to have died of hunger since the beginning of the drought. Fodder is now sufficient, as grass has sprung up everywhere since the rain. Health of people good. Locusts appeared in certain parts of the district, but went away without doing any harm. Prices are stationary, and stocks of food grain sufficient.
	Gohána ...	2·41	9·96	7·06	4·76	1·03	7·75	8·78	
	Sámpla ...	2·00	10·10	7·39	4·58	3·77	7·35	11·12

Gurgaon.	Farukhnagar ...	...	...	...	5·64	0·78	6·38	7·16	During the month good rain fell all over the district, benefiting the rising crops and enabling sowings on báráni lands to be vigorously pushed on. The standing crops are doing well, but more rain is needed. Grass is now plentiful. 303 head of cattle died during the month which had been suffering previously from want of fodder. Prices stationary in Rewári and Fírozpur Tahsíls; in other places they are rising slightly. Locusts passed over certain villages of Gurgaon, Rewári, Núh and Fírozpur Tahsíls doing no damage.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF JULY 1896—(CONTINUED).

Explanation:—(*c*) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average rainfall of past years.			*Rainfall of present year.*				
DISTRICT.	Rain-gauge Station.	1st October to 31st March.	1st April to 31st July.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 31st July 1896.	Total.	Condition of crops and cattle, and health of people.
KARNAL.	Pánipat ...	2·49	10·84	7·52	2·75	1·12	4·35	5·47	The rainfall during the month was below the average, but kharíf sowings are in progress. Prices are, however, rising. Wheat selling at 13 seers per rupee, gram and maize at 15 seers each. Grass is available everywhere and cattle are now returning home. A swarm of locusts passed the district from west to east, but caused no damage.
	Karnal ...	**4·02**	**15·09**	**9·35**	**2·78**	**0·93**	**6·79**	**7·72**

	Gulah ...	...	...	...	6·27	1·25	8·47	9·72	
UMBALLA.	Pipli ...	3·29	12·09	8·27	6·91	1·35	11·00	12·35	The rainfall is not up to the average amount, but compared with other districts this one has been fortunate. The Jagádhri Tahsíl, however, has had a short allowance. The prospects of the standing crops are generally good and there has been sufficient rain to get the rice seed in. There is plenty of grass at present, and the tanks are full. Altogether general relief is felt, and with ordinary luck there should be a fair kharíf. Prices are still very high. Wheat 14 seers, gram 16 seers, maize 18 seers and rice 12 seers.
	Jagádhri ...	5·61	16·91	11·16	3·53	1·58	6·81	8·39

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF JULY 1896—(CONTINUED).

Explanation :—(c) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st March.	1st April to 31st July.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 31st July 1896.	Total.	Condition of crops and cattle, and health of people.
Jhang.	Shorkot ...	1·66	3·83	2·31	2·13	2·04	2·63	4·67	Condition of standing crops on the Chenab Canal good, and average in other parts of the district. Kharíf sowings in progress. The rains not sufficient. Stock of food grain sufficient; prices rising. Fodder scarce, but it is hoped that the recent rainfall will remove the scarcity to some extent. Health of people generally good. Chenab Canal flowing.
	Jhang ...	1·79	4·53	3·04	3·18	2·85	4·32	7·17	
	Chiniot ...	1·97	5·85	3·74	3·57	1·94	5·52	7·46	
	Badwáli (c) ...	...	...	...	5·00	2·60	5·00	7·60	
Montgomery.	Gugera ...	1·46	3·73	2·52	4·80	1·47	4·80	6·27	Crops average, but as rain has fallen the condition is expected to improve. Sowing of maki, jowár and til on báráni area begun. Grass growing, but the majority of cattle-owners who had deserted have not yet returned. As reported in previous month, the supply of food grains is at present sufficient in the Sutlej tahsíls. The Ravi tahsíls are receiving supplies from other places The canals have sufficient water.
	Montgomery ...	1·68	5·75	3·90	4·51	2·86	5·23	8·09	
	Pákpattan ...	1·18	3·95	2·65	1·87	1·41	2·06	3·47	
	Dipálpur ...	1·44	4·12	2·71	4·54	1·46	4·62	6·08	
Lahore.	Van (c) ...	2·64	7·36	3·61	5·23	1·89	7·38	9·27	More rain is badly wanted throughout the district. Land is being prepared for kharíf crops. The condition of cotton, sugar-cane and chari sown on the canal-irrigated area is good. But fodder is still scarce. Health of the people good. Canals worked well. The Deg stream in the Sharakpur Tahsíl supplied sufficient water, but did not overflow owing to the growth of grass in certain parts of that tahsíl. Cattle sent to different places are now coming back to their own villages. Prices are rising. Grain stocks sufficient in canal-irrigated parts of the district and not elsewhere.
	Chunián ...	1·66	6·37	3·54	3·01	1·55	3·11	4·66	
	Kasúr ...	1·70	5·73	3·68	1·70	1·24	2·88	4·12

	Shakargarh ...	6.92	16.25	11.67	4.68	2.97	7.06	10.03	
SIALKOT.	Zafarwál ...	5.70	13.69	9.24	8.38	3.63	10.76	14.39	There has been again little rain throughout the district. It was, however, useful for the sowing of minor crops, but quite insufficient for rice sowings. If the rains keep off much longer, the time of sowing the rice crop will pass away. The weeding of sugarcane and cotton completed. 2. The prices are rising. 3. D y fodder (bhúsa) fairly sufficient in the district, except in the well tracts; the green fodder is wanted, especially for the overworked cattle of Cha.khari Mahals. Health of people generally good.
	Pasrúr ...	5.85	13.63	8.93	8.09	2.74	10.36	13.10

	Sialkot ...	5.87	15.96	10.13	5.70	4.08	8.06	12.14	
GUJRAT.	Gujrat (Sadr) ...	6.52	10.86	6.66	5.05	1.27	7.52	8.79	Rain fell in the northern and eastern portion of Tahsíls G.ujrát and Khárián, and the condition of kharíf crops up to this good. Sowings over. There was little rain in the southern and western portions of the above-quoted tahsíls. Some places were sown, but condition owing to want of rain not good. Rain fell in on.y 42 villages of tahsíl Phália. Some portions of these villages have been sown. The remaining tahsíl owing to failure of rain is lying unsown. Fodder not procurable at Tahsíls Khárián and hália; obtainable to some extent in Tahsíl Gujrát. Cattle of Tahsíls Phália and Khárián have been sent to the Belas for grazing Plough-cattle in Gujrát Tahsíl are sustained on fodder procured from Lyallpur and Bet Chenab. Stock of grain exists in some villages of Gujrát District and is also imported from other districts. Prices are rising.
	Khárián (Lála Músa)	6.35	11.23	7.12	2.62	2.86	4.49	7.35	
	Phália ...	4.65	7.82	4.90	1.11	2.10	2.82	4.92

		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st March.	1st April to 31st July.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 31st July 1896.	Total.	Condition of crops and cattle, and health of people.
Hazará.	Abbott-abad ...	14·82	16·86	8·06	5·23	10·62	8·66	19·28	Standing crops flourishing, but thinned by previous drought. Sowings being carried on in plain tracts of Haripur Tahsíl. Prices high. Stock of grain sufficient. Stock of green fodder ample. Water from irrigation channels sufficient.
	Mansehra ...	14·87	12·18	5·78	3·64	10·09	6·35	16·44	
	Haripur ...	11·24	10·27	5·58	6·69	4·65	9·95	14·60	
Peshawar.	Swábi ...	5·88	5·19	2·50	4·62	4·76	5·00	9·76	Maize and jowár are being sown. In Tahsíl Utman Bolak, there having been some rain, mung and moth have also been sown. The condition of standing sugar-cane, rice and cotton crops on irrigated lands is good and those on unirrigated lands bad. Extra rabi crops have been nearly harvested. Yield average. Rain is wanted in many parts of the district. There is scarcity of fodder to a certain extent in Tappa Baizai, Tahsíl Mardán; sufficient in other tracts. The prices of food grains are rising. There is limited stock in hand. Sufficient water in canals. The villages dependent on the Bara Stream for their supply of water suffered a good deal for want of it. No floods from hill torrents.
	Lahore (Utman Bolak)	6·01	5·13	3·06	2·39	3·56	2·77	6·33	
	Nowshera ...	6·15	4·73	2·41	1·19	4·95	1·97	6·92	
	Mardán ...	6·66	4·80	2·58	1·73	5·68	2·71	8·39

Kohat.	Kohat ...	6·31	7·60	3·63	2·48	4·37	4·25	8·62	Rain fell during the month throughout the district, but it was not sufficient, especially in the Hangu Tahsíl. The land is being ploughed for kharíf sowings. Water is sufficient in the Kohát Toi. Early kharíf crops on irrigated land promise well, while those on unirrigated lands about the average. Health of the people is fair. Fodder for cattle is sufficient, but stocks of food grains are sufficient for local requirements.
	Hangu ...	...	...	...	1·38	4·69	4·39	9·08	
	Thal ...	...	...	...	2·69	3·64	3·40	7·04

	Khushálgarh ...	...	...	...	3·02	3·49	3·62	7·11	
Bannu.	Miánwáli ...	2·50	4·67	2·36	2·45	1·55	3·05	4·60	Sowings of kharíf nearly completed. Rains have greatly benefited the condition of crops. An insect called Peshoi appeared in the village of Abo Khel, Tahsíl Marwat, and was at once destroyed. Stock of food grain sufficient in Isa Khel and Bannu, but low in Miánwáli and Marwat. Fodder sufficient in all tahsíls except in the eastern and western parts of the Bannu Tahsíl. Prices are slightly falling in Marwat and stationary in other Tahsíls. Health of the people good. A flight of locusts was observed in Marwat, but no damage has been done to crops. Irrigation canals are working satisfactorily. High floods in the Indus and Kurram rivers.
	Isa Khel ...	2·79	3·24	1·03	3·13	1·98	3·75	5·73

	Shekh Budin ...	...	...	...	5·70	0·81	6·96	7·77	
DERA GHAZI KHAN.	Sanghar ...	1·40	3·76	1·73	1·27	2·04	2·71	4·75	Health of people good. Fodder sufficient along river bank, but very scarce in the tract between the sailaba land and the hills. Cattle generally in poor condition. Canals running well all through the month. Hill torrent irrigation in Sanghar and Jámpur Tahsíls. Kharif prospects fair. More rain required.
	Dera Ghazi Khan...	**1·99**	**4·13**	**2·40**	**0·05**	**1·71**	**0·12**	**1·83**	
	Fort Munro ...	0·75	5·00	3·52	1·72	2·83	3·79	6·62	
	Jámpur ...	0·88	2·43	1·28	1·24	1·96	1·30	3·26	
	Rájanpur ...	0·52	1·70	0·85	0·28	2·75	0·48	3·23	
MUZAFFARGARH.	Alipur ...	1·00	4·54	3·63	0·45	0·96	0·47	1·43	Rabi crops harvested. Indigo crop which was in good condition formerly, is drying up under the effect of a disease, locally named *Munhsari* caused by the want of rain. The crops of sugarcane, jowár and bájra are in good condition. The sowings of rice have been completed, but the crop is suffering from the scarcity of water in the canals. Stock of food grains with the traders is sufficient, and there are no signs of scarcity. Prices of grains still high. Grain is being exported to Sukkur. There is a sufficient quantity of fodder for the cattle. Health of people is reported to be good. The Canals Puran, Sirden and Sulemán are running and irrigating the surrounding lands. Flood water from Indus has spread over the lower third of this tahsíl. River Chenab has not risen so high as to overflow its banks and to irrigate the lands adjacent to it.
	Muzaffargarh ...	1·06	2·31	1·32	0·09	1·07	0·09	1·16	The sowings of cotton, jowár, moth, rice and bájra have been completed, while those of til crop are in progress. The standing crops of sugarcane, indigo and jowár are fair. Jowár has partly been reaped for fodder. Indigo churning has been commenced, and the outturn is reported to be of an average quantity. Health of people good. Stock of food grains is sufficient for two months, after which a sufficient supply of rice is expected. Date fruit, the staple food of poor zamíndárs, has ripened. There is a sufficient quantity of bhusa for fodder. The prices are stationary. No grain has been exported by railway during this month. There are at present no signs of scarcity. There is an insufficient supply of water in the canals. River Chenab in flood but no damage done. No flood from the Indus River.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF JULY 1896—(CONCLUDED).

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average rainfall of past years.			*Rainfall of present year.*				
DISTRICT.	Rain-gauge Station.	1st October to 31st March.	1st April to 31st July.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 31st July 1896.	Total.	Condition of crops and cattle, and health of people.
MUZAFFARGARH—*concluded.*	Sinánwán ...	1·48	3·09	1·98	0·21	1·87	0·21	2·08	Kharff sowings completed. Ploughings for rabi crops in progress. The Indigo crop is generally in a bad condition for want of rain, and the condition of jowár, moth, rice and cotton crops is an average one. There is a little quantity of fodder in this tahsíl because there has fallen no shower of rain. The health of people is generally good The stock of food grains is sufficient. There is a sufficient quantity of water in the Gharka and Magasim Canals, but not sufficient in the Maggi Canals. No flood from the Indus River, and consequently a great portion of the land subject to flood irrigation remains unirrigated.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 18th AUGUST 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	0·34 at Hissar. 0·92 in Hánsi. 0·25 in Bhiwáni. 0·09 in Fatahabad. 0·04 in Sirsa.	1. Green grass procurable. 2. Improving.	Wheat at 14 seers. Barley at 13 seers.	Rain benefited autumn crops. More rain wanted in some parts.	Grain stock sufficient.
2	Delhi ...	0·03 at Sadr. 0·26 in Sonepat. 0·20 in Ballabgarh.	1. Scarce. Green fodder sufficient. 2. Fair.	Abnormal. Wheat at 13 seers. Bájra at 14 seers.	Autumn crop prospects favourable.	Stock sufficient.
3	Umballa ...	8·94 at Sadr. Water sufficient.	1. Green grass procurable. 2. Good.	High. Wheat at 13¼ to 14 seers. Gram at 15¼ to 16 seers.	Autumn crops in flourishing state.	...
4	Jullundur ...	Rain throughout district.	1. Dry fodder scarce. 2. Good.	High. Wheat at 15 seers. Maize at 18 seers.	Condition of standing crops good. Autumn weeding in progress.	Spring ploughings in progress. Stock of grain sufficient.
5	Ferozepore ...	0·68 in Moga. 2·73 in Zíra. 0·11 at Sadr. 0·28 in City.	1. Scanty.	Wheat at 14 seers. Maize at 17 seers.	Autumn sowings continued.	Stock of food-grain sufficient to meet local requirements.
6	Amritsar ...	2·69 average.	1. Sufficient. 2. Good.	High. Gram at 15¼ seers. Maize at 16½ seers.	Cotton, sugarcane and rice crops in good condition.	Spring ploughings begun. Stock of food-grain sufficient.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
7	Siálkot ...	0·90 average.	1. Sufficient. 2. Good.	Wheat, white, 14 to 14½ seers; red at 14½ to 15 seers. Rice at 7 to 11 seers	Autumn crops promise well. More rain wanted in some parts.	Stock sufficient.
8	Lahore ...	1·16 in Chunián. 0·03 in Kasúr. 0·92 in Lahore.	1. Scarce.	High. Wheat at 13½ to 15 seers. Maize at 16 to 17 seers.	Sowings of jowár (great millet), chari (millet), maize, til (sesamum), and rice in progress. Prospects of irrigated crops good, of well land and unirrigated average. Sugarcane, maize and millet crops damaged by insects in Kasúr tahsíl	Land is being prepared for spring crops. Grain stock sufficient in some parts of the district with Sahukárs and not zamíndárs.
9	Mooltan ...	0·13 in Kabírwála. Canals flowing. High floods in Chenab.	...	High. Wheat, 1st quality at 13¼ seers; 2nd quality 14¾ seers. Jowár at 15 seers.	Condition of autumn crops good.	...
10	Ráwalpindi ...	2·35 in Ráwalpindi 1·61 in Fatahjang. 1·91 in Murree. 2·01 in Pindigheb. 2·55 in Gujar Khan 4·30 in Kahúta. 0·06 in Attock.	1. Insufficient. 2. Fair.	High. Wheat at 12½ to 14½ seers. Bájra at 13 to 14 seers. Maize at 14 to 19 seers.	Autumn prospects about average.	Stock of grain sufficient.
11	Shahpur ...	Rainfall in all tahsíls, but not general.	1. Scarce in Bar.	Above normal.	Crops in fair condition. Rain wanted	...
12	D. I. Khan ...	0·02 at Sadr. 0·16 in Tánk. 1·30 in Shekh Budin.	1. Sufficient. 2. Good.	High. Wheat at 15½ seers.	Condition of standing cotton crop good. Ploughings and sowings of autumn crops in progress	...
13	Peshávar ...	...	1. Sufficient. 2. Good.	Prices of wheat and maize risen; of other cereals normal. Wheat at 12 6/16 seers. Maize at 15 4/16 seers	Standing crops average. Stocks of food-grain average.	...
14	Rohtak ...	0·68 in Rohtak. 0·25 in Gohána.	1. Scarcity of fodder no longer exists.	Wheat at 13 seers. Jowár at 14 seers.	Sowings finished. Prospects of crops good.	Stock of food-grain sufficient.
15	Gurgaon ...	Slight showers in parts.	1. Grass plentiful. 2. Good.	...	Jowár (great millet) and bájra (bulrush millet) are being weeded. Locusts visited a few villages of Rewári. No damages reported.	Spring ploughing taken in hand.
16	Karnál ...	Good rainfall throughout. Flood in Sarusti and Markanda.	1. Grass available.	Wheat at 14 seers. Gram at 16 seers. Maize at 15 seers.	Autumn prospects good.	...
17	Gujránwála ...	1·73 in Rámnagar 0·28 in Wazirabad 0·60 in Shekhupura 1·84 in Khángah Dográn. 1·40 in Háfizabad.	1. Dry fodder scarce and unprocurable in some places. Green grass ample. 2. Cattle better than before.	Fair.	Autumn sowings have been completed; mung (phaseolus mungo), only is being sown in some places. Standing crops have much improved by late rainfall.	Stocks reported to be sufficient for the present.

GENERAL REMARKS.

Rain has fallen in all districts except Peshávar. Prices high throughout the Province. Land is being prepared for spring crops in Lahore. Weeding of autumn crops in Jullundur and of great millet and bulrush millet in Gurgaon in progress. Spring ploughings begun in Amritsar and Gurgaon and are in progress in Jullundur; also autumn ploughings in Dera Ismail Khan. Autumn sowings in progress in Ferozepore, Lahore and Dera Ismail Khan, and finished in Rohtak and Gujránwála. Mung (phaseolus mungo) is being sown in Gujránwála. Autumn crops benefited in Hissar and much improved in Gujránwála by rains. More rain is wanted in some districts. Condition and prospects of autumn crops are fair in Shahpur, average in Ráwalpindi and Peshávar, and good elsewhere. The prospect of irrigated crops is good and of well land and unirrigated average in Lahore. Grain stock is average in Peshávar and sufficient in many districts. Sugarcane, maize and millet crops damaged by insects in parts of Lahore. Locusts visited a few villages of the Rewári Tahsíl, but no damage reported. Cattle are generally in good condition. Their condition is improving in Hissar and Gujránwála. Fodder is scarce in Delhi, Jullundur, Ferozepore, Lahore, Ráwalpindi, Shahpur and Gujránwála. The scarcity is being removed by springing up of new grass owing to recent rains.

Number of persons employed on relief works during the week ending 15th August is 1,771 in Gujrát and 122 in Sharakpur (Lahore District) and that of non-working children and dependents on relief work is 10 in the latter.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 8th August 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 25TH JULY 1896.

Births and Deaths in Municipal Towns.—In the 45 large Municipal towns 1,232 births were registered (640 males and 592 females), giving a birth-rate of 45 per *mille* of population; 928 deaths were registered (482 males and 446 females), giving a death-rate of 34 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,
Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 15th August 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 1ST AUGUST 1896.

Births and Deaths in Municipal Towns.—In the 44 large Municipal towns 1,201 births were registered (642 males and 559 females), giving a birth-rate of 45 per *mille* of population. 867 deaths were registered (447 males and 420 females), giving a death-rate of 32 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.

Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 15th August 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

Sixty-eight thousand and fifty-two births were registered in the Province during the month of June 1896, giving a birth-rate of 40 per mille of population. Of the total number of births, 35,860 were boys and 32,192 were girls.

The total number of deaths registered from all causes in the Province during the month of June 1896 was 50,997 against 54,135 in the previous month and 46,245 in the corresponding month of the past year, giving an annual death-rate of 31, 31 and 27 per mille of population per annum respectively.

There were 1,205 deaths registered under the head of cholera against 1,315 in the previous month

From small-pox 6,581 deaths were registered against 8,047 in the previous month and 899 in the corresponding month of the past year; fevers 28,219 against 29,591 and 31,067; dysentery and diarrhœa 885 against 1,100 and 1,280.

During the month there were 36 deaths registered from suicide against 34 in the past month; wounding 65 against 60; accidents 575 against 457; snake-bite and killed by wild beasts 177 against 62; and from all other causes 13,254 against 13,469 and 12,135 in the corresponding month of the past year.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

No. 19 of 1896.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, AUGUST 27, 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 25th AUGUST 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	0·48 at Sirsa.	1. Green grass procurable. 2. Improving.	High. Wheat 14 seers and bájra 13 seers per rupee.	Unirrigated crops in fair condition. Canal crops flourishing.	Grain stock sufficient.
2	Delhi	0·16 at Sadr. 0·13 in Ballabgarh.	1. Scarce; green sufficient. 2. Fair.	Abnormal. Wheat and bájra 13½ seers per rupee.	Favourable. Standing crops generally in good condition.	Stock sufficient.
3	Umballa City	1·48 at Sadr.	1. Green grass procurable. 2. Good.	High. Wheat at 13 to 14 seers and gram at 15 to 16 seers per rupee.	Crops flourishing.	Grain stock not sufficient.
4	Jullundur City	Good rain in each tahsíl.	2. Good.	High. Wheat 15 seers and maize 17 seers per rupee.	Favourable. Weeding in progress. Some damage caused by overflow in Nakodar Tahsíl. Maize crops eaten by worms in some villages.	Ploughing commenced. Stock of grain sufficient.
5	Ferozepore ...	0·57 at Moga. 0·83 in Zíra. 0·20 in Sadr. 0·02 in City. 1·54 in Nathána. 0·20 in Jalálabad.	1. Sufficient.	Wheat 14 seers and maize 17 seers per rupee.	Sowing in progress.	Stock of grain sufficient for local requirements.
6	Amritsar ...	2·79 average.	1. Sufficient. 2. Good.	Continue high. Wheat 15¼ seers and maize 17¾ seers per rupee.	Cotton and sugarcane crops in good condition.	Ploughings begun. Stock of food-grain sufficient.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharíf (Autumn).	Prospects of Rabi (Spring).
7	Siálkot City...	3·01 average.	1. Sufficient. 2. Good.	Wheat, white, 14 to 14¾ seers; red 14¼ to 15 seers; and rice 7 to 11 seers per rupee.	Promising.	Stock sufficient.
8	Lahore ...	1·08 at Chunián. 0·27 in Kasúr. 0·79 in Sharakpur. 1·17 in Sadr.	1. Scarce. 2. Good.	Continue high. Wheat at 13½ to 15 seers and maize at 16 to 17 seers per rupee.	Canal crops good, but well and dry land (dependent on rain) average. Some crops damaged by insects in Kasúr Tahsíl.	Land is being prepared for sowings. Grain stock sufficient in some parts of the district with Sáhúkárs.
9	Mooltan ...	0·02 at Sadr. 1·26 in Kabírwála.	1. Sufficient.	High. Wheat of 1st quality at 13¼ seers, and 2nd at 14¾ seers. Maize 15 seers.	Good. Canals flowing. Some damage done by floods in Mooltan Tahsíl.	...
10	Ráwalpindi ...	0·69 in Pindigheb. 1·10 in Fatahjang. 0·17 at Sadr. 0·97 in Gujar Khan. 3·39 in Kahúta. 6·00 in Murree.	1. Insufficient. 2. Fair.	High. Wheat at 11 to 14½ seers, bájra 12 to 17 seers, and maize 13 to 18 seers per rupee.	Average.	Stock of grain sufficient.
11	Shahpur ...	Throughout.	1. Scarce. 2. Fair.	Above normal.	More rain wanted.	...
12	D. I. Khan ...	0·60 at Sadr. 1·04 in Tánk. 0·03 in Kulàchi. 0·05 in Bhakkar. 1·88 in Leiah. 0·70 in Shekh Budín.	1. Sufficient. 2. Good.	High. Wheat 15¾ seers per rupee.	Slightly improved by rain.	...
13	Peshâwar ...	...	1. Sufficient. 2. Good.	Prices of wheat and maize risen; other cereals normal. Wheat at 12 and maize at 14 5/16 seers.	Average.	Stock of food-grain average.
14	Rohtak ...	...	1. Sufficient. 2. Good.	Wheat 13 seers. Jowár 14 seers.	Sowings finished. Crops are withering for want of rain.	Stock of food-grain sufficient.
15	Gurgaon ...	...	1. Grass plentiful.	...	Rain much needed	...
16	Karnál ...	Throughout.	1. Grass available.	...	Rain much needed. Prospects good.	...
17	Gujránwála ...	1·05 at Sadr. 0·15 in Rámnagar. 1·66 in Wazirabad. 1·00 in Shekhupura. 0·77 in Háfizabad.	1. Dry scarce; green ample. 2. Good.	Continue fair.	Sowings completed. Standing crops much improved by recent good shower of rain.	Ploughings in progress. Sáhúkárs have a good stock of grain. Zamíndárs have very little and hardly sufficient for current demands.

GENERAL REMARKS.

Rain has fallen in all districts except Peshâwar, Rohtak and Gurgaon. Prices high throughout the Province. Land is being prepared for spring crops in Lahore. Autumn crops are being weeded in Jullundur. Sowings of autumn crops completed in Rohtak and Gujránwála. Recent rain has improved the prospects of the standing crops, which are now generally reported to be in good condition. More rain is wanted in Rohtak, Gurgaon and Shahpur. Irrigated crops are flourishing in Lahore and Hissar. Some crops damaged by floods in Jullundur and Mooltan and by insects in Lahore. Cattle are generally in good condition. Dry fodder scarce in Delhi, Lahore, Shahpur and Gujránwála and sufficient elsewhere. The aggregate number of persons on relief work was 2,621 in Gujrát District.

LAHORE, THURSDAY, SEPTEMBER 3, 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 1st SEPTEMBER 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharíf (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	0·17 in Sirsa. Rain urgently wanted.	1. Green grass procurable. 2. Improving.	High. Wheat at 14 seers bájra at 13 seers.	Crops dependent on rain suffering for want of rain.	Grain stock sufficient.
2	Delhi ...	0·06 at Sadr.	1. Green fodder sufficient. 2. Fair.	Abnormal. Wheat at 13½ seers bájra at 14 seers.	Autumn prospects favourable. Standing crops generally in good condition, but rain very urgently wanted in south of district.	Stock sufficient.
3	Umballa ...	Water sufficient.	1. Green grass procurable; fodder stock insufficient. 2. Good.	High. Wheat at 13½ to 14 seers, and gram at 15½ to 16 seers.	Autumn crops in flourishing state.	Grain stock not sufficient.
4	Jullundur ...	...	1. Dry fodder scanty.	High. Wheat at 15 seers.	Condition of standing crops good. Autumn weeding in progress.	Spring ploughings in progress. Stock of grain sufficient.
5	Ferozepore ...	...	1. Scanty.	Wheat at 13 seers maize at 16 seers.	Autumn sowing in progress.	Stock of food-grain sufficient for local requirements.
6	Amritsar ...	...	1. Sufficient. 2. Good.	High. Wheat at 15 seers. maize at 16 seers.	Cotton and sugarcane in good condition.	Spring ploughings begun. Stock of food-grains sufficient.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
7	Siálkot ...	...	1. Sufficient. 2. Good.	Wheat at 14¼ to 14½ seers. Rice 7 to 11 seers.	Autumn crops promising.	Stock sufficient.
8	Lahore ...	...	1. Insufficient in parts.	High. Wheat at 13 to 14 seers. Maize at 16 seers.	Sowings of autumn crops in progress. Prospects of irrigated crops good and that of well land and unirrigated crops average. Millet, sugarcane and maize damaged by insects in parts of Tahsíl Kasúr.	Land is being prepared for spring crops. Grain stock sufficient in parts with sáhúkárs and not zamíndárs.
9	Mooltan ...	Canals flowing.	1. Sufficient.	High. Wheat, 1st quality, at 13 seers, and 2nd quality, at 14½ seers. Jowár at 15 seers.	Condition of autumn crops good.	Spring sowings commenced.
10	Ráwalpindi ...	0·15 in Murree. Rain wanted.	1. Insufficient. 2. Fair.	High. Wheat at 11½ to 13½ seers, bájra at 12 to 15 seers, and maize at 13½ to 17 seers.	Autumn prospects about average.	Stock of grain sufficient.
11	Shahpur ...	More rain wanted.	1. Scarce. 2. Fair.	Above normal.	...	...
12	D. I. Khan ...	...	1. Sufficient. 2. Good.	High. Wheat at 15½ seers.	Condition of standing autumn crops fair.	...
13	Peshâwar ...	...	1. Sufficient. 2. Good.	Prices of wheat and maize risen; of other cereals normal. Wheat at 11 5/16 seers. Maize at 13 13/16 seers.	Standing crops average.	Stock of food-grains average.
14	Rohtak ...	...	1. Sufficient.	Rising. Wheat at 12 seers. Jowár at 14 seers.	Canal crops in good condition and crops dependent on rain bad. Unirrigated crops suffered from scarcity of rain and heavy west winds.	Land being ploughed for spring crops. Stock of food-grain sufficient.
15	Gurgaon ...	Slight showers in Palwal and Hattín.	...	...	Standing crops suffering from want of rain.	...
16	Karnál ...	... Rain badly wanted.	1. Grass available.	...	Crops beginning to wither.	...
17	Gujránwála ...	...	1. Dry fodder scarce and unprocurable in certain places. Green fodder getting dry for want of rain. 2. Worse than previous week.	Rising.	Autumn sowings have been completed. Prospeets of crops average.	Sáhúkárs have a good stock of grain. Zamíndárs have very little, which will hardly suffice for current demand. Ploughings in progress on irrigated land for spring crops.

GENERAL REMARKS.

Slight rain has fallen in parts of Hissar, Delhi, Ráwalpindi and Gurgaon Districts. Prices rising in Rohtak, above normal in Shahpur, and high elsewhere. Land is being prepared for spring crops in Lahore and Rohtak. Autumn sowings in progress in Ferozepore and Lahore and, completed in Gujránwála. Spring ploughings in Amritsar and sowings in Mooltan commenced. Spring ploughings in Jullundur and on irrigated tracts of Gujránwála in progress; also autumn weeding in Jullundur. Crops dependent on rain suffering for want of rain in Hissar, Rohtak, Gurgaon and Karnal. Condition and prospects of standing crops are bad in unirrigated tracts of Lahore and Rohtak, average in Ráwalpindi, Peshâwar and Gujránwála, fair in Dera Ismail Khan, and good elsewhere. Grain stock average in Peshâwar; not sufficient in Umballa, Lahore and Gujránwála. Millet, sugarcane and maize damaged by insects in parts of Lahore. Condition of cattle is fair in Delhi, Ráwalpindi and Shahpur, improving in Hissar, and worse than before in Gujránwála, and good elsewhere. Dry fodder scarce in Jullundur, Ferozepore, Ráwalpindi, Shahpur and parts of Lahore and Gujránwála, and sufficient elsewhere. Relief works closed in Lahore.

LAHORE, THURSDAY, SEPTEMBER 10, 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8th SEPTEMBER 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharíf (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	...	1. Fodder stock exhausted. Green grass procurable to some extent; it is withering from strong winds. 2. Cattle have begun to suffer for want of fodder.	High. Wheat at 11 seers. Bájra at 13 seers.	Autumn crops withering for want of rain. Rain badly wanted. Canal crops flourishing.	Grain stock insufficient.
2	Delhi ...	...	1. Green fodder sufficient. 2. Fair.	Abnormal. Wheat at 12 seers. Bájra at 13½ seers. Prices going very high.	Autumn prospects fair. Standing crops are suffering for want of rain.	Wholesale stock sufficient.
3	Umballa ...	...	1. Sufficient. 2. Fair.	High. Wheat at 11¼ to 12 seers, and gram at 13½ to 14 seers.	Rain absolutely necessary for the safety of standing crops.	Rain absolutely necessary for spring sowings.
4	Jullundur ...	...	1. Scanty. 2. No disease.	High. Wheat at 14 seers. Gram at 15 seers.	Condition of standing crops good. Autumn weeding in progress.	Spring ploughings in progress. Stock of grain sufficient.
5	Ferozepore ...	...	1. Insufficient. 2. Cattle dying for want of fodder in Zíra and Moga.	Wheat at 11 seers. Maize at 14 seers.	Autumn crops are drying up for want of rain.	Stock of food-grain sufficient for local requirements.
6	Amritsar ...	0·30 at Jail Hospital.	1. Sufficient. 2. Good.	High. Wheat at 14 seers. Maize at 16 seers.	Cotton and sugarcane in good condition.	Spring ploughings begun. Stock of food-grain sufficient.
7	Siálkot ...	0·15 average rainfall.	1. Dry fodder scarce; green getting dry for want of rain. 2. Good. They are overworked in	Rising. Wheat 12 to 13½ seers. Rice 7 to 11 seers.	Autumn crops in some places withering for want of rain.	Spring ground being ploughed. Stock sufficient with Sáhukárs.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
8	Lahore ...	...	1. Insufficient in parts.	High. Wheat at 14 to 15 seers. Maize at 15 to 15½ seers.	Sowings of autumn crops in progress. Prospects of canal-irrigated crops good, of well land average, and of unirrigated below average. Millet, sugarcane and maize damaged by small insects in parts of Tahsíl Kasúr.	Land is being prepared for spring crops. Grain stock sufficient with Sáhukárs.
9	Mooltan ...	...	1. Sufficient.	High. Wheat, 1st quality, 12 seers, and 2nd quality, 13½ seers. Jowár at 16 seers.	Condition of autumn crops good. Water scanty in canals.	Spring sowings commenced.
10	Ráwalpindi ...	0·27 in Gujar Khán 0·09 in Pindigheb. 0·61 in Ráwalpindi 0·75 in Murree. 0·11 in Kahúta. 1·10 in Fatahjang.	1. Insufficient, 2. Fair.	High. Wheat at 12¼ seers. Bájra at 14 seers. Maize at 14 seers.	Autumn prospects below average owing to drought.	Stock of grain sufficient.
11	Shahpur ...	...	1. Scarce. 2. Fair.	Wheat at 13 to 14 seers. Bájra at 13 to 16 seers.	Crops drying Rain badly wanted.	...
12	D. I. Khan ...	0·15 in Shekh Buddín.	1. Sufficient. 2. Good.	High. Wheat at 15¼ seers.	Condition of standing autumn crops good.	Land being prepared for spring crops.
13	Peshâwar ...	...	1. Sufficient. 2. Good.	Prices of wheat and maize risen; other cereals normal Wheat at 11½ seers. Maize at $13\frac{5}{16}$ seers.	Standing crops average excepting the villages of Bara.	Stock of food-grains average.
14	Rohtak ...	...	1. Grass drying up and scarcity of fodder anticipated.	Rising. Wheat at 11¼ seers Jowár at 13 seers.	No crops sown. Condition of crops bad. Crops suffered from scarcity of rain and heavy westerly wind. Slight injury done to crops at Birohar by locusts.	Stock of food-grain sufficient.
15	Gurgaon ...	...	...	Rising.	Standing crops suffering from want of rain and heavy west winds. Locusts visited a few villages of the Gurgaon Tahsíl, but did no damage.	...
16	Karnál ...	...	1. Grass drying up.	Rising. Wheat at 12 seers. Gram at 13 to 14 seers. Maize at 14 seers	West wind blowing Crops withering. Locusts in Kaithal, but no damage. Rain badly needed.	...
17	Gujránwála ...	...	1. Dry fodder scarce and unprocurable nearly in the whole district except on Canal areas. 2. Growing worse.	Rising. Higher than before for want of rain.	Prospects of unirrigated crops bad, of canal-irrigated good, and of well-irrigated under average. Crops dependent on rain are drying for want of rain.	Ploughing in progress on unirrigated areas for spring crops. Sáhukárs have a good stock of grain. Zamindárs have little, which will hardly suffice for the current demand.

GENERAL REMARKS.

Slight rain has fallen in the Amritsar Siálkot, Ráwalpindi and Dera Ismail Khan Districts. Prices rising in Siálkot, Rohtak, Gurgaon, Karnal and Gujránwála, and high elsewhere. Land is being prepared for spring crops in Siálkot, Lahore and Dera Ismail Khan. Spring sowings commenced in Mooltan. Spring ploughings begun in Amritsar, in progress in Jullundur and unirrigated areas of Gujránwála; also autumn weedings in Jullundur and autumn sowings in Lahore. Standing crops are withering for want of rain in Hissar, Delhi, Umballa, Ferozepore, Siálkot, Shahpur, Rohtak, Gurgaon, Karnal and unirrigated tracts of Gujránwála. They are also suffering from heavy westerly winds in Rohtak, Gurgaon and Karnal. Condition and prospects of autumn crops are bad in Rohtak and unirrigated tracts of Gujránwála, below average in Ráwalpindi and unirrigated tracts of Lahore and well-irrigated tracts of Gujránwála, average in Delhi, Peshâwar and well-irrigated tracts of Lahore, and good elsewhere. Rain is badly wanted in all the districts. Grain stock insufficient in Hissar, average in Peshâwar and sufficient elsewhere. Millet, sugarcane and maize damaged by small insects in parts of Lahore. Slight injury done to crops by locusts in Rohtak. Locusts visited Gurgaon and Karnal, but did no damage. Cattle have begun to suffer in Hissar and Gujránwála, and are dying in parts of Ferozepore for want of fodder. Condition of cattle fair to good in other districts. Fodder is sufficient in Delhi, Umballa, Amritsar, Mooltan, Dera Ismail Khan and Peshâwar only.

P. D. SHROFF, *Supdt.*,

Office of Director of Land Records and Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 28th August 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 15TH AUGUST 1896.

Births and Deaths in Municipal Towns.—In the 45 large Municipal towns 1,261 births were registered (704 males and 557 females), giving a birth-rate of 47 per *mille* of population; 824 deaths were registered (395 males and 429 females), giving a death-rate of 30 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,
Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 28th August 1896.

WEEKLY RETURN OF BIRTHS AND DEATHS REGISTERED AT THE UNDERMENTIONED MUNICIPAL TOWNS IN THE PUNJAB DURING THE WEEK ENDING SATURDAY, THE 22ND AUGUST 1896.

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, SEPTEMBER 17, 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 15th SEPTEMBER 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	0.45 in Hissar. 0.17 in Hánsi. 0.29 in Fatahabad	1. Fodder stock exhausted. Green grass procurable to some extent 2. Cattle getting worse	High. Wheat at 11 seers. Bájra at 12 seers.	Crops withering. Rain urgently wanted.	Grain stock insufficient.
2	Delhi ...	...	1. Green fodder scarce 2. Fair.	Abnormal. Wheat at 11¾ seers. Bájra at 13 seers.	Autumn prospects poor. Standing crops drying for want of rain.	Wholesale stock sufficient, but prices rising.
3	Umballa ...	Water sufficient.	1. Sufficient. 2. Fair.	High. Wheat at 11½ to 12 seers, and gram at 13 to 14 seers.	Rain badly needed. Standing crops suffering.	Spring sowings suffering.
4	Jullundur ...	...	1. Insufficient.	Very high. Wheat at 12 seers. Gram at 15 seers.	Standing crops suffering for want of rain. Autumn weeding in progress.	Spring ploughings in progress. Stock of grain insufficient.
5	Ferozepore ...	...	1. Insufficient. 2. Cattle dying in Moga and generally weak for want of fodder.	Wheat at 11 to 12 seers. Maize at 14 to 15 seers.	Autumn crops are drying up for want of rain. Insects destroying crops watered by wells and canals in Ferozepore Tahsil.	Stock of food-grain sufficient for local requirements.
6	Amritsar ...	...	1. Sufficient. 2. Good.	High. Wheat at 13 seers. Maize at 15 seers.	Rain badly wanted. Cotton and sugarcane in good condition.	Spring ploughings began. Stock of food-grain sufficient.
7	Siálkot ...	...	1. Dry fodder scarce; green drying. 2. Cattle overworked in well-irrigated tracts and be-	Wheat at 11 to 12 seers. Rice 7 to 10 seers.	Autumn crops withering. Rain badly wanted.	Spring ground being ploughed. Stock sufficient with grain-dealers.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharíf (Autumn).	Prospects of Rabi (Spring).
8	Lahore ...	...	1. Insufficient in parts. 2. No cattle disease.	High. Wheat at 12 to 13 seers. Maize at 14 to 16 seers.	Irrigated crops average and unirrigated poor. Millet, sugarcane and maize damaged to some extent by small insects in parts of Kasúr Tahsíl.	Land is being prepared for spring crops. Grain stocks sufficient with Sáhukárs, but not with Zamíndárs.
9	Mooltan ...	...	1. Sufficient.	High. Wheat, 1st quality, at 11½ seers, and 2nd quality, 11¾ seers. Jowár at 16 seers.	Condition of autumn crops good. Canals dry in Mailsi. Water scanty in other canals.	Spring sowings commenced.
10	Ráwalpindi ...	...	1. Insufficient. 2. Fair.	High. Wheat at 10½ seers. Bájra at 12 seers. Maize at 12¾ seers.	Autumn prospects below average. Rain wanted.	Stock of grain sufficient.
11	Shahpur ...	...	1. Scarce.	Above normal.	Autumn crops withering for want of rain.	...
12	D. I. Khan ...	...	1. Sufficient. 2. Good.	Very high. Wheat at 12½ seers. Bájra at 12 seers.	Condition of standing autumn crops good.	Land being prepared for spring crops.
13	Pesháwar ...	...	1. Sufficient. 2. Good.	Prices of wheat and maize risen: Wheat at $10\frac{1}{16}$ seers. Maize at $11\frac{3}{16}$ seers.	Standing crops average excepting Bara villages.	Stock of food-grains average.
14	Rohtak ...	...	1. Grass dried up. Scarcity of fodder anticipated. 2. No cattle disease.	Wheat at 11½ seers. Jowár at 13 seers.	No crops sown. Condition of crops bad. Crops suffered seriously from cessation of rain and heavy west wind.	Stock of food-grain sufficient.
15	Gurgaon ...	0·13 in Gurgaon. 0·75 in Fírozpur.	...	Rising.	Standing crops withering for want of rain and heavy west wind except in Fírozpur, where late rain has slightly benefited them. Locusts passed over certain villages in Gurgaon and Fírozpur doing no damage.	...
16	Karnál ...	...	1. Grass dried up.	High. Wheat at 11 seers. Gram at 13 to 14 seers.	Crops drying up wind changed to east Rain badly needed. Locusts in Kaithal.	...
17	Gujránwála ...	...	1. Green grass scarce nearly in the whole district except on canal areas. Dry fodder unprocurable. 2. Cattle getting worse for scarcity of fodder, being reduced to skeletons.	Rising. Higher than before. Wheat 12 seers.	Prospects of canal-irrigated crops favourable, of well-irrigated below average and of unirrigated unfavourable. Crops in bad plight for want of rain. Locusts visited some villages of Khángah Dográn and Gujránwála Tahsíl.	No ploughing in progress. No crops being sown. Certain Sáhukárs have some stocks of grains; Zamíndárs have none.

GENERAL REMARKS.

Slight rain has fallen in the Hissar and Gurgaon Districts. Prices rising in Gurgaon and Gujránwála, above normal in Shahpur, very high in Jullundur and Dera Ismail Khan, and high elsewhere. Land is being prepared for spring crops in Siálkot, Lahore and Dera Ismail Khan. Spring sowings commenced in Mooltan. Spring ploughings begun in Amritsar, in progress in Jullundur, also autumn weeding in Jullundur. Standing crops are withering for want of rain in Hissar, Delhi, Umballa, Jullundur, Ferozepore, Siálkot, Shahpur, Rohtak, Gurgaon, Karnal and Gujránwála. They are also suffering from heavy westerly winds in Rohtak and Gurgaon. Condition and prospects of autumn crops are bad in Rohtak and unirrigated tracts of Gurjánwála; below average in Delhi, Ráwalpindi, unirrigated tracts of Lahore and well-irrigated tracts of Gujránwála; average in Peshâwar, except Bara villages, and irrigated tracts of Lahore; and good in Amritsar Mooltan, Dera Ismail Khan and irrigated tracts of Gujránwála. Rain is badly wanted in all the districts. Grain stock is insufficient in Hissar and Jullundur, average in Peshâwar and Gujránwála, and sufficient elsewhere. Well and canal irrigated crops in parts of Ferozepore, and millet, sugarcane and maize in parts of Lahore damaged by insects. Locusts visited Gurgaon and Gujránwála, but no damage reported. Cattle have begun to suffer in Hissar and Gujránwála, and are dying in parts of Ferozepore for want of fodder. They are overworked in well-irrigated tracts of Siálkot. Their condition is fair to good in other districts. Fodder is sufficient in Umballa, Amritsar, Mooltan, Dera Ismail Khan and Peshâwar only. The number of persons employed on relief works inclusive of non-working children is 1,257 in Gujrát.

P. D. SHROFF, *Supdt.,*

Office of Director of Land Records and Agriculture, Punjab.

* Mean of 30 days.
† Mean of 27 days.

The weather has been unusually fine throughout the Punjab during July. On no occasion during the month has there been any heavy or general fall of rain throughout the Province, but local showers only have fallen which in most places have been light. The reports of the 7th showed that no rain whatever had fallen either on the hills or plains, and on seven days, *viz.*, the 1st, 3rd, 11th, 12th, 13th, 21st and 22nd, there was no rain whatever on the plains and only light showers at the hill stations. From the 1st to the 3rd the weather was generally fine, on the 4th, 5th and 6th showers prevailed over a large part of the country, but on the 7th the weather cleared and only a few light local showers were received up to the 14th. Then more showery weather set in and lasted for three days. During this period the south-east of the Province received the heaviest rainfall, Delhi reporting 3·15″ on the 16th, 2·55″ on the 17th, and 1·28″ on the 18th. From the 18th till the close of the month the weather was again generally fine with only local showers on some occasions on the hills alone and on others on the hills and over the submontane and south-east districts of the Province. On some days these showers were fairly heavy : thus on the 23rd Simla reported 2·14″ and Murree 1·88″; on the 25th Murree 1·51″; and on the 30th Umballa 3·51″.

Pressure and Winds.—The mean pressure of the month varied very little from the normal at nearly all stations, but at Ráwalpindi, Simla and Murree there was a slight excess. The winds were more south-westerly and less south-easterly than usual over the greater part of the Province, but in the north-west of the Punjab there occurred numerous instances of northerly winds. The force was higher than usual.

Temperature.—Abnormal heat has continued over the Punjab during the month under review, so that for four months the mean temperature has ranged higher than usual. The abnormal excess of the mean temperature exceeded 4° at Lahore and 3° at Sirsa and Ráwalpindi. The day temperatures were in every case excessive, but the night temperatures in the case of Delhi and of Murree were slightly below the normal.

The following table gives (1) the variation from the normal of the mean temperature of the Punjab for each day of the month, and (2) the highest maximum temperature registered in the Province on each day with the name of the station at which it was registered :—

Date.	Variation from normal of mean temperature of previous 24 hours.	Highest maximum temperature of the day.	Station at which registered.	Date.	Variation from normal of mean temperature of previous 24 hours.	Highest maximum temperature of the day.	Station at which registered.

" 15th ...	— 0·5	112·4	Montgomery.	" 31st ...	— 1·9	110·0	Peshâwar.
" 16th ...	— 4·8	110·4	Mooltan.				

The above shows that during the greater part of the month the heat of the whole Province exceeded the normal. Cool periods occurred between the 5th and the 7th and

between the 15th and the 18th, but with these exceptions the mean temperature ranged generally above the average. The hottest day relatively to the average was the 13th, when the mean of the whole Province was 10° above the normal. The highest maximum recorded was 113·5° at Peshávar on the 14th, and about this time the heat over the north-west of the Punjab was most excessive.

Humidity and Cloud.—The air was damp generally and there was a good deal of cloud over the south-east and hill districts.

Rain.—The concluding table shows the rainfall of the month. Some rain was received at all stations, but at Dera Ismail Khan the total for the month was only 0·01", at Peshávar 0·35", at Mooltan 0·52", and at Sirsa 0·79". The heaviest fall was 10·81" at Simla. At every station except Montgomery the rainfall of the month was less than usual, but at Delhi the actual rainfall was 9·01" and the normal fall 9·22", so that the amount was practically up to the average. The largest deficiencies were in part of the east of the Province, where Umballa was short by 4·76", Ludhiána by 7·53", and Simla by 6·74".

B.

The following table gives the rainfall data for the Punjab Stations for July 1896 :—

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

Seventy-eight thousand two-hundred and eighty-two births were registered in the Province during the month of July 1896, giving a birth-rate of 45 per mille of population. Of the total number of births 41,127 were boys and 37,155 were girls.

The total number of deaths registered from all causes in the Province during the month of July 1896 was 46,438 against 50,997 in the previous month and 42,278 in the corresponding month of the past year, giving an annual death-rate of 27, 30 and 24 per mille of population per annum respectively.

There were 1,033 deaths registered under the head of cholera against 1,205 in the previous month.

From small-pox 4,192 deaths were registered against 6,581 in the previous month and 550 in the corresponding month of the past year; fevers 25,504 against 28,219 and 27,079; dysentery and diarrhœa 1,045 against 885 and 1,248.

During the month there were 31 deaths registered from suicide against 36 in the past month; wounding 50 against 65; accidents 717 against 575; snake-bite and killed by wild beasts 279 against 177; and from all other causes 13,587 against 13,254 and 12,398 in the corresponding month of the past year.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 12th September 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 29TH AUGUST 1896.

Births and Deaths in Municipal Towns.—In the 42 large Municipal towns 1,202 births were registered (593 males and 609 females), giving a birth-rate of 47 per *mille* of population; 944 **deaths** were registered (466 males and 478 females), giving a death-rate of 37 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,
Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 12th September 1896.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF AUGUST 1896.

Explanation :—(*c*) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		Rainfall.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st March.	1st April to 31st August.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 31st August 1896.	Total.	Condition of crops and cattle, and health of people.
Hissar.	Sirsa ...	2·20	9·72	3·30	6·68	0·90	7·38	8·28	In early part of the month there was a good rainfall, which improved the young crop, but rain ceased at the end of the month and the crops began to suffer. Rain is urgently needed, and the crop is likely to wither if no rain falls within the week. Canal crops flourishing. Green grass generally procurable, and cattle improving. Locusts visited the district, but no damage was done. Prices high. Grain stock sufficient. General health of the district good.
	Fatahabad ...	2·32	12·04	3·89	0·72	0·94	3·45	4·39	
	Hissar ...	2·37	12·17	4·25	1·45	0·22	4·69	4·91	
	Hánsi ...	1·99	11·20	3·91	1·43	1·21	8·18	9·39	
	Bhiwáni ...	1·68	12·06	4·92	6·06	2·02	15·94	17·96	
	Budhláda ...	...	...	...	5·60	0·22	7·95	8·17	
	Tohána ...	...	...	...	1·40	0·50	5·73	6·23	
Jind State.	Dhaneta (*c*) ...	...	...	...	10·21	1·02	16·62	17·64	
	Safidan (*c*) ...	...	...	...	3·90	0·45	11·66	12·11	
	Jind (*c*) ...	...	...	...	2·85	0·65	8·05	8·70	
Bikaner State.	Chhani (*c*) ...	...	...	...	2·46	0·84	7·72	8·56	
Rohtak.	Rohtak ...	2·26	14·43	5·13	2·30	1·75	9·17	10·92	During the first fifteen days of the month there was some rain which was beneficial to the crops and enabled sowings of jowár and múng to continue, but no rain has fallen in the latter half of the month, and owing to strong dry westerly winds crops have dried up. Canal-irrigated crops are, however, good. Health of cattle good, and, owing to grass being fairly plentiful, no cattle have died of starvation. Young locusts were hatched in the Jhajjar Tahsíl, but were all destroyed before they could do any damage. Stocks of food-grain sufficient, but prices are rising daily.
	Gohána ...	2·41	14·25	4·29	3·50	1·03	11·25	12·28	
	Sámpla ...	2·00	15·39	5·29	2·19	3·77	9·54	13·31	
	Jhajjar ...	1·84	14·48	5·43	13·66	2·05	12·10	14·15	
Gurgaon.	Farukhnagar ...	...	...	...	2·55	0·78	8·93	9·71	The standing crops are suffering, as since the 11th of August 1896 there has been practically no rain throughout the district. Weeding of kharíf crops and rabi ploughings are still in progress. Indigo is being cut in Núh and Firozpur Tahsíls. Cattle in fair condition. Locusts passed over certain villages of the Gurgaon and Rewári Tahsíls without doing any damage.
	Jatusána ...	...	...	...	3·00	0·60	7·39	7·99	
	Rewári ...	1·64	16·85	6·87	2·87	0·97	13·41	14·38	
	Shahjahánpur ...	...	...	...	2·00	0·65	11·72	12·37

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF AUGUST 1896—(CONTINUED).

Explanation :—(c) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st March.	1st April to 31st August.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 31st August 1896.	Total.	Condition of crops and cattle, and health of people
KARNAL.	Pánipat ...	2.49	16.11	5.27	7.42	1.12	11.77	12.89	Good rain fell during the first half of the month, but the total failure of rain during the latter half and the blowing of west wind during the last week have much injured the crops, which are now beginning to wither. More rain is badly wanted now to save the crops from further injury. Prices are as follows :— Wheat ... 13 seers. Gram ... 15 " Maize ... 15 " Health of people is good.
	Karnal ...	4.02	21.01	5.92	9.77	0.93	16.56	17.49	
	Rajaund ...	...	...	...	2.58	1.11	7.11	8.22

	Gulah ...	...	...	...	11.03	1.25	19.50	20.75	
UMBALLA.	Pipli ...	3.29	18.82	6.73	8.88	1.35	19.88	21.23	There were good rains in the month of August up to the 23rd. No rain has fallen since that date. Prospects of standing crops were considered good throughout, but much anxiety is now felt for their safety because the rains appear to have ceased altogether and some two or three good rains are absolutely necessary in the month of Bhadon for the standing crops as well as for the rabi sowings. Cattle are in fair condition, and grass is abundant. Prices are still very high—wheat at 13½ seers, gram 16 seers, maize 17 and 18 seers.
	Jagádhri ...	5.61	27.03	11.02	12.21	1.58	10.02	20.60

		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st March.	1st April to 31st August.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 31st August 1896.	Total.	Condition of crops and cattle, and health of people.
HOSHIARPUR.	Dasúya ...	6.14	22.99	8.47	6.95	2.45	18.31	20.76	There has been sufficient rain in the district, but its suspension during the latter part of this month is looked upon with some apprehension. More rain is now needed for the kharif crops which are still favourable, but are already suffering in the hilly parts of the district. Fodder is ample in the district. Food-grain is also sufficient and prices are steady.
	Una ...	5.12	24.72	10.51	13.46	3.20	27.96	31.16	
	Garhshankar ...	5.24	21.20	7.85	11.45	2.96	22.48	25.44

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF AUGUST 1896—(CONTINUED).

Explanation :—(*c*) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
DISTRICT.	Rain-gauge Station.	1st October to 31st March.	1st April to 31st August.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 31st August 1896.	Total.	Condition of crops and cattle, and health of people.
JHANG.	Shorkot ...	1·66	6·32	2·49	1·46	2·04	4·09	6·13	Condition of standing crops good on Chenab Canal and Tahsíl Shorkot, average in the two other tahsíls. Ploughings for the next rabi in progress Stock of food grain diminishing and prices rising. Fodder insufficient except on Chenab Canal. Health of people generally good. Chenab Canal flowing.
	Jhang ...	1·79	6·18	1·65	1·06	2·85	5·38	8·23	
	Chiniot ...	1·97	8·47	2·62	4·96	1·94	10·48	12·42	
	Badwáli (*c*) ...	...	...	...	3·30	2·60	8·30	10·90	
MONTGOMERY.	Gugera ...	1·46	5·79	2·06	1·54	1·47	6·34	7·81	The gauges at the head-quarters of tahsíls show that the rainfall has nearly come up to the average, but with the exception of Dipálpur the records at the head-quarters of tahsíls by no means indicate adequately the rainfall throughout the tahsíls. Rains have not been well distributed. Kharíf sowings finished and tillage for rabi sowings begun. Cattle generally in healthy state. In the Sutlej Tahsíls grass and other green fodder is procurable on an average scale, but in the Ravi Tahsíls it is scarce in some parts. Health of people good. Food grains sufficient for the present in the Sutlej Tahsíls The Ravi Tahsíls obtain supplies from the Chenab Canal Chaks and other places.
	Montgomery ...	1·68	8·08	2·33	2·06	2·86	7·29	10·15	
	Pákpattan ...	1·18	5·90	1·95	0·70	1·41	2·85	4·26	
	Dipálpur ...	1·44	5·38	1·26	3·28	1·46	7·90	9·36	
LAHORE.	Van (*c*) ...	2·64	11·24	3·88	4·04	1·89	11·42	13·31	Kharíf crops are being sown on irrigated lands as well as on such parts of the Baráni areas as were benefited by the August rains. Land is also being prepared for rabi crops. The condition of cotton and sugarcane crops is excellent, but the maize and jowár crops of the Kasúr Tahsíl have been damaged to some extent by small insects called Kiri. No cattle disease, but fodder is still scarce in such parts of the country as had no rain in July or August The Sharakpur Tahsíl is now improving. All the cattle sent to other places have now come back to their own villages in that tahsíl. Health of the people is good. The Bári Doáb Canal and the Sharakpur Deg stream have worked well, but the Upper Sutlej inundation canals are not supplying sufficient irrigation in these days. Prices are rising. Grain stocks sufficient in canal irrigated part of the country and not elsewhere.
	Chunián ...	1·66	11·72	5·35	4·27	1·55	7·38	8·93	
	Kasúr ...	1·70	8·88	3·15	0·30	1·24	3·18	4·42	
	Pambe (*c*) ...	2·48	11·98	3·40	0·80	1·42	2·60	4·02

		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st March.	1st April to 31st August.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 31st August 1896.	Total.	Condition of crops and cattle, and health of people.
GURDASPUR.	Aliwál (*c*) ...	4.00	17.25	5.81	7.50	2.09	16.27	18.36	Condition of crops and health of people good, except in Tahsíl Shakargarh, where the crops are suffering for want of rain. More rain is wanted in the whole district. Stock of food-grains sufficient except in Tahsíl Shakargarh. Fodder plentiful.
	Batála ...	5.53	21.41	8.45	7.72	2.54	17.40	19.94	
	Tibri (*c*) ...	5.77	20.47	7.51	6.94	2.69	16.69	19.38	
	Gurdaspur ...	5.43	22.11	8.26	6.24	3.44	21.20	24.64	
	Pathánkot ...	8.15	14.71	14.77	20.01	4.99	35.87	40.86	
	Dalhousie ...	13.32	59.69	23.75	24.69	17.75	52.63	70.38	
	Mádhopur (*c*) ...	10.62	35.70	16.83	19.65	5.09	34.75	39.84	
	Shakargarh ...	6.92	26.76	10.51	5.11	2.97	12.17	15.14	
SIALKOT.	Zafarwál ...	5.70	21.61	7.92	6.97	3.63	17.73	21.36	The recent rains have improved the prospects of the standing crops, but they were quite insufficient for rice. The Nála Degh was flooded two or three times, and it was very useful for rice crops in parts of Dokandi and Kalar Circle of Pasrúr and Raya Tahsíls, but the rice crops are still far below the average, and if the rains keep off in September there will remain very little hope of these crops. Prices are rising, and there is a demand for export of wheat to the seaports. The stock of grain is insufficient in some parts of the district. The green fodder is sufficient, but the stock of bhúsa is failing in some parts of the district. Land is being prepared for the sowing of rabi crops. Condition of cattle and health of people good, but the cattle in the well tracts look rather weak on account of over-work.
	Pasrúr ...	5.85	21.58	7.95	4.66	2.74	15.02	17.76	
	Raya ...	4.03	15.34	6.22	5.10	3.93	12.91	16.84	
	Daska ...	4.94	18.10	7.22	4.84	2.10	10.78	12.88	
	Sialkot ...	5.87	25.57	9.61	3.86	4.08	11.92	16.00	
GUJRAT.	Gujrat (Sadr) ...	6.52	17.10	6.24	3.19	1.27	10.71	11.98	Kharíf crops in the north-eastern parts of Tahsíls Gujrát and Khárián east of the Grand Trunk Road are average; those on the western side are poor. With the rains in this month crops were sown and did germinate, but are drying up now for want of rain. If it rains well, prospects might improve. In Tahsíl Phália the rains this month admitted ploughing and sowing, and the crops germinated well, but are drying as rains hold off. If it rains soon we may have some crops, if not, crops will fail, especially in Bar and Hithar Circles. Crops in both the bets are average, but bad in Bar and Hithar. The crops in the belás bordering on the Chenab River are being damaged by pigs. Health of people and cattle is good. The cattle brought back on account of rains are again being taken back to the belás. Fodder is rather scanty. Prices rising. There is stock of grain in important towns of the district.
	Khárián (Lála Músa)	6.35	18.49	7.26	7.86	2.86	12.35	15.21	
	Phália ...	4.65	12.95	5.14	6.12	2.10	8.94	11.04	

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF AUGUST 1896—(CONTINUED).

		RAINFALL.							
		Average rainfall of past years.			*Rainfall of present year.*				
DISTRICT.	Rain-gauge Station.	1st October to 31st March.	1st April to 31st August.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 31st August 1896.	Total.	Condition of crops and cattle, and health of people.
GUJRÁNWÁLA.	Rámnagar ...	3·02	16·00	7·67	6·11	1·08	8·50	9·58	During the last three weeks rain has fallen in all the four tahsíls. The fall in the west has been very good. Kharíf sowings *jowár, móth, munji* and *mungi* were continued on baráni lands. More rain is wanted. Baráni lands are specially in need of it. In the Gujránwála and Wazirabad Tahsíls the cháhi land crops are also suffering for want of rain. Cattle in good condition throughout the district. Rakhs have been opened for grazing. The cattle from other parts have returned to the district. Green grass is not so abundant in the east as in the west part of the district. The price of food-grain is rising. Health of people good. Shahukárs are well off as regards the stock of grain. Zamíndárs have hardly enough for current requirements.
	Wazirabad ...	4·57	14·70	6·10	4·45	1·04	8·57	9·61

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF AUGUST 1896—(CONTINUED).

Explanation :—(*c*) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st March.	1st April to 31st August.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 31st August 1896.	Total.	Condition of crops and cattle, and health of people.
HAZARA.	Abbott-abad ...	14.82	26.83	9.97	5.99	10.62	14.65	25.27	Early sowings nearly ripe. Later sowings thinned considerably, immature, and suffering for want of rain. Prices rising. Stock of grain sufficient; but importation is necessary. Stocks of fodder none. Green fodder used. Water from irrigation cuts sufficient.
	Mánsahra ...	14.87	19.34	7.16	7.57	10.09	13.92	24.01	
	Haripur ...	11.24	15.63	5.36	9.52	4.65	19.47	24.12	
PESHAWAR.	Swábi ...	5.88	8.33	3.14	8.85	4.76	13.85	18.61	In the Utman Bolak Tahsíl there having been sufficient rain, land is being ploughed for cultivation. The condition of standing crops on irrigated land is average and that on unirrigated land is bad. The rice crop has been harvested in the Charsadda Tahsíl and cotton is being picked in the Nowshera Tahsíl. The outturn of rice is fair and that of cotton good. There is scarcity of fodder in the Mardán Tahsíl; sufficient in others. The prices of food grains are rising. There is a limited stock in hand, especially in the Swábi Tahsíl. The water in canals is not sufficient. The villages situated in the lower portion of Chak Bara suffered for want of water in the Bara stream. No inundation from hill torrents.
	Lahore (Utman Bolak)	6.01	8.73	3.60	2.12	3.56	4.89	8.45

BANNU.	Miánwáli ...	2.50	6.77	2.10	8.04	1.55	11.09	12.64	The condition of crops in Miánwáli, Bannu and Isa Khel is good; also in the irrigated parts of the Marwat Tahsíl. No rain to speak of has fallen in the Pakka Circle of the Marwat Tahsíl and consequently there are no crops. Stocks of food are sufficient in Isa Khel and Bannu, but low in Miánwáli and Marwat. Fodder ample in all tahsíls except in the eastern and western parts of the Bannu Tahsíl. Prices rising. No locusts or hailstones. Health of people good. Canals working well.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF AUGUST 1896—(CONTINUED).

1	2	3	4	5	6	7	8	9	10
		Rainfall.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st March.	1st April to 31st August.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1895 to 31st August 1896.	Total.	Condition of crops and health of people.
Dera Ismail Khan.	Tánk ...	1·71	4·96	0·93	1·20	2·38	7·13	9·51	Condition of standing kharíf crops slightly improved by recent rains. Health of people good. Fodder sufficient. Stock of food-grains average. Prices high. Wheat 15½ seers per rupee.
	Kuláchi ...	1·77	4·74	1·25	0·28	2·62	2·11	4·73	
	Dera Ismail Khan ...	**2·24**	**5·24**	**1·46**	**0·63**	**2·63**	**1·07**	**3·70**	
	Bhakkar ...	1·59	5·08	1·54	0·05	2·46	0·38	2·84	
	Leiah ...	1·48	5·01	1·61	1·88	1·33	4·41	5·74	
	Shekh Budin ...	...	...	...	2·15	0·81	9·11	9·92	
Dera Ghazi Khan.	Sanghar ...	1·40	5·24	1·48	0·37	2·04	3·08	5·12	During August the hill torrents came down and irrigated a large area of the Pachad Circle in all tahsíls. Reports from Sanghar and Dera Ghazi Khan Tahsíls show that these torrents did a certain amount of damage to standing crops. Canals running well all through month. Store of grain and fodder sufficient. Prices stationary.
	Dera Ghazi Khan ...	**1·99**	**5·93**	**1·80**	**0·49**	**1·71**	**0·61**	**2·32**	
	Fort Munro ...	0·75	9·18	4·18	2·21	2·83	6·00	8·83	
	Jámpur ...	0·88	4·05	1·62	...	1·96	1·30	3·26	
	Rájanpur ...	0·52	2·88	1·18	0·11	2·75	0·59	3·34	
Muzaffargarh.	Alipur ...	1·00	6·87	2·33	0·73	0·96	1·20	2·16	Kharíf crops of sugarcane, jawár and bájra are in good condition. The bad effect of the disease locally named *munhsari* on the indigo crop has been counteracted by the recent shower of rain, and the crop is now improving. The crop of rice is suffering from the scarcity of water in the canals in some places. The prices are stationary. Grains is still being exported to Sukkar. Stock of food-grains with the traders is sufficient, and there are no signs of scarcity. There is a sufficient quantity of fodder. The Púran and Sardár canals are running. There have been good floods in the Indus, but not in the Chenab.
	Muzaffargarh ...	**1·06**	**3·89**	**1·58**	**0·58**	**1·07**	**0·67**	**1·74**	The sowings of til have been completed. The kharíf standing crops, *viz*., sugarcane, indigo, &c., &c., are generally, with the exception of those of the *Thal* tract, in good condition. The churning of indigo is in progress and the reaping of the rice crop has been commenced. The outturn is reported to be fair. Supply of jowár and grass is sufficient. There is no disease among people. Stock of food-grain sufficient for the present. There has been an abundant supply of dates. No grain has been reported to have been exported during this month. The prices of wheat and gram have risen; yet there are no signs of scarcity. Rain wanted in the Thal tracts. There is a sufficient supply of water in the canals. The flood of 14th August 1896 from the River Chenab partially damaged the til crop and the stock of fodder. No flood from the Indus River.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF AUGUST 1896—(CONCLUDED).

1	2	3	4	5	6	7	8	9	10
District.	Rain-gauge Station.	Rainfall. Average rainfall of past years. 1st October to 31st March.	1st April to 31st August.	For month under report.	Rainfall of present year. Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 31st August 1896.	Total.	Condition of crops and cattle, and health of people.
Muzaffargarh—concluded.	Sinánwán ...	1·48	5·66	2·57	2·09	1·87	2·30	4·17	The reaping of indigo and rice crops has commenced. The condition of the other kharif crops is fair. Ploughing for the next rabi crops is in progress. The grass is improving owing to the recent shower of rain and the flood from the Indus river. There is no disease among the people. There is a sufficient stock of food-grains and the rates of wheat are 17, 18, 19 seers per rupee. The river has irrigated most of the villages, and there is a sufficient supply of water in the Garku and Maggasin canals, but not in the Maggi Canal.

MEMO. OF ERRORS IN THE AGRICULTURAL PROSPECT REPORT.

For June 1896.

Against Sirsa (Hissar District) in columns 6, 8 and 9 *for* 0·52, 0·58 and 1·48 *read* 0·04, 0·10 and 1·00.

Against Fatahabad (Hissar District) in columns 6, 8 and 9 *for* 0·62, 0·98 and 1·92 *read* blank 0·36 and 1·30.

Against Hissar (Hissar District) in columns 6, 8 and 9 *for* 0·22, 1·07 and 1·29 *read* 058, 1·43 and 1·65.

Against Hánsi (Hissar District) in columns 6, 8 and 9 *for* 0·96, 2·92 and 4·13 *read* blank 1·96 and 3·17.

Against Bhiwáni (Hissar District) in columns 6, 8 and 9 *for* 1·63, 2·67 and 4·69 *read* 1·16, 2·20 and 4·22.

Against Budhláda (Hissar District) in columns 6, 8 and 9 *for* 0·22, 0·72 and 0·94 *read* blank 0·50 and 0·72.

Against Tohána (Hissar District) in columns 6, 8 and 9 *for* 0·50, 0·50 and 1·00 *read* both blank and 0·50.

For July 1896.

Against Buchar (*c*) (Amritsar District) in columns 8 and 9 *for* 2·48 and 4·56 *read* 3·18 and 5·26.

Against Jail Hospital (Amritsar District) in columns 8 and 9 *for* 4·75 and 6·85 *read* 4·55 and 6·66.

Against Pára Chinár (Kurram), Pesháwar District, in column 9 *for* 3·70 *read* 3·75.

LAHORE, THURSDAY, SEPTEMBER 24, 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 22nd SEPTEMBER 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharff (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	0·63 in Fatahabad. 0·20 in Sirsa.	1. Fodder stock exhausted. Green grass procurable to some extent. 2. Bad.	Wheat at 11 seers. Bájra at 12 seers.	Rain proved beneficial, but more rain wanted Crops withering Canal crops flourishing.	Grain stock insufficient.
2	Delhi ...	0·16 in Ballabgarh.	1. Scarce. 2. Fair.	Abnormal. Wheat at 10¾ seers. Bájra at 12 seers.	Autumn prospects poor. Standing crops drying.	Wholesale stock sufficient, but prices rising.
3	Umballa ...	0·20 at Sadr; water sufficient.	1. Sufficient. 2. Fair.	Very high. Wheat at 10½ to 11 seers. Gram at 12 to 12½ seers.	More rain badly needed. Standing crops suffering.	Spring sowings suffering.
4	Jullundur ...	Slight rain in Nakodar and Phillour.	1. Insufficient.	Very high. Wheat at 11 seers. Gram at 12 seers.	Standing crops drying up for want of rain. Autumn weeding in progress.	Spring ploughing in progress. Stock of grain insufficient.
5	Ferozepore ...	0·31 in Zíra. 0·18 in Nathána.	1. Insufficient. 2. Old cattle dying for want of fodder in Moga. Cattle generally weak for want of fodder.	Wheat at 10 to 11 seers. Mäize at 13 to 14 seers.	Autumn crops are drying up for want of rain. Insects destroying certain autumn crops watered by well and canals in Ferozepore, Jalálabad and Muktsar.	Stock of food-grain sufficient for local requirements except in Moga.
6	Amritsar ...	...	1. Dry fodder sufficient and green insufficient. 2. Good.	High. Wheat at 11¾ seers. Maize at 15 seers.	Rain badly wanted. Cotton and sugarcane in good condition.	Spring ploughing is progress. Gram and oil-seeds are being sown. Stock of food-grain sufficient.
7	Siálkot ...	0·53 average rainfall.	1. Scarce. 2. Overworked and losing condition.	Wheat 11 to 11½ seers. Rice 7 to 9 seers.	Autumn crops withering.	Spring ground being ploughed. Stock sufficient.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharíf (Autumn).	Prospects of Rabi (Spring).
8	Lahore ...	0·82 in Lahore.	1. Scarce with the exception of canal-irrigated lands. Grass and sarkána are available on lands benefited by rain. 2. No cattle disease.	High. Wheat at 12 to 13 seers. Maize at 14 to 16 seers.	Prospects of irrigated crops average and unirrigated poor. In Sharakpur the autumn crops are withering for want of rain and insufficient water in the Deg Canal. Jowár (great millet), sugarcane and maize damaged by small insects in Kasúr and Sharakpur, and másh (*Phaseolus radiatus*) by Tiddi in Kasúr.	Land is being prepared for spring crops. The sowings of gram and mustard seed on unirrigated land are being delayed in Tahsíl Sharakpur for want of rain. Grain stocks sufficient with Sáhúkárs, but not with Zamíndárs.
9	Mooltan ...	Canals dry in Mailsi. Water scanty in other canals.	1. Sufficient.	High. Wheat, 1st quality, at 11½ seers; 2nd quality, 12½ seers. Jowár at 16 seers.	Autumn crops good.	Spring sowings commenced.
10	Ráwalpindi ...	0·14 in Ráwalpindi. 0·14 in Gujar Khan. 0·25 in Kahúta. 2·45 in Murree.	1. Insufficient. 2. Fair.	High. Wheat at 10½ seers. Bájra at 12 seers. Maize at 12½ seers.	Autumn prospects not good owing to drought.	Stock of grain sufficient.
11	Shahpur ...	...	1. Scarce. 2. Fair.	Wheat at 11¼ to 12 seers. Bájra at 13 to 14 seers.	Unirrigated crops badly in want of rain. Food-grain imported into Khusháb Tahsíl from outside.	...
12	D. I. Khan ...	...	1. Sufficient. 2. Good.	High. Wheat at $12\frac{1}{16}$ seers. Bájra at 15 seers.	Condition of standing autumn crops good.	Lands being prepared for spring crops.
13	Peshâwar ...	...	1. Sufficient. 2. Good.	Prices of wheat and maize risen: Wheat at $10\frac{9}{16}$ seers; maize at $11\frac{6}{16}$ seers.	Standing crops average, excepting Bára villages.	Stock of food-grain average.
14	Rohtak ...	0·11 in Rohtak. 1·60 in Sámpla. 0·17 in Gohána. 0·09 in Jhajjar.	1. Grass dried up and scarcity of fodder felt.	Rising. Wheat at 10½ seers. Jowár at 13 seers.	No crops sown. Unirrigated crops bad. Canal crops suffered seriously from scarcity of rain and strong westerly winds. Slight damage done by locusts.	Stock of food-grain sufficient.
15	Gurgaon ...	1·21 in Gurgaon. 0·05 in Fírozpur.	...	Rising.	Standing crops withering in all places where there is no rain. Locusts passed over certain villages of Gurgaon, doing no damage.	...
16	Karnál ...	0·06 in Kaithal. Scattered showers elsewhere of no benefit except to a few villages.	1. Very scarce. 2. Cattle moving again to Naili and Jumna.	Wheat at 11 to 12 seers. Gram at 12 to 14 seers. Maize at 14 seers.	West wind blowing all the week has withered up unirrigated crops. Agricultural prospects distinctly gloomy.	...
17	Gujránwála ...	0·14 at Sadr. 0·61 in Wazírabad. 0·60 in Háfizabad.	1. Green grass scarce throughout the district; dry fodder unprocurable. 2. Cattle growing worse for want of fodder; they are being reduced to skeletons.	Rising. Wheat at 11½ seers.	Prospects of crops on irrigated lands favourable; on well-irrigated below average; and of those dependent on rain unfavourable. Crops in bad plight for want of rain.	No crops are being sown in this week; but in unirrigated area, where land is well wetted, mustard and gram are being sown. No stocks with Zamíndárs; those with Sáhúkás being rapidly used up.

GENERAL REMARKS.

Slight rain has fallen in all districts except Amritsar, Mooltan, Shahpur, Dera Ismail Khan and Peshâwar. Prices rising in Rohtak, Gurgaon and Karnál, very high in Umballa and Jullundur, and high elsewhere. Land is being prepared for spring crops in Siálkot, Lahore and Dera Ismail Khan; spring sowings commenced in Mooltan; spring ploughings in progress in Jullundur and Amritsar; also autumn weeding in Jullundur. No crops sown in Rohtak and Gujránwála; but in unirrigated area, where land is well wet, gram and oil-seeds are being sown in the latter. Standing crops are withering for want of rain in nearly all the districts; they are also suffering from heavy westerly winds in Rohtak and Gurgaon. Spring sowings are suffering for want of rain in Umballa. Condition and prospects of autumn crops are bad in Rohtak; poor in Delhi and unirrigated tracts of Lahore; unfavourable in unirrigated tracts of Gujránwála; distinctly gloomy in Karnál; below average in well-irrigated tracts of Gujránwála; average in Peshâwar, except Bára villages, and irrigated tracts of Lahore; not good in Ráwalpindi; favourable in irrigated tracts of Gujránwála; and good in Amritsar, Mooltan, Dera Ismail Khan and canal-irrigated tracts of Hissar. More rain is badly wanted in all the districts. Grain stock is insufficient in Hissar, Jullundur and Gujránwála, average in Peshâwar, and sufficient elsewhere. Well and canal irrigated crops in parts of Ferozepore, and great millet, sugarcane, maize and másh (*Phaseolus radiatus*) in parts of Lahore damaged by insects. Locusts visited the Rohtak and Gurgaon Districts, doing slight damage in the former. Cattle have begun to suffer in Gujránwála and are dying in parts of Ferozepore for want of fodder; they are over-worked in Siálkot; their condition is bad in Hissar and fair to good elsewhere. Fodder is sufficient in Umballa, Amritsar, Mooltan, Dera Ismail Khan and Peshâwar only. The number of persons employed on relief works, inclusive of non-working children, is 3,236 in Gujrát.

P. D. SHROFF, ***Supdt.,***
Office of Director of Land Records and Agriculture, Punjab.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, OCTOBER 1, 1896.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 29th SEPTEMBER 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	0·20 in Sirsa.	1. Very scarce; fodder stock exhausted. 2. Vrey bad.	High. Wheat at 7 seers. Bájra at 9 seers.	Autumn crops withered for want of rain. Canal crops in good condition.	Rain needed for spring ploughings. Grain stock insufficient. Famine relief works necessary.
2	Delhi ...	...	1. Scarce, but sufficient for present. 2. Fair, but well bullocks being over-worked.	Abnormal. Wheat at 9 seers. Bájra at 10 seers. Prices rising as no spring sowings can take place without rain.	Autumn crops being cut. Outturn very poor on unirrigated lands. The new grain is hardly yet in the market.	Stock sufficient. High prices are causing distress among the Muhammadan artisan population of Delhi, many of whom are out of work. Without rain it is likely that relief works will have to be started.
3	Umballa ...	0·10 at Sadr. Rain badly needed; water sufficient.	2. Good.	Very high. Red wheat at 9½ to 10 seers. Gram at 11½ to 12 seers.	...	Spring sowings withering.
4	Jullundur ...	...	1. Scarce and dear. 2. Poor.	Very high. Wheat at 10 seers. Gram at 11 seers.	Standing crops drying up for want of rain. Autumn reaping commenced.	Spring ploughings in progress. Stock of grain insufficient.
5	Ferozepore ...	0·88 in Moga. 0·63 in Zíra. 0·15 at Sadr. 0·62 in City. 0·16 in Muktsar. 0·29 in Fázilka. 0·25 in Nathána. 0·52 in Jalalabad.	1. Insufficient. 2. Generally weak for want of fodder.	Wheat at 9½ seers. Maize at 12 seers. Gram at 11 seers.	Crops drying up for want of rain. Insects destroying certain autumn crops watered by wells and canals in Ferozepore and Jalalabad.	Stock of food-grain sufficient for local requirements, except in Moga.
6	Amritsar ...	0·26 average rainfall.	1. Dry fodder sufficient; green fodder insufficient. 2. Good, except in Ajnála.	Continue high. Wheat at 10¾ seers. Maize at 15 seers.	Cotton and sugarcane in good condition.	Spring ploughings in progress. Oil-seeds and gram being sown. Stock of grain will be sufficient if autumn harvest be sufficient.
7	Siálkot ...	0·25 average rainfall.	1. Scarce. 2. Cattle over-worked in irrigation and ploughing, and losing condition.	Rising rapidly. Wheat 11 to 11½ seers. Rice 7 to 9 seers.	Autumn harvesting commenced; outturn poor.	Stock sufficient.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
8	Lahore ...	...	1. Scarce, except in canal-irrigated lands. Grass and sarkána are available in lands benefited by rain. 2. Poor for want of fodder.	Continue high. Wheat at 10½ to 11½ seers. Maize at 13 to 15 seers.	Prospects of irrigated crops average and of unirrigated poor. Unirrigated crops withering for want of rain. Jowár (great millet), sugarcane and maize damaged by insects in Kasúr Tahsíl. A flight of locusts passed over Lahore, but did no damage.	Land is being prepared for spring crops. Sowings of gram are in progress. Grain stock is available with Sáhúkárs, who do not give to poor classes.
9	Mooltan ...	Canals dry, except Sidhnai.	1. Sufficient.	High. Wheat, 1st quality, at 11¼ seers; 2nd quality, at 12½ seers. Jowár at 16 seers.	Condition of autumn crops good. Rice being cut and cotton gathered.	Spring sowings in progress.
10	Ráwalpindi ...	0·58 in Pindigheb. 0·37 in Fatahjang 0·25 in Ráwalpindi 0·52 in Gujar Khan. 1·00 in Kahúta. 3·17 in Murree.	1. Insufficient. 2. Fair.	High. Wheat at 10¾ seers. Bájra at 12 seers. Maize at 13 seers.	Autumn crops being cut.	Stock of grain sufficient.
11	Shahpur ...	Slight rainfall throughout.	1. Scarce. 2. Fair.	Above normal.	Autumn crops badly need rain.	Food-grains imported into Tahsíl Khusháb from outside.
12	D. I. Khan ...	0·65 at Sadr. 0·60 in Tánk. 0·90 in Kuláchi.	1. Sufficient. 2. Good in parts.	Very high. Wheat at 12 3/16 seers. Bájra at 13¼ seers	Standing autumn crops benefited by recent rains and are in good condition. Hail reported in certain villages of Tánk and Dera, but no damage to crops. A flight of locusts passed over Bhakkar and Lieah Tahsíls. Cotton-picking commenced.	More rain wanted for spring sowings. Preparation of land for spring crops in progress.
13	Peshâwar ...	...	1. Sufficient. 2. Good.	Prices of wheat and maize risen: Wheat at 10 13/16 seers; maize at 11 6/16 seers.	Standing crops average, excepting Bára villages.	Stock of food-grain average.
14	Rohtak ...	...	1. Grass dried up and scarcity felt.	Rising. Wheat at 9 seers. Jowár at 11 seers.	No crops sown. Unirrigated crops very bad owing to drought. No outturn, except a small quantity of bájra (bulrush millet). Complaints of insufficiency of canal water. Average canal crops anticipated. Crops have suffered seriously from scarcity of rain.	Stock of food-grain sufficient, but daily decreasing.
15	Gurgaon ...	Slight shower at Punahána.	...	Rising rapidly.	Early autumn crops are being cut. Rain much needed.	Crops on rain land sown after the first heavy showers.
16	Karnál ...	...	1. Grass disappearing.	Rising. Wheat at 8½ to 9 seers. Gram at 10 seers. Maize at 11 seers.	West wind blowing. Bájra, rice, maize being reaped. Crops dependent on rain have totally failed. Outturn very poor. Locusts caused damage to báira (bulrush millet) in Pánipat and Kaithal.	Spring crops sown in few places. Stocks decreasing.
17	Gujránwála ...	0·30 in Rámnagar. 0·24 in Khángah Dográn.	1. Fresh grass scarce throughout the district; dry fodder hardly procurable. 2. Condition of cattle growing worse owing to general want of fodder.	Rising. Wheat at 10 to 11 seers.	Extra autumn staples are being sown in places. Prospects of canal-irrigated crops are favourable, of well-irrigated below average, and of unirrigated unfavourable. Crops in bad plight for want of rain.	Stocks holding out, but, unless rain falls within the next fortnight, matters threaten to become rather critical.

GENERAL REMARKS.

Slight rain has fallen in the Hissar, Umballa, Ferozepore, Amritsar, Siálkot, Ráwalpindi, Shahpur, Dera Ismail Khan, Gurgaon and Gujránwála districts. Prices rising in Siálkot, Rohtak, Gurgaon, Karnál and Gujránwála, above normal in Shahpur, and very high elsewhere. Land is being prepared for spring crops in Lahore and Dera Ismail Khan; harvesting of autumn crops in Delhi, Jullundur, Siálkot, Mooltan, Ráwalpindi, Gurgaon and Karnál, and picking of cotton in Dera Ismail Khan in progress. Spring ploughings in Jullundur and Amritsar, spring sowings in Mooltan, and extra autumn crop sowings in Gujránwála in progress; also sowings of gram in Lahore. Spring crops sown in parts of Karnál, but no crops sown in Rohtak. Standing crops in Hissar, Jullundur, Ferozepore Rohtak, and unirrigated crops in parts of Lahore are withering for want of rain; also spring sowings in Umballa. Condition and prospects of autumn crops are very bad in Rohtak; very poor in Delhi and Karnál; poor in Siálkot and unirrigated tracts of Lahore; unfavourable in unirrigated tracts of Gujránwála; below average in well-irrigated tracts of Gujránwála; average in Peshâwar, excepting Bára villages and irrigated tracts of Lahore; favourable in irrigated tracts of Gujránwála; and good in Amritsar, Mooltan, Dera Ismail Khan and canal-irrigated tracts of Hissar. More rain is badly wanted in all the districts. Grain stock is insufficient in Hissar, Jullundur and parts of Ferozepore; average in Peshâwar; decreasing in Rohtak and Karnál; and sufficient elsewhere. Well and canal irrigated crops in parts of Ferozepore, and great millet, sugarcane and maize in parts of Lahore damaged by insects. Locusts visited Lahore, Dera Ismail Khan, and Karnál, and did damage to bulrush millet in parts of Karnál. Cattle have begun to suffer in Hissar, Ferozepore, Lahore and Gujránwála. They are over-worked in Delhi and Siálkot. Their condition is poor in Jullundur, and fair to good elsewhere. Fodder is sufficient in Amritsar, Mooltan, Dera Ismail Khan and Peshâwar only. Signs of distress have appeared in Hissar and Delhi, and it is likely that relief works will have to be started. Aggregate number of persons on relief works on Saturday evening, 26th September, was 4,043 inclusive of non-working children in Gujrát.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 25th September 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 12TH SEPTEMBER 1896.

Births and Deaths in Municipal Towns.—In the 45 large Municipal towns 1,281 births were registered (657 males and 624 females), giving a birth-rate of 47 per *mille* of population: 919 deaths were registered (453 males and 466 females), giving a death-rate of 34 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,

Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 25th September 1896.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, OCTOBER 8, 1896.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 6th OCTOBER 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	0·05 at Sadr. 0·08 in Fatehabad. 0·15 in Sirsa.	1. Exhausted. 2. Bad.	High. Wheat 8 seers. Bájra 9 seers.	Crops withered. Canal crops in fair condition.	Rain urgently wanted for spring ploughings. Grain stock insufficient. Famine relief works necessary.
2	Delhi ...	...	1. Scarce. 2. Fair.	Risen. Wheat 9½ seers Bájra 11 seers per rupee.	Crops are being quickly gathered, giving employment to the country people for the time being.	Sowings begun on irrigated lands. Wholesale stock sufficient.
3	Umballa ...	...	2. Good.	Very high. Red wheat 9½ to 10 seers. Gram 10½ to 11 seers.	...	Rain badly needed for sowings.
4	Jullundur ...	...	1. Scarce and dear. 2. Poor.	Very high. Wheat 10½ seers. Gram 11 seers.	Average. Reaping commenced.	Ploughing in progress. Stock of grain insufficient. Rain wanted for sowings.
5	Ferozepore ...	0·02 at Sadr. 0·06 in City.	1. Insufficient. 2. Generally weak for want of fodder.	Wheat 9½ seers. Maize 11 seers. Gram 11 seers.	Insects destroying certain crops watered by wells and canals in Ferozepore and Jalalabad.	Stocks of grain sufficient except in Moga.
6	Amritsar ...	0·02 in Ajnála.	1. Only dry; sufficient.	Very high. Wheat 10 seers. Maize 14 seers.	Irrigated crops in fair condition. Maize, rice and cotton harvesting begun.	Rain badly needed. Ploughing in progress.
7	Siálkot ...	0·13 Average.	1. Scarce. 2. Losing condition. Overworked in irrigation.	Wheat 10 to 10¾ seers. Rice 8 to 9 seers.	Crops being harvested.	Rain wanted. Ploughing in progress. Stock sufficient.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
8	Lahore ...	...	1. Scarce, except on canal-irrigated lands. Grass and sarkána are available on the river banks. 2. Healthy.	Continue high. The prices of wheat and maize are 9½ to 11 and 12 seers per rupee, respectively.	Irrigated crops average and crops dependent on rain, poor in Tahsíls Kasúr and Lahore. Jowár (great millet) and sugarcane damaged by small insects in Tahsíl Kasúr. A flight of locusts passed over Lahore, but did no damage.	Land is being prepared for spring crops. Sowings of gram, &c., in progress.
9	Mooltan ...	0·06 at Sadr.	1. Sufficient.	High. Wheat, 1st quality, at 10½ seers and 2nd quality 11½ seers per rupee. Jowár 12½ seers.	Good. Harvesting commenced.	Sowings in progress. Sidhnai and Sutlej Canals flowing. Chenab Canals dry. Stock sufficient.
10	Ráwalpindi ...	0·51 in Pindigheb 0·33 in Gujar Khan. 0·20 in Kahúta.	1. Insufficient. 2. Fair.	High. Wheat at Sadr 9¾ seers. Bájra 11 seers. Maize 12 seers.	Crops being cut.	Sowings continue. Stock of grain sufficient.
11	Shahpur ...	...	1. Scarce. 2. Good.	Wheat 10 to 11 seers. Bájra 13 seers.	...	Rain badly needed. Stock of food-grain insufficient in Khushab.
12	D. I. Khan ...	0·08 at Sadr.	1. Sufficient, except in Tahsíl Leiah. 2. Good.	Very high. Wheat 11¼ seers. Bájra 12 seers.	Good. Cotton picking in progress.	Land being prepared for spring crops.
13	Peshâwar ...	...	1. Sufficient. 2. Good.	Risen. Wheat $10\frac{3}{16}$ seers. Maize 11¼ seers.	Average.	Excepting the Bára villages, the stock of food-grain average.
14	Rohtak ...	...	1. Sufficient for present need, but becoming dear. 2. Good.	Wheat 9 seers. Jowár 11 seers.	Bájra (bulrush millet) has been cut; other crops failed and are being used as fodder.	Grain-stock seems sufficient.
15	Gurgaon ...	0·03 at Sadr.	...	Wheat 9·0 seers. Gram 10·5 seers. Barley 10·4 seers. Jowár 12 seers. Bájra 10·75 seers.	Crops being cut. Those on rain land are withering.	Carrots are being sown.
16	Karnál ...	Slight shower in several places, but of no benefit.	1. Very scarce.	Slightly improved. Wheat 9¼ seers. Gram 10 seers. Maize 12 seers.	Hail and locusts damaged crops in some villages of Karnál and Pánipat Tahsíls. Bájra, rice, and maize being reaped. Outturn very poor on lands, dependent on rain but fair on irrigated.	Spring crops being sown on irrigated lands. Excavation of 4 tanks as test-works started on 5th instant in 4 villages; no outside labour attracted yet.
17	Gujránwála ...	...	1. Fresh grass not available. Dry fodder scarce and dear. 2. Unsatisfactory.	Rising. Wheat at 10 to 10½ seers per rupee.	Extra autumn staples are being sown on irrigated lands. Prospects of crops on canal-irrigated lands favourable, on lands irrigated by wells below average, and of those dependent on rains unfavourable. Crops in bad plight for want of rain.	Stock holding out so far as known, but conditions generally are rather grave.

GENERAL REMARKS.

Slight rain has fallen in Hissar, Ferozepore, Amritsar, Siálkot, Mooltan, Ráwalpindi, Dera Ismail Khan and Gurgaon. Prices rule high throughout the province. Wheat is sold at rates varying from 8 to 11¼ seers per rupee. Harvesting of autumn crops commenced in Jullundur, Amritsar, Siálkot, Mooltan, Ráwalpindi and Gurgaon. Sowings of spring crops continue in Delhi, Lahore, Mooltan, Ráwalpindi and Gurgaon. Cotton is being picked in Dera Ismail Khan and Amritsar. More rain wanted for sowings everywhere. Prospects of autumn crops are generally from good to average, but crops dependent on rain in some places have suffered considerably. Stock of food-grain sufficient in Delhi, Rohtak, Mooltan and in parts of Ferozepore and Peshâwar Districts. Insects destroyed the crops watered by wells and canals in parts of Ferozepore and Lahore Districts. Locusts visited Lahore, but did no harm. Cattle have begun to suffer in Hissar, Ferozepore, Siálkot and Gujránwála. Their condition is poor in Jullundur and fair to good elsewhere. Fodder is sufficient in Amritsar, Mooltan, Dera Ismail Khan, Peshâwar and Rohtak only. Aggregate number of persons on relief works in Gujrát was 4,930, including non-working children, on Saturday evening.

P. D. SHROFF, *Supdt.*,

Office of Director of Land Records and Agriculture, Punjab.

* Mean of 30 days.

The meteorology of the month under review was characterized by several abnormal features, the most important of which were the extreme lightness of the rainfall over by far the greater part of the province, and the early termination of the monsoon rains in the third week of the month, at least three weeks before the normal date. Ordinarily August is a month of general and steady rainfall over the province, but August 1895 was remarkable for the feebleness of the monsoon currents and the consequent prevalence of finer weather than usual. Weather was more or less showery during the first three weeks, but there were only three periods of fairly general and moderate to heavy rain during the month, *viz.*, the 1st to the 3rd, the 7th to the 10th, and the 20th to the 22nd. During the first of these periods the rainfall was due chiefly to the winds from the Bay of Bengal, but during the second and third periods it was almost solely brought up by the Bombay current, and was heaviest on the 10th, when a strong monsoon blew up from the north of the Arabian Sea across Rájpútána against the face of the North West Himalayas. Umballa on this occasion received a heavy downpour of 9 inches. 3·38 inches fell at Simla, and over 1 inch at Ráwalpindi. During the third period, from the 20th to the 22nd, the heaviest falls were 2·25 inches at Ráwalpindi, 2·18 inches at Simla and 4·40 inches at Khusháb. The Bombay current broke down almost completely during the last week of the month, and no rain of any significance occurred over the province after the 23rd.

Pressure and Winds.—The mean pressure of the month was more or less in excess over the whole province. The excess was, however, less than ·020″ at all stations except Ráwalpindi (+ ·035″), Dera Ismail Khan (+ ·027″), Pesháwar (+ ·023″) and Murree (+ ·024″). Winds were more westerly or less easterly than usual in the East and South-East Punjab, thus showing the predominance of the winds from the Arabian Sea. Calms prevailed at Dera Ismail Khan, and more northerly winds than usual at Pesháwar. Elsewhere the direction was very irregular. The air movement was on the whole of slightly greater intensity than usual.

Temperature.—The temperature conditions of the month were solely determined by the character of the rainfall of the month. The mean daily temperature was above the average at all stations except Ludhiána, where it was in very slight defect. The excess was most marked at Mooltan, Lahore and Siálkot, where it ranged between 2° and 3°. The night temperature was almost as largely above the normal as the day temperature.

The following table gives (1) the variation from the normal of the mean temperature of the Punjab for each day of the month, and (2) the highest maximum temperature registered within the province on each day, with the name of the station which registered it :—

Date.	Variation from normal of mean temperature of previous 24 hours.	Highest maximum temperature of the day.	Station at which registered.	Date.	Variation from normal of mean temperature of previous 24 hours.	Highest maximum temperature of the day.	Station at which registered.

" 16th ...	+ 3·3	107·4	Do.				

The preceding table shows that the heat was excessive throughout the month except during periods of more or less general rainfall. The coolest day of the month was the 3rd, when the

mean temperature was about 5° below the normal of the day, and the hottest day the 29th, when the mean temperature was about 6° higher than usual. The highest maximum temperature recorded during the month was 108·9° at Mooltan on the 18th, on which day the mean temperature of the province was 5½° above the normal.

Humidity and Cloud.—The air was generally humid. Skies were lightly clouded in the West and Central Punjab, and moderately clouded in the eastern, submontane and hill districts.

Rainfall.—The Bay of Bengal current was weak and did not extend into the Punjab as frequently as usual in August. The Bombay current, on the other hand, gave moderate to heavy rain during two periods, *viz.*, the 7th to the 10th and the 20th to the 22nd. The rainfall on these two occasions, although fairly general, was heavy only in the submontane and eastern districts. The current collapsed almost completely after the 23rd, and no rain of any importance fell in the Punjab during the last week of the month.

The rainfall of the month was very irregularly distributed, and was more or less in defect over the greater part of the province, and hence emphasized to some extent the drought already prevailing in that area.

Khusháb, Sirsa, Umballa, Ludhiána, Montgomery and Ráwalpindi received very favourable rain during the month, and the rainfall of the month was in excess of the normal in these districts. Relatively to the normal, the fall was heaviest at Khusháb, which received more than double the normal fall of the month, and at Sirsa and Umballa, which obtained an excess of 84 and 58 per cent. respectively. The excess was slight in the case of Ráwalpindi, Montgomery and Ludhiána, and ranged between 4 and 20 per cent. Over the remainder of the province the rainfall of the month was very scanty. The month was practically rainless at Pesháwar, which obtained a total fall of 0·10 inch during the month, or only 4 per cent. of the normal fall. The deficiency was large in amount at Mooltan (66 per cent.), Siálkot (59 per cent.), and Dera Ismail Khan (56 per cent.); moderate at Murree (43 per cent.), Lahore (36 per cent.), and Delhi (32 per cent.); and slight at Simla (16 per cent.).

B.

The following table gives the rainfall data for the Punjab Stations for August 1896 :—

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 3rd October 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 19TH SEPTEMBER 1896.

Births and Deaths in Municipal Towns.—In the 45 large Municipal towns 1,282 births were registered (687 males and 595 females), giving a birth-rate of 47 per *mille* of population; 888 deaths were registered (435 males and 453 females), giving a death-rate of 33 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,

Sanitary Commissioner, Punjab.

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, OCTOBER 15, 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 13th OCTOBER 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	...	1. Exhausted. 2. Bad.	High. Wheat 8 seers. Bájra 9 seers.	Crops dried up for want of rain. Canal crops in fair condition. Sailába crops withering for want of floods.	Rain badly wanted for spring crops. Grain stocks insufficient. Relief works necessary.
2	Delhi ...	...	1. Scarce. 2. Fair.	Rising (abnormal). Wheat 8¾ seers Bájra 10 seers.	...	Rabi sowings in progress on irrigated lands. Wholesale stock sufficient.
3	Umballa ...	0·05 at Sadr.	2 Good.	Very high. Wheat 8½ to 9 seers. Gram 9½ to 10 seers.	...	Rain badly needed for spring sowings. Water sufficient.
4	Jullundur ...	Slight rain at Phillour.	1. Scarce and dear. 2. Poor.	Very high. Wheat 9¾ seers. Gram 10 seers. Prices are being felt by poorer classes.	Standing crops drying up for want of rain. Reaping commenced.	Ploughing in progress. Stock of grain insufficient.
5	Ferozepore ...	0·09 at Moga ... 0·10 at Zíra. 0·37 at Sadr. 0·36 at City. 0·18 at Muktsar. 0·20 at Fázilka.	1. Insufficient. 2. Generally weak for want of fodder.	Wheat 9 seers. Maize 11 seers. Gram 10 seers.	Insects destroying certain crops watered by wells and canals in Ferozepore and Jalálabad.	Stock of food grain sufficient for local requirements except in Moga.
6	Amritsar ...	...	1. Dry sufficient; green insufficient. 2. Good.	Continue high. Wheat 10 seers. Maize 14 seers.	Irrigated crops in fair condition, but unirrigated poor. Rice, maize and cotton harvesting in progress.	Rain badly wanted. Stock of food-grain sufficient except in Ajnála.
7	Siálkot ...	0·06 average.	1. Scarce. 2. Losing condition on account of over-work.	Wheat 10 to 10¾ seers. Rice 8 to 9 seers.	Harvesting continued.	Rain wanted. Minor crops sown in some places. Stock sufficient.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
8	Lahore ...	...	1. Scarce, except on canal-irrigated lands. Grass and sirkana are available on the river banks. 2. Healthy.	Continue high. Wheat 9½ to 11 seers. Maize 13 seers.	Reaping in progress. Prospects of irrigated crops average and of lands dependent on rain poor. Great millet, maize and sugar-cane damaged by small insects (Keri) in Kasúr Tahsíl.	Land is being prepared. Gram and other sowings in progress. Grain stock available with Sáhúkárs, who do not give it freely in places to poor classes of people.
9	Mooltan ...	...	1. Sufficient.	High. First quality wheat 10½ seers. Second quality wheat 11½ seers. Jowár 12½ seers.	Crops in good condition. *Chari* and rice are being cut, and cotton picking begun.	Sowings of gram, turnips and peas in progress. Agricultural stock sufficient. Sidhnai Canal flowing.
10	Ráwalpindi ...	0·27 at Fatahjang 0·28 at Murree.	1. Insufficient. 2. Fair. Most of cattle are starving for want of fodder and have been imported to other places.	High. Wheat 8 to 10, bájra 11 to 13, and maize 11 to 15 seers per rupee in the district.	Harvesting commenced.	Sowings continue. Stock of grain insufficient.
11	Shahpur ...	...	1. Scarce. 2. Not good.	Wheat 10½ to 11½ seers. Bájra 12½ to 13½ seers.	...	Stock of food-grain not sufficient in Tahsíl Khusháb. Rain badly needed.
12	D. I. Khan ...	0·04 at Sadr ... 0·12 at Bhakkar.	1. Sufficient, except in Thal. 2. Good generally.	Very high. Wheat 11¼ seers. Bájra 12 seers.	Good to average on irrigated and below average on unirrigated. Cotton picking in progress, but its outturn below average in Leiah Tahsíl.	Land being prepared for spring cultivation.
13	Pesháwar ...	...	1. Sufficient. 2. Good.	Continue high. Wheat 10$\frac{5}{16}$ seers Maize 12$\frac{11}{16}$ seers.	Average except in Bára village.	Stock of food-grain average.
14	Rohtak ...	...	1. Sufficient for present need, but becoming dear. 2. Good.	Wheat 9 seers. Jowár 11 seers.	Bájra (bulrush millet) winnowed, but outturn scanty. Other crops failed and are being used as fodder. Owing to insufficiency of canal water less than average canal crops anticipated. Crops suffered for want of rain and slight injury done to crops in Gohána Tahsíl by locusts.	Stock of food-grain seems sufficient.
15	Gurgaon ...	...	2. Good.	Wheat 8·5 seers. Bájra 10 seers.	Crops are being cut. Locusts slightly damaged in Gurgaon, Fírozpur and Rewári Tahsíls.	Sowings commenced on irrigated lands.
16	Karnál ...	Slight drizzling in Pánipat.	1. Grass fast disappearing.	Wheat 8½ to 9 seers. Gram 9 to 11 seers. Maize 12 seers.	Hail and locusts caused some damage in Kaithal Tahsíl. Rice and maize under sickle: outturn poor.	Sowings commenced in some khadir sailáb lands only. Four hundred men employed on Karnál test works.
17	Gujránwála ...	...	1. Fresh grass not available; dry scarce and dear. 2. Unsatisfactory.	Rising. Wheat 10 seers.	Favourable on canal lands, below average on well-irrigated, and unfavourable on those dependent on rain. Crops in bad plight for want of rain.	Mustard and gram are being sown in some places on lands irrigated by wells. Stocks holding out so far as known, but conditions generally are rather grave.
18	Gujrát ...	Aggregate number of persons on relief works on Saturday evening, 10th October, was 4,806, including non-working children.				

GENERAL REMARKS.

Slight rain has fallen in Jullundur, Ferozepore, Siálkot, Ráwalpindi and Dera Ismail Khan. Prices ruling high in the Province, wheat being sold from 8 to 11¼ seers. Harvesting of autumn crop in progress, except in Hissar, Ferozepore, Pesháwar and Gujránwála. Sowings of spring crops generally commenced, but more rain needed to moisten the land everywhere. Prospects of autumn crops generally from good to average, but crops on lands dependent on rain suffered considerably in some places. Stock of grains sufficient in Delhi, Siálkot, Lahore and in parts of Amritsar and Ferozepore, and average in Pesháwar. Insects destroyed crops in parts of Ferozepore and Lahore Districts, and hail and locusts also done some damage in parts of Gurgaon and Karnál Districts. Cattle have begun to suffer in Hissar, Ferozepore, Siálkot, Ráwalpindi and Gujránwála. Their condition is poor in Jullundur and fair to good elsewhere. Fodder sufficient in Amritsar, Mooltan, Dera Ismail Khan, Pesháwar and Rohtak only. Aggregate number of persons on relief works in Gujrát on Saturday evening was 4,806, including non-working children, and 400 in Karnál on test works.

P. D. SHROFF, *Supdt.*,

Office of Director of Land Records and Agriculture, Punjab.

Note.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
Lahore:
The 10th October 1896.

W. A. CRAWFORD ROE, F.R.C.S., Brigade-Surgeon-Lieut.-Colonel,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 26TH SEPTEMBER 1896.

Births and Deaths in Municipal Towns.—In the 45 large Municipal towns 1,230 births were registered (606 males and 624 females), giving a birth-rate of 45 per *mille* of population; 869 deaths were registered (442 males and 427 females), giving a death-rate of 32 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,

Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 10th October 1896.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF SEPTEMBER 1896.

Explanation :—(*c*) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		Rainfall.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st March.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 30th September 1896.	Total.	Condition of crops and cattle, and health of people.
Hissar.	Sirsa ...	2·20	11·85	2·13	0·40	0·90	7·78	8·68	Rainfall very scanty. Baráni crops withered for want of rain. Canal crops in fair condition. Imminent famine is apprehended as since kharíf 1895 there has been very little rain. Last year slight famine prevailed throughout the district, and scanty rainfall and failure of kharíf harvest rendered the agricultural condition of the district awfully bad. The people have begun to suffer, and it is necessary to start famine relief works as soon as possible. Grain stock diminished to a very large extent and the present stock insufficient to meet the local requirements. Fodder stock exhausted. Cattle in bad condition and are being emigrated to irrigated parts of the country. No immigration from Native States as yet. Prices very high: wheat 8·8, bájra 10 seers. Locusts visited the district and eggs deposited, which were destroyed. No damage done. Health of the district good.
	Fatahabad ...	2·32	13·87	1·83	0·92	0·94	4·37	5·31	
	Hissar ...	2·37	14·18	2·01	0·59	0·22	5·28	5·50	
	Hánsi ...	1·99	13·59	2·39	0·17	1·21	8·35	9·56

	Safidan (*c*) ...	...	...	...	...	0·45	11·66	12·11	
	Jind (*c*) ...	...	...	...	0·25	0·65	8·30	8·95	
Bikaner State.	Chhani (*c*) ...	...	...	...	...	0·84	7·72	8·56	
Rohtak.	Rohtak ...	2·26	17·93	3·50	0·11	1·75	9·28	11·03	No sowings have yet begun. Baráni bájra has been cut, but is indifferent (annas 9 to 10), and remaining baráni crops are bad, and being used merely for fodder. Cotton, indigo and sugarcane, canal irrigated crops, are, through want of water, ¾ average crops. Fodder from kharíf crops sufficient for present needs, but becoming dear. Health of people good. Locusts reported in some villages, but damage done is slight. Stock of food grains seems sufficient for some months, but prices are very high: wheat 8¾ seers, gram 10 seers.
	Gohána ...	2·41	17·66	3·41	0·17	1·03	11·42	12·45	
	Sámpla ...	2·00	18·83	3·44	1·60	3·77	11·14	14·91	
	Jhajjar ...	1·84	17·91	3·07	0·09	2·05	12·19	14·24	
Gurgaon.	Farukhnagar ...	...	...	...	0·36	0·78	9·29	10·07	There was practically no rain during the month. The standing crops on rain lands are withering for want of rain. Indigo is being cut. Rabi ploughings are still in progress. Cattle are in fair condition. General health good. Prices are rising rapidly. Food-stocks as yet sufficient. Locusts visited certain villages in Gurgaon and Ferozepore Tahsíls, doing slight damage.
	Jatusána ...	...	...	...	...	0·60	7·39	7·99

	Punahána ...	...	...	...	0·37	1·03	21·14	22·17	
Delhi.	Ballabgarh ...	1·99	22·43	4·19	0·16	1·7[illegible]	23·84	25·57	Slight rain in Ballabgarh and Mehrauli. Kharíf crops being cut. Outturn very poor. Rain is very urgently required for rabi sowings. Health of people fair. Condition of cattle fair, but well bullocks getting overworked. Fodder getting scarce, but sufficient for the present. Prices very high. Credit has been much curtailed by the baniás, causing distress among people. Locusts appeared in the Sonepat Tahsíl, but caused little damage.
	Mahrauli ...	...	...	...	1·30	2·20	18·55	20·75	
	Sadr (Delhi) ...	2·97	25·11	5·07	...	1·89	21·23	23·12

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF AUGUST 1896—(CONTINUED).

Explanation :—(*c*) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st March.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895, to 31st March 1896.	1st April 1896, to 30th September 1896.	Total.	Condition of crops and cattle, and health of people.
Karnal.	Pánipat ...	2·49	20·56	4·45	...	1·12	11·77	12·80	No rain fell during the month except one or two slight showers at Kaithal. West winds continued to blow the whole month except for a few days. Crops on unirrigated have almost totally failed, and those on irrigated areas have also considerably suffered. Bájra, rice and maize are being reaped, but the outturn is estimated to be very poor. Sowings for rabi have been made in a few places. Prices have considerably risen during the month, the rates on the 30th September being reported as follows :— Wheat ... 9¾ seers per rupee. Gram ... 10 " " Maize ... 11 " " Locusts appeared in some villages of the district, but passed off without causing any injury to crops except a slight damage to bájra in Pánipat and Kaithal. Grass has totally dried up and fodder is very scarce, especially in Nardak. Cattle are therefore moving again towards the Jumna. The health of people is good.
	Karnal ...	4·02	25·70	4·69	...	0·93	16·56	17·49	
	Rajaund ...	...	...	...	...	1·11	7·11	8·22	
	Kaithal ...	2·36	15·83	3·00	0·26	1·10	11·19	12·20	
	Gulah ...	...	...	...	0·01	1·25	19·51	20·76	
Umballa.	Pipli ...	3·29	22·91	4·09	...	1·35	19·88	21·23	The practical absence of rain in September spoilt what would have been close on a bumper crop. The late sown crops and rice were dried up by siccative winds. Still as Umballa got rain early much of the crops (early sown) could not be spoiled. The harvest therefore will compare favorably with neighbouring districts. Except in some unfortunate tracts, the zamíndárs have obtained about average maize crops (staple food grain), which will be sufficient to give them food for periods varying from 3 to 5 months. There is also a good fodder crop, especially in the Umballa Tahsíl, which should carry the cattle on till nearly the rabi. The Khadir crops are good. Taken as a whole, the rural tracts are provided for at present. In the towns the high prices are causing acute distress, but meetings are being organised and sales at charity rates being arranged for at one particular shop, the losses of the shopkeeper being made good by private subscription funded. This arrangement will apply to the very poor towns. Relief works may be required almost immediately. Umballa city prices, gram 10, red wheat 9, makki 12, cereals 8, jowár 14, rice (coarse) 9 seers.
	Jagádhri ...	5·61	33·93	6·00	...	1·58	19·02	20·60

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF SEPTEMBER 1896—(CONTINUED).

Explanation :—(c) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average Rainfall of past years.			Rainfall of present year.				
DISTRICT.	Rain-gauge Station.	1st October to 31st March.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 30th September 1896.	Total.	Condition of crops and cattle, and health of people.
KANGRA.	Plách ...	11.29	32.09	3.70	1.58	9.40	25.10	34.50	Rice and maize crops are being harvested, but owing to the holding off of rains earlier the prospect thereof is average on the Nahri and somewhat bad on the baráni lands The stock of food-grains and fodder is sufficient. The prices are rising. The Revenue Assistant has been on tour since 21st instant inspecting crops.
	Kulu ...	17.46	29.62	4.41	0.29	17.99	17.00	34.99	
	Nagar ...	13.10	24.94	4.04	0.48	24.05	22.17	46.22	
	Pálampur ...	17.35	83.23	10.30	3.30	11.13	79.90	91.03	
	Hamírpur ...	8.82	41.12	5.80	0.76	4.38	40.14	44.52	
	Dera ...	9.24	45.67	6.22	2.03	4.28	40.74	45.02	
	Kángra ...	9.99	60.75	7.68	0.13	8.52	77.64	86.16	
	Dharmsala ...	15.66	104.64	11.78	5.38	12.04	92.88	104.92	
	Núrpur ...	12.79	53.08	7.17	1.68	8.19	51.73	59.92	
HOSHIÁRPUR.	Dasúya ...	6.14	26.75	3.76	...	2.45	18.31	20.76	There has been very slight rain during this month, and the kharíf crops, especially in the hilly parts of the district, are below average. Maize has been cut and gathered in almost every place; rice is being reaped, and cotton and other crops still standing on the ground. Land is being prepared for the rabi. Fodder is at present sufficient in the district. The price of food-grains has largely risen. The abnormal rise in prices is due to scarcity in the neighbouring districts of Jullundur, Ferozepore, &c., to which grain is being exported.
	Una ...	5.12	28.76	4.04	0.70	3.20	28.66	31.86	
	Garhshankar ...	5.24	25.53	4.33	0.30	2.96	22.78	25.74	
	Sadr Station ...	6.06	28.36	4.87	0.10	3.11	19.84	22.05	
	Hoshiárpur ...	...	...	...	0.10	3.33	20.27	23.60	
JULLUNDUR.	Jullundur ...	4.53	23.50	4.36	...	2.16	15.52	17.68	Prices very high. Wheat 9.12 seers, gram 10.12 seers. Stock of grain insufficient. Condition of cattle poor. Fodder scarce and dear. Standing crops drying up for want of rain. Rabi ploughing in progress. Kharíf reaping commenced. Health of people good, but many are on the border of starvation through high prices prevailing for grain. Unless rain falls soon, rabi prospects will be very bad and prices for grain will rise greatly. Only the 'sepi' class have as yet really began to feel want and some of the tenants-at-will class and poorer artisans.
	Nakodar ...	3.28	2[illegible].44	3.55	0.55	1.63	11.48	13.11	
	Phillour ...	3.66	20.04	3.53	0.21	2.44	18.41	20.85	
	Nawashahr ...	4.66	21.94	3.97	0.38	2.93	21.81	24.74	
LUDHIANA.	Samrála ...	3.51	23.76	3.89	0.81	2.54	19.74	22.28	Condition of Chahi Nahri crops average. Baráni crops withering up for want of rain. Fodder scarce. Prices of grain very high. Cattle being sold for want of fodder or being taken to other districts for grazing. Those left in the district in poor condition. Health of people good. The persistent drought prevents the rabi sowings, and this is the most serious feature of the situation. Flight of locusts reported from all the tahsíls, but no damage done. It passed on to Ferozepore.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF SEPTEMBER 1896—(CONTINUED).

Explanation :—(*c*) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
DISTRICT.	Rain-gauge Station.	1st October to 31st March.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 30th September 1896.	Total.	Condition of crops and cattle, and health of people.
LAHORE.	Van (*c*) ...	2·64	13·51	2·27	...	1·89	11·42	13·31	Sowing of kharíf crops completed. Gram and rape-seed have been sown on canal-irrigated areas, and land is being prepared for wheat sowings. The condition of kharíf crops on irrigated area is good, but maize, sugarcane and chari crops damaged to some extent in the Kasúr and Sharakpur Tahsíls by small insects called Keri. Rain is badly wanted throughout the district. Fodder is scarce in different parts of the district. Health of the people is good. Bári Doáb Canal worked well, but the Deg stream is drying up in the Sharakpur Tahsíl. Prices are rising. Grain stocks are sufficient with Sáhúkárs, but not with zamíndárs. If it does not rain within a fortnight or 3 weeks, the prospects for the next rabi crop will be unfavourable, and general distress must then be anticipated.
	Chunián ...	1·66	14·02	2·30		1·55	7·38	8·93	
	Kasúr ...	1·70	10·75	1·87	0·64	1·24	3·82	5·06

AMRITSAR.	Buchar (*c*) ...	4·06	17·83	3·15	0·21	2·08	9·10	11·18	Rain badly wanted. Kharíf irrigated crops in fair condition, unirrigated in a bad state. Rice harvesting commenced. Cotton and sugarcane in fair condition. Rabi ploughing in progress. Sowings are not expected to be good owing to want of rain. Health of people good. Stock of food-grains and fodder sufficient, but prices very high. Locusts appeared in some parts of Tahsíls Tarn Táran and Amritsar and flew in a westerly direction. No harm was done to the crops by them. Prices rising due to want of rain: wheat 10 seers, gram 11 seers, barley 13 seers maize 14 seers. Canals have worked well
	Khara (*c*) ...	2·38	14·04	2·04	...	0·99	2·92	3·91	
	Tarn Táran ...	3·51	19·44	2·86	0·51	1·16	8·19	9·35

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF SEPTEMBER 1896—(CONTINUED).

Explanation:—*(c)* = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st March.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 30th September 1896.	Total.	Condition of crops and cattle, and health of people.
GUJRAT.	Gujrat (Sadr) ...	6·52	19·83	2·73	0·64	1·27	11·35	12·62	Kharíf crops in the Tahsíl Khárián and Gujrát east of Grand Trunk Road are good. By rains, which fell at times in this month, sowing of the rabi crops has begun. Fodder is also procurable in these parts, but in the western part of both the tahsíls the kharíf crops have dried owing to drought, and the condition of the crops is becoming worse and worse every day. The cattle of these parts have been removed to the belas and other parts. The crops standing in the villages alongside the Chenab and Jhelum Rivers are average. In Tahsíl Phália the crops sown in the Baráni lands have dried, while those standing on the Chahi and Sailábi are average. The crops in the villages bordering on the Chenab River are being damaged by pigs. The crops are generally less and are to be used as fodder. In Bár and Hithar Circles the fodder is scarce, but somewhat is to be had on the banks of both the rivers. Owing to scarcity of fodder the cattle are taken to the neighbouring belas The cattle which eat the dried crops die away. There is no stock of food grain in the tahsíl and it is imported from Lyallpur. The people of Bár live on *kareer* fruit. Prices rising everywhere. There is stock of grain in the important towns of the district.
	Khárián (Lála Músa)	6·35	21·66	3·17	1·78	2·86	14·13	16·99

GUJRANWALA.	Rámnagar ...	3·02	18·40	2·40	0·30	1·08	8·80	9·88	Condition of crops fair in colonized villages. Cotton, cane and maize are fair in well irrigated and sailába lands Jowár and munji in particular and crops on baráni lands in general are bad on account of rains holding off. Land is being ploughed for rabi 1897 in Cháhi and Nahri areas. Mustard and gram are being sown in some places. Cattle in fair condition. Fodder scarce except in Chenab Colony Fresh grass and other fodder have dried up. Sugarcane is being used as fodder. Grain dear: wheat selling at 10 and 11 seers Stocks of grain none with peasants. Stocks with Sáhúkárs insufficient. Health of people good. Locusts passed a part of Khángah Dográn Tahsíl on 9th September without doing any damage.

		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st March.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 30th September 1896.	Total.	Condition of crops and health of people.
Kohat.	Kohat ...	6·31	11·99	1·49	1·9[illegible]	4·37	8·16	12·53	There was a little rain early in September 1896, but rain failed from 4th to 17th September 1896 and water in the Kohát Toi entirely dried up. Consequently kharíf crops both on irrigated and unirrigated lands suffered to a great extent. Some rain fell towards the close of the month and floods came down in the Toi, but it was in some villages too late for the withering crops to revive. Hail fell in 10 villages of the Kohát Tahsíl and one village in the Hangu Tahsíl and did a good deal of damage. No disease amongst cattle is reported during the month under report. Of 846 cattle struck by hail in the Kohát Tahsíl 839 died and 7 were injured; the latter are under treatment. Cattle are suffering for want of fodder. Stocks of food-grains are not sufficient in the Kohát District, and prices are high. Scarcity and some distress are consequently apprehended.
	Hangu ...	...	...	...	2·35	4·69	11·65	16·34	
	Thal ...	...	...	...	1·18	3·64	12·58	16·2[illegible]	
	Banda Daud Shah ...	...	...	...	0·80	5·21	15·74	20·05	
	Khushálgarh ...	...	...	...	0·40	3·49	6·44	9·93	
Bannu.	Miánwáli ...	2·50	7·85	1·08	0·92	1·55	12·01	13·56	Crops in Miánwáli and Isa Khel good with some exceptions. Those in Bannu and in the irrigated parts of the Marwat Tahsíl threatened to be very poor in consequence of failure of water in the Kurram More water has, however, come down the Kurram during the past ten days and the crop saved in most villages. Stocks of food-grains sufficient in Isa Khel and Bannu, but low in Miánwáli and Marwat. Fodder sufficient throughout the district except in the Wazíri Thal. Prices have fallen since the rain of 21st September, but are still high. Condition of cattle generally good. Health of the people good. Hail fell on the night of 20th/21st September in the city of Edwards abad and neighbouring villages, but no damage was done. No locusts. Canal working well.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF SEPTEMBER 1896—(CONCLUDED).

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average rainfall of past years.			*Rainfall of present year.*				
DISTRICT.	Rain-gáuge Station.	1st October to 31st March.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April 1896 to 30th September 1896.	Total.	Condition of crops and cattle, and health of people.
DERA GHAZI KHAN.	Sanghar ...	1·40	5·46	0·22	0·15	2·04	3·23	5·27	Crops in bad state in Pachad Circle except in south of Jámpur Tahsíl. Canal crops fair, but suffering in Rájanpur Tahsíl from early drying up of canals owing to fall of river. Several flights of locusts passed over the district without doing any harm or depositing eggs. Stock of food-grains sufficient with the grain produced by the standing crops. Fodder sufficient except in the south of Rájanpur Tahsíl, where it is reported to be very deficient. Prices of everything rising.
	Dera Ghazi Khan ...	1·99	6·55	0·62	0·18	1·71	0·79	2·50	
	Fort Munro ...	0·75	9·96	0·78	0·20	2·83	6·20	9·03	
	Jámpur ...	0·88	4·33	0·28	...	1·96	1·30	3·26	
	Rájanpur ...	0·52	3·05	0·17	...	2·75	0·59	3·34	
MUZAFFARGARH.	Alipur ...	1·00	7·3	0·36	...	0·96	1·20	2·16	Ploughing for the coming rabi in progress. Wheat, gram and ussún have also been sown to some extent. The kharíf crops, *viz.*, bájra, jowár and indigo, have been harvested. Rice is being cut and a pears to be of an average quantity. The sugarcane crop is a good one. The prices of food-grain have rise considerably in comparison with the rates prevailing during the month of August, and wheat is as usual being exported to Sukkur. The stock of grain with the traders is sufficient. Fodder and grazing sufficient for the cattle. No sickness is reported among the people. The Canals Puran and Suleman are running. The mouth of the Sardár Canal got blocked up some 15 days ago owing to which the rice crop suffered a little. Now there is very little water in it. The supply of flood water from the Indus was sufficient, but that from the Chenab was not.
	Muzaffargarh ...	1·06	4·64	0·75	0·03	1·07	0·70	1·77	The sowing of turnips, sathri, massar, ussún, gram and peas has been almost completed. The standing kharíf crops are fair. Rice has almost all been cut. The churning of indigo has been completed. The outturn of rice and indigo on the banks of the Chenab is of average quantity and that on the banks of the Indus is below the average. The extraction of sugarcane juice has commenced in a few villages. For the present fodder is sufficient. No sickness among the people. The stock of grain is sufficient for the present. Grain is being exported towards Ludhiána, and during the month of September 9,036 maunds of grain have been exported from the Muzaffargarh Railway Station. Wheat is now selling at 11½ and 12½ seers per rupee. Locusts appeared in the following villages:—Sadhanwáli, Sabzajat, Chak Fatteh Ali, Fazil Kalru and Bághwáli, doing slight damage to the turnips. Almost all the canals are now dried up, but the Taliri Canal has 4 feet of water, which is enough for jhallárs, but not for flow irrigation. The Ganeshwah had a sufficient supply from the 3rd to the 11th for flow and from the 11th to 18th for jhallár irrigation.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF SEPTEMBER 1896—CONCLUDED.

Explanation (*c*) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average rainfall of past years.			*Rainfall of present year.*				
DISTRICT.	Rain-gauge Station.	1st October to 31st March.	1st April to 30th September.	For month under report.	Month under report.	1st October 1895 to 31st March 1896.	1st April to 30th September 1896.	Total.	Condition of crops and cattle, and health of people.
MUZAFFARGARH—*concluded.*	Sinánwán ...	1·48	6·18	0·52	0·03	1·87	2·33	4·20	The kharíf crops are being harvested. The ploughing and sowing for the rabi are in progress. Grazing for cattle is insufficient. The stock of grain for the present appears to be sufficient. Rice has been harvested and is available for consumption. Sixty-seven thousand and seventy maunds and 39 seers of wheat were exported from this tahsíl during the 4 months commencing 1st June 1896, *i. e.*, June 25,577 maunds and 33 seers, July 18,403 maunds 29 seers, August 7,706 maunds 31 seers, and September 15,328 maunds 26 seers. The Garku and Maggisin Canals have a sufficient supply of water. The Maggi Canal has dried up owing to which the kharíf crops watered by it have suffered considerably.

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, OCTOBER 22, 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 20th OCTOBER 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	...	1. Stock exhausted. 2. Bad.	Continue high. Wheat 8 seers. Bájra 8 seers.	Condition of canal crops fair. Sailába (flood) crops damaged for want of flood.	No prospects on baráni (dependent on rain) land. Grain stock insufficient. Relief work will soon commence.
2	Delhi ...	...	1. Scarce. 2. Fair.	Rising (abnormal). Wheat 8½ seers. Bájra 9½ seers.	Prospects unfavourable.	Stock sufficient.
3	Umballa ...	...	2. Good.	Very high. Wheat 8¾ to 9¼ seers. Gram 9¾ to 10¼ seers.	Crops have almost been reaped.	Rain badly needed.
4	Jullundur ...	...	1. Scarce. 2. Poor.	Very high. Wheat 9½ seers. Gram 10½ seers. Maize 14 seers.	Standing crops average. Threshing commenced.	Ploughings in progress. Stock of grain insufficient. High prices being felt by the poor, but no general distress apparent.
5	Ferozepore ...	...	1. Insufficient. 2. Cattle died of starvation in parts.	Wheat 9 to 10 seers. Gram 10 to 11 seers. Maize 14 seers.	Insects destroyed certain crops watered by wells and canals in Ferozepore and Muktsar Tahsíls.	Stock of grain sufficient for local requirements except in Moga Tahsíl.
6	Amritsar ...	...	1. Dry fodder sufficient. 2. Good.	Very high. Wheat 10 seers. Maize 13 seers.	Irrigated crops in fair condition, but unirrigated poor. Cotton and maize harvesting in progress.	Rain badly wanted. Wheat, barley and rape seed are being sown on irrigated area. Stock of grain sufficient except in Ajnála Tahsíl.
7	Siálkot ...	...	1. Scarce. 2. Losing condition.	Wheat 10 to 10¾ seers. Rice 7¾ to 9 seers.	Crops being harvested.	Rain wanted. Land being ploughed. Stock sufficient.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of	
					Kharíf (Autumn).	Rabi (Spring).
8	Lahore ...	...	1. Scarce, except on canal-irrigated lands. 2. Getting lean for want of fodder.	High. Wheat 9 to 11 seers. Maize 12 to 13 seers.	Reaping in progress. Irrigated crops average, and baráni (dependent on rain) very poor. Sugarcane, maize and chari (millet) damaged by caterpillars in Tahsíl Kasúr. A flight of locusts passed over the Chunián Tahsíl, but caused no damage.	Land is being prepared. Sowing of gram and others commenced. Grain stock available with sáhúkárs, who do not give it freely to poorer classes of people.
9	Mooltan ...	...	1. Sufficient.	High. Wheat 10 to 10¾ seers. Jowár 12½ seers.	Condition of crops average. Chari (millet) and rice being cut. Cotton picking commenced.	Sowings of gram, turnips and peas in progress.
10	Ráwalpindi ...	...	1. Insufficient. 2. Fair.	High. Wheat 10 seers. Bájra 11 seers. Maize 12½ seers.	Crops being cut.	Crops being sown. Stock of grain insufficient.
11	Shahpur ...	...	1. Scarce. 2. Fair.	Wheat 10½ seers. Bájra 12 seers.	Crops inferior except on irrigated lands, where they are about average. Rain needed.	Stock of food-grain not sufficient in parts.
12	D. I. Khan ...	...	1. Sufficient, except in Thal and Kuláchi. 2. Good.	Very high. Wheat 11¼ seers. Bájra 12 seers.	Condition of crops average, except in Thal and Kuláchi, where it is poor. Cotton picking in progress.	Sowings commenced.
13	Peshâwar ...	...	1. Sufficient. 2. Good.	High. Wheat 10⅜ seers. Maize 13 seers.	Standing crops average, except in Bára villages.	Stock of food-grain average.
14	Rohtak ...	...	1. Sufficient, but dear. 2. Good.	Rising. Wheat 8½ seers. Jowár 11 seers.	Baráni (dependent on rain) crops harvested. No outturn from jowár (great millet). Canal crops are below average owing to insufficiency of water.	Carrots sown on well and canal lands and gram in a few villages. No crops sown in baráni (dependent on rain) lands. Stock of food-grain seems sufficient.
15	Gurgaon ...	...	...	Wheat 8 seers. Bájra 9¾ seers.	Crops being cut.	Sowings commenced on irrigated lands except in Palwal Tahsíl.
16	Karnál ...	...	1. Available, except in Nardak. 2. Good.	Wheat 8½ to 9 seers. Gram 9 to 11 seers. Maize 11½ seers.	Maize, rice, millet and rape-seed generally poor.	Gram and barley being sown on irrigated lands. Three hundred men employed on test work in Karnál Tahsíl.
17	Gujránwála ...	...	1. Fresh grass not available; dry scarce and dear. 2. Condition unsatisfactory. Plough cattle becoming unfit for work.	Rising. Wheat 10 seers.	Prospects of crops on canal-irrigated lands are favourable, on land irrigated by wells below average, and of those dependent on rain unfavourable. Outturn of maize and paddy middling, and of cotton below average. Crops in bad plight for want of rain.	Wheat, barley, mustard and gram are being sown on land irrigated by wells and canals. Stocks of grain holding out so far, but conditions generally are rather grave and threatening.
18	Gujrát ...	Aggregate number	of persons employed on	relief works on Sat	urday, the 10th October, were 4,732,	including non-working children.

GENERAL REMARKS.

Rainfall nil. Prices ruling high throughout the Province and are still rising in Delhi, Rohtak and Gujránwála. Wheat is selling from 8 to 11¼ seers, bájra (bulrush millet) 8 to 12 seers, gram 9 to 11 seers, maize 11½ to 14 seers, rice 7¾ to 9 seers, and jowár (great millet) 11 to [illegible] seers per rupee. Harvesting of autumn crops and picking of cotton going on in most districts. Threshing commenced in Jullundur. Ploughing [illegible] sowings of spring crops commenced in certain districts. Rain badly wanted throughout the Province. Irrigated crops are reported to be in [illegible] condition in Hissar and Amritsar, but below average in Rohtak owing to insufficiency of water; their condition is average in other districts [illegible] prospects of crops dependent on rain are very poor throughout the Province. Stock of food-grain insufficient in Hissar, Jullundur, Ráwalpindi [illegible] parts of Ferozepore, Amritsar and Shahpur, and average in Peshâwar; it is holding out so far in Gujránwála, but conditions generally are grave [illegible] threatening. The prices now ruling are being felt by the poor in Jullundur, but no general distress apparent. Sailába (flood) crops destr[illegible] in Hissar for want of water, and irrigated crops in parts of Ferozepore by insects. Sugarcane, maize and millet are said to have been dam[illegible] by caterpillars in parts of Lahore. A flight of locusts also passed over one tahsíl, but did no damage. Cattle are reported to be in poor cond[illegible] in Hissar, Jullundur, Ferozepore, Siálkot, Lahore and Gujránwála for want of fodder; they are dying of starvation in parts of Feroz[illegible] Fodder scarce in most districts; it is sufficient in Rohtak, but dear; it is also sufficiently available in Hissar, Mooltan and Peshâwar. Aggr[illegible] number of persons employed on relief works in Gujrát on Saturday, the 10th October, inclusive of non-working children, was 4,732. Three h[illegible] men were employed on test work in Karnál. It is also reported that relief work will soon commence in Hissar.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE,
The 20th October 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 3RD OCTOBER 1896.

Births and Deaths in Municipal Towns.—In the 45 large Municipal towns 1,301 births were registered (671 males and 630 females), giving a birth-rate of 48 per *mille* of population; 830 deaths were registered (402 males and 428 females), giving a death-rate of 31 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,

Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE,
The 20th October 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

Seventy-eight thousand five hundred and ninety-three births were registered in the Province during the month of August 1896, giving a birth-rate of 45 per mille of population. Of the total number of births 40,774 were boys and 37,819 were girls.

The total number of deaths registered from all causes in the Province during the month of August 1896 was 47,634 against 46,438 in the previous month and 42,947 in the corresponding month of the past year, giving an annual death-rate of 27, 27 and 25 per mille of population per annum respectively.

There were 837 deaths registered under the head of cholera against 1,033 in the previous month.

From small-pox 2,081 deaths were registered against 4,192 in the previous month and 370 in the corresponding month of the past year; fevers 27,326 against 25,504 and 26,556; dysentery and diarrhœa 1,529 against 1,045 and 1,460.

During the month there were 27 deaths registered from suicide against 31 in the past month; wounding 74 against 50; accidents 636 against 717; snake-bite and killed by wild beasts 296 against 279; and from all other causes 14,828 against 13,587 and 13,535 in the corresponding month of the past year.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, OCTOBER 29, 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 27th OCTOBER 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	0·24 in Fatahabad	1. Stock exhausted. 2. Bad.	High. Wheat 8¾ seers. Bájra 8¾ seers.	...	Baráni (dependent on rain) and sailába (flooded) crops not sown for want of rain and floods; canal sowing in progress. Grain stock insufficient. Famine works about to commence.
2	Delhi ...	...	1. Scarce. 2. Fair.	Abnormally high. Wheat 8½ seers. Bájra 9½ seers.	...	Prospects unfavourable. Stock sufficient.
3	Umballa ...	...	2. Good.	Very high. Wheat 8¾ to 9¾ seers. Gram 9¾ to 10¼ seers.	Crops have almost been reaped.	Gram sown in some parts.
4	Jullundur ...	...	1. Scarce and dear.	Very high. Wheat 9½ seers. Gram 10½ seers. Maize 12½ seers.	Standing crops average. Threshing in progress.	Well lands being prepared for sowing. Stock of grain insufficient. High prices being felt, but no general distress yet apparent.
5	Ferozepore ...	...	1. Insufficient. 2. Weak for want of fodder; 43 deaths in Ferozepore.	Wheat 9 seers. Gram 10 seers. Maize 13 seers.	Insects destroyed certain crops in Ferozepore.	Stock of food-grains sufficient for local requirements except in Moga.
6	Amritsar ...	...	1. Dry sufficient; green insufficient. 2. Good.	Continue high. Wheat 9¾ seers. Maize 12¾ seers.	Irrigated crops average, but unirrigated poor. Cotton picking and rice and maize harvesting in progress.	Rain badly wanted. Wheat, barley and rape sown on irrigated area. Stock of food-grains insufficient.
7	Siálkot ...	...	1. Scarce. 2. Good.	Wheat 10 to 11 seers. Rice 7¾ to 9 seers.	Crop being harvested.	Rain wanted. Wheat being sown on irrigated lands. Stock sufficient.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharíf (Autumn).	Prospects of Rabi (Spring).
8	Lahore ...	...	1. Scarce, except on canal-irrigated lands. 2. Getting lean for want of fodder.	Continue high. Wheat 9½ to 11 seers. Maize 12 to 13 seers.	Reaping going on. Irrigated crops average; unirrigated crops poor. Sugarcane, maize and great millet damaged by caterpillars. A flight of locusts passed over the Kasúr Tahsíl, but caused no damage.	Sowing in progress.
9	Mooltan ...	...	...	High. Wheat 10 to 10¾ seers. Jowár 11½ seers.	Condition of crops average. Rice being cut. Cotton picking in progress.	Sowings of gram, turnips, wheat and peas in progress.
10	Ráwalpindi ...	0·32 in Murree. 0·07 in Kahúta.	2. Suffering for want of fodder in parts.	High. Wheat 9⅜ seers. Bájra 10½ seers. Maize 11¾ seers.	Crops being cut and cleaned.	Little area sown owing to want of rain. Stock of grain insufficient.
11	Shahpur ...	...	1. Scarce.	Wheat 10½ seers. Bájra 12 seers.	...	Stock of food-grain not sufficient in Tahsíl Khusháb. Rain wanted.
12	D. I. Khan ...	...	1. Very scarce in parts.	Very high. Wheat 10 11/16 seers. Bájra 12¼ seers.	Condition of standing crops in some parts fair and in others poor. Bájra (bulrush millet) and jowár (great millet) have been damaged by insects in Kuláchi Tahsíl. Cotton picking going on. Outturn of cotton below average.	Sowings in progress, but seed grain insufficient.
13	Peshárwar ...	...	1. Sufficient. 2. Good.	Rising. Wheat 9⅜ seers. Maize 12⅜ seers.	Standing crops average, except in Bára villages.	Stock of food-grains average.
14	Rohtak ...	...	1. Sufficient, but dear.	Wheat 8½ seers. Jowár 10 seers.	Báráni (dependent on rain) crops harvested. Canal crop is a 12-anna one owing to insufficiency of water.	Nothing sown on báráni (dependent on rain) lands. Gram sown in a few canal villages. Stock of food-grain seems sufficient.
15	Gurgaon ...	0·09 at Sadr. Slight rainfall in parts of Rewári, Nuh and Firozpur Tahsíls.	...	Wheat 8 seers. Bájra 9 seers.	Crops nearly harvested. Locusts did some damage in Gurgaon Tahsíl.	Sowings still in progress on irrigated and canal lands.
16	Karnál ...	...	1. Scarce in parts.	Wheat 9 seers. Gram 9¾ seers. Jowár 11½ seers. Maize 11½ seers.	...	Sowings made on irrigated area. Three hundred men employed on test work in Karnál Tahsíl.
17	Gujránwála ...	...	1. Green grass not available; dry fodder scarce and dear. 2. Unsatisfactory.	Slightly rising. Wheat 9¾ seers.	Prospects of crops on canal-irrigated lands favourable, on lands irrigated by wells below average, at present. No crops on land solely dependent on rains. Outturn of maize, rice, and jowár (great millet) middling; of cotton below average.	Sowings are still in progress on lands irrigated by wells and canals. Rain urgently required. Wheat stock getting low, but even cultivators are believed to have more than is admitted.
18	Gujrát ...	Aggregate number	of persons employed on	relief works on Sat	urday, the 24th October, was 4,697,	including non-working children.

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in parts of Hissar, Ráwalpindi and Gurgaon. Prices ruling high throughout the Province; are still rising in Peshárwar and Gujránwála. Wheat is selling from 8 to 11 seers, bájra (bulrush millet) 8¾ to 12 seers, gram 10 to 10½ seers, maize 11¾ to 13 seers, rice 7¾ to 9 seers, and jowár (great millet) 11½ seers per rupee. Harvesting of autumn crops and picking of cotton in progress. Ploughings and sowings of spring crops going on in irrigated lands. Unirrigated lands are mostly lying unsown owing to insufficiency of rain and want of floods. Rain badly wanted throughout the Province. Prospects of crops are said to be unfavourable in Delhi; condition of standing irrigated crop is average in Jullundur, Amritsar, Lahore, Mooltan, Peshárwar and Gujránwála, and fair in Dera Ismail Khan; and that of unirrigated poor in Amritsar, Lahore, and Dera Ismail Khan. Outturn of cotton is reported to be below average in Dera Ismail Khan and Gujránwála, and of rice, maize and jowár (great millet) middling in Gujránwála. Stock of food-grain is insufficient in Hissar, Jullundur, Amritsar, Ráwalpindi and parts of Ferozepore and Shahpur. It is average in Peshárwar. Seed grain is also said to be insufficient in Dera Ismail Khan. High prices are being felt by the people, but no general distress yet apparent in Jullundur. Certain autumn crops have been damaged by insects in parts of Ferozepore and Dera Ismail Khan, by caterpillars in parts of Lahore, and by locusts in parts of Gurgaon. Locusts also appeared in parts of Lahore, but did no damage. Cattle are reported to be in poor condition in Hissar, Ferozepore, Lahore, Ráwalpindi, and Gujránwála for want of fodder. Forty-three head of cattle died of starvation in parts of Ferozepore. Fodder scarce in most districts. It is sufficient, but dear, in Rohtak: sufficient quantity of fodder is only reported from Peshárwar. Aggregate number of persons employed on relief works in Gujrát on Saturday, the 24th October, was 4,697 inclusive of non working children. Famine work is about to commence in Hissar. Three hundred men were employed on test work in Karnál Tahsíl.

P. D. SHROFF, *Supdt.*,

Office of Director of Land Records and Agriculture, Punjab.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, NOVEMBER 5, 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 3rd NOVEMBER 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	...	1. Stock exhausted. 2. Very bad.	High. Wheat 9 seers. Bájra 9 seers.	...	Crops not sown for want of rain. Canal crops generally restricted owing to deficient water. Grain stock insufficient. Supply being imported from other places. Famine works about to commence.
2	Delhi ...	...	1. Scarce. 2. Fair.	Abnormally high. Wheat 8½ seers. Bájra 9½ seers.	...	Prospects unfavourable. Wholesale stock sufficient.
3	Umballa ...	...	1. Sufficient. 2. Good.	Very high. Wheat 8¾ to 9¼ seers. Gram 9¾ to 10¼ seers.	Crops have almost been reaped.	Rain very badly needed. Sowings commenced in some parts. Water sufficient. Stock quite exhausted.
4	Jullundur ...	...	1. Scanty.	Very high. Wheat 9½ seers. Gram 10½ seers. Maize 12 seers.	Standing crops about average.	Sowings commenced on irrigated lands. Stock of grain reduced. Scanty in Nakodar. No general distress yet apparent.
5	Ferozepore ...	...	1. Insufficient. 2. Weak for want of fodder.	Wheat 8½ seers. Gram 10 seers. Maize 12 seers.	Insects destroyed certain crops in Ferozepore and Muktsar Tahsíls.	Stock of food-grains sufficient for local requirements except in Moga.
6	Amritsar ...	...	1. Dry sufficient; green insufficient. 2. Good.	High. Wheat 9½ seers. Maize 12½ seers.	...	Rain badly wanted. Irrigated crops average; unirrigated poor. Cotton picking and rice and maize harvesting in progress. Stock of food-grains insufficient.
7	Siálkot ...	...	1. Scarce. 2. Poor.	Rising. Wheat 8½ to 9 seers. Rice 7½ to 9 seers.	Cane and cotton being irrigated.	Wheat being sown on irrigated lands. Rain wanted. Stock sufficient.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharíf (Autumn).	Prospects of Rabí (Spring).
8	Lahore ...	...	1. Scarce, except on canal-irrigated lands. 2. Getting lean for want of fodder.	High. Wheat 9 to 9½ seers. Maize 12 to 13 seers.	Crops are being threshed. Cotton is being gathered; irrigated crops average; and báráni (rainy land) crops poor. A flight of locusts passed over the Chunián Tahsíl, but did no damage.	Sowings in progress. Grain stock sufficient with sáhukárs, but not with zamíndárs.
9	Mooltan ...	...	1. Sufficient.	High. Wheat 10 to 10¾ seers. Jowár 11½ seers.	Condition of crops average. Chari (millet) and rice being cut. Cotton picking going on.	Sowing in progress. Canals dry.
10	Ráwalpindi ...	...	1. Insufficient. 2. Not good from scarcity of fodder.	Very high. Wheat 8½ seers. Bájra 9¼ seers. Maize 11 seers.	Crops being cleaned.	Sowings retarded in most parts by drought.
11	Shahpur ...	...	1. Scarce. 2. Good.	Wheat 9 to 10 seers. Bájra 11 seers.	Outturn below average.	Rain wanted.
12	D. I. Khan ...	...	1. Sufficient except in parts. 2. Poor in Kuláchi Tahsíl.	Very high. Wheat 10⅝ seers. Bájra 12 7/16 seers.	Condition of standing crops average in Tánk and Kuláchi Tahsíls, but poor in other parts. Bájra (bulrush millet) and jowár (great millet) slightly damaged by insects in parts of Kuláchi Tahsíl. Harvesting of bájra (bulrush millet) commenced. Cotton picking going on; outturn below average.	Wheat sowings in progress, but seed grain insufficient.
13	Peshâwar ...	...	1. Sufficient. 2. Good.	Rising. Wheat 8¼ seers Maize 10 5/16 seers.	Standing crops average.	Stock of food-grains average. Grain, however, being largely exported.
14	Rohtak ...	...	1. Sufficient, but dear.	Wheat 8½ seers. Jowár 10 seers.	Irrigated crop is a 12-anna one.	Wheat and gram sown on well and canal land. Stock of food-grain seems sufficient for the present.
15	Gurgaon ...	...	2. Good.	Wheat 8 seers. Bájra 9 5/16 seers	Crops harvested.	Sowings on irrigated lands in progress.
16	Karnál ...	...	1. Scarce in parts.	Rising. Wheat 8 seers. Gram 9 seers. Maize 10 seers. Jowár 10 seers.	Crops being reaped. Outturn poor except on irrigated lands.	Sowings in progress on irrigated area. 570 men employed on test work in Karnál Tahsíl.
17	Gujránwála ...	...	1. Scarce and dear. Standing millet and cane being fed to cattle 2. Precarious except in the new colony.	Rising. Wheat 8¾ seers.	Outturn of rice and jowár (great millet) generally middling and of cotton below average.	Sowings in progress on land irrigated by canals and wells. Prospects of crops on canal-irrigated lands favourable; on lands irrigated by wells fair. Hardly any crop on land solely dependent on rain. Rain urgently required. Wheat stock getting low.
18	Gujrát ...	Aggregate number	of persons employed on	relief works on Satu-	rday, 31st October 1896, was 5,332,	including non-working children.

GENERAL REMARKS.

No rain. Prices rising in Siálkot, Peshâwar, Karnál and Gujránwála, and high elsewhere. Wheat is selling from 8 to 10¾ seers, bájra (bulrush millet) 9 to 12½ seers, gram 9 to 10½ seers, maize 10 to 13 seers, rice 7½ to 9 seers, and jowár (great millet) 10 to 11½ seers per rupee. Harvesting and threshing of autumn crops and picking of cotton going on. Sowing of spring crops on irrigated lands in progress, but were restricted owing to deficient water-supply. Hardly any sowings on land solely dependent on rain. Rain badly wanted throughout the Province. Condition of standing crops is reported average to poor. Outturn of autum crops is average in Gujránwála, below average in Dera Ismail Khan, and poor in Karnál. Prospects of spring crops are unfavourable in Delhi; favourable on land irrigated by canals, and fair on that irrigated by wells in Gujránwála. Stock of food-grain is insufficient in Hissar, Umballa, Amritsar, and parts of Jullundur and Ferozepore: it is getting low in Gujránwála. Autumn crops are said to have been damaged by insects in parts of Ferozepore and Dera Ismail Khan. Locusts appeared in parts of Lahore, but did no damage. Cattle are reported to be in poor condition in Hissar, Ferozepore, Siálkot, Lahore, Ráwalpindi, Dera Ismail Khan and Gujránwála. Fodder is generally scarce. It is sufficient, but dear, in Rohtak. Aggregate number of persons employed on relief works, including non-working children, on Saturday, 31st October 1896, in Gujrát was 5,332. Five hundred and seventy men employed on test work in the Karnál Tahsíl. Famine relief work is about to commence in Hissar.

Ordinarily there occurs a burst of monsoon winds and of monsoon rainfall over this Province during the first ten days of the month of September, after which the rains cease and the monsoon retreats from North-West India. In the present year, as in the past, this burst has been altogether wanting. Last year the last rainfall of importance occurred over the Punjab on August 31st, while in the present year the rains practically ceased on August the 23rd, and the weather over the Province during the first half of the month was steadily fine at nearly all the reporting stations. On the 2nd a local shower of about half an inch fell at Ráwalpindi and Murree, and on the 5th at the same stations a still lighter shower occurred; but, with these exceptions, the weather was fine up to the 15th. On the 15th a cyclonic storm which had formed over the Bay moved inland over Bengal; south-easterly winds spread up the North Gangetic plain and brought showers to the hill and submontane districts of the Punjab on the 16th and 17th and to the hills alone on the two following days. On the 19th a very trifling depression appeared over the Punjab, and on the following day the weather became unsettled and showery, so that on the 21st general rain was reported from all places except Delhi, Pesháwar and Mooltan. Simla reported 1·24″ of rain and Ludhiána 1·05″, but these were the largest amounts. On the 22nd showers were still reported from several stations, but the amounts were smaller and the weather was clearing. On the 23rd and 24th the sky was clear, but on the 25th and 26th showers were again reported in the hill and submontane districts, of which the heaviest were 0·55″ at Ráwalpindi and 1·71″ at Murree. From the 27th onward to the end of the month the weather was fine and rainless.

Pressure and Winds.—In nearly all places the average pressure of the month was higher than usual. The excess was greatest at Dera Ismail Khan. The winds were more northerly and westerly than usual, the early retirement of the monsoon having been followed by the usual influx of N.-W. winds of the cold weather.

Temperature.—The mean temperature of the month was lower than usual on the hills, the deficiency amounting to 1° at Murree and to ½° at Simla, but on the plains the heat was everywhere excessive. At Delhi, Sirsa, Lahore, Siálkot and Ráwalpindi this excess averaged over 3°. Both the days and nights were warmer than usual, though the excess was generally greater by day than by night. At Sirsa, Montgomery, Khusháb and Mooltan the average of the day temperature exceeded 100°.

The following table gives (1) the variation from the normal of the mean temperature of the Punjab for the 24-hour period ending at 8 A. M. of each day; and (2) the highest maximum temperature recorded in the Province with the name of the station at which it was registered :—

Date.	Variation from normal of mean temperature of previous 24 hours.	Highest maximum temperature recorded in previous 24 hours.	Station at which registered.	Date.	Variation from normal of mean temperature of previous 24 hours.	Highest maximum temperature recorded in previous 24 hours.	Station at which registered.

" 15th ...	+ 4·8	104·4	Do.	" 30th ...	+ 3·0	102·4	Mooltan.

The above statement shows that during the month there was one period when the mean temperature of the whole Province fell below the normal. This period ran from the 22nd to

the 24th and succeeded the period of general showers noticed in the first section. On the 22nd the amount of the deficiency was 5°, on the 23rd 2½°, and on the 24th 0·9°, so that the effect of the showers was very transitory. Relatively to the normal the first half of the month was the warmer, and the hottest days were the 4th (+ 5·1°) and the 13th (+ 5·0°). The highest temperatures were generally recorded in the south and centre of the Province, but on the 5th Umballa reported the exceptionally high temperature of 105·5°. The absolutely highest reading recorded during the month was 105·9° at Montgomery.

Humidity and Cloud.—The air was moderately damp, but the amount of cloud wa much less than usual.

Rainfall.—Except at Dera Ismail Khan, where a heavy fall was reported on the 21st, the rainfall of all the Punjab stations was less than usual. At Pesháwar and Delhi no rain whatever fell during the month, and at Mooltan, Lahore and Montgomery only about one-tenth of an inch. In other parts of the Province the rainfall amounts ranged from 0·21″ at Khusháb to 5·09″ at Murree. The greatest absolute deficiency of rain was reported from the east of the Province, because it is in this division that the rainfall of September is ordinarily heaviest. At Umballa the deficiency amounted to 4¾″, at Simla and Delhi to 4¼″, and at Ludhiána to 3¼″. At Siálkot and Lahore the deficiency was about 2½″, so that all over the east and centre of the Province the deficiency in the amount of rain was considerable and important.

B.

The following table gives the rainfall data for the Punjab Stations for September 1896 :—

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, NOVEMBER 12, 1896.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 10th NOVEMBER 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharíf (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	...	1. Stock exhausted. 2. Dying of starvation. They are being removed to other places for grazing.	Wheat 8 seers. Gram 9 seers. Bájra 9 seers.	...	Crops failed for want of rain. Canal sowings greatly restricted owing to deficient water-supply. Grain stocks insufficient and being imported from other places.
2	Delhi ...	...	1. Scarce. 2. Fair.	Abnormally high. Wheat 7¼ seers. Bájra 8¾ seers.	...	Prospects bad. Stock insufficient in Ballabgarh.
3	Umballa ...	...	2. Good.	Rising. Wheat 7½ to 8½ seers. Gram 9¼ to 9½ seers.	Crops have all been garnered.	Rain very badly needed. Sowings much retarded. Time for gram sowings has passed. Little hope of wheat sowings, unless rain falls immediately.
4	Jullundur ...	...	1. Scanty.	Very high and will rise still higher if rain keeps off. Wheat 8¼ seers. Gram 9½ seers. Maize 10 seers.	Cotton and sugarcane crops about average.	Sowings in progress on irrigated lands. Stock insufficient in parts. Continued high prices felt by poorer classes.
5	Ferozepore ...	...	1. Scarce. 2. Generally weak for want of fodder.	Wheat 8 seers. Maize 10 seers. Gram 10 seers.	Insects destroying certain crops not yet harvested in Tahsíls Ferozepore and Muktsar.	Stocks of food grain sufficient for local requirements except in Moga. Rain wanted for rabi sowings.
6	Amritsar ...	Slight rainfall in Ajnála and Tarn Táran Tahsíls.	1. Dry sufficient; green scarce.	High. Wheat 8¼ seers. Maize 10¾ seers.	Irrigated crops average; unirrigated poor. Cotton picking and rice and maize harvesting in progress.	Rain badly wanted. Stock of food grains insufficient.
7	Siálkot ...	0·12 in Zafarwál.	1. Scarce. 2. Poor.	Wheat 8¼ to 8¾ seers. Rice 8 to 9 seers.	Picking of cotton and pressing of sugarcane commenced.	Sowings continue on irrigated lands. Stock sufficient.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
8	Lahore ...	0·09 at Sadr.	1. Scarce.	High. Wheat 9 to 9½ seers. Maize 12 seers.	Reaping of rice and great millet in porgress. Irrigated crops good and báráni (rainy land) crops poor.	Crops are irrigated by wells. Sowings in progress.
9	Mooltan ...	0·01 at Sadr.	1. Scarce in Mooltan and Kabírwála Tahsíls.	Very high. Wheat 8½ to 9 seers. Jowár 10½ seers.	Crops are being harvested. Outturn poor Some damage done by locusts.	Sowings in progress.
10	Ráwalpindi ...	0·32 in Ráwalpindi 0·21 in Pindigheb. 0·67 in Fatahjang 0·25 in Attock. 0·16 in Gujar Khan 0·25 in Kahuta. 1·32 in Murree.	1. Scarce. 2. Poor.	Very high. Wheat 8⅜ seers. Bájra 9¾ seers. Maize 10½ seers	Crops being harvested.	Stock of grain insufficient.
11	Shahpur ...	...	1. Scarce.	Wheat 9 to 9½ seers. Bájra 10 to 10½ seers.	Outturn below average.	Rain needed.
12	D. I. Khan ...	0·03 at Sadr 0·21 in Tánk.	1. Getting scarce 2. Poor in Kuláchi.	Very high. Wheat 9⅜ seers. Bájra 11¼ seers.	Harvesting of crops and picking of cotton going on Outturn below average.	Wheat sowings in progress.
13	Peshâwar ...	...	1. Sufficient. 2. Good.	Rising. Wheat 8¾ seers. Maize 11⅛ seers.	Standing crops average.	Stock of food grain average. Grain, however, being largely exported.
14	Rohtak ...	...	1. Sufficient, but dear. 2. Good.	Rising. Wheat 7¾ seers. Jowár 9 seers.	Sugarcane, indigo and cotton crop on canal lands is a 14-anna one.	Wheat and barley sown on well and canal lands. Stock of food grain seems sufficient for present requirements.
15	Gurgaon ...	...	...	Wheat 8 seers. Bájra 9 seers.	...	Rain badly needed. Sowings on irrigated lands in progress.
16	Karnál ...	...	...	Rising. Wheat 7½ to 8 seers. Gram 8½ seers. Jowár 9 seers. Maize 9½ seers.	...	Being sown on irrigated area Four hundred and ninety-two men work on test work in Karnál Tahsíl.
17	Gujránwála ...	...	1. Scarce and dear. 2. Poor; they are overworked and underfed. Cattle are being fed on millet and cane.	Wheat 8¾ to 9¼ seers.	Outturn of rice and jowár (great millet) generally average. Cotton pods have matured poorly in parts.	Sowings are still in progress on well and canal lands. Prospects of crops on canal favourable and on wells fair. Hardly any crop on land solely dependent on rain. Rain urgently required. Wheat stock getting low. Export still going on, but slack.
18	Gujrát ...	Aggregate number	of persons employed on	relief works in Guj	rát, including non-working children	on Saturday, 7th November 1896, was 5,750.

GENERAL REMARKS.

Rain has fallen in Ráwalpindi and parts of Amritsar, Siálkot, Lahore, Mooltan and Dera Ismail Khan, but very slight. Prices still rising in Umballa, Peshâwar and Rohtak Wheat is selling at 7½ to 9½ seers, gram 9 to 10 seers, bulrush millet 8¾ to 11¼ seers, maize 10 to ... seers, rice 8 to 9 seers, and great millet 9 to 10½ seers per rupee Harvesting of autumn crops and picking of cotton going on. Pressing of sugarcane commenced in Siálkot. Sowings of spring crops are in progress on irrigated lands, but much retarded owing to deficient water-supply. Hardly any crops are sown on land solely dependent on rain. Rain is very much needed throughout the Province. Condition of standing autumn crops average to poor. Outturn of autumn crops is generally reported average in Gujránwála, below average in Shahpur, Dera Ismail Khan and Rohtak and poor in Mooltan. Prospects of spring crops are bad in Delhi, favourable on canal lands and fair on well lands, in Gujránwála. Crops failed for want of rain in Hissar Stock of food grain is insufficient in Hissar, Amritsar, Ráwalpindi and parts of Delhi, Jullundur and Ferozepore and average in Peshâwar. It is getting low in Gujránwála. Continued high prices are being felt by poorer classes in Jullundur. Autumn crops are being destroyed by insects in parts of Ferozepore. Some damage is reported to have been done by locusts in Mooltan. Cattle are said to be in poor condition in Hissar, Ferozepore, Siálkot, Ráwalpindi, Gujránwála, and parts of Dera Ismail Khan. They are dying of starvation in the Hissar District Fodder is sufficient in Peshâwar, dear in Rohtak, and scarce elsewhere. Aggregate number of persons employed on relief work, including non-working children, in Gujrát on Saturday, the 7th November 1896, was 5,750. Four hundred and ninety-two men employed on test work in the Karnál Tahsíl.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE :
The 10th November 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 24TH OCTOBER 1896.

Births and Deaths in Municipal Towns.—In the 45 large Municipal towns 1 368 births were registered (731 males and 637 females), giving a birth-rate of 50 per *mille* of population; 834 deaths were registered (385 males and 449 females), giving a death-rate of 31 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,
Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 10th November 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

Seventy-seven thousand six hundred and eighty-eight births were registered in the Province during the month of September 1896, giving a birth-rate of 46 per mille of population. Of the toal number of births 40,370 were boys and 37,318 were girls.

The total number of deaths registered from all causes in the Province during the month of September 1896 was 51,531 against 47,634 in the previous month and 47,896 in the corresponding month of the past year, giving an annual death-rate of 31, 27 and 28 per mille of population per annum respectively.

There were 465 deaths registered under the head of cholera against 837 in the previous month.

From small-pox 1,040 deaths were registered against 2,081 in the previous month and 256 in the corresponding month of the past year; fevers 32,593 against 27,326 and 30,057; dysentery and diarrhœa 1,886 against 1,529 and 1,767.

During the month there were 44 deaths registered from suicide against 27 in the past month; wounding 80 against 74; accidents 381 against 636; snake-bite and killed by wild beasts 219 against 296; and from all other causes 14,822 against 14,828 and 15,057 in the corresponding month of the past year.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 17th NOVEMBER 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharff (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	...	1. Scarce. 2. Bad.	High. Wheat 7½ seers. Bulrush millet 7½ seers.	...	Spring crop failed on land dependent on rain. Sowing on canal area in progress. Water-supply deficient. Grain and fodder stock insufficient. Supply being imported from other places. Famine works commenced.
2	Delhi ...	...	1. Scarce. 2. Fair.	Abnormal. Wheat 7¾ seers Bájra (bulrush millet) 8¾ seers.	...	Bad. Wholesale stock insufficient in Ballabgarh, which is being supplied by Delhi.
3	Umballa ...	...	1. Sufficient. 2. Good.	Rising very high. Wheat from 7 to 8 seers. Gram 8 to 9 seers. Maize 9 to 10 seers.	Crops have all been cut.	Rain badly needed. Sowings much retarded.
4	Jullundur ...	...	1. Scanty. 2. Hard worked.	Abnormally high. Wheat 8 seers. Gram 9¼ seers. Maize 10 seers.	Cotton and sugarcane crops about average.	Sowings in progress on irrigated and on some lands dependent on rain. Stock of grain reduced; scanty in Nakodar.
5	Ferozepore ...	...	1. Scarce. 2. Weak for want of fodder.	Wheat 7 seers. Maize and gram 8 seers per rupee.	...	Sowings commenced on lands watered by wells and canals. Stock of grain sufficient for local requirements except in Moga.
6	Amritsar ...	...	1. Scarce. 2. Good.	Continue high. Wheat 8 seers. Maize 10½ seers.	Crops average on irrigated and poor on unirrigated. Harvesting finished.	Rain badly wanted. Sowings on irrigated lands in progress. Stock of food grains insufficient.
7	Siálkot ...	...	1. Scarce. 2. Poor.	Wheat 7¼ to 8¼ and rice 7½ to 8 seers.	Picking of cotton and pressing of sugarcane continue.	Sowings on irrigated lands continue. Stock sufficient

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
8	Lahore ...	...	1. Scarce.	Continue high. Wheat 7 to 8 seers. Maize 9½ to 10 seers.	Crops are being harvested. The outturn on irrigated lands about average.	Sowings in progress on the canal and well lands. Wheat grain is obtained with difficulty for sowing purposes. Grain stock sufficient with sáhúkárs but not with zamíndárs
9	Mooltan ...	0·03 in Shujabád.	1. Scarce. 2. Good.	Very high. Wheat 8 seers.	Autumn crops being gathered. Cotton being picked: outturn poor. Some damage done to crops by locusts in Kabírwála.	Sowings in progress. Canals dry.
10	Ráwalpindi ...	...	1. Scarce. 2. Poor.	Very high. Wheat 8 seers. Bájra (bulrush millet) 9 seers. Maize 10 seers.	Prospects of autumn crops from average to poor.	Stock of grain insufficient.
11	Shahpur ...	...	1. Scarce.	Wheat 8 to 9 seers.	...	Bad owing to want of rain.
12	D. I. Khan ...	...	1. Getting scarce 2. Poor in Kuláchi.	Very high. Wheat 9 seers. Bájra (bulrush millet) 11 seers.	Harvesting of autumn crops and cotton pickings going on: outturn below average.	Sowings in progress.
13	Pesháwar ...	...	1. Sufficient. 2. Good.	Risen. Wheat $8\frac{3}{16}$ seers Maize $10\frac{14}{16}$ seers.	Standing crops average.	Stock of food grain average. Grain is however exported largely.
14	Rohtak ...	...	1. Sufficient for present needs.	Rising. Wheat 7¾ seers. Jowár (great millet) 9 seers.	...	Wheat and barley, &c., sown on well and canal lands.
15	Gurgaon ...	...	2. Good.	Wheat 7·5 seers. Bájra (bulrush millet) 9 seers.	...	Sowings continue on irrigated lands.
16	Karnál ...	...	1. Scarce.	Rising. Wheat 7½ seers. Gram 7½ seers. Jowár (great millet) 9 seers. Maize 9½ seers.	Harvesting finished: outturn average on irrigated and poor on lands dependent on rain.	Sowings in progress on irrigated lands, but prospects gloomy. Number of persons on relief work 426.
17	Gujránwála ...	...	1. Scarce and dear.	Rising. Wheat about 8 seers.	Favourable on canal lands.	Sowings still continue on irrigated lands. Rain badly wanted. Test works being started in Khangáh Dográn.
18	Gujrát ...	Aggregate number of persons on relief works on 14th November were 7,139, including non-working children.				

GENERAL REMARKS.

Rainfall *nil* except slight in Mooltan. Prices generally rule high. Wheat selling at 7 to 9, gram 8 to 9¼, bulrush millet 8¾ to 11, maize 9 to 10½, rice 7½ to 8, and great millet about 11 seers per rupee. Harvesting of autumn crops nearly finished. Sugarcane is being pressed in Siálkot. Cotton picking continues in Siálkot, Mooltan and Dera Ismail Khan. Spring crop being sown on irrigated lands, but much retarded owing to deficient supply of water. Rain badly wanted throughout the Province. Condition of autumn crops average on irrigated lands only and poor elsewhere. Outturn poor in Mooltan and below average in Dera Ismail Khan. Grain stock sufficient in Amritsar, Lahore and in part of Ferozepore, and average in Pesháwar. Locusts did some damage in Mooltan. Condition of cattle generally good to fair, but they are hard worked in Jullundur and getting poor in Kuláchi (Dera Ismail Khan District). Fodder is scarce everywhere except in Umballa, Pesháwar and Rohtak. Number of persons on relief work in Karnál 426, and aggregate number of them in Gujrát on 14th instant 7,139, including non-working children.

P. D. SHROFF, *Supdt.*,

Office of Director of Land Records and Agriculture, Punjab.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF OCTOBER 1896.

Explanation :—(*c*) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st October.	1st April to 30th September.	For month under report.	Month under report.	1st October 1896 to 31st October 1896.	1st April 1897 to 30th September 1897.	Total.	Condition of crops and cattle, and health of people.
Hissar.	Sirsa ...	0·31	...	0·31	0·15	0·15	...	0·15	Scanty rainfall of the month has not been of any use. Rabi crop sowings stopped on baráni and sailába land for want of rain and floods of the Ghaggar stream. Sowings on irrigated area restricted to a great extent owing to the deficient water-supply in canal. Fodder stocks exhausted, and cattle are being removed to the other parts of the country for grazing. It is really a hard time for cattle, and their condition is growing from bad to worse. Grain stock insufficient, and supplies are being imported from other districts to meet local requirements. Famine works are about to commence and test works are already in progress. The people have now begun to feel the effects of famine keenly. General health of district good. Lála Pohu Rám, Revenue Extra Assistant Commissioner, remained on tour for 30 days, and Sheikh Dín Muhammad, Extra Assistant Commissioner, for 25 days.

Rohtak.	Rohtak ...	0·37	...	0·37	...	...	...	...	1. On baráni land no sowings have yet taken place and on irrigated lands some gram has already been sown and preliminary waterings for sowing wheat are being given. Jowár has all been harvested; outturn bad (6 annas). Cotton is being plucked on canal lands; outturn average. 2. Fodder stocks appear sufficient for three or four months. 3. Health of people good. 4. Locusts came into one or two villages in Jhajjar, but no damage done to speak of. 5. Prices risen slightly and are very high: wheat 8 seers, gram 9¼ seers. Stocks of food-grains seem sufficient for three or four months. 6. The Revenue Officer was 25 days on tour during the month of October 1896.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF OCTOBER 1896—(CONTINUED).

Explanation:—(*c*) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		Rainfall.							
		Average rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st October.	1st April to 30th September.	For month under report.	Month under report.	1st October 1896 to 31st October 1896.	1st April 1897 to 30th September 1897.	Total.	Condition of crops and cattle, and health of people.
Karnal.	Pánipat ...	0·21	...	0·21	0·09	0·09	...	0·09	A few showers fell in the beginning of the month, but no rain at all fell since the 5th October. Jowár, rice, maize, &c., have been reaped, the outturn of irrigated area being average and that of unirrigated very poor. Prices were high throughout the month, wheat selling at 8¾ seers, gram 9½ and maize 11½ seers per rupee. Stocks of grain are decreasing. Green grass has almost disappeared and fodder is scarce in Nardak. Locusts passed over the district from south to north and from west to east, but caused no damage. Health of people good.

Umballa.	Pipli ...	0·34	...	0·34	0·02	0·02	...	0·02	Practically there has been no good rain in the month of October. Kharíf crops have all been gathered. Sowings for rabi are much retarded. They have sown gram and other inferior grains in some few tracts here and there, but there is no hope of sowing wheat. It is already too late for gram, and there will be no sowing of wheat if the rain does not fall immediately. Prices of food-grain are still rising. There are in City Umballa wheat 8 seers a rupee, gram 9¾ seers, maize 12 seers. These high prices are causing acute distress, particularly in the towns. Shops opened for sale of food grains at rates cheaper than the bazár rates are doing much good to many poor classes.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st October.	1st April to 30th September.	For month under report.	Month under report.	1st October 1896 to 31st October 1896.	1st April 1897 to 30th September 1897.	Total.	Condition of crops and cattle, and health of people.
Kangra	Plách ...	0·72	...	0·72	1·34	1·34	...	1·34	The kharíf crops have now been harvested in almost all parts of the district. In Kángra proper the outturn on irrigated areas is about average, but that on the unirrigated areas is below the average. In Kulu and Plách the outturn on the low lying lands is good, and is fair in the rest of these tahsíls. The rabi sowings have almost been completed on the irrigated areas, but is only commencing in the unirrigated areas of the district. Rain is much needed for the unirrigated areas. During the month the rate per rupee of wheat was 10 to 12 seers, maize 13 to 18 seers, rice 9 to 12 seers, másh 9 to 10 seers and gram 8 to 9 seers. The stock of food grains and fodder is sufficient. The Revenue Assistant was on tour during the whole of the month.
	Kulu ...	1·24	...	1·24	0·97	0·97	...	0·97

Hoshiárpur	Dasúya ...	0·35	...	0·35	...	...	...	...	There has been no rain to speak of. Perhaps ⅓rd of the "rabi" in the more favoured parts of Dasúya, Hoshiárpur and Garhshankar has been sown, but no more can be sown unless rain comes. In Una as a whole it is doubtful whether ⅓rd has been sown. Still if rain comes even up to 15th December, there is no reason why half an average crop over the whole district should not be obtained. There has been a large export of grain, principally from the Dasúya Tahsíl, but also from other parts of the district, even from the less fertile Una Tahsíl. This export, together with the gloomy prospects for the "rabi" has run up prices very high, and wheat is now selling at 9¼, 9 and 8¾ seers. In the same way bhusa has been exported in large quantities, but fodder is sufficient for the present. Unless rain comes, it will run short in January or February. The health of people is good.
	Una ...	0·33	...	0·33	0·14	0·14	...	0·14	
	Garhshankar ...	0·47	...	0·47	0·21	0·21	...	0·21

Jullundur	Jullundur ...	0·18	...	0·18	...	...	...	...	1. Prices very high. Wheat 9¼ seers, gram 10½ seers, maize 12 seers. 2. Stock of grain reduced owing to exports, but said to be sufficient for demand for next couple of months in Nakodar and until the rabi elsewhere. The stock is scanty in Tahsíl Nakodar. This tract is being watched with care. 3. Fodder insufficient in Nakodar Tahsíl. Elsewhere it is sufficient, but not abundant. 4. State of crops on ground about average. Lahore.	Van (*c*) ...	0·29	...	0·29	0·14	0·14	...	0·14	Reaping of kharíf crops and sowing of rabi crops in progress. The outturn of the former is about the average on the irrigated areas. Health of the people is good. Bári Doáb Canal worked fairly well, but the Deg stream dried up in the western half of the Sharakpur Tahsíl, where great damage has been caused to the rice crop grown on its banks. Prices are greatly rising in every part of the district. Grain stocks are sufficient with sáhúkárs, but not with zamíndárs. If it does not rain in a short time, the prospects of the rabi crop will be very unfavourable and general distress must be anticipated. The Lahore people have raised a fund from their own subscriptions for helping those who are quite unable to support themselves and their families during the present famine. A flight of locusts passed over certain villages, but no damage done to crops. Fodder is scarce in different parts of the district, where the cattle are very thin and lean. The Revenne Assistant has been on tour for 23 days during the month under report.

	Sialkot ...	0·48	...	0·48	0·30	0·30	...	0·30	
Gujrat.	Gujrat (Sadr) ...	0·56	...	0·56	0·09	0·09	...	0·09	Kharíf crops in Tahsíls Gujrat and Khárián north-east of Grand Trunk Road are average. Threshing is being done. Produce owing to drought is below average, and fodder is sufficient for two or three months, but there is no produce in the south-west of the Grand Trunk Road and other parts of the district. The crops sown have dried up for want of rain. In some villages bordering on the Chenab and Jhelum as well as in the Phália Tahsíl the crops were to be used as fodder. Cattle have been removed to belas and other parts. Rabi crops are being sown in sailábi and well lands, but less area sown than that of the previous year. Stock of grain exists in important towns of the district.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF OCTOBER 1896—CONTINUED.

1	2	3	4	5	6	7	8	9	10
		Rainfall.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st October.	1st April to 30th September.	For month under report.	Month under report.	1st October 1896 to 31st October 1896.	1st April 1897 to 30th September 1897.	Total.	Condition of crops and cattle, and health of people.
Gujranwala.	Rámnagar ...	0·12	...	0·12	...	...	...	...	No rain during the month. Wheat, barley, gram and other sowings are in progress on irrigated lands. Baráni sowings checked for want of rain, but well cattle breaking down in places. Fodder very scrace, standing cane and millet being cut for fodder. Prices of food grain rose towards the end of month rather sharply. Stocks are believed to exist with dealers and some well-to-do persons but are being sold up in view of rabi prospects. Locusts appeared in the Chenab Colony on 4th and 25th October 1896, and are reported to have done slight mischief to wheat crop. Health of people is good.

DISTRICT.	Rain-gauge Station.	1st October to 31st October.	1st April to 30th September.	For month under report.	Month under report.	1st October 1896 to 31st October 1896.	1st April 1897 to 30th September 1897.	Total.	Condition of crops and cattle, and health of people.
HAZARA.	Abbott-abad ...	1·21	...	1·21	1·60	1·60	...	1·60	Kharif reaped save in certain tracts of the Haripur Tahsíl. Outturn from low-lying and hill lands average, very poor on dry plain tracts. In certain of these tracts the Indian corn produced no cobs. Rabi crops sown in Tahsíls Abbott-abad and Mánsahra generally and in parts of Haripur. Takávi for seed grain granted freely in Haripur. Prices very high; fluctuating slightly. Stocks of grain barely sufficient and will not bear exportation. Stocks of fodder short in dry plain tracts, where kharif crops suffered; sufficient elsewhere. Water from irrigation cuts barely sufficient.
	Mánsahra ...	1·03	...	1.03	...	...	...	...	
	Haripur ...	0·82	...	0·82	0·28	0·28	...	0·28	
PESHAWAR.	Swábi ...	0·60	...	0·60	0·22	0·22	...	0·22	Wheat and barley are being sown on irrigated lands. The unirrigated lands have not yet been prepared for cultivation for want of rain, except in the Swábi Tahsíl, where there was some rain during the month. The cotton crop has been harvested, and its yield is average in the Nowshera Tahsíl and bad in other parts of the district. The rice and maize crops have been reaped and are being threshed, the outturn of these cereals is average on irrigated areas except in tracts watered by the Bára stream, where the outturn is not good, and that of unirrigated area is generally very bad. In the Maira Assessment Circles of Charsadda and Mardán Tahsíls there has been no produce. In the hilly tracts of the Nowshera and in the Mardán and Swábi Tahsíls the condition of cattle has become poor owing to scarcity of fodder. Health of people good. The prices of food grains are ruling very high. The stock of grain is fair, but exports are taking place largely. Sufficient water in canals. Scanty supply of water in the Bára stream. No floods from hills torrents. The Revenue Assistant was only a few days on tour during the month, the real incumbent, Maulvi Ahmad Shafi, being ill, and his place having been taken by Mr. Kettlewell, Assistant Commissioner, on the afternoon of the 12th October 1896.

		Rainfall.							
		Average rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 31st October.	1st April to 30th September.	For month under report.	Month under report.	1st October 1896 to 31st October 1896.	1st April 1897 to 30th September 1897.	Total.	Condition of crops and cattle, and health of people.
Kohat.	Kohat ...	0·51	...	0·51	0·37	0·37	...	0·37	There has been no rain during the month, and water in Toi has almost dried up while in springs it has run short. Kharíf crops on unirrigated lands have generally failed, except in certain circles of the Teri Tahsíl, where the produce of the crops is expected to be about the average, while those on irrigated lands are below the average. The standing kharíf crops in whole of the Hangu Tahsíl have been harvested, while those in the Kohát and Teri Tahsíls are being cut and harvested. The rabi sowings on unirrigated lands in the Teri Tahsíl (except Seni and Khurram Circles) have generally been completed owing to there being sufficient moisture, while on lands irrigated by springs in the district are being pushed on. Sowings on lands irrigated by Toi and on unirrigated lands in the district are generally awaiting fall of rain. Fodder for cattle is generally not sufficient in the district except in certain parts of the Teri and Hangu Tahsíls. Stocks of food grains are also insufficient in the district, while grain is being exported and railed to other districts in the Punjab. Scarcity is consequently prevailing. The Revenue Assistant Munshi Muhammad Azím Khán remained 24 days on tour during October 1896, and inspected kharíf girdáwari.
	Hangu ...	...	...	...	...	...	...	...	
	Thal ...	...	...	...	...	...	...	...	
	Banda Daud Shah ...	...	...	...	...	...	...	...	
	Khushálgarh ...	...	...	...	...	...	...	...	
Bannu.	Miánwáli ...	0·07	...	0·07	...	...	...	...	The kharíf crop is being harvested. It is below average in Bannu and poor in Marwat elrewhere good. Rabi is being sown in irrigated lands except in eastern Marwat, where there has been no rain. Stocks of grain sufficient in Bannu and Isa Khel, but very low elsewhere. Fodder generally sufficient. Prices rising on account of general scarcity in the Province. Canals have been working fairly well, but are now low owing to want of rain in the hills. Rain much wanted. The Assistant Commissioner spent 17 days on tour and inspected 23 villages.
	Isa Khel ...	0·08	...	0·08	0·02	0·02	...	0·02

Dera Ismail Khan.	Tánk ...	...	...	...	...	...	...	...	The condition of standing kharíf crops average in Kacha tract and in Tánk Tahsíl, but poor in the other parts. The bájra and jowár crops in parts of Kuláchi Tahsíl slightly damaged by an insect called "tiddi." Harvesting of bájra crop has commenced; outturn average. Cotton being picked; outturn below average. Sowings for rabi crops nearly completed except wheat which is in progress, but the seed grain is insufficient Health of people good. Fodder sufficient except in Thal and Tahsíl Kuláchi, where it is getting very scarce. Prices very high. Wheat 10 seers 10 chatánks and bájra 12 seers per rupee. Revenue Assistant remained out on tour for 22 days during the month.

	Rájanpur ...	0·02	...	0·02	...	...	...	...	
Muzaffargarh.	Alipur ...	0·07	...	0·07	...	...	...	...	Sugarcane, rice and cotton are being harvested. The sugarcane and rice crops are good and that of cottons is of average quality. Ploughing for the coming rabi in progress. The prices of food-grain are at present the same as last reported, although they rose in about the middle of the month. Grain is as usual being exported to Sakkar. The stock of grain with the traders is sufficient. Fodder sufficient. The Canal Puran is running. The floods from the rivers Indus have been s ufficfent. The floods from river Chenab insufficient. Consequently there will be little cultivation in the following villages:—Kharora, Fazil Muhammad, Bet Punhúa, Chak Dudda, Damarwála Janúbi, Mukhan Bela, Azmatpur, Ghujrewála and Mudwála.
	Muzaffargarh ...	0·06	...	0·06	...	...	...	...	Sugarcane and cotton are being harvested; sugarcane good and cotton average quality. Bájra crop harvested average. Sowings of peas and gram almost finished. Wheat and barley being sown. Fodder sufficient. Stock of grain with traders sufficient. Six thousand eight hundred and sixty-four maunds wheat and 6,647 maunds of rice were exported by rail from this tahsíl. Loans for the purchase of seed being given. Locusts appeared in the follwing villages without doing auy injury:—Jaisalwahán, Rukha Núrkhán, Alúdáwáli, Núr Kubra, Shakhpur Musti, Manka Bhutta, Mubárakpur, Khánpur Janúbi, Bet Husain, Gudpur, Brahímwáli, Gazanfargarh, Mohra Nasheb, Lálpur, Daira, Waddu, Mára Khás, Fazil Kalru, Bet Raháli, Usmánpuria, Darin Mondka, Mukhsúdpur, Daira Fázil, Tibba Bhuttia and Basti Khanik.

LAHORE, THURSDAY, NOVEMBER 26, 1896.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 24th NOVEMBER 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharff (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	0·24 in Fatahabad.	1. Scarce. 2. Bad.	Wheat 7 seers. Bájra 8 seers.	...	Crops on baráni land not sown for want of rain. Sowings on canal area in progress. Water-supply deficient. Grain-stock insufficient. Supply being imported from other places. Famine works commenced.
2	Delhi ...	...	1. Scarce. 2. Fair.	Abnormally high. Wheat 7¾ seers. Bájra 8 $\frac{1}{16}$ seers.	...	Prospects bad. Stock sufficient.
3	Umballa ...	0·04 at Sadr.	1. Sufficient. 2. Good.	Very high. Wheat 7 to 8 seers. Gram 9 to 10 seers. Maize 10 to 11 seers.	Crops cut and stored.	Crops sown in some places. Seed has germinated largely and young plants are sprouting. Early fall of rain would save these sowings.
4	Jullundur ...	...	2. Cattle hard-worked.	Abnormally high. Wheat 8 seers. Gram 9¼ seers. Maize 11 seers.	Cotton and sugarcane crops about average.	Sowings continue on irrigated and certain (unirrigated) lands. Stock of grain reduced; scanty in Nakodar.
5	Ferozepore ...	...	2. Weak for want of fodder.	Wheat 7¼ seers. Gram 9 seers. Maize 9 seers.	...	Stock of food-grain sufficient for local requirements except in Moga. Sowings continue.
6	Amritsar ...	...	1. Scarce. 2. Good.	Continue high. Wheat 8 seers. Maize 10½ seers.	Irrigated crops average; unirrigated poor.	Sowings on irrigated lands in progress. Stock of food-grain insufficient.
7	Siálkot ...	...	1. Scarce. Cattle fed on sugarcane and straw of rice. 2. Poor. Overworked.	Wheat 7½ to 8 seers. Rice 6 to 8 seers.	Sugarcane being pressed and cotton picked.	Sowings in progress on irrigated lands.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
8	Lahore ...	...	1. Scarce. 2. Good.	Continue high. Wheat 7½ to 8¼ seers. Maize 10 to 11 seers.	Crops are being harvested. The outturn of the irrigated crops is average.	Sowings of wheat and barley in progress on canal and well lands. Wheat grain is obtained with difficulty for sowing purposes. Grain-stock sufficient with sáhúkárs, who do not give it freely to the poorer classes.
9	Mooltan ...	...	1. Scarce in Mooltan and Kabírwála Tahsíls.	Abnormally high. Wheat 8 to 8½ seers. Jowár 10 seers.	Crops being harvested. Outturn poor.	Sowings in progress. Rain urgently wanted.
10	Ráwalpindi ...	...	1. Scarce. 2. Poor.	Very high. Wheat 7⅞ seers. Bájra 9 seers. Maize 10¼ seers	...	Prospects poor in Pindigheb, Fatehjang and Attock; below average in Ráwalpindi, Gujar Khan and Kahúta, and average in Murree. Stock of grain insufficient.
11	Shahpur ...	...	1. Scarce. 2. Out of condition.	Very high. Wheat 8 to 9 seers. Bájra 9 to 9¾ seers.	...	Food grain imported from outside into Khusháb Tahsíl. Rain much needed.
12	D. I. Khan ...	...	1. Scarce 2. Lean in Kuláchi and Tánk Tahsíls.	Very high. Wheat 8⅛ seers. Bájra 9⅜ seers.	Harvesting of crops nearly completed. Cotton-picking in progress. Outturn below average. Locusts visited Tahsíl Leiah and damaged the standing bájra (bulrush millet) cotton and rape crops to some extent.	Wheat sowings going on.
13	Peshávar ...	...	1. Sufficient. 2. Good.	Rising. Wheat $7\frac{5}{16}$ seers Maize $10\frac{9}{16}$ seers.	Standing crops average except in parts.	Stock of food-grain average. Grain, however, being largely exported.
14	Rohtak ...	0·10 in Sámpla. 0·08 in Gohána. 0·28 in Jhajjar.	1. Sufficient. 2. Good.	Rising. Wheat 7 seers. Jowár 8 seers.	Indigo and cotton crops on canal lands are 14-anna ones and sugarcane 12-anna.	Wheat and barley sown on well and canal lands and gram in a few villages. Stock of food-grain seems sufficient for present requirements.
15	Gurgaon ...	0·38 at Sadr. 0·55 in Rewári. 1·10 in Palwal. 1·25 in Nuh. 1·24 in Ferozpur.	2. Good.	Wheat $7\frac{5}{16}$ seers. Bájra $8\frac{5}{16}$ seers.	...	Sowings commenced on dry lands.
16	Karnál ...	0·15 at Karnál. 0·13 in Pánipat.	1. Scarce in Nardak. 2. Good	Wheat 7 to 7¾ seers. Gram 8½ seers. Maize 9 seers. Jowár 9 seers.	...	Sowings in progress on canal and well lands. Rain hardly beneficial. Eight hundred and forty-three men on relief work.
17	Gujránwála ...	...	1. Scarce. Cattle are fed on cane and millet. 2. Bad in most parts	Wheat 7¾ to 8 seers.	...	Wheat and barley sowings are still in progress on irrigated lands. Prospects of crops on canal favourable, on wells fair. Very little crop on dry lands. Rain urgently required.
18	Gujrát ...	Aggregate number children.	of persons employed on	relief works on Satu	rday, 21st November 1896.	was 9,228 including non-working

GENERAL REMARKS.

Rain has fallen in parts of Hissar, Umballa, Rohtak, Karnál and Gurgaon Districts. Prices rising in Peshávar and Rohtak and abnormally high elsewhere:—

Wheat is selling from 7 to 9 seers per rupee.
Bájra (bulrush millet) from 8 to 9¾ seers per rupee.

Gram	ditto	9 to 10	ditto.
Maize	ditto	8 to 11	ditto.
Rice	ditto	6 to 8	ditto.

Autumn crops are cut and stored. Cotton-picking going on and sugarcane being pressed. Sowings of spring crops in progress. Wheat is obtained with difficulty for sowing purposes in Lahore. Very little area of dry land has been sown. Owing to the recent rain at Gurgaon, sowings have commenced on dry lands. Rain badly needed throughout the Province. Water-supply deficient in Hissar. Outturn of autumn crops is generally reported average on irrigated and poor on unirrigated lands. Prospects of spring crops are said to be average to poor. Stock of food-grain is insufficient in Hissar, Amritsar, Ráwalpindi and parts of Jullundur, Ferozepore and Shahpur; it is average in Peshávar. It is reported that the grain-stock is sufficient with sáhúkárs (grain-dealers) at Lahore, but they do not sell freely to the poorer classes. Locusts appeared in the Leiah Tahsíl of Dera Ismail Khan District and damaged the standing bájra (bulrush millet), cotton and rape crops to some extent. Cattle are in bad condition in most districts owing to insufficiency of fodder and overwork. Fodder scarce in all districts except in Umballa, Peshávar and Rohtak. Aggregate number of persons employed on relief works in Gujrát on Saturday, the 21st November 1896, was 9,228 including non-working children. Famine work has also commenced in Hissar. Eight hundred and forty-three men on relief work in Karnál.

P. D. SHROFF, *Supdt.*,

Delhi ...	Karnál ...	Karnál ...	260 5 11	...	...	...	...	...	15·71	24·50	Wheat ...	0 7 8	Wheat	0 7 8	This being the first famine relief statement submitted for this district, the following explanation of the necessity for starting a relief work is given:— On the 3rd October three test works, consisting of the excavation of tanks, were opened in three villages of the Karnál Nardak, the part of which is always the first to be affected by famine. As soon as the test works were started, the *Kamín* classes of the villages in which the tanks were situated, Saga, Gondar and Hathláná, applied for work on them, but for the first weeks no outside villagers appeared. Towards the end of October *Kamíns* of other villages came on the works, and eventually zamíndárs applied for work too, and the daily number of people averaged 530. Orders were therefore given for a regular relief work to be started and for the test works to be closed, the relief work selected being the embanking of the Karnál-Assaudh Road which runs through the heart of the Nardak, and the centre of work was fixed at Jundla Village. The relief works include people of all classes of the surrounding villages as well as about 20 vagrants from the Hissar District. The number of relief workers is daily increasing, and on the evening of the 16th instant there were 450 relief workers on the register. A test work opened at Geong, in the Kaithal Nardak, is at present attracting labourers, and another relief work will have to be started there in the course of a week or two.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
he 24th November 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 7TH NOVEMBER 1896.

Births and Deaths in Municipal Towns.—In the 45 large Municipal towns 1,410 births were registered (738 males and 672 females), giving a birth-rate of 52 per *mille* of population; 889 deaths were registered (490 males and 399 females), giving a death-rate of 33 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,
Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 24th November 1896.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 1st DECEMBER 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	0·33 at Sadr. Slight rainfall elsewhere.	1. Stock nearly exhausted. 2. Bad.	High. Wheat 7¾ seers. Bájra 8¼ seers.	...	Prospects not improved. Crops failed on dry lands. Sowings on irrigated area progressing. Water-supply deficient. Grain stock insufficient. Famine works started.
2	Delhi ...	0·37 at Sadr.	1. Scarce. 2. Fair.	Abnormally high. Wheat 7¾ seers Bájra 8¼ seers.	...	Prospects of crops bad. Stock of grain sufficient.
3	Umballa ...	Slight rain in Rúpar and Kharar Tahsíls.	1. Sufficient. 2. Good.	High. Wheat 7 to 8 seers Gram 8 to 9 seers. Maize 9 to 10 seers.	...	Rain not sufficient to extend sowing. More rain badly wanted for the sprouting crops. Sixty-nine men employed on test work.
4	Jullundur ...	Slight rainfall in Jullundur and Nawashahr Tahsíls.	2. Hard worked.	Abnormally high. Wheat 8½ seers. Gram 9¼ seers. Maize 11 seers.	Cotton and sugarcane crops about average. Sugarcane pressing commenced.	Sowings in Tahsíls Jullundur and Phillour nearly finished. Stock of grain reduced; scanty in Nakodar.
5	Ferozepore ...	0·11 at Sadr. 0·07 in City. 0·05 in Moga. 0·09 in Zíra.	2. Weak for want of fodder.	Wheat 8 seers. Maize 9½ seers. Gram 9½ seers. Jowár 9¼ seers.	...	Sowings in progress on canal and well lands. Stocks of food grain sufficient for local requirements except in Moga.
6	Amritsar ...	0·10 in Tarn Táran.	1. Scarce. 2. Good.	High. Wheat 8½ seers. Maize 11 seers.	...	Irrigated crops average; unirrigated poor. Sowings on irrigated lands in progress. Most of the unirrigated lands lying unsown. Stock of food grain insufficient.
7	Siálkot ...	0·39 at Sadr. 0·21 in Daska.	1. Scarce. Cattle fed on sugarcane and straw. 2. Poor.	Wheat 7¾ seers. Rice 6 to 7½ seers.	Pressing of sugarcane continues.	Sowings continue on irrigated lands.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
8	Lahore ...	0·05 at Sadr.	1. Scarce. 2. Good.	High. Wheat 7½ seers. Maize 10 seers.	The outturn on irrigated area is average.	Sowings of crops on canal and well lands in progress. Crops sown on irrigated lands are fair. Grain stock sufficient with sáhúkárs.
9	Mooltan ...	0·03 in Mailsi. 0·03 in Lodhrán.	1. Scarce in Mailsi and Kabírwála. 2. Good.	Very high. Wheat 8½ to 9 seers. Jowár 10 seers.	Crops being harvested. Outturn poor.	Sowings on well lands in progress. Rain badly wanted.
10	Ráwalpindi ...	0·62 at Ráwalpindi. 1·25 in Murree. 0·06 in Pindigheb	1. Scarce. 2. Poor.	Very high. Wheat 8½ seers. Bájra 10 seers. Maize 11 seers.	...	Prospects of crops poor in Tahsils Pindigheb, Attock and Fátahjang; below average in Ráwalpindi, Gujar Khan and Kahúta; and average in Murree. Stock of grain insufficient.
11	Shahpur ...	Slight rainfall at Sadr.	1. Scarce.	Very high. Wheat 8 to 10 seers. Bájra 9½ to 10¼ seers.	...	Crops in fair condition on irrigated land. Rain wanted. Food grains imported into Khusháb Tahsil.
12	D. I. Khan ...	0·17 at Sadr. 0·08 in Kuláchi. 0·10 in Shekh Budin	1. Getting scarce 2. Generally getting lean.	Very high. Wheat $9\frac{1}{16}$ seers Bájra $9\frac{1}{16}$ seers.	Harvesting nearly completed. Cotton-picking in progress. Outturn below average.	Standing crops somewhat benefited. Wheat sowings going on.
13	Peshâwar ...	0·11	1. Sufficient. 2. Good.	Rising. Wheat 8¼ seers Maize 11¼ seers.	Standing crops average.	Stock of food-grain average.
14	Rohtak ...	...	1. Sufficient.	Wheat 7¼ seers Jowár 9 seers.	Indigo and cotton crops on canal lands are 14-anna ones and sugarcane a 12-anna one.	Wheat and barley sown on well and canal lands and gram in a few villages. Stock of food grain seems sufficient for present requirements.
15	Gurgaon ...	...	2. Good.	Wheat 7¼ seers. Bájra 8½ seers.	...	Sowings on dry lands in Palwal, Nuh and Fírozpur commenced. Crops on irrigated lands in fair condition.
16	Karnál ...	Slight drizzling in Kaithal.	1. Scarce in Nardak. 2. Good.	Rising. Wheat 7 to 7½ seers. Gram 8 seers. Maize 0¼ seers. Jowár 8½ seers.	Indigo being reaped in Kaithal.	Sowings in progress. One thousand one hundred and eight persons on famine works.
17	Gujránwála ...	0·22 at Sadr. 0·06 in Wazírabad.	1. Scarce. Cattle are being fed on cane and millet. 2. Bad.	Falling slightly. Wheat 8 to 8½ seers.	...	Wheat and barley sowings are still in progress on irrigated lands. Prospects of crops on canal favourable and on wells fair. Very little crop sown on báráni land. Rain wanted.
18	Gujrát ...	Aggregate number children.	of persons employed on	relief works on Satu	rday, the 28th November,	was 10,850 including non-working

GENERAL REMARKS.

Slight rain in all districts except Rohtak and Gurgaon. Prices rising in Peshâwar and Karnal, falling slightly in Gujránwála, and high elsewhere. Wheat was selling from 7 to 10 seers, bájra (bulrush millet) 8¼ to 10¼ seers, grám 8 to 9½ seers, maize 9 to 11¼ seers, jowár (great millet) 9 to 10 seers, and rice 6 to 7½ seers per rupee. Harvesting nearly completed. Cotton-picking and sugarcane pressing going on. Sowing of spring crops in progress on irrigated lands. Sowing has also commenced on dry lands in Gurgaon. More rain urgently wanted throughout the Province. Water-supply deficient in Hissar. Outturn of irrigated crops average in Lahore, poor in Mooltan, and below average in Dera Ismail Khan. Prospects of spring crops are generally said to be average to poor, but bad in Delhi. Condition of standing crops is fair to poor. Recent rain was not sufficient to extend sowings and did not benefit the standing crops except in Dera Ismail Khan. Stock of food grain is insufficient in Hissar, Amritsar and Ráwalpindi and parts of Jullundur, Ferozepore and Shahpur. Cattle are generally in poor condition owing to deficiency of fodder and overwork. Fodder scarce in all districts except Umballa, Peshâwar and Rohtak. Aggregate number of persons employed on relief works in Gujrát on Saturday, the 28th November 1896, was 10,850 including non-working children. Famine works have also started at Hissar. Sixty-nine persons on test work in Umballa and 1,108 in Karnal.

LAHORE, THURSDAY, DECEMBER 10, 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8th DECEMBER 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharff (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	...	1. Very scarce and stock exhausted. 2. Bad.	High. Wheat 7½ seers. Bájra 8 seers.	...	Crops not sown on dry land for want of rain. Sowings progressing to a limited extent on canal land for want of sufficient water-supply in canal Grain stock insufficient. 8,293 persons employed on famine works.
2	Delhi ...	...	1. Scarce. 2. Fair.	Abnormally high. Wheat 7¾ seers Bájra 8½ seers.	...	Prospects poor. Stock of food-grain sufficient.
3	Umballa ...	...	1. Sufficient. 2. Good.	High. Wheat 7 to 8½ seers. Gram 8 to 9½ seers. Maize 9 to 10 seers.	...	Rain badly needed for sprouting crops. 440 men employed on test work.
4	Jullundur ...	...	1. Scanty. 2. Hard-worked.	Abnormally high. Wheat 8½ seers. Gram 9½ seers. Maize 11½ seers.	Sugarcane pressing in progress. Standing crops average.	Sowings nearly finished. Stock of grain reduced; scanty in Nakodar.
5	Ferozepore ...	0·06 at Sadr. 0·02 in Zíra.	2. Ten cattle died of starvation in Jalalabad.	Wheat 8 seers. Gram 9 seers. Maize 9¼ seers. Jowár 9½ seers.	...	Sowings in progress on well and canal lands. Stocks of food-grain sufficient except in Moga.
6	Amritsar ...	...	1. Scarce. 2. Good.	Continue high. Wheat 8¾ seers. Maize 10¼ seers.	Irrigated crops average; unirrigated poor.	Sowings on irrigated land in progress. Most of the unirrigated land is lying unsown. Stock of food-grain insufficient.
7	Siálkot ...	...	1. Scarce. 2. Poor.	Wheat 8 to 9 seers. Rice 7 to 8 seers.	Sugarcane being pressed.	Sowings in progress on irrigated lands.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
8	Lahore ...	...	1. Scarce. 2. Good.	High. Wheat 8 to 9½ seers. Maize 11 to 11½ seers.	Cotton is being picked.	Sowings on canal and well lands in progress. Prospects of irrigated crops average. Stock sufficient with sáhúkárs.
9	Mooltan ...	...	1. Scarce in Mailsi and Kabírwála Tahsíls.	Very high. Wheat 8½ to 9 seers. Jowár 11 seers.	Crops harvested. Outturn poor.	Sowings on well lands in progress. Rain wanted. Famine relief work started by the Mooltan Municipality.
10	Ráwalpindi ...	0·21 in Attock. 0·08 in Pindigheb. 0·24 in Gujar Khan 0·97 in Kahúta.	1. Scarce 2. Very poor.	Very high. Wheat 8 seers. Bájra 9¼ seers Maize 10½ seers	...	Prospects in Pindigheb, Attock and Fátahjang very poor; Ráwalpindi, Gujar Khan and Kahúta below average; and Murree average. Stock of grain insufficient
11	Shahpur ...	...	1. Scarce.	High. Wheat 8½ to 9 seers. Bájra 9½ to 9¾ seers.	...	Stock of grain sufficient except in Khusháb. Rain needed to improve the crops sown.
12	D. I. Khan ...	0·22 in Bhakkar. 0·07 in Tank. 0·18 in Shekh Budin	1. Scarce. 2. Generally getting lean.	Very high. Wheat 9⅗ seers. Bájra 10 seers.	Harvesting of crops except til (sesamum) completed. Cotton-picking in progress. Outturn below average.	Standing crops somewhat benefited. Wheat sowings going on.
13	Peshâwar ...	0·77	1. Sufficient. 2. Good.	Rising. Wheat 8⅛ seers. Maize 11 1/16 seers.	...	Standing crops average, except in parts. Stock of food-grains average.
14	Rohtak ...	...	1. Sufficient.	Wheat 7¾ seers. Jowár 8¾ seers.	Indigo and cotton crops on canal lands a 14 anna one and of sugar-cane a 10 anna one.	Wheat and barley sown on well and canal lands and gram in a few villages. Stock of food-grain seems sufficient. One hundred and eighty-two persons employed on test works.
15	Gurgaon ...	...	1. Sufficient except in parts. 2. Fair.	Wheat 8 seers. Bájra 8¾ seers.	...	Sowings on dry lands still in progress. Condition of crops on irrigated lands good
16	Karnál ...	...	1. Scarce in parts.	Wheat 8 seers. Gram 8¾ seers. Jowár 9 seers	Crops harvested.	Crops being sown on irrigated land. One thousand three hundred and sixty-three men on famine works.
17	Gujránwála ...	...	1. Scarce. 2. Bad.	Wheat 8½ to 8¾ seers.	...	Crops are being sown in some places on lands irrigated by wells and canals. Prospects of crops on canal favourable and on wells fair. Very little crop sown on dry land. Rain needed. Stock getting low.
18	Gujrát ...	Aggregate number of persons employed on relief works on Saturday, the 5th December 1896, was 12,508, including non-working children.				

GENERAL REMARKS.

Rain has fallen in parts of Ferozepore, Ráwalpindi, Dera Ismail Khan and Peshâwar. Prices rising in Peshâwar and high elsewhere. Wheat is selling from 7 to 9½ seers; bulrush millet 8 to 10; gram 8 to 9½; maize 9 to 11½; great millet 8¾ to 11 and rice 7 to 8 seers per rupee. Harvesting of autumn crops nearly completed. Cotton is being picked and sugarcane pressed. Sowing of spring crops on canal and well lands in progress. Also on dry land in Gurgaon. Condition and prospects of spring crops are generally reported average to poor. Condition of irrigated crops is said to be good in Gurgaon and the prospect of canal crops is favourable and of well fair in Gujránwála. Outturn of autumn crops poor in Mooltan and below average in Dera Ismail Khan. Recent rain has benefited standing crops slightly in Dera Ismail Khan. More rain urgently needed to improve the condition of the spring crops already sown. Stock of food-grain is insufficient in Hissar, Amritsar, Ráwalpindi and parts of Jullundur, Ferozepore and Shahpur. It is average in Peshâwar and getting low in Gujránwála. Cattle are generally in poor condition owing to deficiency of water and hard work. Fodder scarce in all districts except Umballa, Peshâwar, Rohtak and Gurgaon. Aggregate number of persons employed on relief works in Gujrát on Saturday, the 5th December 1896, was 12,508 including non-working children. Famine works have also been opened in Hissar, Rohtak, Karnál and Umballa, and the number of persons put to the work in each district is 8,293, 182, 1,363 and 440, respectively. Relief works have also been started by the Mooltan Municipal Committee.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 8th December 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 21ST NOVEMBER 1896.

Births and Deaths in Municipal Towns.—In the 45 large Municipal towns 1,361 births were registered (713 males and 648 females), giving a birth-rate of 50 per *mille* of population; 832 deaths were registered (408 males and 424 females), giving a death-rate of 31 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,
Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE, LAHORE:
The 8th December 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

Eighty-three thousand two hundred and eighty-one births were registered in the Province during the month of October 1896, giving a birth-rate of 48 per mille of population. Of the total number of births 43,603 were boys and 39,678 were girls.

The total number of deaths registered from all causes in the Province during the month of October 1896 was 52,468 against 51,531 in the previous month and 55,493 in the corresponding month of the past year, giving an annual death-rate of 30, 31 and 32 per mille of population per annum respectively.

There were 231 deaths registered under the head of cholera against 466 in the previous month.

From small-pox 1,048 deaths were registered against 1,040 in the previous month and 369 in the corresponding month of the past year; fevers 33,842 against 32,593 and 35,734; dysentery and diarrhœa 1,692 against 1,886 and 1,858.

During the month there were 38 deaths registered from suicide against 44 in the past month; wounding 57 against 80; accidents 264 against 381; snake-bite and killed by wild beasts 99 against 219; and from all other causes 15,197 against 14,822 and 17,049 in the corresponding month of the past year.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,

Sanitary Commissioner, Punjab.

Traffic Audit Office,
Ajmere,
The 24th November 1896.

R. A. ENGLISH,
Acting Chief Auditor and Accountant.

Punjab Government Press, Lahore—10-12-96—690.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
8	Lahore ...	...	1. Scarce. 2. Bad in Sharakpur Tahsíl.	High. Wheat 8 to 9½ seers. Maize 11 to 11½ seers.	Cotton is being picked.	Sowings on canal and well lands in progress. Crops on irrigated areas promise to be average.
9	Mooltan ...	...	1. Scarce in parts. 2. Good.	Very high. Wheat 9 seers.	Crops except cotton and sesamum harvested. Outturn poor.	Sowings in progress. Total number of persons on famine works 1,577. Staple grain wheat 9 seers.
10	Ráwalpindi ...	...	1. Insufficient. 2. Poor.	High. Wheat 8½ seers. Bájra 9¼ seers. Maize 10½ seers	...	Prospects poor in Pindigheb, Fátahjang and Attock, below average in Ráwalpindi, Gujar Khan and Kahúta. Stock of grain insufficient.
11	Shahpur ...	...	1. Scarce. 2. Fair.	Wheat 8½ to 9½ seers. Bájra 9½ to 10 seers.	...	Crops require rain.
12	D. I. Khan ...	...	1. Scarce. 2. Getting lean.	Very high. Wheat $8\frac{7}{16}$ seers. Bájra 10 seers.	Harvesting of sesamum going on. Cotton picking in progress. Outturn below average.	Condition of standing crops average. Rain badly wanted. Wheat sowings going on.
13	Peshäwar ...	...	1. Sufficient. 2. Good.	Rising. Wheat 8¼ seers. Maize $11\frac{7}{16}$ seers	...	Standing crops average. Stock of food-grain average.
14	Rohtak ...	...	1. Sufficient.	Falling. Wheat 8 seers. Jowár 9¼ seers.	...	Wheat, barley and oil-seed sown on well and canal lands. Crops on canal and well lands flourishing. Stock of food-grain seems sufficient. Aggregate number of persons employed on test works in Tahsíl Jhajjar is 319. Staple grain barley 9 seers per rupee.
15	Gurgaon ...	...	1. Sufficient except in parts.	Slightly falling. Wheat 8¼ seers. Bájra 9¼ seers.	...	Sowings nearly completed. Crops on irrigated lands in good condition.
16	Karnál ...	...	1. Scarce in parts.	Wheat 7¾ to 8 seers Gram 8¾ to 9½ seers.	...	Crops sown on irrigated area. One thousand eight hundred and seventy-five persons on famine works. Staple grain maize 10 seers.
17	Gujránwála ...	...	1. Scarce. 2. Bad.	Wheat 8½ to 8¾ seers.	...	Sowings still in progress on irrigated lands. Prospects of crops on canal favourable; on wells fair. Very little crop on dry land. Rain urgently wanted. Stock getting low.
18	Gujrát ...	Aggregate number of persons on relief works on Saturday, the 12th December 1896 was 14,642, including non-working children.				

GENERAL REMARKS.

No rain. Prices rising in Peshâwar, falling in Rohtak and Gurgaon, and high elsewhere. Wheat is selling from 7 to 9½ seers, bulrush millet and gram 8 to 10; maize 9 to 11½; great millet 9¼ to 9½; rice 7 to 8 seers per rupee. Harvesting of autumn crops nearly completed. Cotton picking and sugarcane pressing going on Sowings of spring crops on irrigated lands in progress. Dry lands are generally lying unsown. Condition and prospects of standing crops are reported average to poor. Crops on well and canal lands flourishing in Rohtak. Prospects of crops favourable on canal and fair on well lands in Gujránwála. Outturn of autumn crops is poor in Mooltan and below average in Dera Ismail Khan. More rain urgently wanted. Cold dry winds are causing damage to crops in Umballa. Stock of food grain is insufficient in Hissar, Amritsar, Ráwalpindi and parts of Jullundur and Ferozepore. It is average in Peshâwar and getting low in Gujránwála. Cattle are generally in poor condition owing to deficiency of fodder and hard work. Their condition is reported fair in Delhi and Shahpur and good in Umballa, Amritsar, Mooltan and Peshâwar. Fodder scarce in all districts except Umballa, Peshâwar and Rohtak. Aggregate number of persons employed on famine relief works in Gujrát including non-working children, was 14,642 on Saturday, 12th December 1896; and also 5,071 persons in Hissar, 98 in Delhi, 622 in Umballa, 1,577 in Mooltan, 319 in Rohtak, and 1,875 in Karnál. Small test works have also been started in the Siálkot City. Gratuitous work not yet started in Hissar. *Prices of staple grain on which famine wage.*—Delhi, bulrush millet 8½ seers; Umballa, maize 10 seers; Mooltan, wheat 9 seers; Rohtak, barley 9 seers; Karnál, maize 10 seers.

P. D. SHROFF, *Supdt.*,

Office of Director of Land Records and Agriculture, Punjab.

*Mean of 30 days.

The fine dry weather which has prevailed generally throughout the Punjab from August 23rd onward has held steadily over this province during October. Two periods of slight disturbance were shown by the daily weather charts, the first lasting from the 1st to the 4th and the second from the 21st to the 24th. Both were due to the advance of slight barometric depressions which first appeared over Sind and subsequently moving north-eastward passed through this province. Of these two disturbances, the first was the more important. On the 1st the weather was generally fine, but light showers were reported from Siálkot and Ráwalpindi. On the 2nd the only rainfall was a light shower at Siálkot, but the sky had become generally more cloudy over the province. By the morning of the 3rd showers had extended to Umballa, Siálkot, Ráwalpindi, Dera Ismail Khan, Simla, Cherát and Kashmir, and on the 4th rain was reported from all stations except Delhi, Khusháb, Pesháwar and Mooltan. Of these showers the heaviest was 0 34″ at Ludhiána. On the 5th the weather cleared and the disturbed period ceased. The second showery period commenced on the 21st and lasted till the 24th. The amount of disturbance was very slight, but the sky became generally cloudy and light showers occurred daily on and near the hills. On the 25th the slight depression to which the disturbance was attributable disappeared and the sky cleared. Except during these two periods of four days each, the weather was fine and clear with no rain whatever on either hills or plains.

Pressure and Winds.—The mean pressure of the month was excessive at all stations both on the hills and plains. The greatest abnormal excess was 0·043″ at Ráwalpindi Pesháwar and Dera Ismail Khan, and thence it gradually decreased, and was least, 0·018,″ at Delhi and Sirsa. The winds were much more easterly than usual, a result probably due to the appearance of the two slight depressions noticed above over the south of the province, and which drew the wind into north-east and east at many stations. The force was generally somewhat higher than is usual, but the velocity was nowhere important, as the air movement over the Province in October is ordinarily exceedingly light.

Temperature.—The mean temperature of the month was below the normal average at Murree and was about normal at Simla, Mooltan, Pesháwar and Ludhiána, and was above the normal at the remaining stations. The hottest place was Delhi, with a mean temperature for the month of 81°.

The following table gives (1) the variation from the normal of the mean temperature of the Punjab for the 24-hours period ending at 8 A. M. of each day; and (2) the highest maximum temperature recorded in the Province, with the name of the station at which it was registered :—

Date.	Variation from normal of mean temperature of previous 24 hours.	Highest maximum temperature recorded in previous 24 hours.	Station at which registered.	Date.	Variation from normal of mean temperature of previous 24 hours.	Highest maximum temperature recorded in previous 24 hours.	Station at which registered.

				" 31st ...	+ 0·1	89·8	Mooltan.

There was one cool period during the month, lasting from the 4th to the 9th. This period of low temperature followed the disturbed showery weather with which the month commenced and was caused by a cold wave passing over the country due to the snow-fall and other influences which accompany the passage of cold weather disturbances. Maxima exceeding 100° were reported up to about the middle of the month, after which date the day temperatures fell off rather briskly. The absolutely highest reading recorded was 105°·4 at Mooltan on the 1st and 2nd.

Humidity and Cloud.—The air was drier than usual over the centre and south of the Province, but elsewhere the mean humidity was about normal. There was little cloud at the plains stations and over the outer ranges of the Himalayas, but in Kashmir there was a fair amount.

Rain.—The concluding table shows the rainfall of the month. No rain fell throughout the month at Mooltan, Khusháb, Pesháwar and Delhi, but elsewhere rain was received, though, except at Srinagar and Dras, in Kashmir, the amounts were small and generally less than the small normal average fall.

B.

The following table gives the rainfall data for the Punjab Stations for October 1896 :—

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF NOVEMBER 1896.

Explanation :—(*c*) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 30th November.	1st April to 30th September.	For month under report.	Month under report.	1st October 1896 to 30th November 1896.	1st April 1897 to 30th September 1897.	Total.	Condition of crops and cattle, and health of people.
Hissar.	Sirsa ...	0·35	...	0·04	...	0·15	...	0·15	Kharif crops failed as noted in the previous reports. Rabi crops on báráni land not sown for want of rain. Rabi sowings in progress, but it has been restricted to a great extent on account of deficient water-supply in canal owing to low water in the river. Grain stocks insufficient and supply being imported from other places to meet the requirements of the district. Fodder stock exhausted. Cattle in bad condition owing to the scarcity of fodder. Minor famine relief works started and proposals to undertake major works under contemplation. Prices high.

Rohtak.	**Rohtak** ...	**0·39**	..	**0·02**	...	...	...	...	1. On báráni lands nothing is yet sown; on irrigated lands wheat, barley and gram have been sown and promise well, having already sprung up. The outturn of cotton and indigo is estimated at 14 annas and sugarcane at 12 annas on irrigated land. 2. Fodder is sufficient for present needs. 3. Health of people good. 4. Prices have risen during past month. Wheat is now 7½ seers; gram 8½ seers; jowár 9 seers. 5. Complaints of insufficiency of canal water are numerous, and there seems no hope of rain at present.

Gurgaon.	Farukhnagar ...	...	...	...	0·30	0·73	...	0·73	The harvesting of the kharif crop was completed earlier this year on account of the poor harvest. There was no rain till the 21st November; it was very slight in the Gurgaon and Rewári Tahsíls, and was insufficient for rabi ploughings on báráni lands. In the other tahsíls, however, the rain was sufficient to enable sowings to be made on dry lands to a fair extent. The rabi crops on irrigated lands are coming up well. Takkavis have been given freely for purchase of bullocks and seed. Food stock in the hands of the agriculturists is sufficient in most villages for a year's consumption, but the lower classes are very hard up, and in a number of villages they have been set to work to clear tanks. General health is good. Condition of cattle good. Fodder is becoming scarce in most villages of Rewári Tahsíl.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF NOVEMBER 1896—(CONTINUED).

Explanation:—(*c*) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		Rainfall.							
		Average rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station.	1st October to 30th November.	1st April to 30th September.	For month under report.	Month under report.	1st October 1896 to 30th November 1896.	1st April 1897 to 30th September 1897.	Total.	Condition of crops and cattle, and health of people.
Karnal.	Pánipat ...	0·28	...	0·07	0·13	0·22	...	0·22	There were some slight showers during the month which were, however, of little benefit to the crops or for sowing purposes. Kharff has been completely harvested; the outturn on irrigated land is average, and that on unirrigated poor. Rabi sowings are in progress on canal and well irrigated lands. Prices are steadily rising, wheat now selling at 7 seers, maize 9¼, and gram 8 seers per rupee. Fodder is scarce, especially in Nardak. Locusts appeared in Pánipat and Kaithal Tahsíls, but caused no damage. Health of people good.
	Karnal ...	0·43	...	0·08	0·15	0·15	...	0·15

Umballa.	Pipli ...	0·42	...	0·08	0·17	0·19	...	0·19	No appreciable rain in the month of November 1896. The area sown for rabi is much less than in previous years. Seed has been put in all lands which had some means of irrigation or which had been rolled well to keep in moisture. But sowings in purely báráni lands are very contracted. Many kacha wells have been sunk for rabi sowings, and loans have freely been given for construction of kacha wells and for seed. Wheat selling from 7 to 8 seers a rupee, gram from 9 to 10, and makki from 10 to 11 seers a rupee. Kharif fodder is sufficient for about two months. Petty relief works are being opened, as the demand for labour at famine rates is making itself felt amongst the kamín classes.

Hoshiarpur.	Dasúya ...	0·51	...	0·16	0·10	0·10	...	0·10	The slight rain during the month has done some little good to crops already sown; but whether more land is sown depends on our getting good rain this month. If we do get rain, the coming "rabi" in this district will be only a little more than that last year. Up to the present the crops already sown have not suffered, but the area now sown cannot be more than half the average. Katcha wells are everywhere being dug. Their number is 11,000 odd against 6,000 last year. There is plenty of grain to take the people through to next rabi in the Dasúya Tahsíl, in the greater portions of the Hoshiárpur and Garhshankar Tahsíls, and in the lower parts of Una. In the hill parts of the district grain should last to February. The Dasúya Tahsíl is still exporting grain and rice, but now only in small quantities. Corn and rice have come down in fairly large quantities from Kángra. Prices of food-grains fell slightly towards the end of November, but are now showing an inclination to go up again. For the present the cattle have plenty of fodder. The health of the people is good.
	Una ...	0·44	...	0·11	0·05	0·19	...	0·19

Explanation :—(*c*) = Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average rainfall of past years.			*Rainfall of present year.*				
DISTRICT.	Rain-gauge Station.	1st October to 30th November.	1st April to 30th September.	For month under report.	Month under report.	1st October 1896 to 30th November 1896.	1st April 1897 to 30th September 1897.	Total.	Condition of crops and cattle, and health of people.
SIALKOT.	Zafarwál ...	0·43	...	0·24	0·12	0·18	...	0·18	There has been very little rain throughout the district during the month. It was confined to three tahsíls out of five in the district. In Daska and Siálkot the fall, though insufficient for wheat sowings, has improved the condition of the standing crops. Sugarcane is being pressed in the Darap and Dokandi tracts and the outturn is below average; in the well tracts the pressing of sugarcane not commenced (excepting the Charkhari of Siálkot Tahsíl), and the cane crop is used as fodder. The outturn of cotton was poor. Sowings of rabi still in progress in the well tracts. The standing crops in the baráni lands want rain. Fodder scarce. The cattle are being fed on sugarcane, chari, maize stalks, &c. Health of people good. In the well tracts sarshaf and turnips are sown to some extent, which will be used as green fodder later on. Condition of cattle poor, especially in the well tracts on account of hard work. Prices are in a fluctuating state, the present rate of wheat being a little less than Rs. 5 a maund. The stock of grain insufficient with the zamíndárs, but quite sufficient with the Banias. About Rs 40,000 were advanced for the seed grain during the month in the well tracts and to the owners of small holdings, who were unable to make sowings without borrowing from the Banias. The Revenue Extra Assistant Commissioner has been in camp for 24 days checking the Girdáwari work commenced from 15th October under the directions received from the Commissioner.

GUJRAT.	Gujrat (Sadr) ...	0·92	...	0·36	0·10	0·10	...	0·1[illegible]	Kharíf produce gathered. Cotton picking in hand. Sugarcane outturn is good on well lands. Cotton produce owing to drought is below average in baráni lands. Rabi sowings completed in almost all cháhi and sailábi lands, also in some parts of baráni lands where moisture exists. In Tahsíl Phália seeds have been sown in cháhi and sailábi lands, while much of the ploughed baráni area is lying unsown for want of rain. Owing to scarcity of fodder large number of cattle of this district has been removed to belás and mountainous parts of the Jummoo territory. Those kept back for purposes of cultivation are thin for want of fodder and are generally fed with chichra and kíkar leaves. Prices rising. Stock of grain exists with sáhúkárs in important parts of the district.

AGRICULTURAL PROSPECT REPORT OF THE DISTRICTS OF THE PUNJAB FOR THE MONTH OF NOVEMBER 1896—(CONTINUED).

Explanation :—(*c*)=Canal Rain-gauge Station.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average Rainfall of past years.			*Rainfall of present year.*				
DISTRICT.	Rain-gauge Station.	1st October to 30th November.	1st April to 30th September.	For month under report.	Month under report.	1st October 1896 to 30th November 1896.	1st April 1897 to 30th September 1897.	Total.	Condition of crops and cattle, and health of people.
HAZARA.	**Abbott-abad** ...	2·12	...	0·91	2·14	3·74	...	3·74	Early sowings benefited and later sowings accelerated by rainfall, which was much needed. Much more rain is needed in Haripur, where takávi advances for seed grain are being made, as necessary. Prices rose steadily till rain fell, since when they have very slightly fal,en. Stock of grain sufficient, but will not bear exportation to any great extent. Stock of fodder sufficient in hilly tracts; insufficient in others. Water in irrigation cuts sufficient after rain fell.
	Mánsahra ...	2·06	...	1·03	2·03	2·03	...	2·03	
	Haripur ...	1·63	...	0·81	0·66	0·94	...	0·94	
PESHAWAR.	Swábi ...	1·53	...	0·93	0· 0	0·72	...	0·72	Sowings of wheat, barley and rape-seed on irrigated lands have been completed. Ploughings on unirrigated area are in progress. The rabi prospects have been improved to a certain extent by the rain, which fell twice during the month. More rain is still wanted. The condition of the standing kharif crops is good on irrigated and indifferent on unirrigated tracts. The outturn of the sugarcane crop is average. Fodder sufficient in the Peshâwar Tahsíl. There is scarcity of fodder in "Maira" Assessment Circle of Tahsíl Charsadda and in Mardán, Swábi and Nowshera Tahsíls. The recent rain is likely to improve the fodder supply throughout the district. Health of people good. There is not much improvement in the prices of food grains. The stock of grain is gradually decreasing owing to exports down country. There is the usual supply of water in canals. No floods from hill torrents

		RAINFALL.							
		Average rainfall of past years.			*Rainfall of present year.*				
District.	Rain-gauge Station	1st October to 30th November.	1st April to 30th September.	For month under report.	Month under report.	1st October 1896 to 30th November 1896.	1st April 1897 to 30th September 1897.	Total.	Condition of crops and cattle, and health of people.
Kohat.	Kohat ...	1·37	...	0·86	0·86	1·23	...	1·23	There was no rain from 1st to 28th November 1896, and water in Toi entirely dried up, while in springs it ran short. Fortunately it rained on 29th November 1896 throughout the district. Kharíf crop in the district has been cut and harvested, but the outturn is poor. The rabi crops on irrigated lands, as also on unirrigated lands which were sown, were much benefited by the rain, while sowings on lands irrigated by Toi and on unirrigated lands in the district have generally been commenced. Cattle are out of condition owing to insufficiency of grass and fodder. Stocks of food grains are not sufficient and the grain is being exported to Ráwalpindi, &c. Prices were rising, but since the fall of rain they are stationary. The health of people is fair.
	Hangu ...	...	...	...	1·48	1·48	...	1·48	
	Thal ...	...	...	...	1·03	1·03	...	1·03

	Khushálgarh ...	...	...	...	0·48	0·48	...	0·48	
Bannu.	Miánwáli ...	0·49	...	0·42	0·40	0·40	...	0·40	The kharíf crop has been for the most part harvested. The outturn is below average in Bannu, poor in Marwat, and good elsewhere. Rabi sowings completed in Bannu and Miánwáli and progressing in Marwat and Isa Khel. Stocks of grain sufficient in Bannu and Isa Khel and low elsewher. Prices rising on account of general scarcity in the Province. Fodder scarce in Marwat, but sufficient elsewhere. In Marwat 264 cattle who had been fed on withered maize stalks died. Kurram canals not as full as they should be in the season, but are working better since the rain at the end of November 1896.
	Isa Khel ...	0·56	...	0·48	0·27	0·29	...	0·29

Dera Ismail Khan.	Tánk ...	0·03	...	0·03	0·28	0·28	...	0·28	Rain has slightly benefited the rabi crops that have been sown. Harvesting of kharíf crops nearly completed. Cotton pickings going on: outturn below average. Wheat sowings in progress. Locusts were reported in Tahsíls Leiah, Kuláchi and Dera in the third week of the month and damaged the standing bájra, cotton and sarshaf crops to a slight extent. Cattle are generally getting lean. Fodder getting scarce. Prices very high. Wheat 9 seers and bájra $10\frac{7}{16}$ seers per rupee.

1	2	3	4	5	6	7	8	9	10
		RAINFALL.							
		Average rainfall of past years.			Rainfall of present year.				
District.	Rain-gauge Station.	1st October to 30th November.	1st April to 30th September.	For month under report.	Month under report.	1st October 1896 to 30th November 1896.	1st April 1897 to 30th September 1897.	Total.	Condition of crops and cattle, and health of people.
Dera Ghazi Khan.	Sanghar ...	0·04	...	0·04	0·03	0·03	...	0·03	Kharff harvested in all except late sown lands in the Pachadh circle. Rabi sown. Rain required in current month. Health of people good. Fodder supply sufficient. Grain supply sufficient, but a great deal of export is going on.
	Dera Ghazi Khan...	0·19	...	0·12	...	0·05	...	0·05	
	Fort Munro ...	0·31	...	0·07	...	...	...	...	
	Jámpur ...	0·07	...	0·05	...	...	...	...	
	Rájanpur ...	0·04	...	0·02	...	...	...	...	
Muzaffargarh.	Alipur ...	0·11	...	0·04	...	...	...	...	Sugarcane, rice and cotton are being harvested. The sugarcane and rice crops are good; cotton poor. Rabi (wheat and barley) sowings in progress. Peas, gram ("Ussoo"), oil-seed have been sown. Grain as usual being exported to Sukkur. Sufficient stock of grain with dealers and people. Fodder sufficient. Health of people good. Puran Canal running.
	Muzaffargarh ...	0·06	...	...	0·05	0·05	...	0·05	Cotton is being picked: yield average; sugarcane fair; indigo seed is being collected. Wheat sowings nearly completed. Gram, barley, peas sowing completed. Fodder sufficient for cattle. Locusts reported from 51 villages, but little or no damage done. Health of the people good. Sufficient stock of grain with dealers. Loans for seeds amounting to Rs. 10,000 paid up to date. Six thousand nine hundred and seven maunds grain exported during the month from this tahsíl.
	Sinánwán ...	0·05	...	0·02	0·05	0·05	...	0·05	Rabi crops have been sown, prospects very good. The area brought under rabi cultivation is more than in the last year. Gram, turnips and peas, on which the poor live, are doing well. Wheat is being exported in small quantities and is being sold at 8 annas a maund cheaper than in last week. Fodder sufficient for the cattle except in the Thal. Locusts visited this tahsíl, did no harm, and were collected in sacks and eaten by the people. Water from Magasan doing much good.

P. D. SHROFF, *Supdt.*,

Office of Director of Land Records and Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 15th December 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 28TH NOVEMBER 1896.

Births and Deaths in Municipal Towns.—In the 45 large Municipal towns 1,491 births were registered (787 males and 704 females), giving a birth-rate of 55 per *mille* of population; 876 deaths were registered (438 males and 438 females), giving a death-rate of 32 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,
Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,

LAHORE, THURSDAY, DECEMBER 24, 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 22nd DECEMBER 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	...	1. Very scarce. Stock exhausted. 2. Bad.	High. Wheat 7½ seers. Bájra 7 seers. Jowár 10 seers.	...	Crops not sown on dry lands. Sowings on wet lands progressing. Grain stock insufficient. Supply imported from Karáchi.
2	Delhi ...	...	1. Scarce. 2. Fair.	Abnormally high. Wheat 8 seers. Bájra 9 seers.	...	Prospects on lands sown fair. Stock sufficient. Average number of persons employed on test work is 96. Bájra 8½ seers.
3	Umballa ...	...	1. Sufficient except in parts. 2. Good except in parts.	High. Wheat 7 to 8½ seers. Gram 8 to 10⅜ seers. Maize 10 to 10½ seers.	...	Wheat sown in dry tracts is suffering from cold dry winds and want of rain. Irrigated sowings by kacha wells have been encouraged by loans. 1,099 men on relief works. Maize 10 seers.
4	Jullundur ...	...	1. Scarce. 2. Hard-worked.	Abnormally high. Wheat 8¾ seers. Maize 11½ seers. Gram 10 seers.	Sugarcane being pressed.	Standing crops average. Irrigation in progress. Stock of grain reduced; scanty in Nakodar.
5	Ferozepore ...	...	2. Weak for want of fodder.	Wheat 8½ seers. Gram 9½ seers. Jowár 10½ seers.	...	Crops require rain urgently. Rape being damaged by grubs in Tahsíl Ferozepore. Stock of food-grain sufficient. Average number of persons on relief works 2,338 and on spinning 57. Maize 8 seers.
6	Amritsar ...	...	1. Scarce. 2. Good.	High. Wheat 8¾ seers. Maize 11 seers.	...	Irrigated crops average, unirrigated poor. Sowings on irrigated lands nearly finished. Most of the unirrigated lands are lying unsown. Stock of food-grain insufficient. Rain badly wanted.
7	Siálkot ...	...	1. Scarce. 2. Poor.	Wheat 8 to 9 seers. Maize 10 to 10½ seers.	Sugarcane being pressed.	Rain badly wanted. Test works also started in Pasrúr Tahsíl.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Khariff (Autumn).	Prospects of Rabi (Spring).
8	Lahore ...	...	1. Scarce. 2. Getting lean for want of fodder.	High. Wheat 8 to 9½ seers. Maize 11 to 11½ seers.	...	Sowings in progress on the canal and well lands. Poppy sowings going on in Tahsíl Lahore. Irrigated crops average.
9	Mooltan ...	...	1. Scarce in Mailsi and Kabírwála Tahsíls.	Very high.	Crops, except cotton and sesamum harvested: outturn poor.	Sowings finished. Average number of persons on relief works 378. Wheat, 2nd quality, 9 seers.
10	Ráwalpindi ...	...	1. Insufficient except Murree 2. Poor except in parts.	Very high. Wheat 8⅛ seers. Bájra 9¼ seers. Maize 10⅝ seers	...	Prospects poor in Pindigheb, Fatahjang and Attock, below average in Ráwalpindi, Gujar Khan and Kahúta. Stock of grain insufficient Test works have been opened in Attock, Fatahjang, Gujar Khan, Pindigheb and Ráwalpindi by the Municipal Committee, but none have attended the works yet.
11	Shahpur ...	...	1. Scarce.	Wheat 8½ to 9 seers. Bájra 9½ to 9¾ seers.	...	Rain badly needed.
12	D. I. Khan ...	...	1. Scarce. 2. Getting lean.	Very high. Wheat 8¾ seers. Bájra $10\frac{5}{16}$ seers	Harvesting of sesamum crop in progress. Cotton pickings going on: outturn below average.	Condition of standing crops average. Rain badly wanted. Wheat sowings nearly completed. Locusts visited Leiah and Bhakkar Tahsíls and slightly damaged the crops, but laid no eggs.
13	Peshawar ...	...	1. Sufficient. 2. Good.	High. Wheat 8⅝ seers. Maize 11¾ seers.	...	Standing crops average. Stock of food-grain average.
14	Rohtak ...	...	1. Sufficient.	Wheat 7¾ seers Jowár 9¼ seers.	...	Wheat and barley sown on well and canal lands. Crops on irrigated lands flourishing. Stock of food-grain sufficient. Average number of persons employed on test works in Tahsíl Jhajjar is 204. Jowár 9½ seers per rupee.
15	Gurgaon ...	...	1. Scarce in parts. 2. Fair.	Slightly falling. Wheat 8¼ seers. Bájra 9¼ seers.	...	Crops still being sown on some lands of Nuh Tahsíl. Crops on irrigated lands coming up well.
16	Karnál ...	...	1. Scarce in parts.	Wheat 7¼ to 8 seers Gram 8¼ seers. Maize 9½ seers. Jowár 9 seers.	...	Wheat and barley being sown on irrigated lands. Two thousand two hundred and eigh men on famine works. Wage paid in maize.
17	Gujránwála ...	Report	not received.			
18	Gujrát ...	Average number of	persons on relief works	is 15,353 including	non-working children.	

GENERAL REMARKS.

No rain. Prices high in all districts, but slightly falling in Gurgaon. Wheat is selling from 7 to 9 seers, bulrush millet 7 to $10\frac{5}{16}$ great millet 9 to 10⅝, gram 8 to 10⅝, and maize 9½ to 11½ seers per rupee. Harvesting of autumn crops nearly over. Sugarcane pressing and cotton pickings still going on. Sowings of spring crops on wet lands in progress. Most of the dry lands are lying unsown owing to the failure of winter rains. Sesamum crop is still standing in Mooltan and is being harvested in Dera Ismail Khan. Condition and prospects of sown crops are generally reported average to poor. Prospects of spring crops are said to be fair in Delhi. Wheat on dry land is suffering from cold dry winds and want of rain in Umballa. Rain is urgently wanted throughout the Province. Stock of food-grain is insufficient in Hissar, Amritsar and Ráwalpindi. Supply imported from Karáchi in Hissar. Rape crop is being damaged by grubs in parts of Ferozepore. Locusts appeared in two tahsíls of Dera Ismail Khan and slightly damaged the standing crops, but laid no eggs. Cattle are generally in poor condition. Their condition is fair in Delhi and Gurgaon and good in Amritsar. Fodder scarce in all districts except Rohtak. Number of persons employed on famine works is 1,099 in Umballa, 2,395 in Ferozepore, 378 in Mooltan, 2,208 in Karnál, 15,353 in Gujrát, and on test works 96 in Delhi and 204 in Rohtak. Test works have also been opened in Siálkot and five tahsíls of Ráwalpindi, but none attended the works yet in the latter district.

Prices of staple grain on which famine wage is reckoned.—Delhi, bulrush millet 8½ seers; Umballa, maize 10 seers; Ferozepore, maize 8 seers; Mooltan, wheat, 2nd quality, 9 seers; Rohtak, great millet 9½ seers; Karnál, maize 9½ seers per rupee.

P. D. SHROFF, *Supdt.*,

Office of Director of Land R... Punjab.

Delhi ...	Karnál	Karnál ...	5,014 0 7	...	...	...	...	...	15·86	24·93	Wheat ...	0 7 4	Wheat	0 7 12	The total amount available for famine relief works from District Funds was Rs. 21,810. Of this amount Rs. 7,445-1-4, including those expended on test works, has been expended up to date, leaving a balance of Rs. 14,364-14-8. The pinch of distress is not felt very keenly in any other part of the district besides the Nardak tracts of the Karnál and Kaithal Tahsíls, as appears from the information available. The daily increase of labourers on the Karnál-Asandh road clearly supports this view. In other parts of the district the effects of famine are not so severely felt. The health of the district has been generally good.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1891.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 22nd December 1896.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SURGEON-LIEUT.-COLONEL,
Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB, ON THE GENERAL HEALTH OF THE PRINCIPAL TOWNS DURING THE WEEK ENDING SATURDAY, THE 5TH DECEMBER 1896.

Births and Deaths in Municipal Towns.—In the 45 large Municipal towns 1,469 births were registered (732 males and 737 females), giving a birth-rate of 54 per *mille* of population; 874 deaths were registered (449 males and 425 females), giving a death-rate of 32 per *mille* of population.

W. A. CRAWFORD ROE, F.R.C.S., BRIGADE-SUR.-LT.-COL.,
Sanitary Commissioner, Punjab.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 22nd December 1896.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 29th DECEMBER 1896.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
1	Hissar ...	0·17 at Sadr. 0·31 in Hánsi. 0·39 in Bhiwáni. 0·21 in Fatahabad. 0·45 in Sirsa.	1. Very scarce. Stock exhausted. 2. Bad.	High. Wheat 7¾ seers. Bájra 8¼ seers. Jowár 10¼ seers.	...	Not sown on dry lands. Sowings of wet lands progressing. Grain stock insufficient. Supply imported from Karáchi. Number of labourers employed on relief works 2,748.
2	Delhi ...	0·34 at Sadr.	1. Scarce. 2. Fair.	Wheat 8 seers. Bájra 9 seers.	...	Prospects on irrigated area fair. More rain wanted. Stock sufficient. 142 persons on test works. Bájra 8½ seers.
3	Umballa ...	Rainfall at Sadr.	1. Sufficient except in parts. 2. Good except in parts.	Wheat 7½ to 8¼ seers. Gram 8½ to 10 seers. Maize 9 to 10¼ seers.	...	Crops in parts are suffering for want of rain. Sowings in progress in expectation of rain. Condition of crops good. Average number of persons on relief works 1,306. Famine wage calculated on 10 seers maize.
4	Jullundur ...	0·36 at Sadr.	1. Scanty. 2. Good.	Still abnormally high. Wheat 8½ seers. Gram 9¾ seers. Maize 11 seers.	Sugarcane pressing in progress.	Prospects more favourable. Standing crops average. Irrigation commenced. Stock of grain reduced.
5	Ferozepore ...	...	1. Scarce. 2. Poor.	Wheat 8½ seers. Gram 10 seers. Maize 11 seers. Jowár 11 seers.	...	Rain urgently wanted. Stock of food-grain sufficient. Average number of persons on relief works 3,120 and on spinning 88. Maize 10 seers.
6	Amritsar ...	...	1. Scarce. 2. Good.	Continue high. Wheat 8¾ seers. Maize 11 seers.	Cotton and sugarcane crop slightly injured by frost.	Irrigated crops average, unirrigated poor. Sowings on irrigated lands nearly finished. Most of unirrigated lands lying unsown. Stock of food-grain insufficient.
7	Siálkot ...	0·18	1. Scarce. 2. Poor.	Wheat 8 to 9 seers. Maize 10 to 10½ seers.	Pressing of sugarcane continues.	Crops on irrigated lands growing.

No.	Reporting Station.	Rain.	1. Supply of Fodder. 2. Condition of Cattle.	Prices.	Prospects of Kharif (Autumn).	Prospects of Rabi (Spring).
8	Lahore ...	0·02 at Sadr.	1. Scarce. 2. Good.	High. Wheat 8 to 9½ seers. Maize 11 to 11½ seers.	Sugarcane is being pressed.	Crops are being irrigated. Irrigated crops average and unirrigated poor for want of rain. Grain stock sufficient with dealers, but not with zamíndárs.
9	Mooltan ...	...	1. Scarce in parts.	High.	Cotton and sesamum being harvested.	Crops suffering for want of rain. One hundred and thirty-three persons on relief works. Wheat, 2nd quality, 9 seers.
10	Ráwalpindi ...	...	1. Insufficient except Murree. 2. Poor.	Very high. Wheat 8 seers. Bájra 9¼ seers. Maize 10½ seers	...	Prospects poor in three tahsíls, below average in three and average in one. Stock of grain insufficient. Rain much wanted. Test works opened in five tahsíls by Municipal Committee, but 50 persons only attended the works at Gujar Khan.
11	Shahpur ...	...	1. Scarce.	Wheat 8½ to 9 seers. Bájra 9½ to 9¾ seers.	...	Rain badly wanted.
12	D. I. Khan ...	...	1. Scarce. 2. Getting lean.	Very high. Wheat 8¾ seers. Bájra 10 5/16 seers.	Harvesting of sesamum and pickings of cotton going on. Outturn below average.	Condition of standing crops average. Rain badly wanted. Wheat sowings nearly completed.
13	Peshâwar ...	...	1. Sufficient. 2. Good.	High. Wheat 8⅝ seers. Maize 11¾ seers.	Sugarcane being pressed.	Rain is much needed. Stock of food-grains average.
14	Rohtak ...	0·32 in Sámpla. 0·17 in Jhajjar.	1. Sufficient. 2. Good.	Wheat 7¾ seers. Jowár 9¼ seers.	...	Wheat and barley sown on irrigated land. Crops on well and canal land flourishing. Stock of food-grain sufficient. One hundred and forty-one persons employed on test works in Jhajjar. Jowár 10½ seers.
15	Gurgaon ...	0·27 at Sadr. 0·16 in Rewári. 0·51 in Palwal. 0·50 in Nuh. 0·55 in Ferozpore.	1. Scarce.	Slightly falling. Wheat 8¼ seers. Bájra 9½ seers.	...	Sowings still in progress in parts. Sown crops in good condition.
16	Karnál ...	0·50 at Sadr. 0·49 in Kaithal. 0·49 in Pánipat.	1. Scarce in parts.	Wheat 7½ to 8 seers. Gram 9 to 9½ seers. Maize 9½ seers.	...	Prospects expected to improve. Two thousand seven hundred and ten men on famine works. Wage paid in maize and gram.
17	Gujránwála ...	0·14 at Sadr.	1. Scarce except in parts. 2. Bad.	Wheat 8¾ to 9 seers.	Sugarcane being pressed in new colony. Outturn fair.	Sowings nearly finished. Prospects of canal crops favourable and of wells fair. Very little crops on dry lands. Rain wanted. Stocks sufficient with dealers, but low with cultivators. Four hundred and fifty-five persons on test works.
18	Gujrát ...	The average working chil	number of persons on dren 6,567.	relief works for the	week ending 26th Decem	ber was workers 15,108 and non-
19	Ludhiána ...	Rain at Sadr	0·65 inches. One hund	red and thirty-four	persons on test works	last Saturday.

GENERAL REMARKS.

South-eastern districts are benefited by rain averaging ¼ to ⅔ inch. Slight rain has also fallen in Siálkot, Lahore and Gujránwála Districts. Prices slightly falling in Gurgaon, but still high elsewhere. Wheat is selling from 7½ to 9½ seers, bulrush millet 8¼ to 10 5/16, great millet 9¼ to 11, gram 8½ to 10, and maize 9 to 11½ seers per rupee. Harvesting of autumn crops nearly completed. Sesamum being harvested in Mooltan and Dera Ismail Khan. Sugarcane pressing and cotton pickings going on. Sowings of spring crops on irrigated lands still in progress in certain districts. Sown crops are being irrigated. Condition and prospects of irrigated crops are generally reported good to average, and of unirrigated poor. Prospects are expected to improve in Karnál. Crops are suffering generally from want of rain. Rain is badly wanted in all districts. Stock of food grain is insufficient in Hissar, Amritsar and Ráwalpindi. Supply imported from Karáchi into Hissar. Cotton and sugarcane crops are slightly injured by frost in Amritsar. Cattle are generally in poor condition. Their condition is good to fair in Delhi, Amritsar, Lahore and Rohtak. Fodder scarce in all districts except Rohtak. Number of persons employed on relief works is 2,748 in Hissar, 1,306 in Umballa, 3,208 in Ferozepore, 133 in Mooltan, and 2,710 in Karnál, and that on test works is 142 in Delhi, 141 in Rohtak, 455 in Gujránwála and 134 in Ludhiána. Test works have also been commenced in five tahsíls of Ráwalpindi, but only 50 men attended the works in Gujar Khan Tahsíl. The average number of persons employed on relief works, including non-working children, was 21,675 in Gujrát.

Prices of staple grain on which famine wage is reckoned.—Delhi, bulrush millet 8½ seers; Umballa, maize 10 seers; Mooltan, wheat, 2nd quality, 9 seers; Rohtak, great millet 10½ seers; and Karnál, maize and gram 9½ seers per rupee.

P. D. SHROFF, *Supdt.*,

Office of Director of Land Records and Agriculture, Punjab.

Maize ...	0 7 8 0 9 0 0 9 8	Wheat Gram Maize	0 7 4 0 8 4 0 9 8	The total amount for famine relief works from District Funds was Rs 21,810. Of this amount Rs 9,645-4-2, including those expended on test works, has been expended up to date, leaving a balance of Rs. 12,164-11-10. As already stated in my previous report, the effects of the famine in this district are at present chiefly felt in the Nardak parts of the Karnál and Kaithal Tahsíls, in which two large works have been started, and the number of labourers on the Karnál-Asandh road has now reached the figure of 2,500 daily. The health of the people continues to be good.
